Summary of Changes

Mailing Standards of the United States Postal Service,
International Mail Manual

Issued July 9, 2023

This Summary of Changes to Mailing Standards of the United States Postal Service, International Mail Manual (IMM®) includes revisions that have become effective during the previous 12 calendar months.

In chapters 1–9 and in “Country Price Groups and Weight Limits” of this online version of the IMM, change bars (vertical lines in the margin) indicate that Postal Bulletin updates have been incorporated in the adjacent text (note that the change bars appear only in the PDF version, and only for revisions that have become effective in the current calendar year, not for all the previous 12 months). However, in the individual country listings (ICLs) of this online IMM, change bars do not appear even though Postal Bulletin updates have been incorporated in the ICL text.

- Effective February 9, 2023, as noted in PB issue 22617, the following sections are revised to conform to requested country nomenclature by changing the official name of Turkey to the Republic of Turkiye (with Turkiye as the short name):

  Exhibit 213.5  Exhibit 322.2
  Exhibit 252.22  Index of Countries and Localities
  Exhibit 292.45a  Country Price Groups and Weight Limits
  Exhibit 293.45a  Individual Country Listings

- Effective April 20, 2023, as noted in PB issue 22622, the following ICLs are revised to add text requiring that the customs declaration form include a Harmonized System (HS) code that corresponds to the detailed description for any good mailed to these countries:

  Austria  Germany  Norway
  Belgium  Greece  Poland
  Bulgaria  Hungary  Portugal
  Croatia  Ireland  Romania
  Cyprus  Italy  Slovak Republic (Slovakia)
  Czech Republic  Latvia  Slovenia
  Denmark  Lithuania  Spain
  Estonia  Luxembourg  Sweden
  Finland  Malta  Switzerland
  France  Netherlands

Mailing Standards of the United States Postal Service, International Mail Manual (IMM) provides our standards for all international mailing services and references for the applicable prices. Many mailers find it helpful to reference these standards as they prepare and deposit their mail.

Mailers looking for an overview of prices and international extra services can use Notice 123, Price List. It provides the most commonly sought international mailing information in an easy-to-read and easy-to-find format. Notice 123 is available on our Postal Explorer Web site at pe.usps.com. The Postal Explorer Web site also provides helpful search features, mailing tools, and price calculators to make mailing easy.

Summary of Changes
The IMM is updated frequently on Postal Explorer at pe.usps.com. The Summary of Changes section in the IMM notes revisions by IMM chapter, subchapter, part, section, or Individual Country Listing (ICL). Mailing standards in the IMM are revised by notices published in the Postal Bulletin or the Federal Register.

Availability
The current edition of the IMM and also archived editions back to 2001 are available in PDF and HTML formats on the Postal Explorer Web site at pe.usps.com.

How to Use This Book
The IMM is organized into nine chapters that describe mailing methods based on shape of mail, category of mail service, and topic. The chapters are followed by Individual Country Listings that contain specific mailing standards for each country.

Comments
Contact your local Post Office, business mail entry office, or the Pricing and Classification Service Center (PCSC) with comments or questions about our mailing standards. Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM) section 608.8.4 provides addresses and telephone numbers of business mail entry offices and the PCSC.

1 International Mail Services

110 General Information

111 Scope
This manual sets forth the conditions and procedures for the preparation and treatment of mail sent from the United States to other countries and the treatment of mail received from other countries. Its counterpart in the domestic mail service is the *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM). Cross-references to the DMM are provided wherever domestic conditions and procedures apply to the preparation or treatment of international mail.

112 Mailer Responsibility
Regardless of any statement contained in this manual or the statements of any employee of the United States Postal Service, the responsibility rests with the mailer to ensure that he or she has complied with the prescribed laws and regulations governing domestic and international mail, including, but not limited to, both those of the United States and those of the destination country.

The mailer must fulfill any nonpostal export requirements described in chapter 5 and must ensure that the electronically generated customs form is complete. Certain types of goods may be subject to prohibitions or restrictions. It is the mailer’s responsibility to comply with import and export regulations and restrictions (e.g., quarantine, pharmaceutical, etc.) and to determine what documents (e.g., commercial invoice, certificate of origin, health certificate, license, authorization for goods subject to quarantine such as plant, animal, or food products, etc.), if any, are required in the destination country.

Full responsibility rests with the mailer to comply with all postal and nonpostal laws and regulations regarding the mailing of dangerous goods. Anyone who mails, or causes to be mailed, nonmailable or improperly packaged dangerous goods can be subject to legal penalties, including but not limited to those specified in Title 18 of the United States Code (18 U.S.C.).
Individual Country Listings
Individual Country Listings (ICLs) provide information about conditions of mailing, postage prices, and extra services for each country. ICLs are arranged alphabetically. Most subtitles are followed by a chapter citation in parentheses.

USPS Trademarks in the IMM
Many of the USPS trademarks listed in Exhibit 116.1 appear throughout the IMM. (This is not an exhaustive list of the many marks belonging to the U.S. Postal Service.) Proper use of any USPS trademark may require capitalizing the initial letters, or all the letters of an acronym, to distinguish it from terms not used as trademarks. The ® symbol may be used after these marks.

We list the marks in Exhibit 116.1 in lieu of using the ® symbol throughout the IMM.

120 **Preparation for Mailing**

121 **General Information for Mail Preparation**

121.1 **Packaging — Sender’s Responsibility**

It is the responsibility of the sender to prepare items and to address them clearly and correctly. In preparing items for mailing, the sender must (1) use strong envelopes or durable packaging material to prevent deterioration or degradation, and (2) consider the nature of the articles being mailed and the distance they must travel to reach the addressee. (See DMM 601 for detailed instructions.)

121.2 **Use of Postal Service Equipment**

Consistent with Postal Operations Manual part 581, and without regard to mail class, mailers may use USPS-owned mail transport equipment (MTE) only to transport mail to a USPS facility. Mailers may not retain USPS-owned MTE for their internal operating use or personal convenience, and such equipment may not be furnished to mailers for such purposes. Mailers may not use USPS-owned MTE to transport mail from foreign countries when such mail is not intended for dispatch through the U.S. Postal Service. In
addition, mailers must not remove USPS-owned MTE from the United States for any purpose (e.g., transporting items that will be entered as domestic mail from outside the United States to the United States) without a written agreement between the customer and the USPS manager of Mail Transport Equipment. Under no circumstances will the U.S. Postal Service grant approval for USPS-owned MTE to be out of the United States for more than 14 days. For additional information, contact the USPS manager of Mail Transport Equipment at the following address:

MANAGER OF MAIL TRANSPORT EQUIPMENT

122 Addressing

122.1 Destination Address

International destination addresses must comply with the standards in this section.

Note: In items c, d, and i, the term “full legal name” means the name that corresponds to the addressee’s government-issued identification — i.e., the addressee’s first name, middle initial (if applicable), and last name.

a. At least the entire right half of the address side of the envelope, package, or card should be reserved for the destination address, postage, labels, and postal notations. If the mail item requires a customs declaration form, mailers may use an electronically generated combined customs form and shipping label.

b. Addresses must appear in ink or be typewritten. Pencil is unacceptable.

c. The addressee’s full legal name (see Note above) and complete address must appear legibly with roman letters and arabic numerals, all placed lengthwise on one side of the item. For parcels, addresses should also appear on a separate slip enclosed in the parcel.

d. Addresses in Russian, Greek, Arabic, Hebrew, Cyrillic, Japanese, or Chinese characters must bear an interline translation in English of the addressee’s full legal name (see Note above) and complete address (including country). If the English translation is not known, the foreign language words must appear in roman characters (either printed or script). See 292.41 and 293.41 for an optional addressing procedure that applies only to direct country containers of International Priority Airmail (IPA) or International Surface Air Lift (ISAL) mail, respectively.

e. Mail may not be addressed to a person in one country “in care of” a person in another country.

f. Mail may not be addressed to Boxholder or Householder.
g. The following exceptional form of address, in French or a language known in the country of destination, may appear on printed matter: the addressee’s name or Occupant.

**Example:** Mr. Thomas Clark or Occupant

h. The house number and street address or box number must appear when mail is addressed to towns or cities.

i. The address of items sent to general delivery must indicate the addressee’s full legal name (see Note above) and the city and country of destination. The use of just initials, simple given names, fictitious names, or figures is not permitted on articles addressed for general delivery.

j. All lines of the delivery address should appear in all capital letters. The city destination must appear in capital letters together with the correct post code number or delivery zone number, if any. The last line of the address must show only the country name, written in full (no abbreviations) and in capital letters. If possible, the address should have no more than five lines. For example:

```
MR THOMAS CLARK
117 RUSSELL DRIVE
LONDON W1P 6HQ
UNITED KINGDOM

MS CRISTINA CRUZ
APARTADO 3068
46807 PUERTO VALLARTA
JALISCO
MEXICO
```

**Exception:** To Canada, there must be two spaces between the province abbreviation and the postal code, as shown below between “ON” and “K1A 0B1”:

```
MS HELEN SAUNDERS
1010 CLEAR STREET
OTTAWA ON  K1A 0B1
CANADA
```

---

**122.2 Return Address**

**122.21 General**

The return address tells the U.S. Postal Service or foreign post where to return a mailpiece that cannot be delivered. Due to heightened security concerns, the U.S. Postal Service recommends a complete return address on all mailpieces — see **122.23** for when a return address is required. A mailpiece may include only one return address, and the mailer must place it so that it does not affect either the clarity of the address of destination or the application of service labels and notations (postmarks, etc.).

**122.22 Elements of a Return Address**

A complete return address must include the sender’s full legal name (see the Note in **122.1**) and complete return address in roman letters and arabic numerals — it may not include just initials except where they are an adopted trade name.
122.23 Required Use of Return Address
In bulk mailings, all mailpieces must bear a U.S.-origin return address visible on the outside of the mailpiece. For the purpose of this section, a “bulk mailing” is any IPA or ISAL mailing, or any other mailing paid with an advance deposit account and presented to the U.S. Postal Service for acceptance. In addition, a return address is required for mailpieces bearing a customs form under 123.7.

123 Customs Forms and Online Shipping Labels

123.1 Types of Customs Forms

123.11 General
As required under 123.6, a fully completed electronically generated customs form is required for international mail. A mailer may obtain an electronically generated customs form by using Click-N-Ship service, the Customs Form Online application, or USPS-approved vendor software, as described in 123.3. Alternatively, a mailer may obtain an electronically generated customs form by presenting a fully completed PS Form 2976-R at a USPS retail service counter. The following forms are available for international mail:

a. Electronically Generated Customs Forms:
   (1) PS Form 2976, Customs Declaration CN 22 — Sender’s Declaration.
   (2) PS Form 2976-A, Customs Declaration and Dispatch Note — CP 72.
   (3) PS Form 2976-B, Priority Mail Express International Shipping Label and Customs Form.

   Note: For international mail, PS Form 2976-B is used only for Priority Mail Express International items. However, as noted in DMM 703.2.3, PS Form 2976-B is also used with Priority Mail Express items sent to APO/FPO/DPO destinations.

b. Handwritten Customs Worksheets:
   (1) PS Form 2976-R, USPS Customs Declaration and Dispatch Note. This form is available only as a hard copy that customers use as a worksheet that they must present with their mail item at a USPS retail service counter. The retail associate enters the information into the retail system or Customs Form Online application (see 123.722), and then generates and prints the applicable customs form to affix to the mail item. Customers cannot use PS Form 2976-R as a stand-alone customs form.

   Note: All USPS-supplied hard copies of PS Form 2976, PS Form 2976-A, and PS Form 2976-B that were preprinted with a barcode and designed for mailers to complete by hand are obsolete and prohibited from use.
   (2) PS Form 6182, Commercial Invoice, is used only for Global Express Guaranteed items and is required for certain commodities and destinations. To determine if a specific mailing
requires PS Form 6182, refer to the “Documentation Requirement” section of the specific destination country in Publication 141.

c. Customs Declaration Envelopes:
   (1) PS Form 2976-E, Customs Declaration Envelope — CP 91, is a plastic envelope that is used to carry and protect customs declaration form sets and other documentation needed for customs clearance (see 123.73).
   (2) PS Form 2976-ES, Small Customs Declaration Envelope, is a small plastic envelope that is used to carry and protect customs declaration form sets and other documentation needed for customs clearance used with Priority Mail International Flat Rate Envelopes or Small Flat Rate Priced Boxes and other small parcels that require a customs form (see 123.73).

123.12 Authorized Editions

The following are the authorized customs forms:

a. Electronically generated customs forms PS Form 2976, PS Form 2976-A, and PS Form 2976-B produced through an approved USPS system capable of electronically transmitting the associated customs data. Current authorized editions are available in the Guidelines for Privately Printed Customs Declaration Forms at https://postalpro.usps.com/node/2713.

b. Customs forms generated through the online service using Click-N-Ship service.

c. Customs forms generated through the process of using the Customs Form Online application.

d. The USPS-supplied hard copy edition PS Form 2976-R (dated April 2016), which a mailer uses to provide handwritten customs information when presenting a mailpiece at a USPS retail service counter. The retail associate uses this form to generate and print the appropriate customs form and to electronically transmit the associated customs data. A mailer may not use PS Form 2976-R as a stand-alone customs form. See 123.11b.

Note: All USPS-supplied hard copies of PS Form 2976, PS Form 2976-A and PS Form 2976-B containing a preprinted barcode and designed for mailers to complete by hand are obsolete and prohibited.

123.2 Availability

PS Form 2976-R, USPS Customs Declaration and Dispatch Note, is available without charge at Post Office facilities. Mailers may request a reasonable supply for mail preparation; however, mailers must induct their prepared mailpieces only at a USPS retail service counter. Customs declaration forms are available through an online customs form application at usps.com/international/customs-forms.htm.
123.3 Privately Printed Forms

123.31 Authorization

A mailer may not use privately printed customs forms without written authorization. If authorized, a mailer may privately print PS Forms 2976, 2976-A, and 2976-B as specified in the Customs Form Certification Checklist, which is available by clicking on the link to that checklist at the Web site noted in 123.31b. In addition, each form must contain a unique barcode that can be read by Postal Service equipment. A mailer may obtain customs form and barcode specifications through the following methods:

a. By calling the NCSC at 877-264-9693 (select option 3 for barcode certification).

b. By visiting postalpro.usps.com/node/2713.

c. By written request to the following address:

   DELIVERY CONFIRMATION
   NATIONAL CUSTOMER SUPPORT CENTER
   US POSTAL SERVICE
   225 N HUMPHREYS BLVD STE 501
   MEMPHIS TN 38188-1001

Upon receipt of the request, the NCSC will send the mailer an application and specifications for preparing PS Forms 2976, 2976-A, and/or 2976-B.

123.32 Required Electronic Transmission of Customs Declaration Information

For an item bearing a privately printed customs form under 123.31, a mailer must electronically transmit customs declaration information by using USPS-produced Global Shipping Software (GSS), Shipping Services File 1.7 or higher, or other USPS-approved software. Failure to provide electronically transmitted customs declaration information before tendering the mailing may result in refusal at acceptance, delay in processing, and/or return of mail to the sender.

Specific options for electronically transmitting customs declaration information and additional information may be found in the Customs Form Certification Checklist, which is available by clicking on link to that checklist at the Web site noted in 123.31b.

123.4 Nonpostal Forms

123.41 Nonpostal Export Regulations

Certain items must bear one or more of the forms required by the nonpostal export regulations described in chapter 5.

123.42 Commercial Invoices

A commercial invoice is a bill for goods from the seller to the buyer. A commercial invoice must be completed where required and must contain the following basic information:

a. Seller’s complete contact information.

b. Receiver’s complete contact information.

c. Consignee’s complete contact information (if it is different from the buyer’s).
d. Country of origin.
e. Destination country.
f. Reason for export.
g. Total commercial value of the item(s) shipped.
h. Sales and payment terms (if any).
i. Currency of sale.
j. Full quantities and description of the merchandise.
k. A statement certifying that the invoice is correct.

123.5 Place of Mailing
Mailpieces bearing customs declarations have specific deposit requirements based on mail category, shape, and weight. Refer to the specific IMM part below for determination:

a. Global Express Guaranteed mailpieces — see 215.
b. Priority Mail Express International mailpieces — see 225.
c. Priority Mail International mailpieces — see 235.
d. First-Class Mail International mailpieces — see 245.
e. First-Class Package International Service mailpieces — see 255.

123.6 Required Usage

123.61 Conditions
The following conditions apply to customs forms for international mail items:

a. Except as provided in 123.62, mailers use the hard copy PS Form 2976-R and present it at a USPS retail service counter, or use an electronic PS Form 2976, PS Form 2976-A, or PS Form 2976-B as described in Exhibit 123.61.

b. The surface area of the address side of the item to be mailed must be large enough to contain completely the applicable customs form, postage, and any applicable markings, endorsements, and extra service labels.

c. Regardless of any listing in Exhibit 123.61, items containing articles that require an export license (see 532) must always bear PS Form 2976-A or PS Form 2976-B — note that, for international mail, PS Form 2976-B is used only for Priority Mail Express International items, but as noted in DMM 703.2.3, PS Form 2976-B is also used with Priority Mail Express items sent to APO/FPO/DPO destinations. In certain circumstances, this might require the mailer to send the mailpiece via Priority Mail Express International service or Priority Mail International service.

PS Form 6182, Commercial Invoice, is a handwritten form that a customer uses for Global Express Guaranteed shipments. For more details, see 123.42.

All customs forms must be electronically generated. All USPS-supplied hard copies of PS Form 2976, 2976-A, and 2976-B with a preprinted barcode and designed to be completed by hand are obsolete and prohibited from use.

The actual weight limit is 15.994 ounces, to accommodate Postal Service systems that round to three decimal places and thus round items that weigh 15.995-15.999 ounces up to 16 ounces.

Certain nonnegotiable documents controlled by export regulatory agencies may require customs documentation. See 510-540 and Publication 699 for additional information.

Items containing merchandise are mailable using Global Express Guaranteed service, Priority Mail Express International service, or Priority Mail International service.

Known Mailers

Overview

A “known mailer” may be exempt from the customs form requirement that would otherwise apply to package-size mailpieces as defined in 251.2. A “known mailer” must meet one of the definitions in 123.62 and must meet the conditions in 123.623.
123.622 Definition
A “known mailer” must meet one of the following definitions:

a. A federal, state, or local government agency whose mail is regarded as Official Mail.

b. A business mailer who enters volume mailings through a business mail entry unit (BMEU) or other bulk mail acceptance location, completes a postage statement at the time of entry, pays postage through an advance deposit account, and uses a permit imprint for postage payment. For this purpose, the categories of mail that qualify are as follows:
   (1) First-Class Package International Service.
   (2) International Priority Airmail (IPA) service.
   (3) International Surface Air Lift (ISAL) service.

123.623 Conditions
The following conditions apply to “known mailers”:

a. The mailpieces must contain no merchandise or goods, except as provided in 123.623.

b. Merchandise or goods to which this subsection applies may be mailed only as First-Class Package International Service packages (small packets) — or for commercial mailers, as IPA packages (small packets) and ISAL packages (small packets). Any packaging used for package-sized items under this subsection must be transparent, such as shrinkwrap or poly wrap material, so that the contents are fully visible for inspection. Authorization to mail items under this subsection without a customs form applies only under one of the following conditions:
   (1) The mailpieces may contain goods of nominal value (less than $1.00) in conjunction with communications or informational materials for which no customs form is required in the destination country.
   (2) The mailpieces may contain hard copy printed matter or recorded media (e.g., CDs, DVDs, flash drives, video and cassette tapes), for which no customs form is required in the destination country.

c. Authorization to mail items under section 123.62 without a customs form is also subject to all of the following conditions:
   (1) The mailpieces must not require an export license as described in 510, 520, 530, or 540.
   (2) The mailpieces must not contain dangerous or prohibited items under 135 or 136, or be otherwise prohibited by the destination country.
   (3) The mailpieces cannot be destined to an E:1 country listed in 15 CFR 740, Supp. 2.
   (4) The mailpieces cannot contain any items listed in the Commerce Control List (15 CFR 774) or the U.S. Munitions List (22 CFR 121).
d. If the mailpieces are mailed with a postage statement, the mailer must certify on the postage statement that the mailpieces contain no dangerous materials that are prohibited by postal regulations.

e. The import regulations of the destination country must allow individual mailpieces without a customs form affixed.

f. For IPA and ISAL mailings, the mailer must pay with a permit imprint or with a combination postage method (meter postage affixed to the piece and additional postage by permit imprint). IPA and ISAL mailpieces that are paid for by postage solely with a meter do not qualify for the “known mailer” exemption.

g. Failure to comply with the conditions in this section, or with any other applicable regulations or policies of the Postal Service or other relevant governmental authorities, may result in the suspension or revocation of eligibility to mail items without a customs form affixed pursuant to this section. For example, a suspension or revocation may result when the mailer fails to ensure his or her compliance with 510, 520, 530, or 540, such as ensuring that no mailings are sent to persons blocked from transacting in such items by the federal agencies described in those IMM sections.

123.63 Separation of Documents and Merchandise

123.631 Explanation of Separation

Letter-post mail (First-Class Mail International, IPA and ISAL items, and First-Class Package International Service) must be separated based on contents into Documents and Merchandise categories. Merchandise consists of items other than documents that are considered potentially dutiable, as well as documents that may be subject to customs duties. The mailer must declare a value and place a customs form on each merchandise item. If any item (merchandise or document) weighs more than 16 ounces, the mailer must place a customs form on it, regardless of the content.

123.632 Documents

In Exhibit 123.61, the “Type of Item” column has several references to “documents.” For this purpose, “documents” refers only to any piece of written, drawn, or printed information, excluding objects of merchandise. Documents do not include digital and electronic storage media or devices such as CDs, DVDs, or flash drives. Examples of documents include the following:

a. Audit and business records.

b. Personal correspondence.

c. Circulars.

d. Pamphlets.

e. Advertisements.

f. Written instruments not intended to be resold.

g. Money orders, checks, and similar items that cannot be negotiated or converted into cash without forgery.
123.633 **Customs Forms Required**
The following are examples of items that are required to bear a customs declaration form and for which the mailer must declare a value:

a. CDs, DVDs, flash drives, video and cassette tapes, and other digital and electronic storage media — regardless of whether they are blank or contain electronic documents or other prerecorded media.

b. Artwork.

c. Collector or antique document items.

d. Books.

e. Periodicals.

f. Printed music.

g. Printed educational or test material.

h. Player piano rolls.

i. Commercial engineering drawings.

j. Commercial blueprints.

k. Film.

l. Negatives.

m. X-rays.

n. Separation negatives.

o. Commercial photographs.

123.64 **Additional Security Controls**
When the chief postal inspector determines that a unique, credible threat exists, the Postal Service may require that a mailer, at the time of mailing, provide an acceptable primary form of photo identification (see DMM 608.10.3). The signature on the identification must match the signature on the customs declaration form.

123.7 **Completing Customs Forms**

123.71 **Preparation and Acceptance of Electronically Generated Customs Forms**

123.711 **Sender’s Preparation of Electronically Generated Customs Forms**
Before mailing, the sender must fulfill any nonpostal export requirements described in chapter 5 and must ensure that the electronically generated customs form is complete. Certain types of goods may be subject to prohibitions or restrictions. It is the mailer's responsibility to comply with import and export regulations and restrictions (e.g., quarantine, pharmaceutical, etc.) and to determine what documents (e.g., commercial invoice, certificate of origin, health certificate, license, authorization for goods subject to quarantine such as plant, animal, or food products, etc.), if any, are required in the destination country. Additional information is available in the individual country listings.

All information on the customs forms must appear in Roman letters and Arabic numerals. The mailer may supplement the information by adding a translation in a language accepted in the destination country, and the
translation may include non-Roman characters (e.g., Cyrillic, Arabic, Mandarin). The following are the mandatory and conditional data elements:

a. **Mandatory Data Elements**: The following data elements are mandatory for all customs forms regardless of mail class:
   (1) Sender’s full name and address.
   (2) Recipient’s full name and address.
   (3) Category of items (e.g., document, gift, merchandise, etc.).
   (4) A detailed description of contents, including the quantity, net weight, and value for each item in the package.
   (5) Sender’s signature and date.

b. **Conditional Data Elements**: The following data elements may be required based on the contents of the package and other nonpostal rules and regulations:
   (1) Sender’s phone number.
   (2) Sender’s email address.
   (3) Recipient’s phone number.
   (4) Recipient’s email address.
   (5) License/Permit number.
   (6) AES ITN or exemption citation (NOEEI) (see 520–527).
   (7) Harmonized System (HS) code, Harmonized Tariff Schedule (HTS) code, or Schedule B number.

**Note**: A mailer may elect to use any USPS classification software or other tools to determine HS codes, or may choose to use other software or other means to determine correct HS codes. Regardless of the method used, the mailer remains solely responsible for the accuracy and completeness of all customs information related to the mail, including the accuracy of HS codes that correspond to the detailed descriptions of goods. The Postal Service is not liable for any of the following:

a. Any incorrect or insufficient HS, HTS, or Schedule B classification.

b. Any other incorrect or incomplete information for customs declarations in whatever form such information is made.

c. Any decision taken by any domestic or foreign customs authority.

See section 537 for more information.

**Postal Service Employee’s Acceptance of Electronically Generated Customs Declaration Forms**

The acceptance employee must do the following when accepting an electronically generated customs form from the sender:

a. Verify that the sender has entered on the customs form the information required in 123.711, and verify that the form is signed and dated. Failure to complete the customs form properly can delay delivery of the item or inconvenience the sender and addressee. Moreover, a false, misleading, or incomplete declaration can result in the seizure or return of the item and/or in criminal or civil penalties. The Postal Service assumes no responsibility for the accuracy of information that the sender enters on the customs form.
b. If the customs form is missing an appropriate AES ITN, AES Exemption, or AES Downtime Citation (as applicable), remind the sender that it is the sender’s responsibility to comply with U.S. Census Bureau requirements (including having all applicable information) and that the sender may be subject to civil and criminal penalties for noncompliance.

c. If the sender purchases additional insurance against loss, damage, or missing contents, record the insured amount in U.S. dollars in the space provided.

d. Round stamp any uncanceled stamps, and, if the sender pays postage by meter, round stamp the front of the piece near the meter postage.

e. Review the IMM individual country listing for destination-specific mailing restrictions, prohibitions, and observations that apply to all mail classes unless otherwise noted.

f. If the package contains mailable dangerous goods (see 135), ensure that the Dangerous Goods box is checked in the “Category of Goods” section of the customs form.

g. After acceptance, place each item in the appropriate working pouch.

123.72 Preparation and Acceptance of PS Form 2976-R

123.721 Sender’s Preparation of PS Form 2976-R
An image of PS Form 2976-R, USPS Customs Declaration and Dispatch Note, is available at about.usps.com/forms/ps2976r.pdf. Before mailing, the sender must fulfill any nonpostal export requirements described in chapter 5 and must complete PS Form 2976-R according to the instructions on the form.

123.722 Postal Service Employee’s Acceptance of PS Form 2976-R
The Postal Service acceptance employee must do the following when accepting PS Form 2976-R from the sender:

a. Verify that the sender has entered the information on the form and has signed and dated the declaration. If the sender’s address is on the mailpiece, it must match the sender’s address on PS Form 2976-R.

b. Instruct the sender to complete any incomplete portions of the forms. Remind the sender that failure to complete the form properly can delay delivery of the item or inconvenience the sender and addressee. Moreover, a false, misleading, or incomplete declaration can result in the seizure or return of the item and/or in criminal or civil penalties. The Postal Service assumes no responsibility for the accuracy of information that the sender enters on PS Form 2976-R.

c. To comply with U.S. Census Bureau requirements, it is the sender’s responsibility to ensure that an appropriate AES ITN, AES Exemption, or AES Downtime Citation is displayed on PS Form 2976-R. If this information is not entered, remind the customer that he or she may be subject to civil and criminal penalties for noncompliance.

d. Review the IMM individual country listing for destination-specific mailing restrictions, prohibitions, and observations that apply to all mail classes unless otherwise noted.
e. If the package contains mailable dangerous goods (see 135), ensure that the Dangerous Goods box is checked in the “Category of Goods” section of the customs form.

f. If the sender wishes to purchase additional merchandise insurance for the contents, the retail associate records the insured amount in U.S. dollars on PS Form 2976-R in the space provided.

g. Weigh the parcel, enter the weight in block (6), and enter the applicable amount of postage and fees in the appropriate block in the upper right corner of the form.

h. For offices with retail systems, enter the mailpiece information from PS Form 2976-R into the Customs and Border Protection Manifest (CBPMAN) application. For manual offices, enter the mailpiece information from PS Form 2976-R into the Customs Form Online application.

