1. Mailers must bundle pieces in less-than-full trays and all pieces in mailings consisting entirely of card-sized pieces.
2. Except as noted in footnote 1, bundling not required if sufficient quantity to fill a tray and none of the mail in the tray would have been more finely sorted if bundled (203.3.0).
3. Mailers may include overflow pieces in an existing qualified tray of at least 150 or more pieces at either of the next two tray levels. For example, 50 overflow pieces for ZIP Code 03431 may be placed in an existing 3-digit 034 tray, or if no 034 tray exists, in an existing ADC 030 tray. The 50 overflow pieces would still qualify for the 5-digit price if the total number of pieces for 03431 is 150 or more.
4. Nonmachinable ADC price for pieces placed in 3-digit origin/entry tray.
