The publisher may request the return of copies of undelivered Periodicals by printing the endorsement "Address Service Requested" on the envelopes or wrappers, or on one of the outside covers of unwrapped copies, immediately preceded by the sender's name, address, and ZIP Code. This endorsement obligates the publisher to pay return postage. 3.3.4 Priority Mail Not Requiring a Scan or Signature at Delivery

3.3.5 First-Class Mail, First-Class Package Service, and Periodicals Parcels Not Requiring a Scan or Signature at Delivery

First-Class Mail, First-Class Package Service, and Periodicals parcels not requiring a scan or signature at delivery and that do not fit into the weekly Priority Mail shipment are separately rerouted at no additional charge.

4.0 Address Correction Services

4.1 Address Correction Service

4.1.1 Address Correction Service Fee

See [Notice 123—Price List](#).

4.1.2 Purpose

If mail cannot be delivered as addressed, address correction service allows the sender on request, using the appropriate ancillary service endorsement under [1.0](#), to obtain the addressee's new (forwarding) address (if the addressee filed a change-of-address order with the USPS) or the reason for nondelivery. Address corrections and notices are not provided for customers who file a temporary change of address or for individuals at a business address (see [2.1](#)). Address correction service is available alone or in combination with forwarding and return service.

4.1.3 Invalid Endorsement

Any obsolete ancillary service endorsement or similar sender endorsement not shown in [1.0](#) is considered invalid. Material bearing invalid or conflicting ancillary service endorsements will not be accepted for mailing. If discovered in the mailstream, pieces bearing an invalid ancillary service endorsement or conflicting endorsements are treated as unendorsed mail. *Exception:* Undeliverable Standard Post, Media Mail, Library Mail, and Parcel Select pieces that bear invalid or conflicting ancillary service endorsements are treated as if endorsed "Forwarding Service Requested."

4.1.4 Periodicals

Address correction service is provided automatically for all Periodicals publications (including publications pending Periodicals authorization) and begins 60 days after the effective date of the addressee's change of address. Address corrections are provided as separate notices or, at the mailer's request, on the returned pieces.

4.1.5 Other Classes

[1-27-13] When possible, "on-piece" address correction is provided for Priority Mail Express, Priority Mail, First-Class Mail, First-Class Package Service, Standard Mail, Standard Post, Package Services, and Parcel Select pieces. If the piece cannot be forwarded, it is returned with new address information or reason for nondelivery attached. When separate corrections are necessary, Form 3547 is mailed to the sender with the address correction fee charged and the mail is forwarded. This service is not available for mailpieces to be delivered by military personnel at any military installation, including APOs and FPOs.

4.1.6 Fee and Return Postage

Unless excepted, the applicable fee for address correction service is charged for each separate notification of address correction or the reason for nondelivery. When "on-piece" address correction is provided, no address correction fee is charged but return postage can be charged, depending on mail class.

4.2 Address Change Service (ACS)

4.2.1 Description

Address Change Service (ACS) is an automated or electronic process providing mailers with notices of address correction or reason for nondelivery. ACS is designed to reduce the volume of manual notifications provided for valid participating ACS mailpieces, but it does not completely eliminate manual notifications. Mailers must keep their address records in electronic format and mark or encode their mailpieces with the correct ACS symbology under 4.2 and the correct ancillary service endorsement under 1.5 to obtain address corrections. See 4.2.6 for an option to use OneCode ACS with an Intelligent Mail barcode for letters and flats in First-Class Mail, Periodicals, and Standard Mail. To obtain nondelivery information under 1.4.1, mailers must use an ACS keyline or an Intelligent Mail barcode on mailpieces. Mailers also can use traditional ACS, along with Shipper Paid Forwarding under 4.2.9, to pay forwarding postage on most Standard Mail and Package Services pieces. Mailers can find additional information about traditional ACS and OneCode ACS in Publication 8a, Address Change Service - Traditional, and Publication 8b, Address Change Service - OneCode ACS.

4.2.2 Service Options

ACS offers three levels of service, as follows:

- a. An automated option for letters and flat-size mailpieces bearing an Intelligent Mail barcode, mailed as First-Class Mail, Standard Mail, and Periodicals, with electronic notices processed using Intelligent Mail technology (see 4.2.6). Only automated First-Class Mail and Standard Mail letters qualify for automated address correction prices when using the Intelligent Mail barcode (see 4.1.1).
- b. An electronic option for notices processed electronically, except automated notices under 4.2.2a.
- c. A default manual process for notices generated manually.