**Note:** When using the CBPMAN Bypass option, enter the data from PS Form 2976-R into CBPMAN using Retail Systems Software (RSS) by close of business that same day, which is considered to be 2 a.m. Eastern time (11 p.m. Pacific time).

i. Print the electronically generated combined customs declaration and shipping label from the retail system or online application.

j. Apply the electronically generated barcoded labels to Copies 1–4 of PS Form 2976-R in the designated section in the top left-hand corner of each copy.

k. Remove and store (per local requirements) the Post Office Copy (Copy 3) and tell the mailer that the Postal Service will retain this document for 6 years as a record of mailing. Remove the Sender’s Copy (Copy 4) and give it to the sender.

l. After the retail printer prints PS Form 2976, 2976-A, or 2976-B, insert completed Copy 1 and Copy 2 of PS Form 2976-R and all other required documents, such as a commercial invoice, into PS Form 2976-E (plastic envelope) and affix PS Form 2976-E to the address side of the package. Do not wrap it around the package. For parcels that are too small to accommodate PS Form 2976-E, use PS Form 2976-ES.

m. Affix the electronically generated PS Form 2976, 2976-A, or 2976-B on the face of the mailpiece (on top of PS Form 2976-E or PS Form 2976-ES) and present it to the customer to review. The customer must sign the electronically generated form.

n. Round stamp any uncanceled stamps.

**Note:** Consistent with 225.12, 235.12, 245.12, and 255.12, the customer must present any item bearing a handwritten PS Form 2976-R to an employee at a Post Office retail service counter.
PS Form 2976-E, Customs Declaration Envelope — CP 91, and PS Form 2976-ES, Small Customs Form Envelope

The Postal Service provides the following two transparent plastic envelopes:

a. PS Form 2976-E is a transparent plastic envelope designed to carry and protect customs form sets and any other documentation needed for customs clearance. When the mailer provides PS Form 2976-R and a mailpiece at a USPS retail service counter, the retail associate uses the form to generate and print the applicable customs form and to electronically transmit the associated customs data. Then, the retail associate inserts PS Form 2976-R into PS Form 2976-E, removes the backing sheet of PS Form 2976-E, and affixes PS Form 2976-E to the address side of the mailpiece. The current edition of PS Form 2976-E is July 2013; however, the mailer may use older editions.

b. PS Form 2976-ES is a smaller version of PS Form 2976-E. It is designed to fit on Priority Mail International Flat Rate Envelopes or Small Flat Rate Priced Boxes and other small parcels requiring a customs form. When the mailer provides PS Form 2976-R with the associated mailpiece at a USPS retail service counter, the retail associate uses the form to generate and print the applicable customs form and to electronically transmit the associated customs data. Then, the retail associate inserts PS Form 2976-R into PS Form 2976-ES so that the barcode applied to PS Form 2976-R is visible, removes the backing sheet of PS Form 2976-ES, and affixes PS Form 2976-ES to the address side of the package. The current edition of PS Form 2976-ES is April 2016.

130 Mailability

131 General

131.1 Domestic Limits

All articles that are nonmailable in domestic mail are nonmailable in international mail. See Publication 52, *Hazardous, Restricted, and Perishable Mail*.

131.2 International Limits

Many articles that are mailable in domestic mail are nonmailable in international mail. See chapter 6 of Publication 52 and “Prohibitions and Restrictions” in the Individual Country Listings.

131.3 Individual Country Prohibitions and Restrictions

131.31 Information Available

Information on articles that are prohibited or restricted to individual countries appears under “Prohibitions and Restrictions” in the Individual Country Listings. These prohibitions and restrictions are based on information furnished by the countries concerned. Customers should inquire at the Post Office facility about specific prohibitions or restrictions.
131.32 **Prohibited and Restricted Articles**
Articles that are prohibited by the destination country are nonmailable. For mail known to contain articles restricted by the destination country, the sender must be informed of the restrictions and advised that the articles are subject to the import requirements of that country.

131.33 **Return or Seizure of Mail**
A country may return or seize mail containing articles prohibited or restricted within that country, whether or not notice of such prohibition or restriction has been provided to or published by the Postal Service.

131.34 **Foreign Customs Information**
The Postal Service does not maintain or provide information concerning the assessment of customs duty in other countries. Postal Service employees must not attempt to inform customers whether articles (gifts or commercial shipments) will be subject to customs duty. Postal Service employees may suggest to customers, however, that they inform the addressees in advance of the articles they intend to mail. Addressees can then obtain information from their local customs authorities. No provision is made for prepayment of customs duty on mail addressed for delivery in foreign countries.

If duties or taxes are assessed, most countries will collect from the recipient a customs clearance and delivery fee, in addition to the duties and taxes. This fee is authorized by international postal agreements to reimburse the delivery service for the costs it incurs in clearing the items through customs and collecting duties at the time of delivery. The duties, taxes, and fee, if applicable, are not included in the postage paid by the mailer.

131.4 **Mailer Responsibility**
Regardless of any statement in this manual or the statement of any employee of the United States Postal Service, the burden rests with the mailer to ensure compliance with domestic, international, and individual country rules and regulations for mailability.

131.5 **Preparation for Mailing**

131.51 **General Packaging Requirements**
Parcels of articles or goods must meet the requirements of DMM 601. See DMM 601 for the size and weight limits of parcels and for several grades of fiberboard boxes used for difficult loads. Boxes with difficult loads must be reinforced with banding in each direction around the package.

131.52 **Special Packaging Requirements**
Each mailer must meet the following special packaging requirements when mailing any of the following articles (see DMM 601):

a. Fragile articles, such as glass, must be cushioned as required to dissipate shock and pressure forces over as much of the surface of the item as possible.

b. Liquids must be packaged as required.
c. Package fatty substances that do not easily liquefy, such as ointments, soft soap, resins, etc., as well as silkworm eggs, in an interior container (box, cloth, or plastic bag) and place them in an outer shipping container of minimum 275-grade test strength.

d. Enclose dry, powdered dyes, such as aniline, in sift-proof, sturdy tin or plastic boxes in an outer sift-proof shipping container. This container must have a minimum 275-grade test strength fiberboard or equivalent.

132 Written, Printed, and Graphic Matter

132.1 Domestic Limits

All written, printed, and graphic matter that is described as nonmailable in DMM 601 is nonmailable internationally. This matter includes but is not limited to the following:

a. Advertisements for abortion.
b. Advertisements for motor vehicle master keys.
c. Copyright violations.
d. Fictitious matter.
e. Lottery matter.
f. Matter inciting violence.
g. Solicitations in the guise of bills or statements of account.
h. Solicitations or inducements for mailing harmful matter, radioactive materials, controlled substances, or intoxicating liquors.

Note: Immoral or obscene articles and advertisements for them are nonmailable.

132.2 Reply Cards and Envelopes

Mailpieces that are sent to foreign addressees may not contain prepaid reply cards or envelopes that bear a U.S. postage stamp, meter stamp, meter impression, or a domestic business reply indicia. See Note for regulations governing mailer use of International Business Reply Service (IBRS).

Exception: The prohibition against enclosing U.S. domestic business reply cards or envelopes does not apply when they are bound into, are stapled to, or form an integral part of the printed page of mailpieces that are periodicals. Such enclosures may be admitted so long as they are not used as response vehicles by foreign recipients and the postal administrations of the destination countries do not object to their presence in U.S.-origin publications.

133 Improperly Addressed Mail

The following items are nonmailable in international mail:

a. Unaddressed items.

b. Items whose ultimate destination cannot be determined due to insufficient, illegible, or incorrect addressing.

c. Items bearing multiple addresses to the same or different countries.
134  **Valuable Articles**

134.1  **Service Options**
The following services can be used to send the articles noted in 134.2:

a. First-Class Package International Service with Registered Mail service.

b. Priority Mail International service.

*Note:* Priority Mail Express International service cannot be used to send the articles noted in 134.2.

134.2  **List of Articles**
The following valuable articles may be sent only with the services noted in 134.1:

a. Coins, banknotes, and currency notes (paper money).

b. Instruments payable to bearer. (The term “instruments payable to bearer” includes checks, drafts, or securities that can be legally cashed or easily negotiated by anyone who may come into possession of them. A check or draft payable to a specific payee is not regarded as payable to bearer unless the payee has endorsed it. If not endorsed, or if endorsed in favor of another specific payee, it is not regarded as payable to bearer.)

c. Traveler’s checks.

d. Manufactured and unmanufactured platinum, gold, and silver.

e. Precious stones, jewels, jewelry, watches, and other valuable articles.

*Note:* The term “jewelry” is generally understood to denote articles of more than nominal value. Inexpensive jewelry, watches, such as tie clasps and costume jewelry, containing little or no precious metal, is not considered to be jewelry within the meaning of this section and is accepted under the same conditions as other mailable merchandise to any country. Inexpensive jewelry is accepted to countries that prohibit jewelry, but only at the sender’s risk.

134.3  **Export of Rough Diamonds**
The exportation (mailing) from the United States of any rough diamond (regardless of size, source, or value) is prohibited unless the rough diamond has been controlled through the Kimberley Process Certification Scheme. See 560 for the complete mailing standards of these items.

134.4  **Prohibitions**
Individual countries prohibit or restrict some or all of the valuable items listed above. See the “Prohibitions and Restrictions” section in the Individual Country Listings.
Mailable Dangerous Goods

Infectious Substances

General Conditions

Infectious and noninfectious (nonregulated) biological substances are acceptable in international mail subject to the provisions of Publication 52, part 622 under the following conditions: when they are intended for medical or veterinary use, research, or laboratory certification related to the public health; only when such materials are properly prepared for mailing to withstand shocks, pressure changes, and other conditions related to ordinary handling in transit; and under the additional conditions specified in subsections below.

a. Category A infectious substances are not mailable. Category A infectious substances as described in Publication 52, item 346.12a are substances transported in a form capable of causing permanent disability or life-threatening or fatal disease in otherwise healthy humans or animals when exposure occurs. A Category A infectious substance is assigned the identification number UN 2814 or UN 2900, based on the known medical history or symptoms of the source patient or animal, endemic local conditions, or professional judgment concerning the individual circumstances of the source human or animal. A list of indicative examples of infectious substances included in Category A can be found in International Air Transportation Association (IATA) Dangerous Goods Regulations, Table 3.3.D.

b. Category B infectious substances are mailable when they meet the definition in Publication 52, item 346.12a and are limited to 50 ml for liquids or 50 g for solids per mailpiece. A Category B infectious substance does not meet the criteria for inclusion in Category A. A mailpiece known or suspected to contain a Category B infectious substance must bear the proper shipping name “Biological substance, Category B” on the address side of the mailpiece and must be assigned to and marked with identification number UN 3373.

c. Nonregulated (noninfectious) materials described in Publication 52, section 346.234 as nonregulated are mailable. Nonregulated substances do not contain infectious substances or substances that are likely to cause disease in humans or animals. Nonregulated materials are not subject to regulation as materials, but when presented for mailing, they must be properly packaged as described in Publication 52, Packaging Instruction 6G.

d. Exempt human or animal specimens as defined in Publication 52, item 346.12d are mailable. They are not subject to regulation as materials, but when presented for mailing, they must be properly packaged as described in Publication 52, Packaging Instruction 6H.

Type of Mail

Category B infectious substances must be sent only by First-Class Package International Service using Registered Mail service. Nonregulated materials defined in Publication 52, section 346.234 and exempt human or animal
specimens defined in Publication 52, item 346.12d are mailable by First-Class Package International Service when properly packaged as described in Publication 52, Packaging Instruction 6G or 6H.

135.13 Senders and Receivers
Substances identified in 135.11b must be sent only by authorized laboratories to their foreign counterparts in those countries that have indicated a willingness to accept them.

*Note:* Countries distinguish between infectious and noninfectious (nonregulated) biological substances and may prohibit one or the other or both. See “Prohibitions” in the Individual Country Listings.

135.2 Authorization

135.21 Authorized Institutions
Infectious biological substances can be sent to or received by only the following types of institutions:

a. Laboratories of local, state, and federal government agencies.
b. Laboratories of federally licensed manufacturers of biological products derived from bacteria and viruses.
c. Laboratories affiliated with or operated by hospitals, universities, research facilities, and other teaching institutions.
d. Private laboratories licensed, certified, recognized, or approved by a public authority.

135.22 Request for Authorization
A qualifying institution wishing to mail packages containing biological substances must submit a written request on its organizational letterhead to the following address:

MANAGER OF PRODUCT CLASSIFICATION
US POSTAL SERVICE
475 L’ENFANT PLZ SW RM 4446
WASHINGTON DC 20260-5015

In its letter of application, the institution must indicate the nature of its work, the identity and qualifications of the prospective recipient, and the number of packages to be mailed.

135.3 Packaging, Marking, Labeling

135.31 Category B Infectious Substances
A material that is classified as a Category B infectious substance and that meets the definition in Publication 52, item 346.12a, must be triple-packaged as described in Publication 52, Packaging Instruction 6C, must meet the packaging requirements in 49 CFR 173.199, and must be sent only by First-Class Package International Service using Registered Mail service. Each primary receptacle containing a liquid must be leakproof and surrounded by absorbent material sufficient to protect the primary receptacle and absorb the total amount of liquid should the primary receptacle leak or break. Each primary receptacle containing a solid must be sift proof. Secondary containers for liquids must be leak proof. Secondary containers for solids
must be sift proof. The primary and secondary packaging must be enclosed in a rigid outer shipping container. A single primary receptacle must not contain more than 1 liter (34 ounces) of a liquid specimen or 4 kg (8.8 pounds) of a solid specimen. Multiple primary receptacles whose combined volume does not exceed 4 liters (1 gallon) for liquids or 4 kg (8.8 pounds) for solids may be enclosed in a single secondary container. In addition:

a. The secondary container must be marked with the international biohazard symbol shown in Publication 52, Exhibit 346.321.

b. A primary receptacle or secondary packaging containing liquid must be capable of withstanding, without leakage, an internal pressure producing a pressure differential of not less than 95 kPa (0.95 bar, 14 psi) in the range of -40° C to 55° C (-40° F to 130° F).

c. All mailpieces sent under DMM 601.10.17.4 must be marked on the address side with the shipping name “Biological substance, Category B” and the “UN 3373” marking as outlined in 49 CFR 173.199 (a) (5).

d. Orientation arrows are not required on these mailpieces but may be used.

e. The outer packaging must show the name and telephone number of a person who is knowledgeable about the material shipped and has comprehensive emergency response and incident mitigation information, or of someone who has immediate access to the person with such knowledge and information.

135.32 Nonregulated Materials (Noninfectious Biological Substances)

Nonregulated materials are not subject to regulation as materials but when presented for mailing, they must be properly packaged, marked, and labeled as described in Publication 52, Packaging Instruction 6G.

135.33 Exempt Human or Animal Specimens

Exempt human or animal specimens are not subject to regulation as materials but when presented for mailing, they must be properly packaged, marked, and labeled as described in Publication 52, Packaging Instruction 6H.

135.4 Handling and Dispatch of Infectious Substances

135.41 Biological Substances

Items that contain perishable biological substances must be given careful yet expeditious handling from receipt through dispatch.

135.42 Infectious Substances

Shipments containing infectious substances must be segregated from other types of mail matter (i.e., placed in separate sacks). PS Tag 44, Sack Contents Warning, must be attached to the outside of sacks to identify the nature of the contents. PS Tag 44 is for internal use only, and must be removed from mail sacks, and the materials tendered to air carriers as outside pieces.
135.5 **Radioactive Materials**

Shipments containing radioactive materials are acceptable in international mail subject to the provisions of Publication 52, part 347 and under the following conditions:

a. Shipments may be sent only by First-Class Package International Service using Registered Mail service.

b. Shipments may be sent only to those countries that have expressed a willingness to accept radioactive materials. See “Prohibitions and Restrictions” in the Individual Country Listings.

c. Shipments must comply with the International Atomic Energy Agency rules and regulations.

d. Senders and recipients of radioactive materials must receive prior authorization from the appropriate regulatory authorities within their countries.

e. A white package label bearing the French words “Matieres Radioactives” (Radioactive Materials) must be applied to the address side of each package containing radioactive materials. Senders are responsible for supplying and affixing this label to the package.

f. The package must also bear the following endorsements in bold letters: “RETURN TO SENDER IN CASE OF NONDELIVERY” and “RADIOACTIVE MATERIALS, QUANTITIES PERMITTED FOR MOVEMENT BY POST.”

135.6 **Batteries**

135.61 **Availability — Mail Classes**

Shipments containing lithium cells or batteries, regardless of quantity or type — lithium metal or lithium alloy (non-rechargeable) or lithium-ion or lithium polymer (rechargeable) — are nonmailable in Global Express Guaranteed service. The standards under 135.62 through 135.64 apply to all other outbound international mail classes.

135.62 **General**

Only lithium cells and batteries under 135.63 and 135.64 that are properly installed in the equipment they are intended to operate may be sent internationally or to APO, FPO, or DPO locations when not restricted or prohibited by the destination country or APO, FPO, or DPO location. For specific country restrictions, see the applicable Individual Country Listing. For specific APO, FPO, or DPO restrictions, see the information for the destination ZIP Code in the article titled “Overseas Military/Diplomatic Mail” published in each issue of the *Postal Bulletin*.

Lithium batteries packed with equipment and lithium batteries sent separate from equipment are prohibited. Damaged or recalled batteries are prohibited and may not be mailed internationally under any circumstances.
135.63 **Lithium Metal or Lithium Alloy (Non-Rechargeable) Cells and Batteries**

Small consumer-type lithium metal or lithium alloy (non-rechargeable) cells and batteries like those used to power cameras and flashlights are mailable in a single shipment with the following restrictions:

a. The batteries must be installed in the equipment they are intended to operate.

b. Each shipment may contain a maximum of four lithium cells or two lithium batteries.

c. The lithium content must not exceed 1 gram (g) per cell.

d. The total aggregate lithium content must not exceed 2 g per battery.

e. The batteries installed in the equipment must be protected from damage and short circuit.

f. The equipment must be equipped with an effective means of preventing it from inadvertently being turned on or activated.

g. The equipment must be contained in a strong, sealed package and cushioned to prevent movement or damage.

h. Mailpieces must not bear markings or labels identifying the contents as lithium batteries.

135.64 **Lithium-ion or Lithium Polymer (Rechargeable) Cells and Batteries**

Small consumer-type lithium-ion or lithium polymer (rechargeable) cells and batteries like those used to power cell phones and laptop computers are mailable in a single shipment with the following restrictions:

a. The batteries must be installed in the equipment they are intended to operate.

b. Each shipment may contain a maximum of four lithium cells or two lithium batteries.

c. The total Watt-hour rating (Wh) for each cell must not exceed 20 Wh per cell.

d. The total Wh for each battery must not exceed 100 Wh per battery.

e. Each battery must bear the Wh marking on the battery to determine if it is within the limits defined in 135.64c and 135.64d.

f. The batteries installed in the equipment must be protected from damage and short circuit.

g. The equipment must be equipped with an effective means of preventing it from inadvertently being turned on or activated.

h. The equipment must be contained in a strong, sealed package and cushioned to prevent movement or damage.

i. Mailpieces must not bear markings or labels identifying the contents as lithium batteries.
Nonmailable Goods

Dangerous Goods
Except as provided in IMM 135, “dangerous goods” as defined by the United Nations Recommendations on the Transport of Dangerous Goods, Model Regulations, are prohibited in outbound international mail, regardless of mail class. Some examples of dangerous goods include the following:

b. Flammable materials.
   (1) Pyrophoric, flammable, or combustible liquids with a closed cup flash point below 200°F.
   (2) Flammable solids, including matches.
c. Oxidizers.
d. Corrosives, liquid or solid.

Inert and Replica Explosive Devices
The following types of inert or replica explosive devices are prohibited in outbound international mail:

a. Military ordnance, ammunition, and shells.
b. Grenades.
c. Similar devices that were originally designed for military or combative use (including training).

This prohibition does not extend to items such as children’s toys or articles that do not represent the above items in a realistic manner.

Counterfeit and Pirated Items
Any type of counterfeit or pirated article is prohibited in international mail.

Cigarettes and Smokeless Tobacco
Cigarettes (including roll-your-own tobacco) and smokeless tobacco products as defined in Publication 52, part 471 are nonmailable when sent in outbound or inbound international mail. The exceptions for mailing under Publication 52, section 472.2 are not available for shipments of such products in international mail. This standard prevails regardless of any information to the contrary in the Individual Country Listings.
Firearms, Knives, and Sharp Instruments

Some knives and sharp instruments (see Publication 52, subchapter 44 and part 633) may be mailed to certain countries under the conditions specified in the Individual Country Listings. See 540 for U.S. Department of State licensing requirements applicable to the international mailing of arms or implements of war, component parts, and related technical data.

Customers can obtain information from the U.S. Department of Agriculture (USDA) Animal and Plant Health Inspection Service (APHIS) Plant Protection and Quarantine (PPQ) Programs at:

USDA APHIS PPQ
4700 RIVER RD
RIVERDALE MD 20737-1228

Eggs

Restrictions

Eggs may be sent only by Priority Mail International. See 550 for nonpostal regulations on dried whole eggs.

Packaging

Eggs must be packaged in the following manner:

metal egg container must be enclosed in an outer container of wood with cushioning packed between the two containers.

b. Eggs mailed to Canada may be packed either as prescribed in 138.32a or in a box of rigid material with a tight-fitting lid. Each egg must be wrapped in protective material and placed on end. Vacant spaces in the box must be filled with packing material to prevent the eggs from striking each other or the box.

138.4 Food and Other Perishable Articles

a. The cremated remains are not otherwise prohibited by the destination country (see the Individual Country Listing).

b. The package is sent only by Priority Mail Express International service. (See the Individual Country Listings for availability.)

139.2 Packaging
The mailer must package cremated remains (human or animal ashes) in a sealed and sifterproof funeral urn. The mailer must place the urn into a strong and durable outer container, and must pack the outer container with sufficient cushioning material to prevent shifting during transit. The outer container must be sifterproof to prevent powders from escaping and thereby soiling, damaging, or destroying another mailpiece or any postal equipment, or from causing discomfort to a person. Also see Publication 52, Packaging Instruction 10C.

139.3 Markings
The mailer must indicate the identity of the contents on the required applicable customs declaration form (see 123.61).

140 International Mail Categories

141 Definitions

141.1 General
There are five principal categories of international mail that are primarily differentiated from one another by speed of service. They are Global Express Guaranteed (GXG) service, Priority Mail Express International service, Priority Mail International service, First-Class Mail International service, and First-Class Package International Service.
141.2 Global Express Guaranteed
Global Express Guaranteed is the U.S. Postal Service’s premium international mail service. Global Express Guaranteed is an expedited delivery service that is the product of a business alliance between the U.S. Postal Service and FedEx Corporation. It provides reliable, high-speed, time-definite service from designated U.S. ZIP Code areas to locations in most destination countries. Global Express Guaranteed is assured to meet destination-specific delivery standards or the postage will be refunded. If a shipment is lost or damaged, liability for loss or damaged merchandise or for document reconstruction is limited to a maximum of $100 or the amount of additional optional insurance purchased. The maximum weight limit for Global Express Guaranteed service is 70 pounds, but lower country-specific weight limits might apply. To determine the maximum weight limit for each country, see the Individual Country Listings or Publication 141, Global Express Guaranteed Service Guide.

141.3 Priority Mail Express International
The next level of service, in terms of speed and value-added features, is Priority Mail Express International. Priority Mail Express International is an expedited mail service that can be used to send documents and merchandise to most of the country locations that are individually listed in this publication. Priority Mail Express International insurance coverage against loss, damage, or missing contents, up to a maximum of $200, is provided at no additional charge. Additional merchandise insurance coverage up to $5,000 may be purchased at the sender’s option to many countries. Document reconstruction insurance coverage is limited to a maximum of $100 per shipment. Country-specific maximum weight limits range from 22 pounds to 70 pounds. See the Individual Country Listings. Priority Mail Express International shipments offer a date-certain, postage-refund guarantee to select destinations: see 221.2 and the Individual Country Listings to determine the availability of such service. For all other destinations, Priority Mail Express International shipments are not subject to a postage refund guarantee if a delivery delay occurs.

141.4 Priority Mail International
Priority Mail International is subject to the provisions of the Universal Postal Union Parcel Convention. This classification is primarily designed to accommodate larger and heavier shipments whose size and/or weight exceeds the limits for First-Class Mail International service or First-Class Package International Service. For countries that offer parcel service, maximum weight limits range from 22 pounds to 70 pounds. To determine the maximum weight limit for each country, see the Individual Country Listings. At the sender’s option, extra services, such as additional merchandise insurance coverage and return receipt service, may be added on a country-specific basis.

Priority Mail International Flat Rate Envelopes and Small Flat Rate Priced Boxes provide customers with an economical means of sending correspondence, documents, printed matter, and lightweight merchandise items to foreign destinations. The maximum weight limit is 4 pounds.
Registered Mail service is not available for Priority Mail International Flat Rate Envelopes and Small Flat Rate Priced Boxes. At the sender’s option, extra services, such as additional merchandise insurance coverage and return receipt service, may be added to Priority Mail International Flat Rate Envelopes and Small Flat Rate Priced Boxes on a country-specific basis.

141.5 **First-Class Mail International**
First-Class Mail International is a generic term for mailpieces that are postcard-size, letter-size, or flat-size and weigh less than 16 ounces (the actual weight limit is 15.994 ounces, to accommodate Postal Service systems that round to three decimal places and thus round items that weigh 15.995–15.999 ounces up to 16 ounces). First-Class Mail International items may contain any letter-size or flat-size mailable correspondence or nondutiable documents that are not prohibited by the destination country. Aerogrammes are no longer available for purchase. Previously purchased aerogrammes are mailable at the applicable First-Class Mail International letter-size price. At the sender’s option, extra services, such as Registered Mail and return receipt, may be added on a country-specific basis.

141.6 **First-Class Package International Service**
First-Class Package International Service is a generic term for mailpieces that are package-size (small packets), that weigh 4 pounds or less, and that have a value of $400 or less. First-Class Package International Service items may contain any package-size item (small packet) that is not prohibited by the destination country. At the sender’s option, extra services, such as Registered Mail and return receipt, may be added on a country-specific basis.

142 **Official Mail**

142.1 **Mailings by Federal Agencies**
Official mail (sent by federal agencies and departments listed in Postal Service Handbook DM-103, *Official Mail*) that bears the indicia prescribed in DMM 703 may be sent to foreign destinations. Such items are subject to the postage payment requirements, weight and size limits, customs form requirements, and general conditions for mailing that otherwise apply to the class and category of the international mail being sent.

142.2 **Postal Service Mailings**
International mailpieces that are sent by or on behalf of the U.S. Postal Service must bear the prescribed G-10 permit indicia. Postal Service official mail is subject to all restrictions (e.g., maximum size and weight limits) as defined in the Individual Country Listings for the destination country of mailing.

142.3 **Mail of a Former President and Surviving Spouse of a Former President**
All nonpolitical mail of former United States Presidents, and of the surviving spouse of a former President, must be accepted without prepayment of postage if it bears the written signature of the sender, or a facsimile signature and the words “POSTAGE AND FEES PAID” in the upper-right corner of the address side.
142.4 General Secretariat of the Organization of American States (OAS)

The following standards apply when mail is sent as OAS General Secretariat official mail:

a. Only unregistered or registered First-Class Mail International and First-Class Package International Service items bearing the return address of the OAS General Secretariat and weighing not more than 4 pounds are accepted without postage when addressed to the OAS member countries listed in 142.4b. Items in all other mail classes must be prepaid by the mailer.

b. The following countries are members of the Organization of American States (OAS):

142.5 Pan American Sanitary Bureau Mail

Only unregistered First-Class Mail International and First-Class Package International Service items bearing the return address of the Pan American Sanitary Bureau and weighing not more than 4 pounds are accepted without postage affixed when addressed to an OAS member country listed in 142.4b or to Cuba. Registered First-Class Mail International and First-Class Package International Service items, as well as items in all other mail classes, must be prepaid by the mailer.

