Except for Flat Rate and Regional Rate packaging, balloon, or dimensional weight, and commercial plus cubic items, Priority Mail commercial prices are based on weight and zone. Mailpieces are charged per pound; any fraction of a pound is rounded up to the next whole pound, except for Priority Mail commercial plus items that weigh up to 1/2 pound are charged the 1/2-pound price.

**Balloon Price:** Parcels addressed for delivery to Zones 1-4 that weigh less than 20 pounds but measure more than 84 inches (but not exceeding 108 inches) in combined length and girth are charged the 20-pound price for the zone to which addressed.

**Dimensional Weight Price:** Postage for parcels addressed for delivery to Zones 5-9 and exceeding 1 cubic foot (1,728 cubic inches) is based on the actual weight or the dimensional weight, whichever is greater. (See [QSG 120](#) for examples on how to measure dimensional weight.)

Matter mailed in USPS-produced Priority Mail packaging is charged one flat price regardless how much the item weighs (up to 70 pounds) or domestic destination. Only USPS-produced Flat Rate packaging is eligible for Priority Mail Flat Rate pricing. For a complete list of Flat Rate packaging items, see the Flat Rate Quick Reference section of [Notice 123–Price List](#).

Regional Rate Boxes are available to Priority Mail commercial customers who use the USPS-produced packaging, with prices based on one of the three box sizes and zone to which it is shipped. Regional Rate boxes exceeding the maximum weight for the box size, or the container flaps do not close within the normal folds, will be assessed the applicable Priority Mail prices.