4.2.3 Participant Code and Mailer ID

Participant codes or Mailer IDs are used on ACS mailpieces as follows:

- a. Traditional Address Change Service (ACS) human-readable participant codes are provided to authorized mailers by the National Customer Support Center (NCSC) (see 608.8.0 for address). A participant code consists of seven alpha characters, aligned left, and must be preceded by a single pound sign (#) delimiter on the top or OEL line of the address block. Additional information for using the human-readable option is available in Publication 8a, Address Change Service—Traditional.
- b. When using Intelligent Mail barcodes, mailers can participate in the OneCode ACS option of ACS (see 4.2.6 for restrictions). The NCSC provides the numeric OneCode ACS Mailer ID, the equivalent of a participant code, to authorized mailers using an Intelligent Mail barcode (see 708.4.3). As part of the application process, a Mailer ID is assigned to identify the participant, or mailers can choose to register one or more of their existing Mailer IDs for use with OneCode ACS. Mailers must incorporate the Mailer ID in the Mailer Identifier field, the unique mailpiece identifier in the Serial Number field, and the appropriate

507.4.2.4

service in the Service Type Identifier field of the Intelligent Mail barcode according to Specification USPS B-3200. Customers can access the Intelligent Mail barcode specification at <http://ribbs.usps.gov/>.

4.2.4 Basic Standards for All ACS Mailpieces

Mailers preparing ACS mailpieces must meet these specifications:

- a. When using a window envelope, maintain a clearance between the top line of the address block and the top edge of the address window of at least 1/25 inch. This clearance must be maintained during the insert's range of movement in the envelope.
- b. When using an address label, maintain a clearance between the top line of the address block and the top edge of the address label of at least 1/25 inch.

4.2.5 Additional Standards—When Using Human-Readable ACS Participant Codes

Mailers must use human-readable ACS participant codes according to the following specifications:

- a. Print and place the ancillary service endorsement according to the requirements in [102.4.0](#) and [1.5](#).
- b. Print the ancillary service endorsement and the participant code in a non-narrow variant of Helvetica or Arial sans serif font in the range of 10 to 12 points.
- c. Use equal line spacing in the address block, including the participant code line and mailer keyline.
- d. When placing the participant code in an optional endorsement line (OEL), the participant code must occupy the first eight positions in the left part of the OEL and be formatted as indicated in [708.7.2.3](#).
- e. When placing the participant code in the address block, place it on the top line. The address block information may be on an insert in a window, on an address label, or preprinted on the mailpiece.
- f. Mailers preprinting the participant code on an envelope (rather than printing it in the address block or on a label) must meet the conditions in [4.2.4](#) in addition to the following:
 1. The participant code must be left-justified with the address block, with a tolerance of 1/4 inch left or right. Place the participant code not more than two line spaces above the top line of the address block (using the same line spacing size as used in the address block).
 2. When using a mailer keyline, place it in the top line of the address block (but below the preprinted participant code).
 3. OELs are prohibited when a mailer keyline is used.
- g. If using delivery point barcodes in the address block, mailers must place them in one of the following positions:
 1. When using a mailer keyline, place the barcode between the top line of the address information and the mailer keyline.

2. When not using a mailer keyline, place the barcode between the top line of the address information and the participant code.
3. Below the City-State-ZIP Code line.
4. Above the participant code and OEL, except when placing the participant code under [4.2.5f](#).

4.2.6 Additional Standards—When Using Intelligent Mail Barcodes

Mailers can access OneCode ACS using an Intelligent Mail barcode, which is capable of encoding a valid Service Type Identifier indicating the ancillary service requested; a numeric Mailer ID; and the Serial Number, a unique numeric mailpiece identifier (keyline equivalent). This option is available for letters and flat-size mailpieces mailed as First-Class Mail, Standard Mail, and Periodicals. Address Service and Change Service ancillary services are available for letters and flat-sized mailpieces mailed as First-Class Mail or Standard Mail by choosing the appropriate Service Type Identifier and registering the same choice in the mailer profile maintained by the NCSC, ACS Department. In order to receive requested information, mailers wishing to change their ancillary service choice or endorsement must notify the NCSC, ACS Department in Memphis, TN, in writing, seven days prior to the mailing. Periodicals mailers not requesting Address Service will receive their current address correction notification option. The Service Type Identifier will indicate the ancillary service requested, and this choice must be indicated in the mailer's ACS profile maintained at the NCSC, ACS Department. In order to receive requested information, mailers wishing to change their ancillary service endorsement must notify the NCSC, ACS Department in Memphis, TN, in writing, seven days prior to the mailing. Standard Mail pieces with OneCode ACS using an Intelligent Mail barcode require the use of a printed on-piece endorsement. ACS mailers are encouraged to use the "Electronic Service Requested" text endorsement. Other printed endorsements are not required to request ancillary services in conjunction with an Intelligent Mail barcode used on First-Class Mail or Periodicals mailpieces, and their use may produce unintended results. Mailpieces must meet the following specifications:

