1.3 Regular and Nonprofit USPS Marketing Mail and Customized MarketMail Prices

For prices, see [Notice 123—Price List](#).

1.4 Fees

1.4.1 Presort Mailing Fee

An annual mailing fee must be paid each 12-month period at each Post Office of mailing. Payment of this fee does not apply to mailers who present qualified full-service mailings (under [705.23.3.1a](#)). For mail manifested using the Electronic Verification System (eVS) under [705.2.6](#), only one annual mailing fee, paid at the Post Office of account where the permit imprint account is held, is required regardless of the number of Post Offices of mailing. A mailer paying this fee may enter clients' mail as well as the mailer's own. The mailer whose permit imprint appears on pieces in a mailing paid with a permit imprint must show that permit number on the postage statement and must pay the annual mailing fee for that permit; this fee is in addition to the one-time fee for an application to use permit imprints. The fee may be paid in advance only for the next 12 months and only during the last 60 days of the current service period. The fee charged is that which is in effect on the date of payment (see [Notice 123—Price List](#)).

1.4.2 Weighted Fee

[\[1-21-24\]](#) For return of pieces bearing the ancillary service markings "Address Service Requested" and "Forwarding Service Requested." The weighted fee equals single-piece First-Class Mail, USPS Ground Advantage – Retail, or Priority Mail price multiplied by 2.472.

1.5 Computing Postage for USPS Marketing Mail

1.5.1 Weight

To compute the total weight of the addressed pieces in a mailing or mailing segment for:

- a. Identical-weight pieces, multiply the computed average weight of a single piece by the corresponding number of pieces; do not round the product.
- b. Nonidentical-weight pieces, add the actual weight of the individual pieces or weigh the entire mailing in bulk; do not round either result.

1.5.2 Determining Single-Piece Weight

To determine single-piece weight in a mailing of identical-weight pieces, weigh a sample group of at least 10 randomly selected pieces and divide the total sample weight by the number of pieces in the sample. To determine single-piece weight in a mailing of nonidentical-weight pieces, weigh each piece individually. Express all single-piece weights in decimal pounds, rounded off to four decimal places.

1.5.3 Net Postage

Postage is computed at the applicable prices on the entire mailing to be mailed at one time. The net postage price is either the applicable minimum per piece price or the piece/pound price, as adjusted for any discounts and surcharges.

[\[7-14-24\]](#)

1.5.4 Per-Piece and Per-Pound Charges

[7-14-24] To determine per-piece and per-pound charges:

- a. [7-14-24] *Per-Piece Charge*. The per-piece charge is computed based on the total number of addressed pieces for each price category claimed. The minimum price may apply to each piece as detailed in 1.2. Otherwise, the per-piece charge must be added to the per-pound charge to determine total postage.
- b. [7-14-24] *Per-Pound Charge*. Where applicable, the per-pound charge is computed based on the total weight of the addressed pieces for each price category claimed and is added to the per-piece charge to determine total postage.
- c. [7-14-24] *Example*. A quantity of pieces weighing 100.25 pounds is charged 100.25 times the applicable price per pound, based on the price claimed, plus one unit of the applicable per-piece charge for each addressed piece.

1.5.5 Computing Affixed Postage for Piece/Pound Price Mailpieces

[7-14-24] To compute postage to be affixed to each piece/pound-price piece:

- a. [7-14-24] Multiply the weight of the piece (in pounds) by the applicable price per pound;
- b. [7-14-24] Add the applicable per-piece charge and any surcharge; and
- c. [7-14-24] Round up the sum to the next 10th of a cent. See 244.2.0 for affixing postage.

1.5.6 Permit Imprint

In any permit imprint mailing:

- a. For each price or price category, multiply the number of addressed pieces by the corresponding price per piece and (if applicable) multiply the *unrounded* total weight of the pieces by the corresponding price per pound; round off each product to four decimal places.
- b. Add the per piece and per pound charges and round off the total postage to the nearest whole cent.

2.0 Content Standards for USPS Marketing Mail

2.1 General

[7-14-24] USPS Marketing Mail consists of mailable matter that:

- a. [7-14-24] Is neither mailed nor required to be mailed as First-Class Mail;

- c. [7-14-24] Weighs less than 16 ounces.

Note: Mailpieces prepared as catalogs must meet the standards in 601.10.0.

243.2.2

2.2 Personal Information

[7-14-24] Personal information (see [233.2.3](#)) may not be included in a USPS Marketing Mail mailpiece unless all of the following conditions are met:

- a. The mailpiece contains explicit advertising for a product or service for sale or lease or an explicit solicitation for a donation.
- b. All of the personal information is directly related to the advertising or solicitation.
- c. The exclusive reason for inclusion of all of the personal information is to support the advertising or solicitation in the mailpiece.