150 Postage

151 Postage Prices

See Individual Country Listings.

152 Payment Methods

152.1 Prepayment

Each item must be fully prepaid to ensure prompt dispatch and to avoid assessment of charges against the addressee. For the treatment of shortpaid and unpaid mail, see 420.
152.2 Computing Postage

152.21 Determining Single-Piece Weight
To determine single-piece weight in any mailing at single-piece prices, or in a bulk price mailing of nonidentical-weight pieces, weigh each piece individually. To determine single-piece weight in any other bulk or presort price mailing of identical-weight pieces (e.g., IPA or ISAL), weigh a sample group of at least 10 randomly selected pieces and divide the total sample weight by the number of pieces in the sample. Express all single-piece weights in decimal pounds rounded off to four decimal places.

152.22 Rounding Numerical Values
For these standards:

a. *Round off* requires increasing by 1 the last digit to be kept if the digit to its right, which is not to be kept, is 5 or greater. If that digit is 4 or less, the last digit kept is unchanged (e.g., 3.3761 rounded off to two decimal places is 3.38, whereas 3.3741 is 3.37).

b. *Round up* requires increasing by 1 the last digit to be kept if there are any digits to its right, regardless of value (e.g., rounding up either 3.3701 or 3.3791 to two decimal places yields 3.38).

152.3 Stamps

152.31 Types of Stamps
The following types of stamps may be used to pay for postage and fees for extra services listed under chapter 3 for all single-piece international mail transactions:

a. *Denominated postage stamps*: A denominated postage stamp’s value is based on the dollar amount that is printed on the stamp. Any denominated postage stamp issued by the United States, unless listed in DMM 604.1.3, is valid for postage.

b. *Nondenominated postage stamps (excludes precanceled stamps under 152.33)*: A nondenominated postage stamp’s value is linked to its domestic postage issue price (e.g., the *Antique Toys* stamp, issued on June 7, 2002, has a postage value of 37 cents). A complete listing of nondenominated postage stamps is available in Quick Service Guide (QSG) 604a found online at [pe.usps.com/cpim/ftp/manuals/qsg300/q604a.pdf](http://pe.usps.com/cpim/ftp/manuals/qsg300/q604a.pdf).

c. *Nondenominated semi-postal stamps*: Nondenominated semi-postal stamps (e.g., *Stop Family Violence* or *Breast Cancer Research*) are sold at a price that exceeds the postage value of the stamp, with the amount exceeding postage going to the stated cause. Only their value (at the time of purchase) may be used to pay postage. A complete listing of these semi-postal stamps and their issue prices are available in QSG 604a found online at [pe.usps.com/cpim/ftp/manuals/qsg300/q604a.pdf](http://pe.usps.com/cpim/ftp/manuals/qsg300/q604a.pdf).

d. *Forever Stamps (domestic)*: A domestic Forever stamp’s value is linked to the domestic First-Class Mail single-piece 1-ounce machinable letter price that is in effect on the day of use (mailing) regardless of when the stamp is purchased and regardless of how prices may change in the future.
e. **Global Forever Stamps**: A Global Forever stamp’s value is linked to the First-Class Mail International single-piece 1-ounce machinable letter price that is in effect on the day of use (mailing) regardless of when the stamp is purchased and regardless of how prices may change in the future. Global Forever stamps can be used to mail a postcard or 1-ounce machinable letter-size mailpiece anywhere in the world. In addition, mailers may use a Global Forever stamp as postage for any type of single-piece international or domestic mailpiece. Global Forever stamps are round and always bear the words “Global Forever.”

### 152.32 Additional Postage for Nondenominated Postage Stamps, Forever Stamps, or Forever Print-on-Demand Indicias

Because international postage prices are always higher than the comparable domestic postage prices, mailers who affix a single nondenominated postage stamp (see 152.31b), a single nondenominated semi-postal stamp (see 152.31c), a single domestic Forever stamp (see 152.31d), or a single Forever Print-on-Demand Indicia label (see 152.4) to their outbound mailpieces must add additional postage to comply with the international price schedule.

### 152.33 Precanceled Stamps

Except for the “Nonprofit Org.” variant, mailers may use precanceled stamps for only IPA mailings (see 293.333) and ISAL mailings (see 293.333). The same conditions that are applicable to domestic mail under DMM 604 apply.

### 152.4 Postage Meters, Postage Validation Imprints (PVI), Forever Print-on-Demand Indicia, and PC Postage

Postage meter imprints, postage validation imprint (PVI) labels, Forever Print-on-Demand Indicia labels, and PC Postage imprints are collectively identified as “postage evidencing systems.” A postage evidencing system is a device or system of components that a customer uses to print evidence that postage required for mailing has been paid. Postage evidencing systems print indicia, such as meter imprints or information-based indicia (IBI), to indicate postage payment. Mailers may print these indicia directly on a mailpiece or on a label that is affixed to a mailpiece to pay postage and fees for extra services (see chapter 3) for all single-piece mail transactions. In addition, postage meters may also be used to pay for the “per piece price” portion of IPA (see 292) and ISAL (see 293) mailings. For additional information, including a listing of authorized postage meter and PC Postage providers, see DMM 604.4.

### 152.5 Additional Standards for Forever Print-on-Demand Indicia Labels

Mailers may use the USPS-produced Forever Print-on-Demand Indicia labels, which bear an information-based indicia (IBI) and the word “Forever,” in the same way as the Forever stamp described in 152.31d.
152.6 Permit Imprint

152.61 Conditions of Use

Postage may be paid by permit imprint, subject to the standards in DMM 124, 604, and 705. When a customer pays a permit imprint application fee, the Postal Service accepts that fee for international outbound and/or domestic mailings. Postage charges are computed on PS Form 3700. This postage payment method may be used for postage and extra service fees for the following services:

a. Global Express Guaranteed service prepared under 213.8.

b. Priority Mail Express International service prepared under 223.221.

c. Priority Mail International service.

d. First-Class Mail International service.

e. First-Class Package International Service.

f. International Priority Airmail (IPA) service.

g. International Surface Air Lift (ISAL) service.

152.62 Place of Mailing

Mail must be deposited and accepted at the Post Office that issued the permit, at a time and place designated by the postmaster, except as otherwise provided for drop shipments.

152.63 Usage Criteria

152.631 Global Express Guaranteed, Priority Mail Express International, Priority Mail International, and First-Class Package International Service

For Global Express Guaranteed, Priority Mail Express International, Priority Mail International, and First-Class Package International Service items, a mailer may use a permit imprint for international items addressed to recipients in foreign countries as follows:

a. The minimum for items from one mail class is 200 pieces or 50 pounds. The mailer must submit the appropriate postage statement for the mail class.

Note: The mailer may submit mailings for more than just one mail class, but the mailing for each mail class must meet the minimum of 200 pieces or 50 pounds, and the mailer must submit a postage statement for each mail class. If a mailing for a mail class does not meet the minimum requirements, the mailer may qualify to use a permit imprint for international items under items 152.631b or 152.631c.

b. If the mailer fails to meet the minimum requirement for one mail class (see 152.631a), the mailer may submit items from multiple mail classes totaling at least 200 pieces or 50 pounds combined from the various mail classes. The mailer must physically separate the items by mail class and submit a separate postage statement for each mail class.

c. If the mailer fails to meet the minimum requirement for either one mail class (see 152.631a) or multiple mail classes (see 152.631b), the mailer may submit international permit imprint mailing items with any qualifying domestic permit imprint mailing under DMM 604 or 705, or with any qualifying international permit imprint mailing under 152.632.
or 152.633 with no minimum quantity requirement. The mailer must physically separate the items by mail class, must submit a separate postage statement for each mail class, and must present both the international permit imprint mailing and the qualifying domestic permit imprint mailing at the same time.

152.632 First-Class Mail International
For First-Class Mail International items, a mailer may use a permit imprint for international items addressed to recipients in foreign countries only when a mailing contains a minimum of 200 pieces or 50 pounds of First-Class Mail International service items. In contrast to 152.631b, the mailer may not combine First-Class Mail International service items with items from other international mail classes, and in contrast to 152.631c, the mailer may not combine First-Class Mail International service items with domestic mail classes to reach the minimum quantity requirement.

Note: As discussed in 152.631c, a mailer who meets the minimum requirements for First-Class Mail International service items may combine with that mailing other permit imprint mailings for Global Express Guaranteed, Priority Mail Express International, Priority Mail International, or First-Class Package International Service items. The mailer must physically separate the items by mail class and submit a separate postage statement for each mail class.

152.633 IPA and ISAL
See 292.23 and 293.23 for the minimum quantity requirements that govern the entry of International Priority Airmail (IPA) items and International Surface Air Lift (ISAL) items, respectively.

Note: As discussed in 152.631c, a mailer who meets the minimum requirements for IPA or ISAL items may combine with that mailing other permit imprint mailings for Global Express Guaranteed, Priority Mail Express International, Priority Mail International, or First-Class Package International Service items. The mailer must physically separate the items by mail class and submit a separate postage statement for each mail class.

152.634 M-bags
For M-bag mailings (see 260), no minimum quantity requirement applies.

152.64 Required Format
Each mailpiece sent under this payment method must bear a permit imprint indicia showing that postage is paid. Permit imprint indicia must be prepared in one of the formats shown in Exhibit 152.64. No variations or additions — such as Bulk Rate, Media Mail, Presorted Standard, Enhanced Carrier Route Sort, Automation Rate, Nonprofit Organization, or Bound Printed Matter — are allowed. Mailpieces may bear a company permit imprint, in which the exact name of the company or individual holding the permit is shown in the indicium in place of the city, state, and permit number. The mailer may substitute the abbreviation “INTL” in place of “INTERNATIONAL” in any of the indicia formats in Exhibit 152.64. Mailings prepared with a company permit imprint must comply with the standards in DMM 604.5.3.9.

153 **Placement of Postage**

a. Postage stamps and postage-paid impressions must be applied to the address side of mail in the upper-right corner. The postage meter stamp, postage validation imprinter (PVI) label, or permit may be affixed directly on the mailpiece or on the wrapper when plastic wrap is used.

b. Nonpostage stamps, labels resembling postage stamps, or impressions resembling postage-paid impressions must *not* be placed on the address side of international mailpieces.

154 **Remailed Items**

New postage is required when mailpieces are reentered after having been returned to the sender by a foreign postal administration.
2 Conditions for Mailing

210 Global Express Guaranteed

211 Description and Physical Characteristics

211.1 General
Global Express Guaranteed (GXG) service is an international expedited delivery service provided through an alliance with FedEx Express. It provides reliable, high-speed, guaranteed, and day-definite service from selected Post Office facilities in the United States to a large number of international destinations. (See the “Countries and Cities Served” section of Publication 141, Global Express Guaranteed Service Guide, for destination service commitments.) Global Express Guaranteed service is guaranteed to meet the specified service standards or the postage paid may be refunded. For almost all network destinations, liability insurance is provided for lost or damaged shipments. See 212.45.

211.2 Physical Characteristics

211.21 Weight Limits
The maximum weight limit for Global Express Guaranteed service is 70 pounds, but lower country-specific weight limits might apply. To determine the maximum weight limit for each country, see the Individual Country Listings.

211.22 Dimensions

211.221 Maximum Size
Maximum size dimensions for Global Express Guaranteed service are noted in the Individual Country Listings; however, dimensions may not exceed the following:

a. Length: 46 inches.
b. Width: 35 inches.
c. Height: 46 inches.
d. Combined length and girth: 108 inches.

211.222 Minimum Size
The surface area of the address side of the item to be mailed must be large enough to completely contain the Global Express Guaranteed Air Waybill/Shipping Invoice (shipping label), postage, endorsement, and any applicable markings. The shipping label is approximately 5.5 inches high and 9.5 inches long.
Eligibility

212.1 General — All Global Express Guaranteed Shipments
Documents and general correspondence (nondutiable items) and non-documents (all dutiable items including merchandise) may be shipped using Global Express Guaranteed service. Mailers must certify that the shipment does not contain any restricted or dangerous goods prohibited by the destination country or postal regulations and does not require the filing of Electronic Export Information (EEI), formerly known as the Shipper’s Export Declaration (SED). The maximum value of a Global Express Guaranteed document or non-document shipment is $2,499 or a lesser amount as limited by country, content, or value. The sender is responsible for determining if the item is allowable despite any statement made in Publication 141, on the Global Express Guaranteed Web site, or by a Postal Service employee or the Postal Service’s agents.

212.2 Customs Forms Required
PS Form 6182, Commercial Invoice, is required for certain commodities and destinations. To determine if PS Form 6182 is required for a specific mailing, refer to the “Documentation Requirement” section of the specific destination country in Publication 141.

212.3 Mail Sealed Against Inspection
Global Express Guaranteed mailpieces containing only documents are sealed against inspection. Global Express Guaranteed mailpieces containing non-documents are not sealed against inspection. Regardless of physical closure, the mailing of Global Express Guaranteed mailpieces containing non-documents constitutes consent by the mailer to inspection of the contents.

212.4 Inquiries, Service Guarantees, Postage Refunds, and Indemnity

212.41 Service Guarantee
The Postal Service guarantees delivery within the service standards specified in Publication 141 or the sender may be entitled to a full refund of the postage paid. For the purpose of the money-back guarantee, the date and time of delivery, attempted delivery, or availability for delivery constitutes delivery.

212.42 Transit Days for Shipments
Transit days are available from participating Post Office facilities, online though Click-N-Ship service, and in the “Countries and Cities Served” section of Publication 141. Total transit days for Global Express Guaranteed service may be affected by factors beyond the Postal Service’s control, which may include but are not limited to the following:

a. General customs delays.

b. Specific customs commodity delays.

c. Holidays observed in the destination country.
212.43 Inquiries
Make inquiries concerning the delivery of Global Express Guaranteed items by calling 800-222-1811 or through the Postal Service Web site at [usps.com/shipping/trackandconfirm.htm](http://usps.com/shipping/trackandconfirm.htm).

212.44 Postage Refunds
Postage may be refunded for a shipment accepted at a participating Post Office facility by the specified deposit time and not delivered to the recipient in accordance with the transit times defined in Publication 141. In accordance with the money-back guarantee standards in Publication 141, a refund request may be filed if the carrier at the destination country does not deliver the shipment, does not attempt to deliver the shipment, or does not make the shipment available on or before close of business in the local time zone in the delivery location. To request a refund or obtain details on how to file a claim, contact a customer service representative at 800-222-1811 — the Global Express Guaranteed customer service office is responsible for adjudicating a refund request for Global Express Guaranteed service. The original receipt or a copy of the Global Express Guaranteed Air Waybill (shipping label) may be required for a postage refund. Requests for postage refunds must be made no later than 30 days from the date of mailing. The signature of the recipient or recipient’s agent is required upon delivery of the refund. The money-back guarantee does not apply to shipments to post office box addresses acceptable for delivery or other exclusions defined in the “Summary of Our Terms and Conditions” section of Publication 141.

212.45 Global Express Guaranteed Insurance and Indemnity
Document reconstruction insurance (the reasonable costs incurred in reconstructing duplicates of nonnegotiable documents mailed) and non-document insurance for loss or damage up to $100 per shipment are included at no additional charge. (See the Individual Country Listings for availability.) Additional insurance may be purchased for document and non-document shipments (see 212.5). The total cost of document reconstruction or for insurance purchased for non-documents cannot exceed $2,499 or a lesser amount as limited by country, content, or value. Coverage, terms, and limitations are subject to change.

212.46 Indemnity Claims
If a shipment is lost or damaged, the sender may file a claim for document reconstruction costs (for document items) or for the declared value of the shipment costs (for non-document items). The sender must submit all claims within 30 days of the shipment date by contacting a customer service representative at 800-222-1811. The sender must submit all supporting documentation within 9 months of the mailing date. The representative provides more details on how to file a claim. The original receipt or a copy of the Global Express Guaranteed Air Waybill (shipping label) may be required when filing a claim. Consult Publication 141 for limitations and restrictions on indemnity payments for Global Express Guaranteed items. The Global Express Guaranteed customer service office is responsible for adjudicating a claim for Global Express Guaranteed service. Contact the Global Express Guaranteed customer service office at 800-222-1811. The Postal Service makes the final approval and payment.
212.47 Liability for Lost or Damaged Contents

Unless additional insurance is purchased, liability for a lost or damaged Global Express Guaranteed shipment is limited to the lowest of the following:

a. $100.

b. The actual amount of the loss or damage.

c. The actual value of the contents.

“Actual value” means the lowest cost of replacing, reconstructing, or reconstituting the allowable contents of the shipment (determined at the time and place of acceptance).

212.5 Extra Services — Insurance

Additional insurance coverage above $100, up to a maximum of $2,499 may be purchased at the sender’s option. Amounts vary by country, content, or value. Coverage, terms, and limitations are subject to change. See the Individual Country Listings for insurance limits. See Notice 123, Price List, for the fee schedule for optional Global Express Guaranteed document reconstruction insurance or non-document insurance coverage.

213 Prices and Postage Payment Methods

213.1 Availability and Price Application — General

Global Express Guaranteed shipments are charged postage for each addressed piece according to its weight (or dimensional weight) and zone. See the Individual Country Listings for availability, additional details, and prices.

213.2 Postage Payment Methods — General

Global Express Guaranteed shipments may be paid with postage stamps, postage validation imprinter (PVI) labels, postage meter stamps, information-based indicia (IBI), PC Postage service, or permit imprint under 213.8.

213.3 Determining Postage for Global Express Guaranteed Service

213.31 USPS-Produced Global Express Guaranteed Envelopes

Postage for items mailed in USPS-produced Global Express Guaranteed envelopes is based on the weight of the piece. For items weighing 0.5 pound or less, the postage is the 0.5-pound price. For all other items, the postage is charged per pound or fraction thereof — any fraction of a pound is rounded up to the next whole pound.

213.32 Mailer-Supplied Packaging

Postage for items not mailed in USPS-produced Global Express Guaranteed envelopes is based on the dimensional weight, as calculated under 213.4, or the per-pound weight or fraction thereof rounded up to the next whole pound, whichever is greater.
213.4 **Dimensional Weight**

213.41 **Determining Dimensional Weight for a Rectangular-Shaped Parcel**

Follow these steps to determine the dimensional weight for a rectangular-shaped parcel:

a. Determine the length, width, and height in inches. Round off each measurement to the nearest whole inch.

b. Multiply the length by the width by the height.

c. Divide the result by 166. For weights less than 0.5 pound, round up to 0.5 pound. For all other weights, round up to the next whole pound.

213.42 **Determining Dimensional Weight for a Nonrectangular-Shaped Parcel**

Follow these steps to determine the dimensional weight for a nonrectangular-shaped parcel:

a. Determine the length, width, and height in inches. Measure the length, width, and height at their extreme dimensions. Round off each measurement to the nearest whole inch.

b. Multiply the length by the width by the height.

c. Multiply the result by an adjustment factor of 0.785.

d. Divide the result by 166. For weights less than 0.5 pound, round up to 0.5 pound. For all other weights, round up to the next whole pound.

213.5 **Destinating Countries and Price Groups**

Global Express Guaranteed service is available to the destinating countries and territories listed in Exhibit 213.5. Countries are placed into one of eight price groups.

213.6 Commercial Prices

213.61 Commercial Base Prices
A mailer who pays postage by the online methods described in 213.7, or with a permit imprint under 213.8, qualifies for the Global Express Guaranteed Commercial Base prices, which are less than Global Express Guaranteed retail prices. Commercial Base pricing does not apply to participating retail Post Office locations. See Notice 123, Price List, for the applicable price.

213.62 Commercial Plus Prices

213.621 General
An approved mailer who pays postage with a permit imprint under 213.8, or through a registered end-user of a USPS-approved PC Postage product (except for Click-N-Ship service), qualifies for the Global Express Guaranteed Commercial Plus prices. Commercial Plus pricing does not apply to participating retail Post Office locations. See Notice 123, Price List, for the applicable price.

213.622 Commercial Plus Pricing — Eligibility
To qualify for Commercial Plus pricing, customers must agree to all terms and conditions in a standardized agreement with the Postal Service and tender at least $100,000 per year of international shipping products. For this purpose, “international shipping products” includes any combination of Global Express Guaranteed, Priority Mail Express International, Priority Mail International, or First-Class Package International Service items.

213.623 Commercial Plus Pricing — Approval
Mailers meeting the minimum revenue thresholds under 213.622 must complete an agreement with the Postal Service by contacting their account manager, or USPS Global Business via e-mail at globalcpp@usps.gov, for a commitment agreement form or for additional information.

213.7 Online Methods

213.71 Online Prices — Commercial Base or Commercial Plus Prices
For selected destination countries, Global Express Guaranteed items qualify for discounted prices (equal to the Commercial Base price or Commercial Plus price) when mailers use one of the following online shipping methods:

a. Commercial Base Price: Registered end-users of USPS-approved PC Postage products using online postage (with the exception of Click-N-Ship service).

b. Commercial Plus Price: Registered end-users of USPS-approved PC Postage products (with the exception of Click-N-Ship service).

Commercial Base and Commercial Plus prices are not available through Click-N-Ship service. The Commercial Base or Commercial Plus price is automatically applied to each shipment when mailers use one of the postage payment methods above. The discount applies only to the postage portion of the Global Express Guaranteed price. It does not apply to any other charges or fees, such as fees for Pickup on Demand service, insurance, or shipments made under a customized agreement.
213.72 **Markings Requirements**
Global Express Guaranteed mailpieces claiming the Commercial Base or Commercial Plus price paid with PC Postage must bear the appropriate price marking, printed on the piece or produced as part of the PC Postage indicia. Mailers must place the applicable marking directly above, directly below, or to the left of the postage using one of the following formats:

a. Commercial Base Price, Commercial Base Pricing, or ComBasPrice.

213.73 **Determining Online Prices**
For each addressed mailpiece, refer to [Notice 123, Price List](#), for the applicable Commercial Base or Commercial Plus price.

213.74 **Notification**
For shipments paid online with Click-N-Ship service, an e-mail notification is provided to each customer showing the applicable postage amount, acceptance time, and date.

213.75 **Postage Adjustments of Online Shipments**
Use of the online service is subject to subsequent verification of the shipment’s payment, weight, and time of entry upon acceptance by the Postal Service. Shortpaid Global Express Guaranteed (GXG) shipments paid with Click-N-Ship service is collected automatically through this system (see 423.21).

213.76 **Deposit of Online Shipments within 24 Hours**
Customers paying postage online must enter their shipment via any of the methods outlined in 215.21 within 24 hours of the time when the label is printed or the transaction is voided.

215.2 **Place of Mailing**

215.21 **Items Eligible for Deposit or Pickup**

Global Express Guaranteed items may be deposited through any of the following methods at, through, or offered by a participating Global Express Guaranteed Post Office facility, provided postage is paid by a method other than the use of postage stamps:

a. In a private mailbox bearing a return address that matches the address at the point of pickup, when the customer or business is known to reside or do business at that location.

b. Through Pickup on Demand service.

c. Through Package Pickup service.

d. At a Postal Service retail counter.

e. Into a Postal Service lobby drop.

f. In a collection box.

g. At a Contract Postal Unit (CPU).

h. At a USPS Approved Shipper location.

**Note:** A mailer may use the aforementioned methods to deposit a Global Express Guaranteed item that bears only postage stamps when the item meets both of the following characteristics:

a. Does not exceed 10 ounces.

b. Does not exceed one-half inch in thickness.

215.22 **Items Not Eligible for Deposit or Pickup**

A customer must present to an employee at a participating Global Express Guaranteed Post Office retail service counter a Global Express Guaranteed item that bears only postage stamps when the item meets either of the following characteristics:

a. Weighs more than 10 ounces.

b. Measures more than one-half inch in thickness.

The Postal Service will return an improperly presented item to the sender for proper entry and acceptance.

215.23 **Items Paid With a Permit Imprint**

Mailers who enter volume mailings paid with a permit imprint under 213.8 must enter such items through a business mail entry unit (BMEU) or, when authorized by the district BMEU manager, through a detached mail unit (DMU) at a mailer’s plant.

215.24 **Acceptance of Shipments**

For purposes of computing the delivery guarantee, Postal Service acceptance of a Global Express Guaranteed shipment occurs when it is received and scanned at a participating Global Express Guaranteed Post Office facility. Collection box deposit and Package Pickup service do not constitute Postal Service acceptance of a Global Express Guaranteed shipment. Acceptance occurs when the shipment is brought back to the Post Office facility and the acceptance office performs a retail system scan and verifies the weight, dimensions, and postage of the shipment. For items paid with Click-N-Ship service, the customer will receive an e-mail
verification of the acceptance date, time, and weight, as well as a verification of the amount of postage applicable for the shipment.

Note: Customers paying postage online must enter their shipment via any of the authorized methods outlined in 215.21 within 24 hours of the time when the label is printed, or the transaction will be void.

215.3  **Pickup On Demand Service**

Subject to the standards in 215.2, Pickup On Demand service is available for Global Express Guaranteed items. There is a single charge for Pickup On Demand service (see Notice 123, Price List), regardless of the number of items scheduled for pickup. A pickup can include any or all of the following items:

a. Global Express Guaranteed items.
b. Priority Mail Express International items.
c. Priority Mail International items.
d. First-Class Package International Service items.
e. Priority Mail Express items.

g. Package Services items.

215.4  **Package Pickup Service**

No pickup fee is charged when a Global Express Guaranteed item or items are picked up during a letter carrier’s regular delivery stop or during a scheduled stop made to collect other mail not subject to a pickup fee. Pickup service is provided in accordance with the information in DMM 507.7; for more information, also visit the online site at usps.com/pickup.

234.5 Packaging

234.51 Packaging Requirements — General
Every parcel must be securely and substantially packed. In packing, the sender must consider the nature of the contents, the climate, the length of the journey, and the numerous handlings involved in the conveyance of international mail. Heavy wrapping paper or waterproof paper is permitted only as the outside covering of a carton. Heavy objects, such as cans of food, must be surrounded with other contents or packing material in order to prevent their shifting within the parcel. For recommended packing procedures, see DMM 601.

234.52 Types of Containers
Ordinary paperboard containers are not acceptable. Parcels must be packed in one of the following:

a. Canvas or similar material.
b. Double-faced corrugated or solid (minimum 275-pound test) fiber boxes or cases.
c. Strong wooden boxes made of lumber at least 1/2-inch thick or plywood of at least three plies.

234.53 Closure Options for Wooden Boxes or Bags
If otherwise acceptable, boxes may be secured with screwed or nailed lids, and bags may be closed by sewing.

240 First-Class Mail International

241 Description and Physical Characteristics

241.1 General
The First-Class Mail International classification encompasses the categories of international mail that before May 14, 2007, were categorized as airmail letter-post and economy letter-post, postcards, and printed matter.

241.2 Physical Characteristics

241.21 Physical Standards — Letters

241.211 Weight Limit
The weight limit for a letter-size First-Class Mail International mailpiece is 3.5 ounces. Letter-size items exceeding 3.5 ounces are charged the First-Class Mail International flat-size price.

241.212 Dimensions
Letter-size mail must be rectangular and must meet the following dimensions:

a. Not less than 5-1/2 inches long or 3-1/2 inches high or 0.007-inch thick.

b. Not more than 11-1/2 inches long or 6-1/8 inches high or 1/4-inch thick.

Note: For the purpose of determining mailability or machinability of a letter-sized piece, the length is the dimension parallel to the delivery address as read, and the height is the dimension perpendicular to the length.

241.213 Color
Light-colored envelopes that do not interfere with the reading of the address and postmark must be used. Brilliant colored envelopes are not authorized.

241.214 Quality
Envelopes and packaging materials must be constructed to be strong enough to withstand normal handling. Highly glazed paper or paper with a design that affects readability or processing is not acceptable.

241.215 Bordered Envelopes and Cards
Envelopes and cards that have green bars or red- and blue-striped borders may be used for the sending of First-Class Mail International items.