- a. Letter-size mailpieces must be automation-compatible.
- b. Flat-size mailpieces may be mailed at nonautomation or automation prices. The Intelligent Mail barcode may appear anywhere a POSTNET barcode can be placed.
- c. If using a window envelope, maintain a clearance between the leftmost and rightmost bars and any printing or window edge of at least 0.125 (1/8) inch, and maintain a clearance between the Intelligent Mail barcode and the top and bottom window edges of at least 0.040 (1/25) inch. These clearances must be maintained during the insert's range of movement in the envelope.
- d. The Intelligent Mail barcode must contain an 11-digit delivery point code that correctly corresponds to the delivery address.
- e. The Intelligent Mail barcode must meet the technical specifications as described in [708.4.3](#) and USPS Specification USPS-B-3200.

4.2.7 Periodicals

Address correction by ACS is provided based on the mailer profile option chosen by participating Periodicals publications (including publications pending Periodicals authorization).

4.2.8 Address Correction Service Fee

Unless excepted, the applicable fee for address correction is charged for each separate notification of address correction or the reason for nondelivery provided.

4.2.9 Shipper Paid Forwarding

Shipper Paid Forwarding is an ACS fulfillment vehicle which allows mailers of Standard Mail, Package Services and Parcel Select (including Parcel Select Lightweight) parcels to pay forwarding charges via approved ACS participant code(s) when used with “Address Service Requested” or “Change Service Requested” endorsements. For information about Shipper Paid Forwarding, contact the National Customer Support Center (see [608.8.0](#) for address). Mailers choosing to pay forwarding charges through a postage due advance deposit account must pay an annual account maintenance fee.

- b. Ordinary, insured, and COD parcels marked on the envelope or wrapper with the mailer’s instructions to abandon or sell perishable items are treated following the instructions, such as:
 1. “Do not forward or return. If not accepted within ____ days, treat as abandoned. Notify mailer of disposition.”

2. “Do not forward or return. If undelivered after _____ days, sell contents to highest bidder and remit proceeds, less commission, to mailer.” (A commission of 10%, but not less than \$0.25, is kept by the USPS from the amount for which perishable items are sold.)
- c. The mailer of a COD article also may use USPS Package Intercept service to redirect the COD article to a new addressee, to a designated Post Office using Hold For Pickup service (508.7.0), or to the sender by paying the applicable fee and as provided in 507.5.0. The USPS returns the article to the mailer at the end of the COD holding period if no other request is received. When COD articles are addressed to a person who moved and left no forwarding address, the article is returned to the mailer. The postage charge (but not registration or COD fees) for returning the mail, if any, is collected from the mailer.

- g. The USPS holds undeliverable collect on delivery (COD) articles for no fewer than 3 days and no more than 10 days.

4.3.3 Priority Mail Express Pouch

The USPS opens an undeliverable-as-addressed Priority Mail Express pouch to find a delivery address on any envelope or article inside. The USPS does not open the wrappers or envelopes or break the seals of any Priority Mail Express article in the pouch. If no address information is found, the pouch is treated as dead mail. Priority Mail Express is held no more than 5 calendar days unless the sender sets a shorter period.

4.3.4 Holding Mail

At the sender's request, the delivery Post Office holds mail, other than Registered Mail, insured, Certified Mail, COD, and return receipt for merchandise, for no fewer than 3 days nor more than 30 days. A specific retention time of not less than 3 nor more than 30 days, if requested, must be included by the sender in the return address on the mailpiece (e.g., “Return in 30 days to” followed by sender's return address).