2.3 Bills and Statements of Account

Mail containing bills or statements of account as defined in [233.2.2](#) may not be entered as USPS Marketing Mail except under the conditions described in [2.5.2](#).

2.4 Handwritten and Typewritten Matter

Mail containing handwritten or typewritten matter may not be entered as USPS Marketing Mail except under the conditions described in [2.6](#).

2.5 Attachments and Enclosures

2.5.1 Invoice

An invoice, whether it also serves as a bill, may be placed either inside a USPS Marketing Mail piece or in an envelope marked “Invoice Enclosed” and attached to the outside of the piece if the invoice relates solely to the matter with which it is mailed. The invoice may show this information:

- a. Names and addresses of the sender and addressee.
- b. Names and quantities of the articles enclosed, descriptions of each (e.g., price, tax, style, stock number, size, and quality, and, if defective, nature of defects).
- c. Order or file number, date of order, date and manner of shipment, shipping weight, postage paid, and initials or name of packer or checker.

2.5.2 Incidental First-Class Mail Attachments and Enclosures

[7-14-24] Incidental First-Class Mail matter may be enclosed in or attached to USPS Marketing Mail merchandise (including books but excluding merchandise samples) without payment of First-Class Mail postage. Incidental First-Class Mail matter may not be enclosed in or attached to matter mailed as Customized MarketMail under [8.0](#). An incidental First-Class Mail attachment or enclosure must be matter that, if mailed separately, would require First-Class Mail postage, is closely associated with but secondary to the host piece, and is prepared not to encumber postal processing. An incidental First-Class Mail attachment or enclosure may be a bill for the product or publication, a statement of account for past products or publications, or a personal message or greeting included with a product, publication, or parcel. Postage at the USPS Marketing Mail or Package Services price for the host piece is based on the combined weight of the host piece and the incidental First-Class Mail attachment or enclosure.

2.5.3 Nonincidental First-Class Mail Enclosures

[7-14-24] Letters or other pieces of nonincidental First-Class Mail, subject to postage at First-Class Mail prices, may be enclosed with USPS Marketing Mail pieces (except matter mailed as Customized MarketMail under 8.0). Postage for the First-Class Mail enclosure must be placed on the outside of the piece. It may be affixed separately or added to the postage for the host piece. The endorsement “First-Class Mail Enclosed” must be placed on the piece, below the postage and above the address.

2.5.4 Nonincidental First-Class Mail Attachments

[7-14-24] Letters or other pieces of nonincidental First-Class Mail may be placed in an envelope and securely attached to the address side of a USPS Marketing Mail piece (except matter mailed as Customized MarketMail under 8.0), or of the principal piece, as applicable. Combination envelopes or containers with separate parts for the two classes of mail may be used. The names and addresses of the sender and addressee must be placed on both the principal piece and the attachment. Alternatively, the sender’s name and address must be placed on one part and the addressee’s name and address on the other. If the piece is a combination container with inseparable parts or compartments, the names and addresses may appear on only one part. The applicable USPS Marketing Mail postage for the USPS Marketing Mail matter must be prepaid and placed in the upper right corner of the address space. Postage at the applicable First-Class Mail price must be paid for and affixed to the First-Class Mail attachment, unless other payment methods are permitted by standard.

2.5.5 Attachment of Other USPS Marketing Mail Matter

USPS Marketing Mail letters and flats may bear one repositionable note per mailpiece under 202.7.0. A USPS Marketing Mail letter or flat may bear a label, a sticker, or a release card eligible as USPS Marketing Mail matter, when affixed under 2.5.5, 2.5.6 and 2.5.7. USPS Marketing Mail letters, flats, and parcels also may bear other attachments eligible as USPS Marketing Mail matter if these additional conditions are met:

- a. The piece bearing the attachment is claimed as Customized MarketMail (CMM) under 243.8.1 or as Enhanced Carrier Route, except as allowed for labels, stickers and release cards under 2.5.6 and 2.5.7. The face of the attachment may bear only the price markings and endorsements permitted for the price claimed for the host piece.
- b. At the time of mailing, the piece shows only one complete delivery address. If the attachment is a reply card, the address for returning the piece is not visible.
- c. CMM host pieces are any size permitted under 245.12.0. Enhanced Carrier Route host pieces are larger than 6 by 11 inches.
- d. The attachment is not larger than the host piece and does not extend beyond the host piece. An attachment affixed to a CMM piece may not be greater than 1/4 inch thick at its thickest point.