241.216 Window Envelopes
Address windows for letter-size envelopes must be used under the following conditions:

a. The address window must be parallel with the length of the envelope and must be in the lower portion of the address side.

b. Nothing but the name, address, and any key number used by the mailer may appear through the address window.
c. The return address should appear in the upper-left corner. If there is no return address and the delivery address does not show through the window, the piece is handled as undeliverable mail.

d. The address disclosed through the window must be on white paper or paper of a very light color.

e. When used for Registered Mail, window envelopes must conform to the conditions in DMM 503.

f. All window envelopes for international mail must include a transparent material covering the window opening — i.e., open-panel envelopes are not acceptable.

241.217 **Nonmachinable Surcharge**
Regardless of a letter’s weight, a per-piece surcharge (see Notice 123, Price List) applies to a First-Class Mail International letter that is nonmachinable for any of the following reasons:

a. Has an aspect ratio (length divided by height) of less than 1.3 or more than 2.5.

b. Is polybagged, polywrapped, or enclosed in any plastic material.

c. Has clasps, strings, buttons, or similar closure devices.

d. Contains correspondence or nondutiable documents that cause the thickness of the mailpiece to be uneven.

e. Is too rigid (does not bend easily when subjected to a transport belt tension of 40 pounds around an 11-inch diameter turn).

f. Is more than 4-1/4 inches high or 6 inches long and less than 0.009 inch thick.

g. Has a delivery address parallel to the shorter dimension of the mailpiece.

241.22 **Physical Standards — Cards**

241.221 **Postcard Dimensions**
Each postcard claimed at a card price must be rectangular and must meet the following dimensions:

a. Not less than 3-1/2 inches high or 5-1/2 inches long or 0.007 inch thick.

b. Not more than 4-1/4 inches high or 6 inches long or 0.016 inch thick.

*Note:* Unenclosed cards exceeding the size limits for postcards are mailable at the First-Class Mail International letter price if they do not exceed 4-3/4 inches high or 9-1/4 inches long.

241.222 **Color**
Light-colored cards that do not interfere with the reading of the address and postmark must be used. Brilliant colored cards are not authorized.

241.223 **Quality**
Cards must be constructed to be strong enough to withstand normal handling. Highly glazed card stock or card stock with a design that affects readability or processing is not acceptable.
241.224 Additional Standards
To claim the card price, postcards must meet the following conditions:
   a. Postcards must consist of single cards sent without a wrapper or envelope.
   b. Privately manufactured postcards, except picture postcards, must bear the heading “Postcard.”

241.225 Right Half of Postcard
The right half of the address side of a card must be reserved for the address of the addressee and postal notations or labels.

241.226 Left Half and Reverse Side of Postcard
The left half of the address side of the card and the reverse side can be used for a message or permissible attachments. If a return address is used, it must appear in the upper-left half of the address side.

241.227 Acceptable Attachments
The following attachments may be applied to a postcard as noted, provided the attachment is made of paper or other thin material and adheres completely to the card:
   a. To the left half or the back side of the card: clippings of any kind, illustrations or photographs, or labels other than address labels.
   b. Only to the back side of the card: stamps likely to be confused with postage stamps.
   c. Only to the address side of the card for addressing purposes: address labels.

241.228 Unacceptable Attachments
The following attachments to a card are not acceptable:
   a. An attachment that is not made of paper.
   b. An attachment that does not totally adhere to the card surface.
   c. An attachment that is an encumbrance to postal processing.

241.229 Folded (Double) Cards
Folded (double) cards must be mailed in envelopes at the First-Class Mail International letter price.

241.23 Physical Standards — Large Envelopes (Flats)
241.231 Weight Limit
The weight limit for a First-Class Mail International large envelope (flat) is less than 16 ounces (the actual weight limit is 15.994 ounces, to accommodate Postal Service systems that round to three decimal places and thus round items that weigh 15.995–15.999 ounces up to 16 ounces).

241.232 Dimensions and Characteristics
Large envelopes (flats) must meet the following dimensions and characteristics:
   a. More than 11-1/2 inches long or 6-1/8 inches high or 1/4-inch thick.
   b. Not more than 15 inches long or 12 inches high or 3/4-inch thick.
   c. Flexible (see 241.236).
d. Rectangular.
e. Uniformly thick as stated in 241.235.

**Note:** The length of a large envelope (flat) is the longest dimension. The height is the dimension perpendicular to the length. A First-Class Mail International large envelope (flat) that does not meet the standards in 241.23 is not eligible for the large envelope (flat) size price and is charged the applicable First-Class Package International Service (small packet) price.

### 241.233 Color
Light-colored envelopes that do not interfere with the reading of the address and postmark must be used. Brilliant colored envelopes are not authorized.

### 241.234 Quality
Flats must be constructed to be strong enough to withstand normal handling. Highly glazed paper or paper with a design that affects readability or processing is not acceptable.

### 241.235 Uniform Thickness
Large envelopes (flats) must be uniformly thick so that any bumps, protrusions, or other irregularities do not cause more than a 1/4-inch variance in thickness. When determining variance in thickness, exclude the outside edges of a mailpiece (1 inch from each edge) when the contents do not extend into those edges. Also, exclude the selvage of any polywrap covering from this determination. Mailers must secure nonpaper contents to prevent shifting of more than 2 inches within the mailpiece if shifting would cause the piece to be nonuniform in thickness or would result in the contents bursting out of the mailpiece.

### 241.236 Minimum Flexibility
Large envelopes (flats) must be flexible. Boxes with or without hinges, gaps, or breaks that allow the piece to bend are not considered large envelopes (flats). Tight envelopes or wrappers that are filled with one or more boxes are not considered large envelopes (flats). Customers have the option to perform the tests described below and illustrated in Exhibit 241.236a–Exhibit 241.236c on their own mailpieces. When a Postal Service employee observes a customer demonstrating that a flat-size piece is flexible according to these standards, the employee does not need to perform the test. Test flats as follows:

a. All large envelopes (flats) (see Exhibit 241.236a):
   (1) Place the piece with the length parallel to the edge of a flat surface and extend the piece halfway off the surface.
   (2) Press down on the piece at a point 1 inch from the outer edge, in the center of the piece’s length, exerting steady pressure.
   (3) The piece is not flexible if it cannot bend at least 1 inch vertically without being damaged.
   (4) The piece is flexible if it can bend at least 1 inch vertically without being damaged and does not contain a rigid insert. No further testing is necessary.
(5) If the piece can bend at least 1 inch vertically without being damaged but contains a rigid insert, test the piece according to 241.236b or 241.236c.

Exhibit 241.236a

Flexibility Test — All Large Envelopes (Flats)

b. Large envelopes 10 inches or longer that demonstrate the required flexibility in 241.236a but that contain a rigid insert (see Exhibit 241.236b):

(1) Place the piece with the length perpendicular to the edge of a flat surface and extend the piece 5 inches off the surface.

(2) Press down on the piece at a point 1 inch from the outer edge, in the center of the piece’s width, exerting steady pressure.

(3) Turn the piece around and repeat steps 1 and 2. The piece is flexible if both ends can bend at least 2 inches vertically without being damaged.
c. Large envelopes less than 10 inches long that demonstrate the required flexibility in 241.236a but that contain a rigid insert (see Exhibit 241.236c):

   (1) Place the piece with the length perpendicular to the edge of a flat surface and extend the piece halfway off the surface.

   (2) Press down on the piece at a point 1 inch from the outer edge, in the center of the piece’s width, exerting steady pressure.

   (3) Turn the piece around and repeat steps 1 and 2. The piece is flexible if both ends can bend at least 1 inch vertically without being damaged.

244.3 **Sealing**
Unregistered First-Class Mail International items may be sealed at the sender’s option. Mailpieces not sealed by conventional means, such as moistening the gummed flaps on envelopes, must be closed in such a manner as to prevent the contents from falling out or being damaged during postal handling and transport. First-Class Mail International items that use Registered Mail service must be sealed. (See 334.4 for sealing requirements for Registered Mail service.)

244.4 **Packaging**
The following standards apply for packaging letter-size and flat-size First-Class Mail International items:

Mailers meeting the minimum revenue thresholds under 253.151 must complete an agreement with the Postal Service by contacting their account manager, or USPS Global Business via e-mail at globalcpp@usps.gov, for a commitment agreement form or for additional information.

253.2 **Postage Payment Methods**

253.21 **General**
First-Class Package International Service items may be paid with postage stamps, postage validation imprinter (PVI) labels, postage meter stamps, information-based indicia (IBI), PC Postage service, or permit imprint.

253.22 **Permit Imprint**

253.221 **Permit Imprint — General**
First-Class Package International Service shipments paid with a permit imprint through an advance deposit account are permitted only when requirements for Commercial Base prices or Commercial Plus prices (see 253.222) are followed. Postage paid with a permit imprint is subject to the general conditions in IMM 152.4 and in DMM 604 and 705.

253.222 **Permit Imprint — Commercial Base or Commercial Plus Prices**
A mailer who pays postage with a permit imprint qualifies for the First-Class Package International Service Commercial Base or Commercial Plus prices, which are less than First-Class Package International Service retail prices. The Commercial Base or Commercial Plus price applies only to the postage portion of First-Class Package International Service prices. In addition, mailers must meet the following requirements:

a. Electronically transmit customs declaration information as required under 123.32 by using USPS-produced Global Shipping Software (GSS) or other USPS-approved software listed at postalpro.usps.com/node/1850. (To request information about either of these software solutions, send an e-mail to globalbusiness-sales@usps.gov.)

b. Pay for postage with a permit imprint through an advance deposit account.

c. Meet manifesting and permit imprint requirements under IMM 152.4 and DMM 604 and the manifesting requirements under DMM 705.

253.23 **Online Methods**

253.231 **Online Prices — Commercial Base or Commercial Plus Prices**
For selected destination countries, First-Class Package International Service items qualify for discounted prices (equal to the Commercial Base price or Commercial Plus price) when mailers use one of the following online shipping methods:

a. Commercial Base Price: Registered end-users of USPS-approved PC Postage products using online postage (with the exception of Click-N-Ship service).

b. Commercial Plus Price: Registered end-users of an authorized PC Postage vendor (with the exception of Click-N-Ship service).
The Commercial Base or Commercial Plus price is automatically applied to each shipment that uses one of the above postage payment methods. The discount applies only to the postage portion of the First-Class Package International Service price. It does not apply to any other charges or fees, such as Registered Mail service or shipments made under a customized agreement.

253.232 Marking Requirements
First-Class Package International Service items claiming the Commercial Base or Commercial Plus price paid with PC Postage must bear the appropriate price marking, printed on the piece or produced as part of the PC Postage indicia. Mailers must place the applicable marking directly above, directly below, or to the left of the postage using one of the following formats:
   a. Commercial Base Price, Commercial Base Pricing, or ComBasPrice.

253.233 Determining Online Prices
For each addressed mailpiece, refer to Notice 123, Price List, for the applicable Commercial Base or Commercial Plus price.

253 Official Mail
253.31 Mailings by Federal Agencies
First-Class Package International Service shipments that are entered by federal agencies and departments are subject to the same standards under 250 as First-Class Package International Service shipments that are entered by nongovernmental entities.

253.32 Postal Service Mailings
First-Class Package International Service shipments that are entered by U.S. Postal Service entities are subject to the same standards under 250 as First-Class Package International Service shipments that are entered by nongovernmental entities, except that U.S. Postal Service mailings must bear the G-10 permit indicia prescribed for all Postal Service official mail. Mailpieces not sealed by conventional means, such as taping the open flaps for small packets, must be closed in such a manner as to prevent the contents from falling out or being damaged during postal handling and transport. First-Class Package International Service items that use Registered Mail service must be sealed. (See 334.4 for sealing requirements for Registered Mail service.)

254.4 Packaging

Conditions for Mailing

260 Direct Sacks of Printed Matter to One Addressee (M-bags)

261 Description

261.1 General
M-bags are defined as direct sacks of printed matter (see 261.22) sent to a single foreign addressee at a single address. There are three types of M-bags: Airmail M-bags, International Priority Airmail (IPA) M-bags, and International Surface Air Lift (ISAL) M-bags. All M-bags are subject to the following conditions of mailing:

a. Maximum weight of a sack: 66 pounds (including the tare weight of the sack). Lower maximum weights apply to certain countries. See the Individual Country Listings.

b. Availability: All destinations that are referenced in the Individual Country Listings for Airmail M-bags, in Exhibit 292.45 for IPA M-bags, and in Exhibit 293.45 for ISAL M-bags.

c. Identification: PS Tag 158, M-bag Addressee Tag, must be completed and attached to the neck of the sack.

d. Postage: The applicable postage for Airmail M-bags, International Priority Airmail (IPA), and International Surface Air Lift (ISAL) must be affixed to PS Tag 158.

e. Extra services: Certificate of mailing is available. Registry and insurance are not available.

261.2 Eligibility

261.21 Printed Matter
Printed matter is admissible in M-bags. Articles that meet the definition of “printed matter” include newspapers, magazines, journals, books, sheet music, catalogs, directories, commercial advertising, and promotional matter. “Printed matter” is defined as follows:

a. Papers upon which words, letters, characters, figures, images, or any combinations thereof appear.

b. Papers that do not have the character of a bill or statement of account.

c. Papers that do not have the character of current and personal correspondence.

261.22 Other Articles
Certain other articles may be enclosed in M-bags, provided that all of the following conditions of mailing are met:

a. The articles being sent are limited to discs, tapes, and cassettes; commercial samples shipped by manufacturers and distributors; or other non-dutiable commercial articles or informational materials that are not subject to resale.

b. The articles are related to the printed matter (see 261.21) with which they are being mailed.

c. The articles are affixed to or are otherwise combined with the accompanying printed matter.
d. For Airmail M-bags, the combined weight of each printed matter mailpiece and the related articles may not exceed 4 pounds. For IPA and ISAL M-bags, the combined weight of each printed matter mailpiece and the related articles may not exceed 4.4 pounds.

e. The M-bag must be accompanied by a fully completed electronically generated PS Form 2976, which is to be affixed to PS Tag 158.

261.23 **Mail Not Sealed Against Inspection**

M-bags are not sealed against inspection. Regardless of physical closure, the mailing of an M-bag, including an airmail, IPA, or ISAL M-bag, constitutes consent by the mailer to inspection of the contents.

262 **Postage Prices and Fees**

262.1 **Airmail M-bags**

Airmail M-bags may contain any type of allowable printed matter and certain other articles (see 261.22). See the Individual Country Listings for the Price Group and maximum weight limit for each country. Each Airmail M-bag that weighs 11 pounds or less is charged the applicable 11-pound price; a bag that exceeds 11 pounds is charged the applicable 11-pound price and the applicable per-pound price for each additional pound or fraction of a pound over 11 pounds.

262.2 **International Priority Airmail (IPA) M-bags**

IPA M-bags that are entered in conjunction with an IPA mailing (see 292) may contain all types of allowable printed matter and certain other items (see 261.22). See Notice 123, Price List, for the postage price that applies to M-bags mailed to each IPA destination country. Each full-service IPA M-bag that weighs 11 pounds or less is charged the applicable 11-pound price; a bag that exceeds 11 pounds is charged the applicable 11-pound price and the applicable per-pound price for each additional pound or fraction of a pound over 11 pounds. Each international service center (ISC) drop shipment IPA M-bag that weighs 5 pounds or less is charged the applicable 5-pound price; a bag that exceeds 5 pounds is charged the applicable 5-pound price and the applicable per-pound price for each additional pound or fraction of a pound over 5 pounds.

262.3 **International Surface Air Lift (ISAL) M-bags**

ISAL M-bags that are entered in conjunction with an ISAL mailing (see 293) may contain all types of allowable printed matter and certain other articles (see 261.22). See Notice 123, Price List, for the postage price that applies to M-bags mailed to each ISAL destination country. Each full-service ISAL M-bag that weighs 11 pounds or less is charged the applicable 11-pound price; a bag that exceeds 11 pounds is charged the applicable 11-pound price and the applicable per-pound price for each additional pound or fraction of a pound over 11 pounds. Each international service center (ISC) drop shipment ISAL M-bag that weighs 5 pounds or less is charged the applicable 5-pound price; a bag that exceeds 5 pounds is charged the applicable 5-pound price and the applicable per-pound price for each additional pound or fraction of a pound over 5 pounds.
262.4 Postage Calculation
The amount of postage paid by the mailer is determined by the weight of the sack’s contents, rounded to the next whole pound. For example, if the total weight of the printed matter in an M-bag is 23.2 pounds, exclusive of the tare weight of the sack, the postage computation is based on a total content weight of 24 pounds.

262.5 Stamps, Postage Evidencing Systems, PVI Labels, or Permit Imprint
M-bag postage can be paid by the following means:

a. By affixing postage stamps, meter stamps, PC Postage, or a postage validation imprinter (PVI) label to PS Tag 158, M-bag Addressee Tag.

b. By placing a permit imprint on PS Tag 158, M-bag Addressee Tag, and making payment through an advance deposit account. Only the applicable permit imprint formats shown in Exhibit 152.44 are acceptable. When this method of payment is used, the minimum quantity requirement (i.e., 200 pieces or 50 pounds) that is normally a prerequisite for permit imprint usage (see 152.63 does not apply. The postage amount must be accounted for on PS Form 3700, Postage Statement — International Mail.

263 Weight and Size Limits

263.1 Weight Limits
There is no minimum weight requirement for the entry of Airmail M-bags, IPA M-bags, or ISAL M-bags. The maximum weight limit for M-bags is 66 pounds, which includes the tare weight of the sack. Lower maximum weights apply to certain countries. See the Individual Country Listings.

263.2 Size Limits
There are no defined size limits so long as articles being sent can be enclosed in the mailbag.

264.22 **Tagging**
PS Tag 158, *M-bag Addressee Tag*, must be completed for all types of M-bags and attached to the neck of the sack. It must bear the requisite amount of stamped or meter postage or the sender’s authorized permit imprint or indicia (see 262.4). For IPA M-bags, mailers must also attach PS Tag 115, *International Priority Airmail*. For ISAL M-bags, mailers must also attach PS Tag 155, *Surface Airlift Mail*.

264.23 **Multiple Sacks to One Addressee**
If multiple sacks are sent to the same foreign addressee, PS Tag 158 must be marked with an identifiable fraction such as 1/5, 2/5, 3/5, etc.

264.24 **Country Destination Name**
The Post Office facility must label the sack with the name of the country of destination in large letters and the name of the U.S. dispatching exchange office in small letters (for example, United Kingdom via New York), and send it to that exchange office for dispatch to destination.

264.3 **Customs Forms Required**
M-bags must be accompanied by a fully completed electronically generated PS Form 2976, which is to be affixed to PS Tag 158. The maximum allowable value is $400. When paying with a permit imprint, mailers must electronically transmit customs declaration information as required under 123.32 by using USPS-produced Global Shipping Software (GSS) or other USPS-approved software listed at postalpro.usps.com/node/1850. To request information about either of these software solutions, send an e-mail to globalbusiness-sales@usps.gov.

292 International Priority Airmail (IPA) Service

292.1 Description

292.11 General

International Priority Airmail (IPA) service, including IPA M-bags, is a
commercial service designed for volume mailings of all First-Class Mail
International postcards, letters, and large envelopes (flats), and for volume
mailings of First-Class Package International Service packages (small

requirements of this subchapter and with the content-based and shape-

International items, and see 250 for First-Class Package International Service
items. IPA shipments are typically flown to the foreign destinations
(exceptions apply to Canada and Mexico) and are then entered into that
country’s air or surface priority mail system for delivery. Separate prices are
provided for international service center (ISC) drop shipments, presorted
mail, and nonpresort mail. Volume incentives are available through
customized agreements.

292.12 Mail Sealed Against Inspection

Both options offer full-service prices for mail deposited at offices other than the drop shipment offices listed in 292.532, and drop shipment prices for mail deposited at one of the drop shipment offices. The per-piece price and per-pound price are shown in Notice 123, Price List. The per-piece price applies to each piece regardless of its weight. The per-pound price applies to the net weight (gross weight minus tare weight of container) of the mail for the specific price group. Fractions of a pound are rounded to the next whole pound for postage calculation.

292.32 **Computation of Postage**
Postage is computed on PS Form 3700, Postage Statement — International Mail.

292.321 **Computing Worldwide Nonpresort Prices**
Compute postage at the worldwide nonpresort price as follows:

1. Multiply the number of pieces in the mailing by the applicable per-piece price.
2. Multiply the net weight (in whole pounds) of the entire mailing by the applicable per-pound price.
3. Add together the two totals in steps 1 and 2.
Computing Presort Prices

Compute postage at the presorted price as follows:

1. Multiply the number of pieces in the mailing destined for countries in a specific price group by the appropriate per-piece price.
2. Multiply the net weight (in whole pounds) of those pieces by the corresponding per-pound price.
3. Add together the two totals in steps 1 and 2.

Postage Payment Methods

General

Postage must be paid by postage meter, permit imprint, or precanceled stamps (see DMM 604).

Postage Meter

Payments made by postage meter are subject to the following standards:

a. **Piece Price.** The applicable per-piece postage shown in Notice 123, Price List, must be affixed to each mailpiece when paying with a meter. A mailer who has an ICM agreement must affix the applicable per-piece postage as set forth in the ICM agreement.

b. **Pound Price.** Postage for the pound price portion must be paid either by meter stamp(s) attached to the postage statement or from the mailer’s authorized permit imprint advance deposit account.

c. **Postage Endorsement.** Each piece must be legibly endorsed with the words “INTERNATIONAL PRIORITY AIRMAIL.”

d. **Specifications for Endorsement.** The endorsement required in 292.332c must appear on the address side of each piece and must be applied by a printing press, hand stamp, or other similar printing device. It must appear either above the name of the addressee and to the left or below the postage, or adjacent to the meter stamp in either the postal inscription slug area or ad plate area. If the postal endorsement appears in the ad plate area, no other information may appear in the ad plate. The endorsement may not be typewritten or hand-drawn. The endorsement is not considered adequate if it is included as part of a decorative design or advertisement.

e. **Unmarked Pieces.** Unmarked pieces lacking the postage endorsement are subject to the applicable First-Class Mail International or First-Class Package International Service single-piece price.

f. **Drop Shipment of Meter Mail.** A mailer who wants to enter meter IPA mail at a Post Office facility other than where the meter is licensed must obtain a drop shipment authorization. To obtain an authorization, the mailer must submit a written request to the postmaster at the office where the mail will be entered (see DMM 705).

Precanceled Stamps

Payments made by precanceled stamps are subject to the following standards:

a. **Piece Price.** The same denomination of stamp must be affixed to every piece in the mailing.
b. **Pound Price.** Additional postage is paid at the time of mailing by advance deposit account or meter stamp affixed to the back of the accompanying postage statement.

c. **Postage Endorsement.** Each piece must be legibly endorsed with the words “INTERNATIONAL PRIORITY AIRMAIL.”

d. **Specifications for Endorsement.** The endorsement required in 292.333c must appear on the address side of each piece and must be applied by a printing press, hand stamp, or other similar printing device. It must appear either above the name of the addressee and to the left or below the postage, or adjacent to the precanceled stamp. The endorsement may not be typewritten or hand-drawn. The is not considered adequate if it is included as part of a decorative design or advertisement.

e. **Unmarked Pieces.** Unmarked pieces lacking the postage endorsement are subject to the applicable First-Class Mail International or First-Class Package International Service single-piece price.

292.334 **Permit Imprint**

Mailers may use a permit imprint for mailings that contain identical-weight pieces. Any of the permit imprint formats shown in Exhibit 152.64 is acceptable but must include the “INTL PRIORITY AIRMAIL” rate marking. Postage is calculated as described in 292.32 and is deducted from the mailer’s advance deposit account. Permit imprints must not denote bulk mail, nonprofit, or other domestic or special mail. Mailers may use permit imprint with nonidentical-weight pieces only if authorized to use postage mailing systems under DMM 705.

292.4 **Mail Preparation**

292.41 **Addressing and Return Address**

IPA mailpieces are subject to the addressing requirements contained in 122, including the requirement of a U.S.-origin return address as defined in 122.2.

a. **Exception — Canada:** IPA items destined for Canada must have the applicable alphanumeric postcode included in the delivery address. See 122.1j for the address formatting requirements that generally apply to mailpieces sent to Canada.

b. **Exception — Direct Country Containers:** IPA letter-size and flat-size pieces not requiring a customs form prepared in direct country containers (see 292.46 and 292.48) are not subject to the interline addressing requirement that is specified in 122.1d. At the sender’s risk, the English translation of the destination post office or city name may be omitted from an address that is printed in Russian, Greek, Arabic, Hebrew, Cyrillic, Japanese, or Chinese characters. An English translation of the country name (for example, Japan) is still required on the individual mailpieces.
292.42 **Marking**

292.421 **Letter-Size and Flat-Size Mailpieces**
The sender should mark “PAR AVION” or “AIR MAIL” on the address side of each piece. Alternatively, the user may use a bordered airmail envelope that contains an “AIR MAIL” endorsement.

292.422 **Packages (Small Packets)**
Items that might be mistaken for another class of mail because of their size, weight, or appearance should be marked “LETTER-POST” on the address side.

292.43 **Sealing and Packaging**

292.431 **Mixed Country and Worldwide Nonpresort Price**
All IPA mailpieces entered at the mixed country and worldwide nonpresort price must meet the sealing and packaging methods for First-Class Mail International service under IMM 244.3 and 244.4, and for First-Class Package International Service under IMM 254.3 and 254.4.

292.432 **Direct Country Price**
Mailers must meet the following sealing and packaging standards for IPA mail entered at the direct country price:

a. **Letters.** Letter-size mailpieces entered at the direct country price must meet one of the following requirements:
   
   (1) The sealing and packaging methods for First-Class Mail International service under IMM 244.3 and 244.4.
   
   (2) The physical standards of a machinable letter under DMM 201.3.

b. **Flats.** Flat-size mailpieces entered at the direct country price must meet the sealing and packaging methods for First-Class Mail International service under IMM 244.3 and 244.4.

c. **Small Packets.** Package-size mailpieces (small packets) entered at the direct country price must meet the sealing and packaging methods for First-Class Package International Service under IMM 254.3 and 254.4.

292.44 **Physical Characteristics and Requirements for All Bundles**
The following standards apply:

a. **Thickness.** Bundles of letter-size mail should be no thicker than approximately a handful of mail (4 to 6 inches thick). Bundles of flat-size mail may be thicker than 6 inches but must not weigh more than 11 pounds.

b. **Securing Bundles.** Each bundle must be securely tied to withstand normal transit. Placing rubber bands around the length and then the girth is the preferred method of securing bundles of letter-size mail. Plastic strapping placed around the length and then the girth is the preferred method of securing bundles of flat-size mail.

c. **Separation of Bundles.** Letter-size and flat-size mail must be bundled separately.

d. **Facing of Pieces.** All pieces in bundles must be faced in the same direction.

*Note:* Parcel-size pieces do not require bundling.

1. At the mailer’s option, a finer sortation for IPA items addressed to Australia may be used. If this option is chosen, items addressed with postal codes beginning with 0, 1, 2, 4, and 9 and uncoded mail should be sorted and prepared in direct country containers tagged to Sydney. Both the three-letter exchange office code (“SYD”) and the country name (“Australia”) should be entered in the “To” block of PS Tag 115, International Priority Airmail. Items addressed with postal codes beginning with 3, 5, 6, 7, and 8 should be sorted and prepared in direct country containers tagged to Melbourne. Both the three-letter exchange office code (“MEL”) and the country name (“Australia”) should be entered in the “To” block of PS Tag 115. For all destinations to New Zealand other than Cook Islands. For Cook Islands, see the entry for Cook Islands in this exhibit.

2. For all destinations to New Zealand other than Cook Islands. For Cook Islands, see the entry for Cook Islands in this exhibit.

**292.46 Presort Mailings: Direct Country — Price Groups 1, 2, and 7–20**

**292.461 General**

Price groups 1, 2, and 7–20 may be prepared in direct country containers (full-service price and ISC drop shipment price). Each direct country container must contain at least 2 pounds of mail. The mailer must separately containerize items bearing customs forms from items not bearing customs forms and must prepare letter-size, flat-size, and package-size items in separate containers as defined in 292.462a and 292.462b. Smaller quantities qualify only for a mixed country price (price groups 7–11 only) under 292.47, or for the worldwide nonpresort price under 292.49. The maximum container weight is 66 pounds.