The mailer must keep a postage-due, merchandise return service, or business reply mail account at the postal facility where the Post Office box or business street address is located for any shortpaid, merchandise return service, or business reply mail. The service agreement (PS Form 5637) must state that such an account exists.
- e. USPS Tracking and accountable mailpieces (Certified Mail, COD, insured, Signature Confirmation, or Priority Mail Express) are reshipped and charged separately from non-accountable mailpieces. Registered Mail is not allowed for Priority Mail Express reshipment service.
- f. The service agreement must list the Business Development Team at the originating office as the "Firm Representative" and show the pickup time is when the USPS employee gathers the mail and prepares it for dispatch as Priority Mail Express.
- g. Commencement and termination of service agreements are subject to the standards for Priority Mail Express Custom Designed Service.

7.6.2 Delivery

Delivery of Priority Mail Express is subject to [508.1.1.7](#).

8.0 Mailing List Services

8.1 Mailing List Service Fees

Available for correction of name and address on occupant lists; for sorting mailing lists on cards by 5-digit ZIP Code; and for address changes provided to election boards and voter registration commission. See [Notice 123—Price List](#).

8.2 General Information

8.2.1 Definition

A *mailing list* is a listing of names and addresses, or addresses only, produced on individual cards or in sheet form.

8.2.2 Carrier Route Information System

The official city delivery scheme, called the Carrier Route Information System, is available to mailers.

8.2.3 Purpose

To improve address quality, the USPS offers (for a designated fee) mailing list services to correct name and address lists; correct occupant lists; and sort mailing lists on cards by 5-digit ZIP Code (available only for multi-ZIP Code Post Offices). These services are available for mailing lists submitted by members of Congress;

federal agencies; departments of state governments; municipalities; religious, fraternal, and recognized charitable organizations; and concerns or persons who solicit business by mail. For the designated fee, the USPS also provides address changes to election boards and voter registration commissions.

8.2.4 Lists

In providing services, the USPS does not compile any mailing list, including an occupant list. All corrections are marked on the list submitted by the customer.

8.2.5 Prohibitions

Persons other than USPS employees may not copy, or record by any means, names or addresses from carrier cases. Labels, wrappers, envelopes, stamped cards, or postcards indicating one-time use are not accepted as mailing lists.

8.3 Fee Assessment

8.3.1 Corrections

The fee for correcting name and address lists or occupant lists is assessed for each name or street address on the list. Individual apartments are considered separate addresses. The minimum fee in 8.1 applies to lists with fewer than 30 names or addresses. For assessing the fee, the USPS considers a list to be all the addresses sent at one time to the appropriate postal facility.

8.3.2 Rural Route Consolidation

No fee is charged for correcting name and address lists or occupant lists where rural routes are consolidated or changed to another Post Office, or where rural route and box number addresses are changed to city-style addresses. The lists must contain only names and/or addresses of persons residing on the routes involved, and the lists must be submitted for correction during the time when the local Post Office is required to keep the address conversion information.

8.3.3 Cards

The fee for sorting mailing lists on cards by 5-digit ZIP Code is assessed per 1,000 addresses or fraction thereof.

8.3.4 Election Board and Voter Commissions

The fee for address changes provided to election boards and voter registration commissions is assessed for each Form 3575 submitted. The fee is collected on a per card basis regardless of the number of changes made on the card and whether the change concerns a person on the board's or commission's list of registrants. Instead of the actual forms, the USPS may supply facsimiles of the forms or copies of the information they contain at no additional fee.

8.3.5 Payment

The Post Office providing the correction service annotates the total fee due on the outside of the package containing the corrected cards or lists. Payment must be made to the postal installation to which the list was submitted. Payment must be in cash or by check or money order made payable to the postmaster. Payment for correcting a list submitted by a federal agency or a person authorized to send matter as official mail may be made under the official mail reimbursement program. Payment may be made when the list is submitted or when the corrected list is delivered.

8.3.6 Time Limit

The USPS corrects and returns a mailing list to the owner within 15 workdays after receipt. This time limit does not apply to mailing lists received for correction between November 16 and January 1; they are returned as soon as possible.

8.4 Name and Address List Correction**8.4.1 Preparation**

If addresses are submitted in list form, the list must be typewritten, printed, or computer-prepared and in sheet form, with enough space between or next to each address to permit entry of corrections. The list owner's name must appear in the upper left corner of each page or sheet. Lists must be separated by Post Office. A separate list must be presented for each carrier route served by a Post Office with 190 or more revenue units. Each Post Office can advise customers in this regard.