243.2.5.6

- e. Each piece in the mailing bears the attachment, and the attachment is of identical size, weight, and positioning on the host piece. Different wording or designs may be used.
- f. The attachment does not interfere with processing or delivery. Folded or multipage attachments must be secured to prevent opening during handling.
- g. Letters and flats, with attachments that have been approved in writing by the Pricing and Classification Service Center, are eligible for mailing under the conditions specified in the approval letter.

2.5.6 Letter-Size Pieces with Labels, Stickers, or Release Cards

Automation letters and Enhanced Carrier Route letters with an attached label, sticker, or release card eligible as USPS Marketing Mail matter must meet the standards in [201.3.13](#).

3.0 Basic Eligibility Standards for USPS Marketing Mail

3.1 Description of Service

3.1.1 Service Description

USPS Marketing Mail (formerly Standard Mail) may receive deferred handling. The USPS does not guarantee the delivery of USPS Marketing Mail within a specified time.

3.1.2 Minimum Quantity

USPS Marketing Mail provides economical prices for mailings of 200 or more pieces or 50 or more pounds of mail.

3.2 Defining Characteristics

3.2.1 Mailpiece Weight

[7-14-24] All USPS Marketing Mail pieces must weigh less than 16 ounces.

Flat-size pieces that do not meet the standards in [201.4.3](#) through [201.4.4](#) must be prepared as parcels and the mailer must pay the applicable parcel prices. The following weight limits also apply to pieces mailed at USPS Marketing Mail letter prices:

- a. Pieces mailed at automation or machinable letter prices may weigh up to 3.5 ounces. Automation or machinable letter-size pieces weighing more than 3.5 ounces are mailable at the nonautomation, nonmachinable letter prices.
- b. Pieces mailed at automation carrier route (saturation, high density, high density plus, and basic) letter prices may weigh up to 3.5 ounces. Automation carrier route letters weighing more than 3.5 ounces are mailable at the applicable nonautomation carrier route letter prices.

3.2.2 USPS Marketing Mail Marketing Parcels

[7-14-24] All USPS Marketing Mail Marketing parcels (regular and nonprofit) must bear an alternate addressing format under [602.3.0](#), and cannot be used for "fulfillment purposes" (i.e. the sending of items specifically purchased or requested by the customer of a mailer). The alternate address format must be on the same line as the addressee's name or on the address line directly above or below the addressee's name. USPS Tracking is the only extra service available for USPS Marketing Mail Marketing parcels.

3.2.4 Preparation Requirements

[7-14-24] USPS Marketing Mail is subject to specific volume, marking, and preparation requirements under [245](#).

3.2.5 Inspection of Contents

USPS Marketing Mail is not sealed against postal inspection. Regardless of physical closure, the mailing of articles at USPS Marketing Mail prices constitutes consent by the mailer to postal inspection of the contents.

243.3.2.6

3.2.6 Forwarding Service

The price of USPS Marketing Mail typically does not include forwarding service. Forwarding service is available under [507.1.5](#).

3.2.7 Return Service

The price of USPS Marketing Mail does not include return service. Return service is available under [507.1.5](#) for an additional fee.

3.2.8 Extra Services

See information regarding available extra services under [503](#).

3.2.9 Periodicals

Authorized Periodicals may not be entered as USPS Marketing Mail unless permitted by standard.

3.2.10 Identical Pieces

The contents of printed matter in a USPS Marketing Mail mailing must be identical to a piece sent to at least one other addressee. USPS Marketing Mail may include the addressee's name and address but may not transmit personal information except as permitted under [2.2](#).

3.3 Additional Basic Standards for USPS Marketing Mail

Each USPS Marketing Mail mailing is subject to these general standards:

- a. All pieces in a mailing must be of the same processing category, except that irregular and machinable parcels may be combined in 5-digit scheme and 5-digit sacks or on 5-digit scheme and 5-digit pallets.
- b. Each mailing must contain at least 200 pieces or 50 pounds of pieces. See [3.6](#) for volume requirement eligibility unique to Presorted USPS Marketing price mailings. Other volume standards also can apply, based on the price claimed.
- c. All pieces in an automation mailing must be eligible for an automation price. Separate automation and Presorted price mailings of flats that are reported on the same postage statement must be cosacked under [705.9.0](#). Separate automation, Presorted, and Enhanced Carrier Route mailings of flats may be co-containerized under [705](#).
- d. All pieces in a mailing must be sorted together and marked under the standards for the price claimed.
- e. Each letter and flat piece must bear the addressee's name and delivery address, including the correct ZIP Code or ZIP+4 code, except as allowed when using alternative addressing formats under [602.3.0](#) or detached address labels (DALs) and detached marketing labels (DMLs) under [602.4.0](#).
- f. Each Marketing parcel must bear an alternative addressing format subject to [602.3.0](#). Nonprofit USPS Marketing Mail machinable or irregular parcels must bear the addressee's name and complete delivery address, or may use an alternative addressing format. DALs or DMLs may be used subject to [602.4.0](#).
- g. Postage must be paid under [244.1.0](#) through [244.3.0](#) with precanceled stamps, meter stamps, or permit imprint.