**292.462 Preparation**

The mailer must prepare direct country containers of presorted IPA mail (full-service price and ISC drop shipment price) as follows:

a. **Letter-Size and Flat-Size Mail.** For each direct country container of letter-size or flat-size mail, the mailer must do the following:

   (1) **Mail Preparation.** Prepare letter-size items in letter trays, either 1-foot or 2-foot, depending on volume. Prepare flat-size items in flat-size trays/tubs. Do not prepare the content of trays in bundles. Face all letter-size items and flat-size items in the same direction. Ensure that all trays are full enough to keep the mail from mixing during transportation. Cover (i.e., sleeve or lid) all letter-size and flat-size trays and secure them with strapping.
(2) Container Tags. Complete the front side of PS Tag 115, *International Priority Airmail*, which identifies the mail to ensure it receives priority handling. Check the appropriate box to indicate if the container contains items with or without customs forms, identify the destination country, and enter the date of mailing, the 10-digit permit number, the foreign office of exchange code as listed in Exhibit 292.45a or Exhibit 292.45b, and the price group as listed in Exhibit 292.45a. To the front side of the tag, apply a barcode that indicates the mailer's permit number, the product code, the service type code, the container type code, the mail contents shape type code, the foreign office of exchange code, and the serial number of the container. (To request technical specifications for the barcode, send an e-mail to globalbusiness-sales@usps.gov.) Finally, tape PS Tag 115 to the tray cover.

b. Packages. For each direct country container of package-size items, the mailer must do the following:

(1) Mail Preparation. Prepare package-size items by placing them loose in sacks.

(2) Container Tags. Complete the front side of PS Tag 115, *International Priority Airmail*, which identifies the mail to ensure it receives priority handling. Check the appropriate box to indicate if the container contains items with or without customs forms, identify the destination country, and enter the date of mailing, the 10-digit permit number, the foreign office of exchange code as listed in Exhibit 292.45a or Exhibit 292.45b, and the price group as listed in Exhibit 292.45a. To the front side of the tag, apply a barcode that indicates the mailer's permit number, the product code, the service type code, the container type code, the shape type code, the foreign office of exchange code, and the serial number of the container. (To request technical specifications for the barcode, send an e-mail to globalbusiness-sales@usps.gov.) Finally, attach PS Tag 115 to the neck of the sack.

(3) Direct Country Container Label. A mailer who claims the ISC drop shipment price and enters the mail at an authorized drop shipment location under 292.532 is not required to prepare container labels. A mailer who claims the full-service price must complete 2-inch container labels (and insert them into the applicable container label holder) as follows (see Exhibit 292.462 for the list of U.S. Exchange Offices):

Line 2: Contents — DRX COUNTRY.

292.472 Presort Mailings: Mixed Country — Price Groups 7–11

292.471 General
The mailer may prepare price groups 7–11 in mixed country containers (ISC drop shipment price) only after all possible direct country containers have been prepared. Each mixed country price group must contain at least 5 pounds of mail that is destined within the same price group. The mailer must separately containerize items bearing customs forms from items not bearing customs forms and must prepare letter-size, flat-size, and package-size items in separate containers as defined in 292.472a and 292.472b. Smaller quantities qualify only for the worldwide nonpresort price under 292.49. The maximum container weight is 66 pounds.

292.472 Preparation
The mailer must prepare mixed country containers of presorted IPA mail (ISC drop shipment price) as follows:

a. Letter-Size and Flat-Size Mail. For each mixed country container of letter-size or flat-size mail, the mailer must do the following:
   (1) Mail Preparation. Prepare letter-size items in letter trays, either 1-foot or 2-foot, depending on volume. Prepare flat-size items in flat-size trays/tubs. Bundle letter-size and flat-size pieces as defined in 292.44, and bundle each country separately. Face all letter-size items and flat-size items in the same direction and apply a label (facing slip) to the top item as defined in 292.473. Cover (i.e., sleeve or lid) all letter-size trays and flat-size trays/tubs and secure them with strapping.
292.473 International Mail Manual

(2) Container Tags. Complete the front side of PS Tag 115, International Priority Airmail, which identifies the mail to ensure it receives priority handling. Identify the date of mailing, the 10-digit permit number, and the price group as listed in Exhibit 292.45 followed by the word “Mixed” (e.g., “14–Mixed”). Finally, tape PS Tag 115 to the tray cover.

b. Packages. For each mixed country container of package-size items, the mailer must do the following:

(1) Mail Preparation. Prepare package-size items by placing them loose in sacks.

(2) Container Tags. Complete the front side of PS Tag 115, International Priority Airmail, which identifies the mail to ensure it receives priority handling. Identify the date of mailing, the 10-digit permit number, and the price group as listed in Exhibit 292.45 followed by the word “Mixed” (e.g., “14–Mixed”). Finally, attach PS Tag 115 to the neck of the sack.

292.473 Direct Country Bundle Label for Mixed Country Containers

Only letter-size and flat-size direct country bundles prepared for mixed country containers require a label (facing slip). The mailer must complete the label and place it on the address side of the top item of each bundle in such a manner that it will not become separated from the bundle. The pressure-sensitive labels and optional endorsement lines used domestically for presort mail are prohibited for IPA service. Bundle labels must contain the following information:

Line 1: Foreign Office of Exchange Code. (See Exhibit 292.45a or Exhibit 292.45b.)

Line 2: Country Labeling Name. (See Exhibit 292.45a.)

Line 3: Mailer, Mailer Location (City and State).

292.48 Presort Mailings — Price Groups 3–6

292.481 General

Mailers must prepare price groups 3–6 in direct country containers (full-service price and ISC drop shipment price) or mixed country containers (ISC drop shipment price). Each direct country container must contain at least 2 pounds of mail. Each mixed country price group must contain a minimum of 5 pounds when prepared under 292.47, or a minimum of 5 pounds for each sack when sorted under 293.483. Smaller quantities qualify only for the worldwide nonpresort price under 292.49. The mailer must separately containerize items bearing customs forms from items not bearing customs forms. The maximum container weight is 66 pounds.
292.482 Preparation
The mailer has two options to prepare direct country or mixed country containers of presorted IPA mail, as follows:

a. Prepare mail as described in 292.46 and 292.47, including using letter-size trays for letter-size items, flat-size trays/tubs for flat-size items, and sacks for package-size items.

b. Prepare mail in sacks for letter-size and flat-size mail as defined in 292.483 and 292.484.

292.483 Direct Country and Mixed Country — Optional Sack Preparation
The mailer may optionally prepare direct country sacks or mixed country sacks of presorted IPA letter-size and flat-size mail when sacks are used for the following processing categories:

a. Full-Service and ISC Drop Shipment — Direct country sacks.

   (1) Preparation. Mail (letter-size and flat-size) that is addressed to an individual country and that contains 2 pounds or more must be sorted into direct country sacks. Mail that cannot be made up into direct country sacks must be prepared and entered as mixed country sacks or as worldwide nonpresort sacks. The mailer must bundle letter-size and flat-size items as defined in 292.44. The mailer must bundle letter-size items and flat-size items separately, although nonidentical items may be commingled within each of these categories. Face all letter-size items and flat-size items in the same direction and apply a label (facing slip) to the top item as defined in 292.484. Note: Package-size items must not be commingled with letter-size and flat-size items and must be prepared in separate sacks.

   (2) Container Tags. The mailer must complete the front side of PS Tag 115, International Priority Airmail, which identifies the mail to ensure it receives priority handling. The mailer must check the appropriate box to indicate if the sack contains items with or without customs forms, identify the destination country, and enter the date of mailing, the 10-digit permit number, the foreign office of exchange code as listed in Exhibit 292.45a and Exhibit 292.45b, and the price group as listed in Exhibit 292.45a. The mailer must apply a barcode to the front side of the tag that indicates the mailer’s permit number, the product code, the service type code, the container type, the shape type, the foreign office of exchange code, and the serial number of the sack. (To request technical specifications for the barcode, send an e-mail to globalbusiness-sales@usps.gov). Finally, the mailer must attach PS Tag 115 to the neck of the sack.

   (3) Direct Country Container Label. A mailer who claims the ISC drop shipment price and enters the mail at an authorized drop shipment location under 292.532 is not required to prepare container labels. A mailer who claims the full-service price must complete 2-inch container labels (and insert them into the
applicable container label holder) as follows (see Exhibit 292.483 for the list of U.S. Exchange Offices):

Line 2: Contents — DRX COUNTRY.
Line 3: Mailer, Mailer Location (City and State).

b. **ISC Drop Shipment — Mixed country sacks.**

1. **Preparation.** Mixed country sacks can be prepared only after all possible direct country sacks have been prepared. The mailer must prepare mixed country sacks for items that contain 5 pounds or more and that are destined within the same price group. Mail that ultimately cannot be made up into direct country sacks or mixed country sacks must be prepared and entered at the worldwide nonpresort price. The mailer must bundle letter-size and flat-size items as defined in 292.44. The mailer must bundle letter-size and flat-size items separately, although nonidentical items may be commingled within each of these categories. Face all letter-size items and flat-size items in the same direction and apply a label (facing slip) to the top item as defined in 292.484. **Note:** When using this option, the mailer may not place package-size items in the sacks.
(2) **Container Tags.** The mailer must complete the front side of PS Tag 115, *International Priority Airmail*, which identifies the mail to ensure it receives priority handling. On the front of the tag, the mailer must identify the date of mailing, the 10-digit permit number, and the price group as listed in Exhibit 292.45a followed by the word “Mixed” (e.g., “15–Mixed”). Finally, the mailer must attach PS Tag 115 to the neck of the sack.

292.484 **Presorted Mail — Direct Country Bundle Label**

Only letter-size and flat-size direct country bundles prepared for mixed country sacks require a label (facing slip). The mailer must complete the label and place it on the address side of the top item of each bundle in such a manner that it will not become separated from the bundle. The pressure-sensitive labels and optional endorsement lines used domestically for presort mail are prohibited for IPA service. Bundle labels must contain the following information:

- **Line 1:** Foreign Office of Exchange Code. (See Exhibit 292.45a and Exhibit 292.45b.)
- **Line 2:** Country Labeling Name. (See Exhibit 292.45a.)
- **Line 3:** Mailer, Mailer Location (City and State).

**Example:**

```
VIE
AUSTRIA
ABC COMPANY WASHINGTON DC
```

292.49 **Worldwide Nonpresort Preparation**

The following standards apply when the mailer prepares worldwide nonpresort IPA mail (full-service price and ISC drop shipment price):

a. **General.** A mailer claiming any mail at the direct country or mixed country price cannot enclose the mail in worldwide nonpresort sacks. The mailer must bundle letter-size and flat-size mail. Letter-size bundles and flat-size bundles can be commingled in the same sack. Labels (facing slips) are not required on any bundles. Package-size items must not be commingled with letter-size and flat-size items and must be prepared in separate sacks. Containers other than sacks are not authorized unless other equipment is specified by the acceptance office — for example, the mailer may present nonpresorted letter-size mail in trays if authorized by the acceptance office. The maximum weight of any container is 66 pounds.

b. **Worldwide Nonpresort Container Label.** A mailer who claims the ISC drop shipment price and enters the mail at an authorized drop shipment location under 292.532 is not required to prepare container labels. A mailer who claims the full-service price must complete 2-inch container labels (and insert them into the applicable container label holder) as follows (see Exhibit 292.483 for the list of U.S. Exchange Offices):

- **Line 1:** Appropriate U.S. Exchange Office and Routing Code.
- **Line 2:** Contents WKG.
- **Line 3:** Mailer, Mailer Location (City and State).
292.5 Mail Entry and Deposit

292.51 Separation by Price Group
The mailer must physically separate the containers by price group at the time of mailing as indicated on the container tag.

292.52 Full Service
Mailings must be deposited at a Post Office facility where bulk mail is accepted and where the mailer holds an advance deposit account or postage meter license.

292.53 Drop Shipment

292.531 General
To qualify for the drop shipment price, mailers must present the mail to one of the locations in 292.532. The mailer must pay postage at the drop shipment location either through an advance deposit account or postage meter license at the serving Post Office facility. As an alternative, mailers who are participating in the plant-verified drop shipment (PVDS) program may have the mail verified, accepted, and paid for at the mailer’s plant or at the origin Post Office facility serving the mailer’s plant if authorized under DMM 705. PVDS mail must be transported by the mailer to the drop shipment location, and the mail must be accompanied by PS Form 8125, Plant-Verified Drop Shipment (PVDS) Verification and Clearance.

292.532 Drop Shipment Locations
Drop shipments are available through the offices noted in Exhibit 292.532. Note: California, Illinois, and New York locations accept both “cleared” mail (mail that has been previously presented and paid for at a BMEU) and “uncleared” mail (mail that has not been previously presented and paid for at a BMEU). For Florida locations, refer to footnotes 1 and 2 for special requirements.
International Surface Air Lift (ISAL) Service

Description

International Surface Air Lift (ISAL) service, including ISAL M-bags, is a commercial service designed for volume mailings of all First-Class Mail International postcards, letters, and large envelopes (flats), and for volume mailings of First-Class Package International Service packages (small packets). The sender must prepare mailpieces in accordance with the requirements of this subchapter and with the content-based and shape-based requirements of the applicable service — see 240 for First-Class Mail International items, and see 250 for First-Class Package International Service items. ISAL shipments are typically flown to the foreign destinations (exceptions apply to Canada and Mexico) and are then entered into that country’s surface nonpriority mail system for delivery. Separate prices are provided for international service center (ISC) drop shipments, presorted mail, and nonpresort mail. Volume incentives are available through customized agreements.
293.12 **Mail Sealed Against Inspection**
With the exception of M-bags (see 261.23), ISAL mailpieces are sealed against inspection.

293.13 **ISAL M-bags**
293.131 **ISAL M-bags — General**
ISAL M-bags (direct sacks of printed matter to one addressee) may be entered in conjunction with an ISAL mailing, are subject to the provisions of 260, and may be sent to all destination countries that are referenced in Exhibit 293.45a. When using this method of mail preparation, the sender must complete PS Tag 155, *Surface Airlift Mail*, and PS Tag 158, *M-bag Addressee Tag*. Tags must be securely attached to the neck of the sack.

293.132 **ISAL M-bags — Customs Forms**
ISAL M-bags always require a fully completed electronically generated PS Form 2976, which is to be affixed to PS Tag 158. Mailers must electronically transmit customs declaration information as required under 123.32 by using USPS-produced Global Shipping Software (GSS) or other USPS-approved software listed at postalpro.usps.com/node/1850. To request information about either of these software solutions, send an e-mail to globalbusiness-sales@usps.gov.

293.2 **Eligibility**
293.21 **Qualifying Mailpieces**
To qualify for ISAL service, a mailpiece must meet the First-Class Mail International characteristics as defined in 141.5 (except for weight — see 293.24) or the First-Class Package International Service characteristics as defined in 141.6 (except for weight — see 293.24). Mailpieces do not have to be of the same size and weight to qualify. Any item sent with ISAL service must conform to the size limits for First-Class Mail International postcards, letters, or large envelopes (flats) as described in 240, or for First-Class Package International Service packages (small packets) as described in 250.

293.22 **Availability**
ISAL service is available only to the foreign countries that are listed in Exhibit 293.45a, which shows the foreign office of exchange code and the price group assigned to each country. For additional information for Canada, see Exhibit 293.45b.

293.23 **Minimum Quantity Requirements**
293.231 **Minimum Quantity**
All mailings must meet a minimum weight quantity of 50 pounds. To achieve the 50-pound minimum, mailings may include a combination of presort mail, worldwide nonpresort mail, or M-bags.

293.232 **Presort Eligibility — Full Service**
Only a direct country container with a minimum of 2 pounds qualifies for the presort price. All remaining mail must be prepared and paid at the worldwide nonpresort price.
293.233 Presort Eligibility — ISC Drop Shipment
Eligibility for the presort price is as follows:

a. **Direct country price.** For price groups 1–20, a minimum of 2 pounds for each container.

b. **Mixed country price.** For price groups 7–11, a minimum of 5 pounds for each price group; for price groups 3–6, a minimum of 5 pounds for each price group prepared under 293.482a, or a minimum of 5 pounds for each sack prepared under 293.482b.

All remaining mail must be prepared and paid at the worldwide nonpresort price.

293.24 Maximum Weight Limits
The maximum weight for an ISAL container is 66 pounds. The maximum weight for an individual ISAL item is as follows:

a. Letter-size item: 3.5 ounces.

b. Flat-size item: 17.6 ounces.

c. Package-size item: 4.4 pounds.

293.25 Dutiable Items
Dutiable items may be sent in accordance with the applicable rules in this subchapter for First-Class Package International Service only. Priority Mail International items may not be mailed with ISAL service.

293.26 Customs Forms Requirements
For items requiring PS Form 2976, mailers must electronically transmit customs declaration information as required under 123.32 by using USPS-produced Global Shipping Software (GSS) or other USPS-approved software listed at postalpro.usps.com/node/1850. To request information about either of these software solutions, send an e-mail to globalbusiness-sales@usps.gov.

293.27 Extra Services
Extra services are not available for items sent with ISAL service.

293.3 Prices and Postage Payment Methods

293.31 Prices
ISAL service has two price options: a presort price with 20 price groups, and a worldwide nonpresort price. Both options offer full-service prices for mail deposited at offices other than the drop shipment offices listed in 293.532, and drop shipment prices for mail deposited at one of the drop shipment offices. The per-piece price and per-pound price are shown in Notice 123, Price List. The per-piece price applies to each piece regardless of its weight. The per-pound price applies to the net weight (gross weight minus tare weight of container) of the mail for the specific price group. Fractions of a pound are rounded to the next whole pound for postage calculation.
293.32 Computation of Postage
Postage is computed on PS Form 3700, Postage Statement — International Mail.

293.321 Computing Worldwide Nonpresort Prices
Compute postage at the worldwide nonpresort price as follows:
1. Multiply the number of pieces in the mailing by the applicable per-piece price.
2. Multiply the net weight (in whole pounds) of the entire mailing by the applicable per-pound price.
3. Add together the two totals in steps 1 and 2.

293.322 Computing Presort Prices
Compute postage at the presorted price as follows:
1. Multiply the number of pieces in the mailing destined for countries in a specific price group by the appropriate per-piece price.
2. Multiply the net weight (in whole pounds) of those pieces by the corresponding per-pound price.
3. Add together the two totals in steps 1 and 2.

293.33 Postage Payment Methods

293.331 General
Postage must be paid by postage meter, permit imprint, or precanceled stamps (see DMM 604).

293.332 Postage Meter
Payments made by postage meter are subject to the following standards:

a. Piece Price. The applicable per-piece postage shown in Notice 123, Price List, must be affixed to each mailpiece when paying with a meter. A mailer who has an ICM agreement must affix the applicable per-piece postage as set forth in the ICM agreement.

b. Pound Price. Postage for the pound price portion must be paid either by meter stamp(s) attached to the postage statement or from the mailer’s authorized permit imprint advance deposit account.

c. Postage Endorsement. Each piece must be legibly endorsed with the words “INTERNATIONAL SURFACE AIR LIFT” or “ISAL.”

d. Specifications for Endorsement. The endorsement required in 292.332c must appear on the address side of each piece and must be applied by a printing press, hand stamp, or other similar printing device. It must appear either above the name of the addressee and to the left or below the postage, or adjacent to the meter stamp in either the postal inscription slug area or ad plate area. If the postal endorsement appears in the ad plate area, no other information may appear in the ad plate. The endorsement may not be typewritten or hand-drawn. The endorsement is not considered adequate if it is included as part of a decorative design or advertisement.

e. Unmarked Pieces. Unmarked pieces lacking the postage endorsement are subject to the applicable First-Class Mail International or First-Class Package International Service single-piece price.
f. **Drop Shipment of Meter Mail.** A mailer who wants to enter meter ISAL mail at a Post Office facility other than where the meter is licensed must obtain a drop shipment authorization. To obtain an authorization, the mailer must submit a written request to the postmaster at the office where the mail will be entered (see DMM 705).

### 293.333 Precanceled Stamps

Payments made by precanceled stamps are subject to the following standards:

a. **Piece Price.** The same denomination of stamp must be affixed to every piece in the mailing.

b. **Pound Price.** Additional postage is paid at the time of mailing by advance deposit account or meter stamp affixed to the back of the accompanying postage statement.

c. **Postage Endorsement.** Each piece must be legibly endorsed with the words “INTERNATIONAL SURFACE AIR LIFT” or “ISAL.”

d. **Specifications for Endorsement.** The endorsement required in 293.333c must appear on the address side of each piece and must be applied by a printing press, hand stamp, or other similar printing device. It must appear either above the name of the addressee and to the left or below the postage, or adjacent to the precanceled stamp. The endorsement may not be typewritten or hand-drawn. The endorsement is not considered adequate if it is included as part of a decorative design or advertisement.

e. **Unmarked Pieces.** Unmarked pieces lacking the postage endorsement are subject to the applicable First-Class Mail International or First-Class Package International Service single-piece price.

### 293.334 Permit Imprint

Mailers may use a permit imprint for mailings that contain identical-weight pieces. Any of the permit imprint formats shown in 152.64 is acceptable but must include the “INTL SURFACE AIR LIFT” rate marking. Postage is calculated as described in 293.32 and is deducted from the mailer’s advance deposit account. Permit imprints must not denote bulk mail, nonprofit, or other domestic or special mail. Mailers may use permit imprint with nonidentical-weight pieces only if authorized to use postage mailing systems under DMM 705.

### 293.4 Mail Preparation

#### 293.41 Addressing and Return Address

ISAL mailpieces are subject to the addressing requirements contained in 122, including the requirement of a U.S.-origin return address as defined in 122.2.

a. **Exception — Canada:** ISAL items destined for Canada must have the applicable alphanumeric postcode included in the delivery address. See 122.1 for the address formatting requirements that generally apply to mailpieces sent to Canada.
b. **Exception — Direct Country Containers:** ISAL letter-size and flat-size pieces not requiring a customs form prepared in direct country containers (see 293.46 and 293.48) are not subject to the interline addressing requirement that is specified in 122.1d. At the sender’s risk, the English translation of the destination post office or city name may be omitted from an address that is printed in Russian, Greek, Arabic, Hebrew, Cyrillic, Japanese, or Chinese characters. An English translation of the country name (for example, Japan) is still required on the individual mailpieces.

293.42 **Marking**

293.421 **Letter-Size and Flat-Size Mailpieces**

The sender should mark “INTERNATIONAL SURFACE AIR LIFT” or “ISAL” on the address side of each piece. Use of bordered airmail envelopes is prohibited.

293.422 **Packages (Small Packets)**

Items that might be mistaken for another class of mail because of their size, weight, or appearance should be marked “LETTER-POST” on the address side.

293.43 **Sealing and Packaging**

293.431 **Mixed Country and Worldwide Nonpresort Price**

All ISAL mailpieces entered at the mixed country and worldwide nonpresort price must meet the sealing and packaging methods for First-Class Mail International service under IMM 244.3 and 244.4, and for First-Class Package International Service under IMM 254.3 and 254.4.

293.432 **Direct Country Price**

Mailers must meet the following sealing and packaging standards for ISAL mail entered at the direct country price:

a. **Letters.** Letter-size mailpieces entered at the direct country price must meet one of the following requirements:

   (1) The sealing and packaging methods for First-Class Mail International service under IMM 244.3 and 244.4.

   (2) The physical standards of a machinable letter under DMM 201.3.

b. **Flats.** Flat-size mailpieces entered at the direct country price must meet the sealing and packaging methods for First-Class Mail International service under IMM 244.3 and 244.4.

c. **Small Packets.** Package-size mailpieces (small packets) entered at the direct country price must meet the sealing and packaging methods for First-Class Package International Service under IMM 254.3 and 254.4.

293.44 **Physical Characteristics and Requirements for All Bundles**

The following standards apply:

a. **Thickness.** Bundles of letter-size mail should be no thicker than approximately a handful of mail (4 to 6 inches thick). Bundles of flat-size mail may be thicker than 6 inches but must not weigh more than 11 pounds.
b. **Securing Bundles.** Each bundle must be securely tied to withstand normal transit. Placing rubber bands around the length and then the girth is the preferred method of securing bundles of letter-size mail. Plastic strapping placed around the length and then the girth is the preferred method of securing bundles of flat-size mail.

c. **Separation of Bundles.** Letter-size and flat-size mail must be bundled separately.

d. **Facing of Pieces.** All pieces in bundles must be faced in the same direction.

*Note:* Parcel-size pieces do not require bundling.

### 293.46 Presort Mailings: Direct Country — Price Groups 1, 2 and 7–20

#### General

Price groups 1, 2 and 7–20 may be prepared in direct country containers (full-service price and ISC drop shipment price). Each direct country container must contain at least 2 pounds of mail. The mailer must separately containerize items bearing customs forms from items not bearing customs forms and must prepare letter-size, flat-size, and package-size items in separate containers as defined in 293.462a through 293.462c. Smaller quantities qualify only for a mixed country price (price groups 7–11 only) under 293.47, or for the worldwide nonpresort price under 293.49. The maximum container weight is 66 pounds.

#### Preparation

The mailer must prepare direct country containers of presorted ISAL mail (full-service price and ISC drop shipment price) as follows:

a. **Letter-Size and Flat-Size Mail.** For each direct country container of letter-size or flat-size mail, the mailer must do the following:

   (1) **Mail Preparation.** Prepare letter-size items in letter trays, either 1-foot or 2-foot, depending on volume. Prepare flat-size items in flat-size trays/tubs. Do not prepare the content of trays in bundles. Face all letter-size items and flat-size items in the same
direction. Ensure that all trays are full enough to keep the mail from mixing during transportation. Cover (i.e., sleeve or lid) all letter-size and flat-size trays and secure them with strapping.

(2) Container Tags. Complete the front side of PS Tag 155, *International Surface Air Lift*, which identifies the mail to ensure it receives priority handling. Check the appropriate box to indicate if the container contains items with or without customs forms, identify the destination country, and enter the date of mailing, the 10-digit permit number, the foreign office of exchange code as listed in Exhibit 293.45a or Exhibit 293.45b, and the price group as listed in Exhibit 293.45a. To the front side of the tag, apply a barcode that indicates the mailer’s permit number, the product code, the service type code, the container type code, the mail contents shape type code, the foreign office of exchange code, and the serial number of the container. (To request technical specifications for the barcode, send an e-mail to globalbusiness-sales@usps.gov.) Finally, tape the PS Tag 155 to the tray cover.

b. Packages. For each direct country container of package-size items, the mailer must do the following:

(1) Mail Preparation. Prepare package-size items by placing them loose in sacks.

(2) Container Tags. Complete the front side of PS Tag 155, *International Surface Air Lift*, which identifies the mail to ensure it receives priority handling. Check the appropriate box to indicate if the container contains items with or without customs forms, identify the destination country, and enter the date of mailing, the 10-digit permit number, the foreign office of exchange code as listed in Exhibit 293.45a or Exhibit 293.45b, and the price group as listed in Exhibit 293.45a. To the front side of the tag, apply a barcode that indicates the mailer’s permit number, the product code, the service type code, the container type code, the shape type code, the foreign office of exchange code, and the serial number of the container. (To request technical specifications for the barcode, send an e-mail to globalbusiness-sales@usps.gov.) Finally, attach PS Tag 155 to the neck of the sack.

c. Direct Country Container Label. A mailer who claims the ISC drop shipment price and enters the mail at an authorized drop shipment location under 293.532 is not required to prepare container labels. A mailer who claims the full-service price must complete 2-inch container labels (and insert them into the applicable container label holder) as follows (see Exhibit 293.462 for the list of U.S. Exchange Offices):

Line 2: Contents — DRX COUNTRY.

293.47 Presort Mailings: Mixed Country — Price Groups 7–11

293.471 General
The mailer may prepare price groups 7–11 in mixed country containers (ISC drop shipment price) only after all possible direct country containers have been prepared. Each mixed country price group must contain at least 5 pounds of mail that is destined within the same price group. The mailer must separately containerize items bearing customs forms from items not bearing customs forms and must prepare letter-size, flat-size, and package-size items in separate containers as defined in 293.472a and 293.472b. Smaller quantities qualify only for the worldwide nonpresort price under 293.49. The maximum container weight is 66 pounds.