8.4.2 Card Size

If the addresses are submitted on cards, the cards must be about the size (3-1/2 by 5-1/2 inches) and quality of a stamped card; data processing cards are acceptable. Information on the cards must be typewritten, printed, or computer-prepared, having only one name and address per card, and with enough space to permit entry of corrections. The list owner's name must appear in the upper left corner of each card. Lists (groups of cards) must be separated by individual Post Office.

8.4.3 Submission

The customer must submit the address cards or mailing lists to the district manager of Address Management Systems for addresses within the district. (The address of each district may be found [here](#).) Unless directed otherwise by the district, the customer must address the submission as follows:

MANAGER
ADDRESS MANAGEMENT SYSTEMS
[STREET ADDRESS]
[CITY STATE ZIP CODE]

8.4.4 Postage

Cards or lists may be mailed by their owners to the designated district, but the list owner must prepay the postage for such items at the applicable price. The submitted items are returned free of postage.

8.4.5 Elements Corrected

USPS employees:

- a. Cross off names to which mail cannot be delivered or forwarded.
- b. Correct initials and/or last names when the name apparently is known to the owner of the list.
- c. Correct the house, rural, or Post Office box number; correct the last line (Post Office name, state abbreviation, and 5-digit ZIP Code); and, in multiple-unit buildings, add apartment, suite, or room numbers if known by the USPS employee.
- d. Correct spelling of street names, suffixes, and placement of directionals to conform to the Carrier Route File scheme.

- e. Provide new addresses, including ZIP Codes, for customers who have moved and filed permanent forwarding orders that are still active, and for addresses, if known, that are undeliverable because of USPS adjustments.
- f. Mark an "X" in the upper right corner of the card or next to each entry on the sheet where no change is necessary.

8.4.6 No Additions

In making list corrections, USPS employees do not add a new name or address to a card or list.

8.5 Occupant Lists

8.5.1 Submission

Customers must submit occupant lists of street addresses in the same way as for name and address corrections. Customers must not submit lists that include more than 110% of the possible deliveries for a specific 5-digit ZIP Code delivery area.

8.5.2 Elements Corrected

USPS employees:

- a. Provide new addresses, if known, for addresses that are undeliverable because of USPS adjustments.
- b. Correct last lines (Post Office names, state abbreviations, and 5-digit ZIP Codes), spelling of street names, suffixes, and placement of directionals to conform to the Carrier Route File scheme.
- c. Cross off numbers representing incorrect or nonexistent street addresses, but do not change or add numbers.
- d. Indicate business addresses with a "B" in the upper right corner of the card, or opposite the street number as printed on the sheet, as applicable.
- e. Indicate rural route addresses with an "R" in the upper right corner of the card, or opposite the street number as printed on the sheet, as applicable.
- f. Enter the number of separate family units opposite addresses of multiple-unit dwellings.
- g. Mark an "X" in the upper right corner of the card or next to each entry on the sheet where no change is necessary.
- h. Group the corrected cards or sheets by carrier route for return to the list owner.

8.6 Sortation of Lists on Cards by 5-Digit ZIP Code

8.6.1 Coding

The customer must code mailing lists by 5-digit ZIP Code for single 5-digit ZIP Code Post Offices.

8.6.2 Preparation

To allow the USPS to sort a mailing list to 5-digit ZIP Codes, a mailing list of addresses only for multi-ZIP Code Post Offices must be prepared on cards about the size (3-1/2 by 5-1/2 inches) and quality of a stamped card; data processing cards are acceptable. Only one address may appear on each card. The owner must separate the cards by Post Office of address and submit each group to the district

507.8.6.3

manager of Address Management Systems serving that Post Office. The list owner must wrap mailing lists (cards) for mailing when practicable. The owner's name and address must appear on the outside of the wrap or container.

8.6.3 USPS Sortation

USPS employees sort cards by 5-digit ZIP Code and securely package them with a facing slip marked "All for ZIP Code Area (00000)." ZIP Codes are not written on individual cards.

8.7 Election Boards and Voter Registration Commissions**8.7.1 General**

Election boards or voter registration commissions may use the "Return Service Requested" endorsement and/or the National Change of Address Linkage System (NCOA^{Link}) to maintain current address lists.

8.7.2 Procedure

Election boards or voter registration commissions using permanent registration also may obtain residential change-of-address information from Forms 3575:

- a. An authorized official of the board or commission must sign and submit to the manager, address management systems (district), a written request that lists the Post Offices for which change-of-address information is desired.
- b. If the request is approved, an agreement must be obtained from and signed by an authorized official of the board or commission detailing the terms under which the change-of-address information is to be released.
- c. The board or commission receives the requested information from the postmasters of the listed Post Offices and pays those postmasters the applicable fees.