- i. Each piece must meet the standards for any other price or discount claimed.
- j. Any barcode on a mailpiece must be correct for the delivery address and meet the standards in 202.5.0, 602.9.0, and 204.1.0.
- k. Mailings must be deposited at a business mail entry unit of the Post Office where the postage permit or license is held and the annual mailing fee paid, unless deposit elsewhere is permitted by standard.

3.4 IMpb Standards

[7-14-24] All USPS Marketing Mail parcels must bear an Intelligent Mail package barcode (IMpb) prepared under 204.2.0. USPS Marketing Mail parcels may optionally use an IMb in lieu of an IMpb when they are presorted and containerized in 5-digit sacks or other approved containers prepared to the 5-digit level, provided each parcel bears a unique IMb that cannot be reused for 45 days. In situations where the IMb is used in lieu of the IMpb, a Mail.dat or Mail.XML file will be accepted in lieu of a Shipping Service File.

3.5 Merging Similar USPS Marketing Mailings

Mailings are subject to the general definitions and conditions in 245.1.0. Generally, mailers may merge similar USPS Marketing Mail matter into a single mailing. Differences in text, address labels, and address lists or list key numbers do not prohibit the mailer from merging and sorting pieces together. Pieces with different methods of postage payment may be combined in the same mailing only if authorized by the director, Business Acceptance Solutions (see 608.8.0 for address). Pieces of nonidentical weight, if merged in the same mailing, must bear the correct postage when mailed, unless otherwise authorized by the director, Business Acceptance Solutions.

3.6 Residual Volume Requirement

Pieces in an Enhanced Carrier Route price mailing that has separately met a 200-piece or 50-pound minimum quantity requirement may be counted toward the minimum quantity requirement for a Presorted price mailing, provided that the Enhanced Carrier Route price mailing and the Presorted price mailing are part of the same mailing job. Likewise, pieces in an automation price mailing that has separately met a 200-piece or 50-pound minimum quantity requirement may be counted toward the minimum quantity requirement for a Presorted price mailing, provided that the automation price mailing and the Presorted mailing are part of the same mailing job. Pieces mailed at Presorted USPS Marketing Mail prices must not be counted toward the minimum volume requirements for an Enhanced Carrier Route price or an automation price mailing.

3.7 Residual Mail Subject to First-Class Mail or USPS Ground Advantage – Retail Prices

The following applies:

243.3.8

- a. Pieces prepared as USPS Marketing Mail (i.e., that bear USPS Marketing Mail price markings, ACS codes, etc.) that do not qualify for Enhanced Carrier Route, automation, or Presorted USPS Marketing Mail prices are subject to the single-piece First-Class Mail or USPS Ground Advantage – Retail prices as applicable for the weight of the mailpiece.
- b. Metered pieces weighing more than 13 ounces but less than 16 ounces that do not qualify for USPS Marketing Mail prices, and any pieces that do not qualify for USPS Marketing Mail prices for which First-Class Mail or USPS Ground Advantage – Retail service is desired, must be re-enveloped or otherwise prepared so that they do not bear USPS Marketing Mail markings, endorsements, and ACS codes and must bear the proper First-Class Mail or USPS Ground Advantage – Retail price markings and ACS codes.
- c. Mailers with pieces (other than metered pieces weighing more than 13 ounces but less than 16 ounces) that do not qualify for USPS Marketing Mail prices but that are prepared as USPS Marketing Mail and who do not want First-Class Mail or USPS Ground Advantage – Retail service for those pieces may enter their mailpieces “as is” (i.e., bearing the USPS Marketing Mail markings and endorsements), provided the requirements in [244.1.0](#) are met.

3.8 **ZIP Code Accuracy**

The ZIP Code accuracy standard is a means of ensuring that the 5-digit ZIP Code in the delivery address correctly matches the delivery address information. For the purposes of this standard, *address* means a specific address associated with a specific 5-digit ZIP Code. Each address in a mailing at USPS Marketing Mail flats prices must meet the ZIP Code accuracy requirements in [602.6.0](#).

3.9 **Move Update Standard**

The Move Update standard requires the periodic matching of a mailer's address records with customer-filed change-of-address orders maintained by the USPS. See [602.5.0](#) for Move Update standards.