293.472 Preparation
The mailer must prepare mixed country containers of presorted ISAL mail (ISC drop shipment price) as follows:

a. **Letter-Size and Flat-Size Mail.** For each mixed country container of letter-size or flat-size mail, the mailer must do the following:

   (1) **Mail Preparation.** Prepare letter-size items in letter trays, either 1-foot or 2-foot, depending on volume. Prepare flat-size items in flat-size trays/tubs. Bundle letter-size and flat-size pieces as defined in 293.44, and bundle each country separately. Face all letter-size items and flat-size items in the same direction and apply a label (facing slip) to the top item as defined in 293.473. Cover (i.e., sleeve or lid) all letter-size trays and flat-size trays/tubs and secure them with strapping.

   (2) **Container Tags.** Complete the front side of PS Tag 155, *International Surface Air Lift*, which identifies the mail to ensure it receives priority handling. Identify the date of mailing, the 10-digit permit number, and the price group as listed in *Exhibit 293.45a* followed by the word “Mixed” (e.g., “14–Mixed”). Finally, tape PS Tag 155 to the tray cover.
b. **Packages.** For each mixed country container of package-size items, the mailer must do the following:

(1) **Mail Preparation.** Prepare package-size items by placing them loose in sacks.

(2) **Container Tags.** Complete the front side of PS Tag 155, *International Surface Air Lift*, which identifies the mail to ensure it receives priority handling. Identify the date of mailing, the 10-digit permit number, and the price group as listed in Exhibit 293.45a followed by the word “Mixed” (e.g., “14–Mixed”). Finally, attach PS Tag 155 to the neck of the sack.

**293.473 Direct Country Bundle Label for Mixed Country Containers**

Only letter-size and flat-size direct country bundles prepared for mixed country containers require a label (facing slip). The mailer must complete the label and place it on the address side of the top item of each bundle in such a manner that it will not become separated from the bundle. The pressure-sensitive labels and optional endorsement lines used domestically for presort mail are prohibited for ISAL service. Bundle labels must contain the following information:

- **Line 1:** Foreign Office of Exchange Code. (See Exhibit 293.45a or Exhibit 293.45b.)
- **Line 2:** Country Labeling Name. (See Exhibit 293.45a.)
- **Line 3:** Mailer, Mailer Location (City and State).

**293.48 Presort Mailings — Price Groups 3–6**

**293.481 General**

Mailers must prepare price groups 3–6 in direct country containers (full-service price and ISC drop shipment price) or mixed country containers (ISC drop shipment price). Each direct country container must contain at least 2 pounds of mail. Each mixed country price group must contain a minimum of 5 pounds when prepared under 293.47, or a minimum of 5 pounds for each sack when sorted under 293.483. Smaller quantities qualify only for the worldwide nonpresort price under 293.49. The mailer must separately containerize items bearing customs forms from items not bearing customs forms. The maximum container weight is 66 pounds.

**293.482 Preparation**

The mailer has two options to prepare direct country or mixed country containers of presorted ISAL mail, as follows:

a. **Prepare mail as described in 293.46 and 293.47,** including using letter-size trays for letter-size items, flat-size trays/tubs for flat-size items, and sacks for package-size items.

b. **Prepare mail in sacks for letter-size and flat-size mail as defined in 293.483 and 293.484.**
Direct Country and Mixed Country — Optional Sack Preparation

The mailer may optionally prepare direct country sacks or mixed country sacks of presorted ISAL letter-size and flat-size mail when sacks are used for the following processing categories:

a. Full-Service and ISC Drop Shipment — Direct country sacks.

(1) Preparation. Mail (letter-size and flat-size) that is addressed to an individual country and that contains 2 pounds or more must be sorted into direct country sacks. Mail that cannot be made up into direct country sacks must be prepared and entered as mixed country sacks or as worldwide nonpresort sacks. The mailer must bundle letter-size and flat-size items as defined in 293.44. The mailer must bundle letter-size items and flat-size items separately, although nonidentical items may be commingled within each of these categories. Face all letter-size items and flat-size items in the same direction and apply a label (facing slip) to the top item as defined in 293.484. Note: Package-size items must not be commingled with letter-size and flat-size items and must be prepared in separate sacks.

(2) Container Tags. The mailer must complete the front side of PS Tag 155, International Surface Air Lift, which identifies the mail to ensure it receives priority handling. The mailer must check the appropriate box to indicate if the sack contains items with or without customs forms, identify the destination country, and enter the date of mailing, the 10-digit permit number, the foreign office of exchange code as listed in Exhibit 293.45a or Exhibit 293.45b, and the price group as listed in Exhibit 293.45a. To the front side of the tag, the mailer must apply a barcode that indicates the mailer’s permit number, the product code, the service type code, the container type, the shape type, the foreign office of exchange code, and the serial number of the sack. (To request technical specifications for the barcode, send an e-mail to globalbusiness-sales@usps.gov.) Finally, the mailer must attach PS Tag 155 to the neck of the sack.

(3) Direct Country Container Label. A mailer who claims the ISC drop shipment price and enters the mail at an authorized drop shipment location under 293.532 is not required to prepare container labels. A mailer who claims the full-service price must complete 2-inch container labels (and insert them into the applicable container label holder) as follows (see Exhibit 293.483 for the list of U.S. Exchange Offices):

Line 2: Contents — DRX COUNTRY.
Line 3: Mailer, Mailer Location (City and State).

b. ISC Drop Shipment — Mixed country sacks.
(1) Preparation. Mixed country sacks can be prepared only after all possible direct country sacks have been prepared. The mailer must prepare mixed country sacks for items that contain 5 pounds or more and that are destined within the same price group. Mail that ultimately cannot be made up into direct country sacks or mixed country sacks must be prepared and entered at the worldwide nonpresort price. The mailer must bundle letter-size and flat-size items as defined in 293.44. The mailer must bundle letter-size and flat-size items separately, although nonidentical items may be commingled within each of these categories. Face all letter-size items and flat-size items in the same direction and apply a label (facing slip) to the top item as defined in 293.484. Note: When using this option, the mailer may not place package-size items in the sacks.

(2) Container Tags. The mailer must complete the front side of PS Tag 155, International Surface Air Lift, which identifies the mail to ensure it receives priority handling. On the front of the tag, the mailer must identify the date of mailing, the 10-digit permit number, and the price group as listed in Exhibit 293.45a followed by the word “Mixed” (e.g., “15–Mixed”). Finally, the mailer must attach PS Tag 155 to the neck of the sack.
293.484 **Direct Country Bundle Label**
Only letter-size and flat-size direct country bundles prepared for mixed country sacks require a label (facing slip). The mailer must complete the label and place it on the address side of the top item of each bundle in such a manner that it will not become separated from the bundle. The pressure-sensitive labels and optional endorsement lines used domestically for presort mail are prohibited for ISAL service. Bundle labels must contain the following information:

- **Line 1:** Foreign Office of Exchange Code. (See Exhibit 293.45a or Exhibit 293.45b.)
- **Line 2:** Country Labeling Name. (See Exhibit 293.45a.)
- **Line 3:** Mailer, Mailer Location (City and State).

**Example:**

```
VIE
AUSTRIA
ABC COMPANY WASHINGTON DC
```

293.49 **Worldwide Nonpresort Preparation**
The following standards apply when the mailer prepares worldwide nonpresort ISAL mail (full-service price and ISC drop shipment price):

- **General.** A mailer claiming any mail at the direct country or mixed country price cannot enclose the mail in worldwide nonpresort sacks. The mailer must bundle letter-size and flat-size mail. Letter-size bundles and flat-size bundles can be commingled in the same sack. Labels (facing slips) are not required on any bundles. Package-size items must not be commingled with letter-size and flat-size items and must be prepared in separate sacks. Containers other than sacks are not authorized unless other equipment is specified by the acceptance office — for example, the mailer may present nonpresorted letter-size mail in trays if authorized by the acceptance office. The maximum weight of any container is 66 pounds.

- **Worldwide Nonpresort Container Label.** A mailer who claims the ISC drop shipment price and enters the mail at an authorized drop shipment location under 293.532 is not required to prepare container labels. A mailer who claims the full-service price must complete 2-inch container labels (and insert them into the applicable container label holder) as follows (see Exhibit 293.483 for the list of U.S. Exchange Offices):
  - **Line 1:** Appropriate U.S. Exchange Office and Routing Code.
  - **Line 2:** Contents WKG.
  - **Line 3:** Mailer, Mailer Location (City and State).

**Example:**

```
ISC MIAMI FL 33112
ISAL — WKG
ABC COMPANY MIAMI FL
```
293.5 **Mail Entry and Deposit**

293.51 **Separation by Price Group**

The mailer must physically separate the containers by price group at the time of mailing as indicated on the container tag.

293.52 **Full Service**

Mailings must be deposited at a Post Office facility where bulk mail is accepted and where the mailer holds an advance deposit account or postage meter license.

293.53 **Drop Shipment**

293.531 **General**

To qualify for the drop shipment price, mailers must present the mail to one of the locations in 293.532. The mailer must pay postage at the drop shipment location either through an advance deposit account or postage meter license at the serving Post Office facility. As an alternative, mailers who are participating in the plant-verified drop shipment (PVDS) program may have the mail verified, accepted, and paid for at the mailer’s plant or at the origin Post Office facility serving the mailer’s plant if authorized under DMM 705. PVDS mail must be transported by the mailer to the drop shipment location, and the mail must be accompanied by PS Form 8125, *Plant-Verified Drop Shipment (PVDS) Verification and Clearance.*

293.532 **Drop Shipment Locations**

Drop shipments are available through the offices noted in [Exhibit 293.532](#). **Note:** California, Illinois, and New York locations accept both “cleared” mail (mail that has been previously presented and paid for at a BMEU) and “uncleared” mail (mail that has not been previously presented and paid for at a BMEU). For Florida locations, refer to footnotes 1 and 2 for special requirements.

297.1 Description
The Postal Service provides Global Expedited Package Services (GEPS) customized agreements to Priority Mail Express International, Priority Mail International, and First-Class Package International Service customers pursuant to the terms and conditions stipulated between the Postal Service and a particular customer.
297.2 **Qualifying Mailers**
To qualify for a GEPS contract, a mailer must be capable, on an annualized basis, of paying at least $200,000 in international postage to the Postal Service.

297.3 **Criteria**
Each GEPS customized agreement for international mailings must set forth the following:

a. The type of mail to be tendered by the mailer.
b. The term of the agreement.
c. Weight and size limits.
d. Preparation requirements.
e. Makeup requirements.
f. The services to be provided by the Postal Service.
g. Minimum volume or postage commitment on the part of the mailer.
h. Postage and method of payment.
i. The location at which the mailer is required to tender its items to the Postal Service.
j. Any other obligations of either party.
3 Extra Services

310 Certificate of Mailing

311 Individual Pieces

311.1 Description
Certificate of mailing service is available only at the time of mailing and provides evidence that mail has been presented to the Postal Service for mailing. Certificate of mailing service does not provide a record of delivery, and the Postal Service does not retain copies of PS Form 3817, Certificate of Mailing, or PS Form 3665, Certificate of Mailing — Firm, or USPS-approved facsimiles. The fee paid for certificates of mailing does not insure the item against loss or damage. The Postal Service postmarks (round-dates) each form or firm sheet at the time of mailing and then returns it to the mailer as the mailer’s receipt.

311.2 Availability

311.21 At Time of Purchase
A customer may purchase a certificate of mailing (individual pieces) when sending the following:
   a. Postcards.
   b. Unregistered First-Class Mail International items.
   c. Unregistered First-Class Package International Service items.
   d. Airmail M-bags.
A certificate of mailing (individual pieces) cannot be obtained in combination with Registered Mail items, insured parcels, Free Matter for the Blind, or items paid with a permit imprint.

311.22 After Mailing (Duplicate Copies)
To obtain a duplicate copy of the certificate of mailing, the mailer must present the original form or firm sheet and an additional certificate endorsed “Duplicate” or a copy indicating the original dates of mailing. The Postal Service postmarks (round-dates) the additional certificate to indicate the current date.
311.3 Fees

311.31 Individual Pieces
In addition to the correct postage, the mailer must pay the certificate of mailing fee for each article on PS Form 3817 at a Post Office facility. For a separate fee, the mailer may request a duplicate copy of PS Form 3817 after mailing (see 311.22). See Notice 123, Price List.

311.32 Three or More Individual Pieces
When mailing three or more pieces, the mailer may optionally use PS Form 3665. In addition to the correct postage, the mailer must pay the certificate of mailing fee for each article on PS Form 3665 by affixing ordinary (uncanceled) stamps, meter imprints, or PC Postage imprints to PS Form 3665. Mailers paying for the postage with a permit imprint may also pay the fee at the time of mailing using the same permit imprint account. For a separate fee, the mailer may request a duplicate copy of PS Form 3665 after mailing (see 311.22). See Notice 123, Price List.

311.4 Mailer Preparation

311.41 Individual Pieces
To obtain a certificate of mailing service for individual pieces, the mailer must present an eligible item for mailing (see 311.21) to a Post Office facility. For customers served by rural carrier service, the carrier obtains the certificate at the Post Office, attaches the stamps, obtains the postmark (round-date) on the certificate on the day of mailing, and delivers the certificate to the customer on the next trip.

311.42 Three or More Individual Pieces
To obtain a certificate of mailing service for three or more pieces of eligible items (see 311.21), the mailer may use PS Form 3665 or a USPS-approved facsimile. All entries on firm sheets must be typed or printed in ink. The mailer may also use USPS-approved computer-generated firm sheets that contain the same information as PS Form 3665. The mailer must obliterate all unused portions of the addressee column by drawing a diagonal line through them. The mailer must pay the certificate of mailing fee by affixing ordinary (uncanceled) stamps, precanceled stamps, meter stamps, or PC Postage stamps to the items. The mailer and accepting employee must initial any alterations to the firm sheets. The postmarked (round-dated) sheets of the books become the mailer’s receipts.

312 Bulk Quantities — Certificate of Mailing

312.1 Description
For bulk mailings of identical-weight pieces paid with ordinary stamps, meter stamps, PC Postage, or permit imprint, mailers may optionally use PS Form 3606, Certificate of Bulk Mailing. This form is used only at the time of mailing, to verify the number of identical-weight pieces mailed. The form must not be used as an itemized list, and it does not provide evidence that a piece was mailed to a particular address. The fee paid for a certificate of
mailing does not insure the item against loss or damage, and the Postal Service does not retain copies of PS Form 3606. The Postal Service certifies each PS Form 3606 by postmark (round-date) at the time of mailing and then returns it to the mailer as the mailer’s receipt.

312.2 Availability

312.21 At Time of Entry
A customer may purchase a certificate of bulk mailing when sending the following identical-weight items:

a. Postcards.
b. Unregistered First-Class Mail International items.
c. Unregistered First-Class Package International Service items.
d. Airmail M-bags.

A certificate of bulk mailing cannot be obtained in combination with Registered Mail items, insured parcels, or Free Matter for the Blind.

312.22 After Mailing (Duplicate Copies)
To obtain a duplicate copy of PS Form 3606 after mailing, the mailer must present the original postmarked certificate and an additional certificate endorsed “Duplicate” or a copy indicating the original dates of mailing. The Postal Service postmarks (round-dates) the additional certificate to indicate the current date.

312.3 Fees
In addition to the correct postage, the mailer must pay the applicable certificate of bulk mailing fee for mailings of identical-weight pieces reported on PS Form 3606 by affixing ordinary (uncanceled) stamps, meter imprints, or PC Postage imprints to PS Form 3606. Mailers paying for the postage with a permit imprint may also pay the fee at the time of mailing using the same permit imprint account. For a separate fee, the mailer may request a duplicate copy of PS Form 3606 after mailing (see 312.22). See Notice 123, Price List, for all applicable fees.

312.4 Mailer Preparation
The mailer may present requests for certificate of bulk mailing to a Post Office facility, business mail entry unit (for items paid with a permit imprint), or other location authorized by the Postal Service. The mailer may pay the fee by ordinary (uncanceled) stamps, meter stamps, or PC Postage stamps by affixing the postage to PS Form 3606. The Postal Service certifies each PS Form 3606 by postmark (round-date) at the time of mailing and then returns it to the mailer as the mailer’s receipt.
313 Forms

313.1 Postal Service Forms
The forms used for domestic mail are also used for international mail (see DMM 503).

313.2 Treasury Department Forms
a. The sender may receive a certificate of mailing on Treasury Department (Internal Revenue) Forms P.T. 26, 27-A, or 550 certifying that the sender has waived the right to withdraw the item from the mail. The individual certificate of mailing fee applies to each completed form.
b. Post Office facilities may also certify on Customs Form 4455, Certificate of Registration, the exportation by mail of items sent abroad for alteration, repair, or replacement (see 713.43). The individual certificate of mailing fee applies to each completed form.

313.3 Accepting Clerk’s Responsibility for Treasury Department Forms
The accepting clerk must do the following for each Treasury Department form described in 313.2:
a. Make sure that the form has been properly completed and that the correct amount of postage has been affixed.
b. Cancel the stamps with a postmark indicating the current date.
c. Sign the form.
d. Return the form to the sender.

313.4 Agriculture Department Forms
Certain certificates or permits are required for the exportation of dried whole eggs. For procedures and fees, see 550.

320 Insurance

321 Global Express Guaranteed Insurance

321.1 Description

The insurance limit varies by country (see the Individual Country Listings) but may never exceed $2,499. Unless additional insurance is purchased, liability for a lost or damaged Global Express Guaranteed shipment is limited to the lowest of the following:
a. $100.
b. The actual amount of the loss or damage.
c. The actual value of the contents.
321.2 Availability
Insurance availability varies by country, content, and value. Coverage, terms, and limitations are subject to change. See the Individual Country Listings for insurance limits.

321.3 Additional Coverage and Fees
Additional insurance coverage above $100 — up to the maximum amount allowed by the country (see the Individual Country Listings) but never to exceed $2,499 — may be purchased at the sender’s option. Additional Coverage and Fees

Additional merchandise insurance coverage above $200 — up to the maximum amount allowed by the country (see Exhibit 322.2) but never to exceed $5,000 — may be purchased at the sender’s option. The insurance fee is in addition to postage and other applicable fees. See Notice 123, Price List, for the fee schedule for optional Priority Mail Express International merchandise insurance coverage.

Return Receipt Service

Return receipt service is the only extra service that mailers may add to insured items. There is no additional charge for this service, and it is available only to certain countries. See the Individual Country Listings for availability. See 340 for additional information about return receipt service.
**Priority Mail International Insurance**

**Description**
Priority Mail International shipments containing merchandise are insured against loss, damage, or missing contents up to $200 at no additional charge. Priority Mail International shipments containing only nonnegotiable documents are insured against loss, damage, or missing contents up to $100 for document reconstruction at no additional charge. Indemnity is paid by the U.S. Postal Service as provided in 933. For a fee, the sender may purchase additional insurance to protect against loss, damage, or missing contents for Priority Mail International items containing merchandise, subject to individual country limitations. Additional document reconstruction insurance may not be purchased. If the item has been lost, or if it has been delivered to the addressee in damaged condition or with missing contents, payment is made to the sender unless the sender waives the right to payment, in writing, in favor of the addressee.

**Availability**
Merchandise insurance above the included $200 amount is available for all Priority Mail International items to certain countries. See Exhibit 322.2.

**Coverage and Fees**
Additional merchandise insurance coverage above the included $200 — up to the maximum amount allowed by the country (see Exhibit 322.2) but never to exceed $5,000 — may be purchased at the sender’s option. The insurance fee is in addition to postage and other applicable fees and is based on the insured value. See Notice 123, Price List, for the fee schedule for optional Priority Mail International merchandise insurance coverage.

**Return Receipt**
Return receipt service is the only extra service that mailers may add to insured items. It is available for an additional fee and is available only to certain countries. See the Individual Country Listings for availability. See 340 for additional information about return receipt service.

**Insured Value and Declared Value**
The insured value (insurance coverage) of a parcel may not be more than the declared value or content value listed on PS Form 2855, International Claim for Indemnity. However, depending on the preference of the sender, the insured value may be less than the declared value or content value listed on PS Form 2855.

**Preparation of Insured Priority Mail International Parcels**

**Mailing Receipt and Insurance Number**
All Priority Mail International insured parcels must be numbered. The mailing receipt issued at the time of mailing, accompanied by either the hard copy PS Form 2976-R or an electronically generated PS Form 2976-A, will serve
as proof of mailing and proof of insurance. Volume mailers may use
PS Form 3877, Firm Mailing Book for Accountable Mail, as the sender’s receipt.

323.62 Accepting Clerk’s Responsibility
When a customer has purchased additional insurance, the accepting clerk
must indicate on the hard copy PS Form 2976-R the amount for which the parcel is insured by writing the amount in U.S. dollars in ink in the “Insured Value (U.S. $)” block. After using the information on PS Form 2976-R to electronically generate PS Form 2976-A, the accepting clerk must write a bold capital “V” in or near the boxes “Insured Amount (US $)” and “Insurance Fees (US $)” on PS Form 2976-A.

323.63 Postmarking
Postmark the item at the time of acceptance at all breaks (including any cut or torn edges) of any tape or tabs used in sealing the parcel.

323.7 Sender’s Responsibility
323.71 Mailing Receipt
The sender should enter the name and address of the addressee on the mailing receipt and retain the receipt.

323.72 Marking
The sender has the responsibility to do the following:

a. Mark parcels containing fragile or perishable articles with the appropriate endorsement — e.g., “FRAGILE,” “PERISHABLE,” “GLASS,” etc.

b. Enter the insured amount in U.S. currency (figures only) in the appropriate space on the customs declaration.

323.73 Sealing
The sender must seal all insured parcels.

330 Registered Mail

331 Description
Customers may use Registered Mail service for additional protection and security in dispatch and conveyance in the United States. For each registered item a mailing receipt is issued by the office of mailing and a record of delivery is maintained at the office of destination. Indemnity limits are much lower for Registered Mail items than for insured mail. In the United States, Registered Mail items are handled separately from all other mail and are kept in a secure area with restricted access. In destination countries, Registered Mail items are handled according to their own internal procedures.
Availability

Customers may purchase Registered Mail service for items that weigh up to 4 pounds. Registered Mail service is not available with Global Express Guaranteed, Priority Mail Express International, or Priority Mail International service or any type of M-bag service. See Individual Country Listings for additional country-specific prohibitions and restrictions. Registered Mail service is available for the following types of mail:

a. First-Class Mail International items, including Free Matter for the Blind items.
b. First-Class Package International Service items, including Free Matter for the Blind items.

Fees and Indemnity Limits

333.1 Registration Fees

See Notice 123, Price List, for the registry fee.

333.2 Indemnity Limit

Regardless of the declared value of a registered item, the maximum amount of indemnity payable for loss, damage, or missing contents is $40.87.

Processing Requests

334.1 Mailing Receipt and Registration Number

334.11 General Use

The Postal Service issues a receipt when it accepts a Registered Mail item. For individual transactions, use PS Form 3806, Receipt for Registered Mail. When presenting three or more items for registration at one time, the mailer may use PS Form 3877, Firm Mailing Book for Accountable Mail (see DMM 503). The registered number is determined by the barcode printed on the customs form, and the accepting clerk applies a nonbarcoded Label 200-N, Registered Mail, to the mailpiece. For items that do not require a customs form, the accepting clerk applies Label 200, Registered Mail, a preprinted self-adhesive label with a number series of nine digits preceded by a Service Type Code of two alpha characters and followed by the two-character Country Code “US.” Only labels printed by the Postal Service may be used on international Registered Mail items.

334.12 Sender’s Responsibility

The sender must:

a. Enter the name and address of addressee on the mailing receipt before presenting the item for registration.
b. Declare the full value of mail presented for registration. The value declared must be identical to the value stated on the hard copy PS Form 2976-R or on an electronically generated PS Form 2976. If the values declared are not identical, the Postal Service will refuse the items. (See 123.711.)
c. The sender should retain the receipt and must submit it if he or she wishes to file a claim for the registered item (see chapter 9).

334.13 Accepting Clerk’s Responsibility
The accepting clerk must:

a. Verify that the value declared on PS Form 3806 and the value declared on the hard copy PS Form 2976-R or an electronically generated PS Form 2976 are identical. Refuse items on which the declared values are not the same.

b. For an item that requires a customs form, affix Label 200-N to the item on the address side — in the upper left, below the return address. For an item that does not require a customs form, similarly affix Label 200.

c. If requested by the sender, show on the mailing receipt and on the Post Office record the time the item was accepted for mailing.

d. On the receipt, the system will print the registration fee and postage plus the return receipt fee, if applicable.

e. When federal government official mail is registered pursuant to 142.1, endorse the mailing receipt “OFFICIAL PAID” or “OFF. PD.”

334.14 Preparation
Items bearing an address in pencil or any other erasable format must not be accepted for Registered Mail service.

334.2 Marking
The accepting clerk must enter the following endorsements and special markings on each registered item:

a. Affix Label 200-N or Label 200 as noted in 334.13b. All Registered Mail items of U.S. origin must bear Label 200-N or Label 200.

b. Place airmail Label 19-A or Label 19-B or the words “PAR AVION” on registered items prepaid for air if the sender has failed to do this.

c. Endorse the item for any other extra service that the sender requests.

334.3 Postmarking
334.31 Placement
Postmark registered items twice on the back on the crossing of the upper and lower flaps. If return receipts are used, postmark partially on the receipt and partially on the flaps of the letter. Items sealed on the address side must be postmarked on the address side.

334.32 Registered Free Matter for the Blind
Postmark registered Free Matter for the Blind on the address side.

334.4 Sealing
334.41 Sender’s Responsibility
Senders must securely seal all items presented for registration. Wax or paper seals on envelopes must bear a distinctive mark of the sender and must be affixed in such a way as to allow sufficient space at the intersections of the
flaps for postmarking. Self-sealing envelopes and items that appear to have been opened and resealed may not be registered.

334.42 Registered Mail Service With Free Matter for the Blind
Registered Mail service is available when the mailer has paid all applicable Registered Mail service fees. Free Matter for the Blind items sent by Registered Mail service are not sealed against inspection.

334.5 Return Receipt
Return receipts can be purchased for Registered Mail items to most countries. (See 340 and 350 and Individual Country Listings.)

335 Indemnity Claims and Payments
Indemnity is provided for loss, damage, or missing contents. If a registered article has been lost, or if it has been delivered to the addressee in damaged condition or with missing contents, payment is paid to the sender unless the sender waives the right to payment, in writing, in favor of the addressee.

340 Return Receipt

341 Description
PS Form 2865, Return Receipt for International Mail (Avis de Reception), is a pink card that is attached to a registered item or a Priority Mail International item at the time of mailing and that is removed and signed at the point of delivery and returned to the sender. Return receipt service provides the sender with evidence of delivery. Return receipts are completed in the country of destination in accordance with its internal regulations, which may not require the addressee’s signature except under special circumstances. These receipts are returned to the sender by airmail.

342 Availability
Return receipt service can be purchased only at the time of mailing and is available only for a registered item or a Priority Mail International item with the purchase of additional merchandise insurance. Some countries do not admit return receipts or restrict them to Registered Mail items. See Individual Country Listings.
343 **Fee**

See *Notice 123, Price List*, for the return receipt fee. This fee must be paid in addition to postage and other applicable charges.

*Note:* Include the weight of the return receipt when determining the postage for mailing the item.

344 **Processing Requests**

344.1 **Form**

344.11 **Sender’s Responsibility**

The sender must enter the return address on the return receipt.

344.12 **Accepting Clerk’s Responsibility**

The accepting clerk must:

- Record the return receipt fee on the insured or registered mailing receipt.
- Enter the address of the addressee on the return receipt.
- Attach the return receipt to the item.
- Affix and cancel postage equal to the sum of the return receipt fee, postage, and other applicable fees.

344.2 **Marking**

The accepting clerk must mark address side of item either “AVIS DE RECEPTION” or “A.”