9.0 Address Sequencing Services**9.1 Address Sequencing Service Fees**

See [Notice 123—Price List](#).

9.2 Service Levels

The USPS provides the following levels of manual or electronic address sequencing service for city carrier routes, rural routes, highway contract routes, and Post Office box sections:

- a. Sequencing of address cards or electronic address files.
- b. Sequencing of address cards or electronic address files, plus inserting only blank cards for missing addresses or missing sequence numbers for the addresses missing from the electronic files.
- c. Sequencing of address cards or electronic address files, plus inserting cards with addresses for missing or new addresses, or inserting addresses into electronic files for missing or new addresses.

- d. For address cards or electronic files, if qualification is met, the USPS will provide seeded addresses to the list owners for inclusion in their address files for file protection.
- e. If a request for sequencing contains a seeded address, the owner of the seeded address will be notified within 30 days of detection. If all known possibilities of fraud cannot be ruled out, the request will be denied and the Postal Inspection Service will be notified.

9.3 Card Preparation and Submission

9.3.1 Color, Size, and Quantity

When submitting cards, all address cards must be made of white or buff-colored card stock and of an identical size (5 to 8-5/16 inches long and 2-1/4 to 4-1/4 inches high). Blank cards for missing and/or new addresses must be of the same size as the submitted address cards but of a different color. A customer must provide enough blank cards to equal at least 10% of the number of address cards submitted.

9.3.2 Limitation

The customer must not submit address cards or an address file in excess of 110% of the possible deliveries for a specific 5-digit ZIP Code delivery area. Customers requesting the service level in [9.2c](#) will be allowed three attempts to qualify a ZIP Code for the service within a 12-month period. Failure to qualify within three attempts within 12 months will result in a suspension of 1 year for any additional attempts to qualify the ZIP Code.

9.3.3 Addressing Format

Addressing format is specific to the media being used.

- a. Card Processing. Cards must be faced in the same direction and bear only one address each. The customer's current address information must be computer-generated, typed, or printed along the top of the card. The address must be within 1 inch from the top edge of the card in about the same location on each card submitted. Each card must include a complete address, but the ZIP Code is optional. Street designators may be abbreviated as shown in Publication 28, *Postal Addressing Standards*. When sequence cards are used to obtain address sequencing information for Post Office boxes, the box section number must be substituted for the carrier route number (if shown).
- b. Electronic Processing. The customer must submit address files on electronic media, as described by USPS. Call the National Customer Support Center at 1-800-331-5747 for a copy of the required format.

9.3.4 Header Cards

When submitting address cards, customers must provide carrier route header cards prepared with standard 80-column computer card stock (or another size as described in [9.3.1](#)). The header cards must be typed, computer-generated, or printed by the customer. A route header card of the same size as the address cards must be placed in front of the cards for each route. All columns must be provided on

507.9.3.5

the header cards, regardless of the service level requested. Column headings may be abbreviated. Examples of the required format for the route header card can be obtained from the National Customer Support Center (see [608.8.0](#) for address).

9.3.5 Delivery Unit Summary

A Delivery Unit Summary must be typed, computer-generated, or printed and provided by the customer for card processing. A printed copy or electronic file will be acceptable for address file submissions. When submitting address cards, an original and two copies must be submitted for each 5-digit ZIP Code. When submitting an address file, an original and two copies of a printed form or one electronic file must be submitted for each 5-digit ZIP Code. This form, used by the USPS to provide summary information to the customer, is necessary for calculating total charges for the service level provided. For address card submissions, the original is returned to the customer with the cards as the customer's bill. For electronic address file submissions, a computer-generated Delivery Unit Summary is returned as the customer's bill. Upon receipt of payment, the ZIP Code will be qualified for Computerized Delivery Sequence (CDS), and product fulfillment will begin. Examples of the required printed or electronic format of the Delivery Unit Summary can be obtained from the National Customer Support Center (see [608.8.0](#) for address).

9.3.6 5-Digit ZIP Codes

When submitting address cards, the cards for each 5-digit ZIP Code must be placed in separate containers, each with an envelope affixed containing a packing list and Delivery Unit Summary sheets for that 5-digit ZIP Code. For each 5-digit ZIP Code, the customer must also show the number of containers submitted on the Delivery Unit Summary and number those containers sequentially (e.g., "1 of 3," "2 of 3," and "3 of 3"). If there is more than one container for the 5-digit ZIP Code, the Delivery Unit Summary must be affixed to the first container.