4.0 Price Eligibility for USPS Marketing Mail

4.1 **General Information**

[\[7-14-24\]](#) The following apply:

- a. [\[7-14-24\]](#) All USPS Marketing Mail prices are Presorted prices (including all nonprofit prices). These prices apply to mailings meeting:
 1. [\[7-14-24\]](#) Basic standards in [2.0](#) through [4.0](#);

- a. Basic Requirement. Automation and automation compatible letters mailed at Regular, Enhanced Carrier Route, Nonprofit, and Nonprofit Enhanced Carrier Route prices are subject to minimum per piece prices when they weigh no more than 3.5 ounces (0.2188 pound). Nonautomation letters and flats mailed at Regular, enhanced Carrier Route, Nonprofit and Nonprofit Enhanced Carrier Route prices are subject to minimum per piece prices when they weigh no more than 4 ounces (0.25 pound).
- b. In applying the minimum per piece prices, a mailpiece is categorized as either a letter or a nonletter, based on whether the piece meets the letter-size standard in 201.1.1.1, without regard to placement of the address on the piece, except under these conditions:
 - 1. If the piece meets both the definition of a letter in 201.1.1.1 and the definition of an automation flat in 201.6.0, the piece may be prepared and entered at an automation flat price.
 - 2. If the piece is prepared for automation letter prices, address placement is used to determine the length when applying the size standards and aspect ratio requirements to qualify for automation letter prices under 201.3.0. For this purpose, the length is considered to be the dimension parallel to the address.
 - 3. Pieces mailed as *Customized MarketMail* under 8.0 must pay the prices in 1.2 and must not exceed 3.3 ounces.
- c. [7-14-24] Individual prices. There are separate minimum per piece prices for each subclass (Regular, Enhanced Carrier Route, Nonprofit, and Nonprofit Enhanced Carrier Route) and within each subclass for the type of mailing and the level of presort within each mailing. 7.5 Address Standards for Barcoded Pieces

7.5.1 Basic Address Standards for Barcodes

To qualify for automation prices, addresses must be sufficiently complete to enable matching to the current USPS ZIP+4 Product when used with current CASS-certified address matching software. Standardized address elements are not required. Any barcode that appears on a mailpiece claimed at an automation price must be the correct barcode for the corresponding delivery address on the piece.

7.5.2 Numeric ZIP+4

A numeric ZIP+4 code must consist of five digits, a hyphen, and four digits.

7.5.3 Numeric Delivery Point Routing Code

A numeric equivalent to the delivery point routing code is formed by adding two digits directly after the ZIP+4 code.

7.5.4 Address Elements

Addresses must include the correct street number, predirectional, street name, suffix, and postdirectional that are input to obtain a match with the current USPS ZIP+4 Product.

7.5.5 Firm Name

An address must include a firm name when necessary to obtain a match with the finest level of ZIP+4 code in the USPS ZIP+4 Product. If an address contains a firm name assigned a unique ZIP+4 code in the USPS ZIP+4 Product, the unique ZIP+4 code must be used. If the firm name is not one assigned a unique ZIP+4 code in the USPS ZIP+4 Product and the apartment/suite number is included in the address, the ZIP+4 code for the range in which the apartment/suite number appears must be used in that address. If the firm name does not correspond to a firm name that has a unique ZIP+4 code assigned in the USPS ZIP+4 Product and the apartment/suite number is not included in the address, the ZIP+4 code for the building must be used.

7.5.6 Secondary Designator

If a secondary address designator (e.g., an apartment number) is shown in the address, the mailpiece must show the appropriate ZIP+4 code representing the range for that secondary address as contained in the current USPS ZIP+4 Product. If a secondary address designator is required to obtain an exact match with the finest level of ZIP+4 code in the USPS ZIP+4 Product but the information is not available, the alternative ZIP+4 code or ZIP+4 or delivery point barcode for the building must be used.

7.5.7 Rural and Highway Contract Routes

If a rural route or highway contract route box number is included in the address, the mailpiece must show the appropriate ZIP+4 code representing the range for that box number as contained in the current USPS ZIP+4 Product. If a rural route or highway contract route box number is required to obtain a match with the finest level of ZIP+4 code but is not available, the alternative ZIP+4 code or ZIP+4 or delivery point barcode for the rural route or highway contract route must be used. If used, the rural route or highway contract route box number must be placed on the line immediately above the city/state/ZIP Code line.

7.5.8 Post Office Box

A Post Office box address must contain a Post Office box number that can be exactly matched with the USPS ZIP+4 Product in effect.