344.3 **Return Receipt Improperly Completed or Not Received**

If the sender does not receive a return receipt for which a fee was paid, or if the sender receives an improperly completed return receipt, an inquiry may be filed. (See 920 for inquiry procedures.)

350 **Restricted Delivery**

Restricted delivery service is no longer available — it was discontinued effective January 27, 2013. (It was limited to First-Class Mail International items, Priority Mail International Flat Rate Envelopes, and Priority Mail International Small Flat Rate Priced Boxes when used in conjunction with Registered Mail service.)

360 **(Reserved)**

Funds are guaranteed to transfer in 15 minutes, and a currency conversion rate is provided to the sender at the time of purchase.

Options and Restrictions
The following restrictions apply to Sure Money service:

a. The maximum purchase per day is $1,500.

b. Regardless of the amount of money sent, the payee must present an acceptable primary form of photo identification (see DMM 608.10.3), which must match exactly the name on the transaction, as well as a valid confirmation number that is provided to the sender at the time of purchase.

c. For a fee and with an acceptable primary form of photo identification (see DMM 608.10.3), the sender may change the individual who is designated as the payee.

d. For a fee and with an acceptable primary form of photo identification (see DMM 608.10.3), the sender may request a refund if for any reason payout in the destination country was unsuccessful.

Fees
See Notice 123, Price List, for the fees for Sure Money service.

372.6 **Currencies by Country**
Local currencies vary by country. Some countries use the U.S. dollar as their payout currency, and in those countries the exchange rate with U.S. currency is always one-to-one. Other countries use their own currency, which has a different foreign currency exchange rate. Senders will receive information specific to their transactions when they purchase Sure Money service.

372.7 **Service Guarantee**
Upon request, the sender may receive a refund of the sale fee only if the transaction arrives at the payout agent after the 15-minute guarantee period has not been attained. All refunds are subject to the terms and conditions applicable to the service at the time of purchase.

380 **Supplemental Services**

381 **International Reply Coupons**

381.1 **Description**
As of January 27, 2013, the U.S. Postal Service no longer sells international reply coupons. Coupons previously sold by the U.S. Postal Service may no longer be used or exchanged (see 381.2). The following standards apply to international reply coupons:

a. The sender of a letter may prepay a reply by purchasing reply coupons that are sold and exchangeable for postage stamps by participating postal administrations in member countries of the Universal Postal Union.

b. The front of international reply coupons (in French, *Coupons-Reponse Internationaux*) is printed in French. The reverse side, which has text relating to its use, is printed in German, English, Arabic, Chinese, Spanish, and Russian.

381.2 **Previously Sold Coupons and Exchange Value**
The following standards apply to the exchange of international reply coupons:

a. International reply coupons sold by the United States Postal Service expired on December 31, 2013, or earlier, and may not be used or exchanged. Unused U.S. coupons (that is, those with the U.S. selling price stamped on them) may no longer be exchanged.

b. International reply coupons purchased in foreign countries must be presented at U.S. Post Office facilities for exchange before their expiration date.
c. With the exceptions noted in 381.3d, international reply coupons purchased in foreign countries are exchangeable at U.S. Post Office facilities toward the purchase of postage stamps and embossed stamped envelopes at the current maximum First-Class Mail International 1-ounce, letter-size price, per coupon, irrespective of the country where they were purchased. See Notice 123, Price List.

381.3 Processing Requests
The following standards apply when processing international reply coupons:

a. Under Universal Postal Union’s regulations, participating member countries are not required to place a control stamp or postmark on the international reply coupons that they sell. Therefore, some foreign issue reply coupons that they sell may bear the name of the issuing country (generally in French) rather than the optional control stamp or postmark. Such coupons are exchangeable for U.S. postage as specified in 381.2b.

b. A Post Office facility exchanging a foreign reply coupon must postmark it. Post Office facilities must not accept foreign coupons that already bear a United States Postal Service postmark.

c. The only valid version of the international reply coupon is printed by the Universal Postal Union with shades of green as the predominant color, bears the “Préserver l’écosystème – Protéger le climat” (Preserve the Ecosystem – Protect the Climate) design (a tree whose trunk and branches are shaped like two cupped hands holding the tree’s foliage and several birds, all positioned on top of a globe), measures approximately 3.75 inches by 6 inches, has a barcode on the reverse side, and bears an expiration date of December 31, 2025.

d. Reply coupons formerly issued by the Postal Union of the Americas and Spain are no longer valid. These coupons are printed in green ink and bear the caption Cupon Respuesta America-Espanol. Customers possessing any of these coupons should return them to their correspondents in the country of issue for redemption through the selling post office.

e. Postmasters must process exchanged foreign international reply coupons as prescribed in Handbook F-101, Field Accounting Procedures, in section 11-6.6, “International Reply Coupons.”

Note: Only foreign international reply coupons are eligible for redemption — all USPS-issued international reply coupons expired December 31, 2013, or earlier.

382 International Business Reply Service

382.1 Description
International Business Reply Service (IBRS) (in French, “Correspondance Commerciale-Réponse Internationale,” abbreviated “CCRI”) is similar to domestic business reply mail service. It allows envelopes and cards to be distributed to and deposited in certain foreign countries for return to the addressee in the United States without prepayment of postage. Postage and service fees are collected from the U.S. addressee at delivery. Extra services cannot be used with IBRS.
382.2 Availability
IBRS is available to every country and territorial possession in the world that is a destination point for U.S.-originating international mail. To be admissible in the international mails IBRS envelopes and cards must conform to the size, weight, and format requirements that are specified in 382.5 and 382.6 respectively. Qualifying mailpieces receive airmail treatment upon being returned by the foreign postal administrations to United States addressees. See 382.4 for the IBRS price that applies to each envelope or card that is returned to the holder of a business reply mail (BRM) permit.

Note: Domestic business reply items are not mailable outside the United States. If deposited in a foreign postal system they will be treated in accordance with that country’s internal postal regulations and may not be returned to the U.S. addressee.

382.3 Who May Distribute IBRS Mail
In order to initiate IBRS mail the U.S. sender must be a business reply mail (BRM) permit holder who has paid the prescribed accounting fee to participate in the Qualified Business Reply Mail (QBRM) program (see DMM 505). Prior to producing IBRS mail the mailers must advise in writing the postmaster of the Post Office facility where their permit is held that they intend to distribute IBRS mail. IBRS mail must meet all specifications of QBRM including using unique ZIP+4 codes identification of the price category and using the corresponding barcode. The postmaster must assign the unique ZIP+4 codes as part of the application process. Participating mailers are encouraged to submit preproduction samples for approval. The postmaster responsible will issue a letter of authorization to the mailer.

382.4 Postage and Fees
See Notice 123, Price List, for the applicable price that applies to each card, or each envelope (up to a 2-ounce maximum).

Note: The price for each returned IBRS envelope and card includes postage and the applicable per piece fee that is applied to QBRM domestic business reply service. It is not necessary for the sender to obtain a separate international business reply permit to have IBRS items processed through their advance deposit account.

382.5 Size and Weight Requirements
382.51 Cards
The following size and weight requirements apply to cards:

a. Minimum size: 3-1/2 by 5-1/2 inches.
b. Maximum size: 4-1/4 by 6 inches.
c. Thickness: Not less than .007 inch nor more than .016 inch.

Note: IBRS cards must be printed on paper stock meeting a standard industry basis weight of 75 pounds with none less than 71.25 pounds for 500 sheets measuring 25 inches by 38 inches and must also have a thickness of at least .007 inch and not more than .016 inch. The paper must be free from groundwood except when coated with a substance that adds to the paper’s ability to resist an applied bending force.
382.52 **Envelopes**
The following size and weight requirements apply to envelopes:
a. Minimum size: 3-1/2 by 5-1/2 inches.
c. Thickness: Not less than .007 inch or more than .2 inch.
d. Maximum weight: 2 ounces.

382.6 **Formatting Requirements**

382.61 **General**
See Exhibit 382.6 for an illustration of an IBRS mailpiece showing the items and formatting requirements discussed in 382.62 through 382.68.

382.62 **Air Mail Endorsement**
The endorsement “AIR MAIL/PAR AVION” must appear in the upper left corner in reverse print. Immediately beneath this endorsement must appear the words “IBRS/CCRI NO.” followed by the permit number.

382.63 **FIM**
Each IBRS mailpiece must contain a Facing Identification Mark (FIM) pattern C printed at the top middle right on the address side of the mailpiece. The formatting requirements for the placement of the FIM are as follows:
a. The top of the FIM C bar pattern must be within 1/8 of an inch of the edge of the mailpiece and may extend to the edge.

b. The bars must be evenly spaced.
c. The lowest bar must not extend below the delivery address line, which is the line above the line containing the ZIP+4 code.

b. A clear margin void of any extraneous matter of at least 1/2 inch is required between the left edge of the mailpiece and the delivery address.

382.68 Barcode

382.681 Barcode Type

The unique Intelligent Mail barcode (IMb) or ZIP+4 POSTNET barcode preassigned by the U.S. Postal Service must appear on the address side of each IBRS mailpiece. When a mailer uses the Intelligent Mail barcode option, the barcode must contain the barcode ID, service type ID, a USPS-assigned mailer ID, and the correct ZIP+4 routing code, as specified in DMM 708.4.3.

382.682 Barcode Placement

The unique preassigned ZIP+4 barcode must appear on the address side of the mailpiece, positioned in either of the following two locations:

a. As part of the delivery address block as defined in DMM 202.5.7.
b. If printed directly on the mailpiece, within the barcode clear zone in the lower right corner of the piece. When a mailer uses this option, the “barcode read area” must be free of any printing other than the
barcode. The formatting requirements for the barcode clear zone are as follows:

1. The read area extends 5/8 of an inch from the bottom and 4-3/4 inches from the right edge of the mailpiece.
2. The leftmost bar must be between 3-1/2 inches and 4-1/4 inches from the right edge of the mailpiece.
3. The bottom of the barcode must be at least 3/16 inch from the bottom edge of the mailpiece.
4. The top of the barcode must be no more than 1/2 inch from the bottom edge of the mailpiece.

4 Treatment of Outbound Mail

410 Postmarking

The mailing office must postmark international mail as prescribed in POM 443.3.

420 Unpaid and Shortpaid Mail

421 Check for Sufficient Postage
Carefully check the postage on all outbound mail before dispatching it from the mailing office.

422 Unpaid Mail

422.1 Unpaid Mail With a Return Address
Regardless of mail class, return to the sender each unpaid mailpiece that has a return address. Endorse the mailpiece with rubber stamp R-1300-230, Return For…Additional Postage.

422.2 Unpaid Mail Without a Return Address
Regardless of mail class, forward each unpaid mailpiece that does not have a return address to the Mail Recovery Center for proper disposition.

423 Shortpaid Mail

423.1 General Procedures at the Originating Mailing Office
When shortpaid items are returned to sender, endorse the item “Returned For...Additional Postage.” Enter the amount of the deficiency.

423.2 Disposition
Once the class of mail has been determined, follow the appropriate procedures below for shortpaid outbound international mail.
423.21 Global Express Guaranteed (GXG) Shipments

Shortpaid Global Express Guaranteed (GXG) shipments must be endorsed “POSTAGE PAID” and forwarded without delay to the appropriate Global Express Guaranteed processing site. Except for items paid with Click-N-Ship postage, immediately notify the sender of the action taken and request payment of the deficient postage. Shortpaid Global Express Guaranteed shipments paid with Click-N-Ship will be collected automatically through this system.

Note: Global Express Guaranteed shipments must not be held for postage due payment unless the deficiency can be obtained from the sender without delaying the dispatch of the shipment.

423.22 Priority Mail Express International Shipments

423.221 Items Paid With Permit Imprint, USPS-Produced PVI Label, or USPSCA

Regardless of the amount of deficiency, consider as paid in full each shortpaid Priority Mail Express International item that is paid with a permit imprint, a USPS-produced postage validation imprinter (PVI) label, or USPS Corporate Account (USPSCA), and dispatch it to the appropriate international service center (ISC).

423.222 Items Paid With Any Other Postage Payment Method

The disposition of a shortpaid Priority Mail Express International item paid with a postage payment method other than a permit imprint, USPS-produced PVI label, or USPSCA is based on the amount of the deficiency, as follows:

a. Shortpaid $3.50 or less: Consider the item paid and dispatch it to the country of destination.

b. Shortpaid more than $3.50: Base the disposition on whether or not the item has a return address, as follows:

   (1) With a return address: Return the item to the sender. Endorse the item with rubber stamp R-1300-230, Return For…Additional Postage.

   (2) Without a return address: Forward the item to the Mail Recovery Center for proper disposition.

423.23 Priority Mail International Items

423.231 Items Paid With a Permit Imprint or USPS-Produced PVI Label

Regardless of the amount of deficiency, consider as paid in full each shortpaid Priority Mail International item that is paid with a permit imprint or USPS-produced postage validation imprinter (PVI) label, and dispatch it to the appropriate international service center (ISC).

423.232 Items Paid With Any Other Postage Payment Method

The disposition of a shortpaid Priority Mail International item paid with a postage payment method other than a permit imprint or USPS-produced PVI label is based on the amount of the deficiency, as follows:

a. Shortpaid $3.50 or less: Consider the item paid and dispatch it to the country of destination.
b. Shortpaid more than $3.50: Base the disposition on whether or not the item has a return address, as follows:

(1) With a return address: Return the item to the sender. Endorse the item with rubber stamp R-1300-230, Return For...Additional Postage.

(2) Without a return address: Forward the item to the Mail Recovery Center for proper disposition.

423.24 First-Class Mail International Items (including Postcards), First-Class Package International Service Items, and Airmail M-bags

423.241 Items Paid With a Permit Imprint or USPS-Produced PVI Label

Regardless of the amount of deficiency, consider as paid in full each shortpaid First-Class Mail International item (including a postcard), First-Class Package International Service item, and Airmail M-bag that is paid with a permit imprint or USPS-produced postage validation imprinter (PVI) label, and dispatch it to the appropriate international service center (ISC).

423.242 Items Paid With Any Other Postage Payment Method

The disposition of a shortpaid First-Class Mail International item (including a postcard), First-Class Package International Service item, and Airmail M-bag that is paid with a postage payment method other than a permit imprint or USPS-produced PVI label is based on the amount of the deficiency, as follows:

a. Shortpaid $1.00 or less: Consider the item paid and dispatch it to the appropriate international service center (ISC). Endorse the item with a T-stamp in accordance with section 451.4 of Handbook T-5, International Mail Operations. If a T-stamp is not available, endorse the item with a Postage Due stamp and enter the amount of the deficiency on the mailpiece.

b. Shortpaid more than $1.00: Base the disposition on whether or not the item has a return address, as follows:

(1) With a return address: Return the item to the sender. Endorse the item with rubber stamp R-1300-230, Return For...Additional Postage.

(2) Without a return address: Forward the item to the Mail Recovery Center for proper disposition.

423.3 Credit for Postage Paid

When computing the postage due on items that are returned to sender for insufficient postage, allow a credit for the postage already paid.
423.4 Parcels at Other Than Mailing Offices
Originating Network Distribution Centers (NDCs) must check for shortpaid parcels addressed to Canada and Mexico. Sectional centers and other intermediate offices, however, should not attempt to verify postage payment on parcels.

430 Improperly Prepared Mail

431 Insufficient Address
If an item is improperly addressed, but the country of destination is legibly written, dispatch it to the exchange office. The exchange office will determine whether the address is sufficient.

Note: Due to heightened security, many foreign postal administrations require complete sender and addressee information in roman letters and arabic numerals on postal items.

432 Oversized or Undersized Items
Post Office facilities must return to the sender any item that is more than the prescribed maximum size or is less than the prescribed minimum size. If the sender is not known, the item must be dispatched to the Mail Recovery Center.

433 Oversized Cards
Return oversized cards (those exceeding 9-1/4 x 4-3/4) to the sender. If the sender is unknown, dispatch cards to the exchange office.

434 Reply-Paid Cards
a. Reply-paid cards, except International Business Reply items, are not accepted as international mail.
b. Any outbound reply-paid cards bearing foreign postage (foreign reply-paid cards) must be returned to the sender for proper U.S. postage to be affixed. If there is no return address, send cards to the Mail Recovery Center.

435 Detached Customs Declaration Forms
When a detached customs declaration form is found, attempt to locate the related package and attach the form to it. If the package cannot be located, dispose of the customs declaration form as waste.
440 Mailpiece Refused by an Air Carrier

441 Item Containing Nonmailable, Hazardous, or Perishable Material

When an air carrier refuses a mailpiece containing nonmailable, hazardous, or perishable material, Postal Service employees will follow the standards in section 727.2 or 742.3 of Publication 52, *Hazardous, Restricted, and Perishable Mail*. In such an instance, the customer may be eligible for refund of postage consistent with IMM 941, IMM 942, and DMM 604.9.

442 Mailable Item

For all mail classes with the exception of Global Express Guaranteed service, when an air carrier refuses a properly prepared and labeled mailable international mailpiece, the Postal Service will attempt to find a suitable alternative air carrier. However, if it cannot identify another air carrier, the Postal Service will file an incident report and will return the item to the sender using Label 180, *Air Carrier Rejected Mail*. In such an instance, the customer may apply for refund of postage consistent with IMM 941, IMM 942, and DMM 604.9.

*Note:* For a refused mailable item, the mailer may have the option to send the item using Global Express Guaranteed (GXG) service, which uses a unique transportation network. The item must be otherwise mailable using GXG service (see 210), GXG service must be available to the destination country (see 213.5), and the mailer must enter the item through a Post Office facility that accepts GXG items (see 215.1). In addition, the mailer must apply a new shipping label (see 214.1) with new postage (based on the item’s weight and the destination country’s GXG price group), and must obliterate any markings or labels (e.g., Label 180) indicating the item was previously returned.

450 Extra Services Mail — Registered Mail

451 Recording and Dispatching

Record and dispatch outbound (international) Registered Mail items in the manner prescribed for domestic Registered Mail items.

452 Registered Mail Found With Ordinary Mail

452.1 Disposition

Return to the registered mailstream any item found in the ordinary mail that has been accepted as registered by the Postal Service.
452.2 **Complete the Registration Process**
Enter for Registered Mail service any item on which the sender has fully prepaid the postage and the registry fee and that has been endorsed to show that registry is desired. Send a mailing receipt (see 334.1) to the sender, including a reminder to the sender that mail to be registered must be presented at the Post Office facility for that purpose.

452.3 **Shortpaid Mail**
If the item has not been fully prepaid, return it to the sender after indicating that it is shortpaid and must be presented for registry at a Post Office facility. If the shortpaid registered item bears no return address, cross out the sender’s registry endorsement and dispatch as ordinary mail.
Nonpostal Export Regulations

Office of Foreign Assets Control (OFAC) Regulations — U.S. Department of the Treasury

General
The Office of Foreign Assets Control (OFAC) of the U.S. Department of the Treasury administers and enforces economic and trade sanctions based on U.S. foreign policy and national security goals against targeted foreign countries and regimes, terrorists, narcotics traffickers, those engaged in activities related to the proliferation of weapons of mass destruction, and other threats to the national security, foreign policy, or economy of the United States.

Prohibited Destinations, Specially Designated Nationals, and Blocked Persons

Restricted Destinations
Mailers may not send items to or receive items from the following countries or regions unless authorized by OFAC:

- Cuba.
- Iran.
- North Korea.
- The Crimea, Donetsk, and Luhansk regions of Ukraine, and any other regions of Ukraine designated by the Secretary of the Treasury as “covered regions” under Executive Order 14065.

Note: The Department of Commerce’s Bureau of Industry and Security (BIS) also regulates exports to these countries and regions (see 530). A given mailing might require separate authorization from both BIS and OFAC. For more information, see Publication 699, Special Requirements for Shipping Internationally.

Blocked Persons
Mailers may not send items to or on behalf of, or receive items from, certain individuals and entities designated by OFAC as blocked persons, except as authorized by OFAC. OFAC maintains multiple lists of blocked persons, and the lists are available online via treasury.gov/resource-center/sanctions/SDN-List/Pages/default.aspx. Mailers are responsible for consulting such lists in conjunction with any and all relevant OFAC regulations, because some entities (e.g., certain governmental entities) might be blocked under OFAC’s
Mailers are responsible for consulting and ensuring their compliance with OFAC’s regulations and directives.  

**Note:** The Department of Commerce’s Bureau of Industry and Security (BIS) also regulates exports to, from, or on behalf of certain individuals and entities, including many that are also subject to OFAC restrictions (see 530). A given mailing might require separate authorization from both BIS and OFAC. For more information, see Publication 699.

### Additional Standards

In addition to the restrictions in 512, mailers may not send items to an entity if a blocked person owns 50 percent or more of that entity.

### Exceptions

Many OFAC sanctions programs have exemptions that cover the mailing of items such as certain humanitarian donations, personal communications containing nothing of value, or informational materials like books, newspapers, and CDs. In addition, under each sanctions program, OFAC has established “general licenses” that authorize shipments under certain conditions. If no exemption or general license applies, a mailing may be allowed if the mailer applies for and obtains a “specific license” from OFAC.

The exemptions and general licenses are specific to each sanctions program, and mailers are advised to review the OFAC regulations applicable to the relevant sanctions program.

### Mailer Compliance

Mailers are required to comply with these regulations. Mailers may be subject to civil and criminal penalties for failing to comply with any part of OFAC’s regulations.

### Additional Information

The Postal Service provides additional information about OFAC sanctions and other international shipping requirements in Publication 699. For in-depth information, including an explanation of each OFAC sanctions program, licenses, and exemptions, see OFAC’s Web site at treasury.gov/resource-center/sanctions/Programs/Pages/Programs.aspx, or contact OFAC at 202-622-2000.

### Foreign Trade Regulations — U.S. Census Bureau

### General

Subchapter 520 describes the various U.S. Department of Commerce, U.S. Bureau of the Census requirements when shipping goods internationally. In certain circumstances, customers are responsible for entering information on the hard copy PS Form 2976-R or on an electronically generated PS Form 2976, 2976-A, or 2976-B. Customers may
be subject to civil and criminal penalties if they fail to electronically file their export information when required or if they fail to comply with the Foreign Trade Regulations in any other way.

522 Additional Assistance

Customers needing further assistance with filing requirements should contact the U.S. Census Bureau on its toll-free hotline at 800-549-0595:

a. Option 1 – Automated Export System Assistance.
b. Option 2 – Commodity Classification Assistance.
c. Option 3 – Regulatory Assistance.

523 Mailpieces Sent to APOs, FPOs, and DPOs

Goods mailed to APO/FPO/DPO addresses are subject to the Foreign Trade Regulations. However, mailers are exempt from filing electronic export information, unless mandatory filing is required by 15 CFR 30.2(a)(1)(iv). See 524.21d and 524.21e for additional information regarding mandatory filing requirements.

524 Internal Transaction Number (ITN)

524.1 General

U.S. Census Bureau regulations require electronic filing of export information through the Automated Export System (AES) or Automated Commercial Environment (ACE) AESDirect system for certain outbound international shipments of goods. Before mailing, a customer subject to this filing requirement is responsible for presenting an Internal Transaction Number (ITN) or AES Downtime Citation (see 525) as evidence of compliance.

An ITN is the number assigned to a shipment confirming that the AES accepted the Electronic Export Information (EEI) and has it on file. Every AES shipment must have a unique ITN. For the purposes of AES filing, a shipment is all goods (regardless of the number of packages) tendered to the United States Postal Service on the same day from one U.S. Principal Party in Interest (USPPI) to one addressee. As noted in 15 CFR 30.1(c), the Foreign Trade Regulations define the USPPI as “the person or legal entity in the United States that receives the primary benefit, monetary or otherwise, from the export transaction.”

524.2 Filing Requirements

524.21 Mandatory Filing

Electronic filing of export information is required when any of the following applies:

a. The value of any type of goods is over $2,500, unless an AES Exemption applies (see 526). For this purpose, value is measured according to all goods within the same Schedule B number or Harmonized Tariff Schedule number that is mailed from the same sender to the same recipient on the same day. (Schedule B is available at census.gov/foreign-trade/schedules/b/index.html. The Harmonized
Tariff Schedule is available at [hts.usitc.gov](hts.usitc.gov). The following three examples illustrate the value criterion:

(1) **Example 1:** An insured Priority Mail International package contains one mechanical watch (Schedule B item number 9101.11.0000) valued at $2,400, and one electronic watch (Schedule B item number 9101.91.0000) valued at $2,400. The total value of goods to be mailed is $4,800, but because the mechanical watch and electronic watch are in different Schedule B groups, no group of items within the same Schedule B number is valued at more than $2,500. Consequently, electronic filing and an ITN is not required. Rather, AES Exemption “NOEEI 30.37(a)” applies, assuming that none of the separate requirements in 524.21b–f apply.

(2) **Example 2:** An insured Priority Mail International package contains two mechanical watches (Schedule B item number 9101.11.0000), each of which is valued at $1,300, for a total value of $2,600. These two items are in the same Schedule B number, and the value of all items within the same Schedule B number is more than $2,500. Consequently, electronic filing and an ITN is required (unless an exemption applies).

(3) **Example 3:** Person A sends two insured Priority Mail International packages to Person B on the same day. The first package contains one mechanical watch valued at $1,300, and the second package contains an identical watch, also valued at $1,300. The total value of goods within the same Schedule B number is $2,600, which is more than $2,500. Consequently, electronic filing and an ITN is required (unless an exemption applies).

b. The shipment is destined to Iran or Syria and does not qualify for the “foreign libraries” exemption described in 526.2e (for example, the shipment contains goods other than exempt items, or the shipment contains exempt items but is not being sent to a library or similar institution).

c. The shipment contains goods, is destined to Cuba or North Korea, and does not qualify for the exemption for shipments to foreign libraries (see 526.2e) or the exemption for gift parcels and humanitarian donations as defined by 15 CFR § 740.12.

d. The item requires an export license under U.S. law. (See 510, 530, 540, 560, and 590 for additional information.)

e. The item is authorized by an exemption under the International Traffic in Arms Regulations, 22 CFR Parts 123-126. (See 540 for additional information.)

**Note:** The countries in 524.21b and c are those identified in Country Groups E:1 and E:2 in the Export Administration Regulations, 15 CFR Part 740, Supplement No. 1.
524.22 How to File EEI

524.221 Preliminary Steps for First-time Filers

ACE AESDirect requires each mailer to have an employer identification number (EIN) and an ACE Exporter Account. Therefore, a first-time filer must complete the following steps:

   Note: A mailer does not have to be an employer to apply for an EIN.

2. Set up an ACE Exporter Account on the Customs and Border Protection Web site at cbp.gov/trade/automated/getting-started/portal-applying. Under “Applying for an Account,” in Step 3, select the option for “Exporters: Apply here” to complete and submit the online form.

   Note: For account verification purposes, the “Shared Secret Value” is the “User ID.”

524.222 Filing EEI

A customer who has obtained an EIN and has established an ACE Exporter Account must complete the following steps:

1. Log into the customer’s existing ACE Exporter Account at ace.cbp.dhs.gov.

2. Use the following information when completing the EEI fields:

   a. The “Port of Export” code for shipping through the Postal Service is “8000.”

   b. The “Mode of Transport” is “Mail.”

   c. Leave the carrier as “SCAC/IATA,” and leave the conveyance name fields blank.

3. Complete the remaining data fields and file EEI. For more information about filing EEI, refer to the ACE AESDirect User Guide at census.gov/foreign-trade/aes/aesdirect/AESDirect-User-Guide.pdf.

After the customer files the EEI, the AES will send a response message indicating the status of the shipment by e-mail or through the ACE Shipment Manager. A successful filing will receive an ITN as confirmation that the AES has accepted the EEI. A rejected filing will receive a rejection statement.

When completing the customs form(s), the mailer must include the ITN as described in 527. The ITN is unique for every AES shipment and is applicable for multiple packages sent from one USPPI to one addressee when the mailer tenders the packages to the United States Postal Service on the same day (see 524.1).

Note: If the AES is not functioning, call the U.S. Census Bureau’s toll-free information hotline at 800-549-0595, option 1. For more information on electronic filing, use option 3.
AES Downtime Citation

If electronic export information filing is required but the U.S. Census Bureau’s Automated Export System or AESDirect is unavailable, the mailer may ship the goods but is responsible for providing the appropriate AES Downtime Citation instead of an ITN. This citation includes the word “AESDOWN,” the mailer’s AES filer identification number, and the date: for example, “AESDOWN 123456789 09/30/2009.”