9.3.7 Submitting Cards or Electronic Files

The designated place for submission of addresses for sequencing depends on the type of media used.

- a. Card Processing. The customer must submit the containers of address cards to the district manager of Address Management Systems for carrier routes within the corresponding district. (Exception: Address cards only for addresses in the city where the customer is located may be submitted to the postmaster of that city.) Unless directed otherwise, the customer must address containers of address cards to:

MANAGER ADDRESS MANAGEMENT SYSTEMS
UNITED STATES POSTAL SERVICE
[STREET ADDRESS]
[CITY/STATE/ZIP+4]

- b. Electronic Processing. The customer must submit address files on electronic media to:

COMPUTERIZED DELIVERY SEQUENCING DEPARTMENT
NATIONAL CUSTOMER SUPPORT CENTER

UNITED STATES POSTAL SERVICE
225 N. HUMPHREYS BLVD, STE 501
MEMPHIS TN 38188-1001

9.3.8 Postage

Containers of cards mailed to the Post Office must have postage paid at the applicable price. Address files can be mailed at the appropriate price or be electronically transmitted, as determined by the USPS, to the National Customer Support Center. They are returned to the customer free of postage.

9.3.9 USPS Sequencing

Unsequenced address cards received at Post Offices or unsequenced address files received at the National Customer Support Center will be arranged in sequence of carrier route delivery without charge. Cards with incorrect or undeliverable addresses are removed from carrier route bundles, bundled separately, and returned to the customer. When address files are submitted, incorrect or undeliverable addresses are removed from the original file and returned as a separate file.

9.3.10 USPS Time Limits and Billing

The Post Office or the National Customer Support Center, whichever performs the service, returns the cards or address file and the bill for applicable charges to the customer within 15 working days after receiving a properly prepared request for address sequencing. This time limit does not apply to cards received between November 16 and January 1; they are returned as soon as possible.

9.3.11 Seasonal Addresses

Under all service levels, correct addresses subject to seasonal occupancy, but which do not indicate seasonal treatment, will be identified with an "S" on cards or a flag on address files. If the address is included in a series, such as those used for apartment buildings, trailer parks, and seasonal delivery areas in general, the appropriate "seasonal" indicator box is checked on the card or flagged on the address file. When correct address cards or address files that are not subject to seasonal occupancy but that include seasonal treatment notations are submitted, the seasonal indicator is marked out on cards or left blank on address files. For cards, a rubber band is placed around the card to identify it before it is put in carrier route sequence order in the returned deck of cards. No charge is assessed for this service.

9.4 Sequencing Cards With Blanks for Missing Addresses or Sequencing Address Files With Missing Sequence Numbers

USPS employees at Post Offices (for cards) or the National Customer Support Center (for address files) arrange unsequenced addresses in sequence of carrier route delivery without charge, remove incorrect or undeliverable addresses, and, if cards, package separately for return to the customer, and insert a blank card or missing sequence number for address files for each existing address that is not included in the customer's cards or address file. (If several addresses in a series are missing, a single blank card is inserted for the series showing the number of missing addresses, or for address files a series of missing sequence numbers will be omitted identifying the number of missing addresses.)

9.5 Sequencing With Address Cards or Address File Sequencing With Addresses Added for Missing and New Addresses

9.5.1 USPS Sequencing

USPS employees at Post Offices (for cards) or the National Customer Support Center (for address files) arrange unsequenced addresses in sequence of carrier route delivery without charge, remove incorrect or undeliverable addresses, and, if cards, package separately for return to the customer or, if an address file, return as a separate file, and add new or missing addresses (including rural address conversions to city delivery) for each existing address that is not included in the customer's cards or address file.

9.5.2 Separate Address Groups

Separate groups of address cards must be submitted for the addresses in each 5-digit ZIP Code delivery area: city carrier (residential addresses only); city carrier (business addresses only); city carrier (combination of residential and business addresses); rural and highway contract route addresses; or Post Office box addresses (whether business, residential, or a combination). If submitting an electronic address file, a single file meeting the same requirements is acceptable. Each group must be accompanied by a statement showing:

- a. Types of addresses (residential, business, or a combination).
- b. Number of addresses on the cards or in the address file.
- c. Name, mailing address, and telephone number of the list owner or agent.

9.5.3 Post Office Boxes

Within a 5-digit ZIP Code, Post Office box addresses must be placed in separate groups from city carrier, rural, and highway contract route addresses and separately identified on the customer's statement.

9.5.4 Address Percentage

For the 5-digit ZIP Code, the mailing list that the cards or address file represents must contain 90% of all possible residential or business city carrier addresses in the respective address group, 90% of all city carrier addresses in a combination residential/business address group, or 90% of all possible deliveries in rural/highway contract route and Post Office box groups.

9.5.5 Calculating Percentage

In calculating the total number of addresses within a 5-digit ZIP Code, each apartment unit in an apartment building or each office in an office building that is a deliverable address is treated as a separate address.

9.5.6 Resubmitting Cards or Address File

Customers must monitor community growth and determine when address cards or address files need to be submitted for resequencing to maintain the 90% eligibility level of address coverage. Such a determination is not supplied by the USPS. See [509.1.0, Address Information System Services](#), for information on obtaining delivery statistics.

9.6 Service Charges

9.6.1 Basic Service

For sequencing of address cards or address files, the fee in [9.1, Address Sequencing Service Fees](#), is charged for each address card or address that is removed because of an incorrect or undeliverable address. All cards removed are packaged separately and returned to the customer.

9.6.2 Blanks for Missing Addresses

For sequencing of address cards or address files with total possible deliveries shown, the fee in [9.1](#) is charged for each address card or address that is removed because it is incorrect or undeliverable. No charge is assessed for the insertion of blank cards or missing sequence numbers (for address files) showing the range of missing addresses in a submitted list.

9.6.3 Missing or New Addresses

For sequencing of address cards or address files with missing or new addresses added, the fee in [9.2](#) is charged for each address card or address that is removed because it is incorrect or undeliverable, and for each address (possible delivery) that is added to the customer's list. For apartment or office buildings with a series of addresses for which the USPS provides a range of addresses, the charge is for each address (possible delivery) in the range or series.

9.6.4 Customer's Bill

For all services, the original of the Delivery Unit Summary is returned to the customer after completion by USPS employees and serves as the customer's bill. The customer must submit payment for the amount due to the local Post Office or as instructed.

9.6.5 Free Services

These services are provided at no charge for all three levels of service:

- a. If the customer includes a rural address (box number) in a deck of cards or address file submitted for sequencing, and a street address is assigned to that box number so it can be served on a city delivery route, a correct address card or address is included at no charge.
- b. The USPS attempts, but does not guarantee, to make simple corrections to addresses (e.g., obvious spelling errors) that can be identified as a specific delivery address and are not undeliverable as addressed or nonexistent. Corrections are noted on the cards placed in proper carrier route sequence in the returned cards and identified by a rubber band around the card.

9.7 Submitting Properly Sequenced Mailings

9.7.1 Customer Responsibility

The customer must ensure that mailings are prepared in correct carrier route delivery sequence and resequence cards or an address file when necessary. The USPS does not provide list-sequencing service for mailings not prepared in correct carrier route delivery sequence if the customer is so notified but fails to take corrective action.

9.7.2 Changes

When delivery changes affect delivery sequence but do not cause scheme changes, card customers will be notified in writing and must then submit cards for the affected routes or the complete ZIP Code for resequencing. Computerized Delivery Sequence (CDS) customers will automatically receive an updated electronic file from the USPS.

9.7.3 Out-of-Sequence Mailing

If a mailing is found to be out of sequence, the customer is informed in writing both of the error and that, unless the situation is corrected, the USPS will not provide carrier route sequencing service. If the customer does not take corrective action, the USPS gives written notice that the customer is no longer allowed to submit address cards to the Post Office or address files to the National Customer Support Center for sequencing. Within 30 days, the customer may file a written appeal with the postmaster who gave notice.

9.7.4 Reinstatement

Generally, a customer denied address card or address file sequencing service for a specific ZIP Code may not submit address cards (to the Post Office) or address files (to the National Customer Support Center) for sequencing where that sequencing service was terminated for 1 year after the effective date of termination. After that time, the customer is again authorized to submit the ZIP Code address cards (to the Post Office) or address files (to the National Customer Support Center) for sequencing. At any time during the year after termination of service, the customer may renew the submission if the postmaster (for address cards) or the National Customer Support Center (for address files) is convinced that the customer has taken all necessary action to correct the past errors.