AES Exemption

526.1 General

In many circumstances, electronic export information filing and an ITN may not be required when mailing goods internationally. In these circumstances, customers are directed to apply an applicable AES Exemption on the customs declaration form upon mailing. The following conditions apply:

a. A mailer may enter one AES Exemption per addressed mailpiece. When multiple exemptions may apply, the mailer may select any one that applies.

b. A mailer cannot apply an AES Exemption to shipments that fall within 524.21b–f.

526.2 When Applicable

Customers with shipments not meeting the mandatory filing requirements under 524.21b–f may apply an AES Exemption such as the following on each customs declaration form:

a. “NOEEI 30.36” for shipments to Canada.

b. “NOEEI 30.37(a)” for shipments when the value of each class of goods is $2,500 or less.

c. “NOEEI 30.37(h)” or “NOEEI 30.37(y)” or shipments of gift parcels and humanitarian donations that are eligible to be sent to Cuba, North Korea, or the Crimea, Donetsk, or Luhansk regions of Ukraine (or any other regions of Ukraine designated by the Secretary of the Treasury as “covered regions” under Executive Order 14065). In addition, the mailer must endorse the item with the marking “GIFT — Export License Not Required” on the address side of the package. The mailer must also write “GFT” in the same block as the AES Exemption on the applicable required customs declaration, as described in 527. The mailer must complete all other blocks of the customs declaration form, including the “Detailed description of contents.”

Note: Certain shipments of gift parcels and humanitarian donations to the destinations in item c might require a license from OFAC and/or the BIS (see 510 and 530). If a license is required, then a filing is also required and the AES Exemptions in item c do not apply (see 524.21d).

d. “NOEEI 30.37(w)” for shipments to APO, FPO, or DPO addresses.
e. “NOEEI 30.37(y)” for shipments of published books, software, maps, charts, pamphlets, or any other similar media available for general distribution that are eligible to be sent to a library or similar institution in Cuba, Iran, North Korea, or Syria.

**Note:** “NOEEI 30.37(y)” does not apply to shipments of informational materials that are eligible to be sent to the Crimea, Donetsk, or Luhansk regions of Ukraine (or any other regions of Ukraine designated by the Secretary of the Treasury as a “covered region” under Executive Order 14065). For such shipments, filing might or might not be required, depending on requirements in 524.21a, 524.21d-f, and 526.2b.

**Note:** For more information and a complete listing of these and other AES Exemptions, see Subpart D of the Foreign Trade Regulations, 15 CFR Part 30.

### 527 Placement of ITN, AES Downtime Citation, or AES Exemption

When a shipment requires an ITN, AES Downtime Citation, or AES Exemption, it is the customer’s responsibility to legibly write or enter the ITN, AES Downtime Citation, or AES Exemption on the applicable customs declaration form as follows:

- **a.** On PS Form 2976-R, *USPS Customs Declaration and Dispatch Note*, the customer must write one ITN or AES Downtime Citation in block 13, or note the applicable AES Exemption in block 14.
- **b.** When entering data into an online application to electronically generate a customs form, the customer must enter one ITN, AES Downtime Citation, or applicable AES Exemption in the AES/ITN/Exemption field.
- **c.** On PS Form 2976, *Customs Declaration CN 22 — Sender’s Declaration*, if the customer is sending items to Cuba, Iran, North Korea, or Syria under the “foreign libraries” exemption described in 526.2e, the customer must enter “NOEEI § 30.37(y).”
- **d.** On editions of the Global Express Guaranteed Air Waybill/Shipping Invoice (shipping label, Item 11FGG1) printed before August 2008, the customer must write “NOEEI 30.37(a)” next to the sender’s signature. Current versions of Item 11FGG1 have this AES Exemption included on the mailing label.

**Note:** These standards also apply to mailers who produce privately printed customs forms under 123.3.
531 Scope and Applicability of Export Licensing Requirements

531.1 U.S. Department of Commerce — Bureau of Industry and Security; Export Controls

The Department of Commerce’s Bureau of Industry and Security (BIS) regulates the export of commodities, software, and technologies in certain circumstances, pursuant to the Commerce Department’s Export Administration Regulations (EAR) (15 CFR Parts 730–774). Among other things, BIS requires exporters to apply for and receive a license before sending certain commodities, software, or technology out of the country. The EAR can be found online at bis.doc.gov/index.php/regulations/export-administration-regulations-ear.

Other U.S. government agencies have export control responsibilities for regulating more specialized exports. For example, military goods might be subject to the licensing jurisdiction of the Directorate of Defense Trade Controls at the Department of State. The Department of the Treasury’s Office of Foreign Assets Control (OFAC) administers and enforces economic and trade sanctions against targeted foreign countries, terrorism-sponsoring organizations, international narcotics traffickers, and other blocked entities. The BIS Web site identifies resource links for various U.S. government agencies with export control responsibilities. Customers may obtain a listing of these links at bis.doc.gov/index.php/about-bis/resource-links.

For additional information about these requirements, see Publication 699.

531.2 Export Enforcement

BIS implements and enforces the EAR. Many items regulated by the EAR are referred to as “dual-use” items, meaning that the items have both commercial and military or proliferation applications. However, many purely commercial items also are subject to the EAR. BIS’s mission is to advance U.S. national security, foreign policy, and economic objectives by ensuring an effective export control and treaty compliance system and by promoting continued U.S. strategic technology leadership. Senders must understand and comply with BIS’s regulations when exporting commodities, software, or technology by mail. Postal Service employees will not advise prospective mailers of the type of license required for or the type of authorization available for the export of any item to any destination or recipient. However, if an export control violation has occurred or might occur, or for more information, contact the following source:

In addition, OEE has field offices located throughout the United States. Information about these field offices is available at bis.doc.gov/index.php/enforcement/oee/investigations.

532 Export Licenses

532.1 General

BIS might require an export license based on several factors specific to a mailer’s transaction: the nature and use of the item (commodity, software, or technology) being exported, its destination, the consignee, and the end user. Exports to certain countries are more heavily restricted than others. For example, most exports to the following countries and regions require authorization from BIS:

a. Cuba.
b. Iran.
c. North Korea.
d. Syria.
e. The Crimea, Donetsk, and Luhansk regions of Ukraine (and any other regions of Ukraine designated by the Secretary of the Treasury as “covered regions” under Executive Order 14065).

In addition, exports to and from certain individuals and entities designated by BIS might require an export license, regardless of the provisions that would otherwise apply to the export.

*Note:* These BIS controls might overlap with separate license requirements by OFAC, the Directorate of Defense Trade Controls, and other government agencies, particularly with respect to comprehensively embargoed countries or blocked persons. For additional information on requirements for shipping to these countries and regions, see 510, 540, and Publication 699.

532.2 Export — Definition

Any item that is sent from the United States to a foreign destination is an export. “Items” include commodities, software, and technology. For example, clothing, building materials, circuit boards, automotive parts, blueprints, design plans, retail software packages, and technical information are “items” that may be subject to export control.

In determining export license requirements, it does not matter how an item is transported outside the United States. For example, an item can be sent by regular mail or hand-carried on an airplane; a set of schematics can be sent via facsimile to a foreign destination, software can be uploaded to or downloaded from an Internet site, or technology can be transmitted via e-mail or during a telephone conversation. Regardless of the method used for the transfer, the transaction is considered an “export” for export control purposes. An item is also considered an export even if it is leaving the United States only temporarily, if it is leaving the United States but is not for sale (e.g., a gift), or if it is being mailed to a wholly-owned U.S. subsidiary in a foreign country. Finally, under the EAR, release of technology or source code subject to the EAR to a foreign national in the United States is “deemed” to be an export to the home country of the foreign national.
532.3 **How to Determine If an Export License Is Needed**

A relatively small percentage of U.S. exports require an export license from BIS. License requirements are dependent upon an item’s technical characteristics, destination, recipients, and end use. The value of the shipment does not affect the export license requirements. It is the mailer’s responsibility to determine if an export requires a license under the EAR. For further assistance about whether an export license might be required, visit export.gov/article?id=Regulation or bis.doc.gov/index.php/licensing, or call 202-482-4811.

532.4 **Additional Information**

533 **Luxury Goods to Belarus and Russia**

In alignment with U.S. government sanctions and the Bureau of Industry and Security, “luxury goods” destined to Belarus and Russia require a license and an Internal Transaction Number (ITN) (see IMM 524 for additional information). For purposes of the new license requirements, a “luxury good” refers to any item that is identified under new § 746.10(a)(1) of the Export Administration Regulations (EAR). See Exhibit 533 for a list of luxury goods destined to Belarus and Russia that require a license and an ITN. No exemptions are allowed.

Notes: The items in Exhibit 533 reflect the BIS license requirements as of February 27, 2023. For the latest requirements, the mailer is responsible for consulting the current, authoritative provisions in the applicable BIS rules, which are available at https://www.bis.doc.gov/index.php/regulations/export-administration-regulations-ear (click on the link for “Part 746”). For up-to-date BIS license requirements, see the BIS guide “Resources on Export ControlsImplemented in Response to Russia’s Invasion of Ukraine” at https://www.bis.doc.gov/index.php/policy-guidance/country-guidance/russia-belarus. Also, the items in Exhibit 533 do not imply mailability — other rules or regulations may render any item non-mailable. For prohibited and restricted items, see the Individual Country Listings for Belarus and Russia, as well as Publication 52, Hazardous, Restricted, and Perishable Mail.

Schedule B Number Requirement for Belarus and Russia

In alignment with U.S. government sanctions and the Bureau of Industry and Security (BIS) of the United States Department of Commerce, the 10-digit Schedule B number must appear in the HS Tariff Number block on the customs declaration form for each item containing goods mailed to Belarus or Russia, along with a detailed description of the goods. Also, a mailer using an electronic customs form must transmit the Schedule B number electronically.

This rule reflects the addition to 15 CFR, Section 746.5(a)(1)(ii) of the “Russian Industry Sector Sanctions List” (and the expansion of those requirements to Belarus), which identifies certain Schedule B numbers corresponding to categories of exported goods (as well as certain modified or designed components, parts, accessories, and attachments of such goods) for which BIS requires a license. For the latest requirements, the mailer is responsible for consulting the current, authoritative provisions in the applicable BIS rules, including those that might be available at https://www.bis.doc.gov/index.php/regulations/export-administration-regulations-ear (click on the link for “Part 746”) as updated periodically. For further guidance on BIS license requirements, see the BIS guide “Resources on Export Controls Implemented in Response to Russia’s Invasion of Ukraine” at https://www.bis.doc.gov/index.php/policy-guidance/country-guidance/russia-belarus. An item’s inclusion in or exclusion from the Russian Industry Sector Sanctions List does not necessarily imply mailability, because other rules or regulations might also render any item nonmailable. For certain other prohibited and restricted items, see the Individual Country Listings for Belarus and Russia, as well as Publication 52, Hazardous, Restricted, and Perishable Mail.

Note: A Schedule B number is a 10-digit code used in the United States to classify physical goods for export to another country. There is a Schedule B number for every physical product. Based on the international Harmonized System (HS) of 6-digit commodity classification codes (which serve as the foundation for the import and export classification systems used in the United States), Schedule B numbers are administered by the U.S. Census Bureau of the United States Department of Commerce. Further information on Schedule B
numbers is available at https://www.trade.gov/harmonized-system-hs-codes. Schedule B numbers are available via the U.S. Census Bureau’s Schedule B search engine at https://uscensus.prod.3ceonline.com or via any similar successor source.

535 Additional Standards

535.1 Shipper’s Electronic Export Information Filing Required
If an export requires a license, the customer must electronically file export information with the U.S. Bureau of the Census before mailing (see 520).

535.2 Mailer and USPS Responsibilities for Completing and Processing Forms

535.21 Mailer Responsibilities
For items requiring an export license, the mailer must include all appropriate information on the submitted form, including the following:

a. On PS Form 2976-R, the mailer must include an ITN or AES Downtime Citation (see 520) in block 13 and a license number in block 15.

b. When entering data into an online application to electronically generate a customs form, the mailer must include an ITN or applicable AES Exemption (see 520) in the AES/ITN/Exemption field and a license number in the Invoice/License/Certificate Number(s) field.

535.22 USPS Responsibilities
Postal Service personnel must verify that the submitted form is complete and in accordance with 535.21.

536 Mailer Compliance
Mailers are responsible for their compliance with all applicable export laws and regulations. Mailers may be subject to civil and criminal penalties for failing to comply with any part of the EAR.

537 Harmonized System Codes and Other Classification Codes

537.1 Definition
The Harmonized System (HS) codes provide a standardized numerical method of classifying physical goods. Among industry classification systems, HS codes are commonly used by customs authorities around the world to identify products when assessing duties and taxes and for gathering statistical information. When necessary, for each good contained in the mailed item, the applicable HS code must appear in the HS Tariff Number block on the customs declaration form.

537.2 Code Assignments

537.21 World Customs Organization Harmonized System
The World Customs Organization (WCO) administers the list of unique 6-digit HS codes for goods and provides updates every 5 years. HS codes serve as the foundation for the import and export classification systems for more than 200 countries worldwide, including the United States.
Each country is allowed to use additional unique digits following the 6-digit HS code for further classification — for example, the United States uses 10-digit codes for Harmonized Tariff Schedule (HTS) codes and Schedule B numbers.

**Note:** The last four digits of a U.S. 10-digit code do not necessarily match the last four digits for any other country.

### 537.22 U.S. Census Bureau Schedule B Number

The U.S. Census Bureau of the Commerce Department administers the list of Schedule B numbers. Schedule B numbers are 10-digit codes used to classify goods that will be exported from the United States. The first six digits of the Schedule B number match the WCO 6-digit HS code, whereas the last four digits are unique to the United States and do not necessarily match the last four digits of any other country’s 10-digit code.

### 537.23 U.S. International Trade Commission Harmonized Tariff Schedule of the United States

The U.S. International Trade Commission maintains and administers the list of HTS codes; however, U.S. Customs and Border Protection (CBP) has responsibilities for interpreting and enforcement. HTS codes are 10-digit codes used to classify goods and to determine import duty rates for items that will be imported into the United States. The first six digits of the HTS code match the WCO 6-digit HS code, whereas the last four digits are unique to the United States and do not necessarily match the last four digits of any other country’s 10-digit code.

### 537.3 Obtaining a Harmonized System Code

Some customs authorities around the world require a mailer to include the HS code on the customs declaration form. See the Individual Country Listings. A mailer may choose from a variety of software tools to facilitate the classification process, but at all times, the mailer remains responsible for the accuracy and completeness of all customs information related to the mail, including information for classification of goods in the postal items.

### 537.31 Code Search Tools

A variety of tools are available to mailers, including the following examples (which are subject to change):

a. The Census Bureau offers a free, widely used online Schedule B search tool for classification of physical goods. Additional information on obtaining a Schedule B number is available at [https://uscensus.prod.3ceonline.com](https://uscensus.prod.3ceonline.com).

b. The International Trade Commission offers a free online HTS search tool for classification of physical goods. Additional information on obtaining an HTS code is available at [https://hts.usitc.gov/search](https://hts.usitc.gov/search).

c. The Customs Rulings Online Search System (CROSS) contains many of the CBP’s official, legally binding rulings from other importers’ and exporters’ requests concerning HTS codes and Schedule B numbers. Mailers may use this database to determine whether other importers or
exporters requested a ruling on the same or a similar product and, if so, what that ruling was. Additional information is available at https://rulings.cbp.gov/home.

537.32 U.S. Schedule B and HTS Lists
Mailers may browse through the contents of the online Schedule B book at https://www.census.gov/foreign-trade/schedules/b/index.html.
Mailers may browse through the contents of the online Harmonized Tariff System of the United States (HTSUS) at https://www.usitc.gov/harmonized_tariff_information.

537.4 Mailer Responsibility for HS Code Classification
A mailer may elect to use any USPS classification software or other tools to determine HS codes, or may choose to use other software or other means to determine correct HS codes. Regardless of the method used, the mailer remains solely responsible for the accuracy and completeness of all customs information related to the mail, including the accuracy of HS codes that correspond to the detailed descriptions of goods. The Postal Service is not liable for any of the following:

a. Any incorrect or insufficient HS, HTS, or Schedule B classification.

b. Any other incorrect or incomplete information for customs declarations in whatever form such information is made.

c. Any decision taken by any domestic or foreign customs authority.

540 Munitions (Defense Articles) and Related Technical Data

541 Licensing Requirements

541.1 Individual Licenses

541.11 Exporting Defense Articles
The exportation of defense articles requires a license or license exemption authorized by the U.S. Department of State, Directorate of Defense Trade Controls (DDTC). Requirements for the exportation of defense articles are contained in the International Traffic in Arms Regulations (ITAR) in 22 CFR Part 120–130. Further information, including the ITAR, is available at the DDTC Web site at pmddtc.state.gov.

See certain sections of the CFR for specific information relating to defense articles, as follows:

a. For information concerning defense articles subject to the license requirement, see 22 CFR Part 121.

b. For information concerning licenses for the export of defense articles, see 22 CFR Part 123.

c. For information concerning license exemptions for the export of defense articles, see 22 CFR Part 126.
541.12 Exporting Technical Data

The exportation of “technical data” as defined in 22 CFR §120.10 requires a license issued by the Department of State, Directorate of Defense Trade Controls (DDTC). Information related to DDTC is available at its Web site at pmddtc.state.gov.

Information concerning licenses for the export of technical data is available online in 22 CFR Part 125 of the ITAR.

Technical data that has been published or that is otherwise exempt from licensing under 22 CFR Part 125 of the ITAR does not require a Department of State license for exportation. However, the sender must mark the outside of the mailpiece, identifying the specific subsection under which the exemption is claimed (for example, “22 CFR 125.4...APPLICABLE,” if 22 CFR §125.4 is the citation for the relevant exemption).

541.2 Prohibited Countries

Neither export licenses nor license exemptions are available for items to certain prohibited countries. These countries are listed in 22 CFR § 126.1 of the ITAR. As of November 2017, these countries include the following:

a. Belarus.

Note: Mailers are advised to check the current version of 22 CFR § 126.1 of the ITAR for an updated list before mailing, as the list is subject to change.

541.3 Restricted Countries

License exemptions are not available to certain restricted countries, although export licenses may be approved in certain circumstances that vary by country. These countries and the license conditions for each country are listed in 22 CFR § 126.1 of the ITAR. As of November 2021, these countries include the following:

j. Libya.
k. Russia.
l. Somalia.
m. South Sudan, Republic of.
n. Sudan.
o. Zimbabwe.

**Note:** Mailers are advised to check the current version of 22 CFR § 126.1 of the ITAR for an updated list before mailing, as the list is subject to change.

### 541.4 Exporting of Government Shipments

Shipments mailed by or for any U.S. government agency do not require an individual license from the Department of State so long as all requirements of 22 CFR §126.4 can be met. The sender must mark the mailpiece with the applicable subsection of §126.4 (e.g., “22 CFR 126.4(a) APPLICABLE”).

### 541.5 Obtaining Additional Information

The sender may obtain information from the DDTC Response Team, regarding the applicability of the Department of State requirements and application for an individual license. In addition, the DDTC Response Team handles process and status questions, and it assists mailers and other exporters with more complex questions involving export control issues. The DDTC Response Team should provide substantive responses within 24 hours of receiving inquiries. The DDTC Response Team can be contacted by telephone at 202-663-1282 or by e-mail at DDTCResponseTeam@state.gov.

### 542 Mailing Under Individual Licenses

#### 542.1 Marking by Sender

For shipments under an individual license, the sender must mark the mailpiece, “DEPARTMENT OF STATE EXPORT LICENSE NO. __________.” If only a portion of the amount authorized is mailed, the sender must enter in the area provided on the license the amount (quantity and/or value) being shipped. In addition, the sender must record the license number in block 15 of PS Form 2976-R or in the appropriate field of PS Form 2976-A or PS Form 2976-B.

#### 542.2 Processing at Post Office Facilities

##### 542.21 Examination of List of Contents

When a sender presents a Department of State license, compare the description of the article indicated on the license with the description of the contents shown on the customs declaration form (see 123), or stated orally by the sender in the case of technical data mailed as printed matter (see 541.12). If no discrepancy is noted, the contents of the package are mailable, and if the destination is not one of the prohibited countries under 541.2, accept the package for mailing.
542.22 **Amount of Mailing Authorized by License**

If the mailing comprises the entire contents authorized by the license, retrieve the license from the sender, mark the license “completed,” apply a legible postmark, and forward it to the following address:

PM/DDTC SA-1 12TH FLOOR  
DIRECTORATE OF DEFENSE TRADE CONTROLS  
BUREAU OF POLITICAL MILITARY AFFAIRS  
US DEPARTMENT OF STATE  
WASHINGTON DC 20522-0112

If a mailing includes only a portion of the contents authorized, the mailer must enter in the area provided on the license the amount (quantity and/or value) being shipped and present the item for mailing at a Post Office facility, where it will be postmarked and returned to the sender. The mailer should bring back the same license to mail the rest of the items.

543 **Mailer Compliance**

Mailers are responsible for their compliance with all applicable export laws and regulations. Mailers may be subject to civil and criminal penalties for failing to comply with any part of the Directorate of Defense Trade Control’s International Traffic in Arms Regulations.

550 **Dried Whole Eggs**

551 **Description**

When dried whole eggs purchased under a program of the Commodity Credit Corporation, U.S. Department of Agriculture, are offered for export by mail, an endorsement must be written or stamped on each package and a special certificate of mailing (see 552) prepared and completed by the sender waiving any right to withdraw the package from the mail or to have it returned. Such mailings can be made only by Priority Mail International.

552 **Charges**

A charge equal to the individual Certificate of Mailing fee (see Notice 123, Price List) will be made for each special certificate of mailing, or for each package if a single certificate covers more than one package. 553 **How to Mail**

553.1 **Preparation by Sender**

553.11 **Marking**

The Priority Mail International forms accompanying applicable parcels should be completed by the sender to indicate that the parcels are to be abandoned in case of nondelivery.
553.12 Certificate of Mailing Dried Whole Eggs

553.121 Type of Certificate
A certificate as shown in Exhibit 553.121, prepared and completed by the sender, must be presented with all shipments described in 551.

560 Export of Rough Diamonds

561 General
The exportation (mailing) from the United States of any rough diamond (regardless of size, source, or value) is prohibited unless the rough diamond has been controlled through the Kimberley Process Certification Scheme. The Clean Diamond Trade Act of 2003 and Executive Order 13312 commit...
the U.S. government to the Kimberley Process Certification Scheme and establish the framework for how the U.S. government implements that commitment. The Rough Diamonds Control Regulations (31 CFR Part 592) set forth the legal obligations of U.S. rough diamond importers and exporters.

562 **Mailing**

The exportation (mailing) of rough diamonds may be sent only under the following conditions:

a. The shipment must be sent via Priority Mail International service with insured service (see 134), and such service must be available to the destination country.

b. The shipment must bear a completed PS Form 2976-A, *Customs Declaration and Dispatch Note — CP 72*.

c. The shipment of rough diamonds must be exported to countries that are participants in the Kimberley Process Certification Scheme.

d. The rough diamonds must be accompanied by an original Kimberley Process Certification Scheme certificate and must be sealed in a tamper-resistant container.

e. The shipment must be accompanied by a U.S. Kimberley Process Certification Scheme certificate obtained from a U.S. Kimberley Process Certification Scheme Authority licensee and validated by the U.S. Census Bureau.

f. The mailer must electronically file pre-departure information (regardless of the export value) through the U.S. Census Bureau’s Automated Export System (AES) or AESDirect Web site and obtain an Internal Transaction Number (ITN). (See 520.)

h. The mailer must fax copies of all Kimberley Process Certification Scheme certificates (U.S. and those received from other countries) to the U.S. Census Bureau at 800-457-7328.

i. The mailer must retain records of all Kimberley Process Certification Scheme certificates (U.S. and foreign) for 5 years, and must file an annual report including total import and/or export activity and stockpile information with the State Department.

563 **Additional Information**

For additional information relating to the import or export of rough diamonds, see the contact information that is available from the Office of International Trade, Strategic Enforcement Branch at search.usa.gov/search?query=diamonds&search-button=Search&affiliate=cbpgov.

Additional information relating to the Kimberley Process Certification Scheme is available at state.gov/eb/diamonds/c19974.htm.
570 Consular and Commercial Invoices

Many countries require special documents to be prepared by the sender and to be either presented by the addressee or enclosed within the package. In some cases, certification by a recognized Chamber of Commerce in the United States, or legalization by a consulate in the country of destination, or both, are required. Such information as has been made available to the U.S. Postal Service concerning these requirements appears under the Observations in the Individual Country Listings.

580 Drawback Arrangement

581 Description

582 Processing Drawback Claims

582.1 Forms Required

582.11 List of Forms

The following forms must be used when drawback is claimed:

590 Exporting Wildlife and Protected Plants

591 Special Requirements for Wildlife and Certain Plant Exports
Exports of wildlife items and products may be subject to declaration, license, marking, and permit requirements enforced by the U.S. Fish and Wildlife Service (USFWS). Similar requirements also apply to plants protected as endangered or threatened under U.S. law or international treaty. Live wildlife and dead animals, with only a few exceptions, may not be exported via the U.S. Postal Service (see 138.1).
592 **Declaration Requirements**

592.1 **Declaration of Wildlife Exports**

The following wildlife exports must be declared to USFWS and must receive clearance prior to export:

b. Shipments of items not intended for commercial use valued at $250 or more.

c. Noncommercial shipments of items that require a permit for export (e.g., products made from endangered species or migratory birds) regardless of the dollar value of the shipment.

To declare a wildlife export, shippers must complete and file Form 3-177, *Declaration for Importation or Exportation of Fish or Wildlife*, with USFWS. Copies are available from wildlife inspection offices (see 598), from the U.S. Customs Service, or on the Internet at [fws.gov/le/ImpExp/faqs.htm](http://fws.gov/le/ImpExp/faqs.htm).

592.2 **Declaration of Scientific Specimens or Parts**

Form 3-177 is not required at the time of export for shipments of dead, preserved, dried, or embedded scientific specimens or parts when:

a. The shipment does not require a permit from USFWS.

b. The shipment is exported by an accredited scientist or accredited scientific institution for taxonomic or systematic research purposes.

Instead, the scientist or scientific institution (or an agent acting on their behalf) must file Form 3-177 with the assistant regional director for law enforcement in the USFWS administrative region from which the export was mailed within 180 days of export. Contact information is available on the Internet at [fws.gov/le](http://fws.gov/le) (click on Contacts).

592.3 **Declaration of Plant Exports**

The export of protected plants is regulated by the U.S. Department of Agriculture’s Animal and Plant Health Inspection Service (APHIS). Plant Protection and Quarantine (PPQ) is a program within APHIS. Shippers should contact the PPQ division for additional information about export requirements for protected plants. Exporters who engage in the commercial trade of plants listed under the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) must obtain a general permit from PPQ in addition to meeting the permit requirements described in 596. All plant exports are subject to phytosanitary inspection and certification rules administered by PPQ. Information about plant export requirements can be found at [www.aphis.usda.gov/aphis/ourfocus/importexport](http://www.aphis.usda.gov/aphis/ourfocus/importexport).

593 **Export Licenses and Inspection Requirements for Commercial Wildlife Exports**

Individuals or companies that commercially export wildlife must have a valid import/export license from USFWS. Exporters must notify USFWS and make their shipments available for inspection at least 48 hours before the planned exportation date. Exporters must pay appropriate inspection fees.
Marking Requirements for Wildlife Exports

All packages containing wildlife products must be marked clearly with the name and address of both the shipper and the recipient. Information identifying the contents as fish or wildlife and specifying the quantity and species involved must accompany the shipment. Federal regulations (50 CFR Part 14, Subpart H) explain how to comply with wildlife marking requirements. See 597.

Permit Requirements for Wildlife and Plant Exports

Permits are required to export any of the following by mail or other means:

a. Any wildlife or plant (including parts and products) where the species is listed under CITES. A list of species protected under this treaty is maintained by USFWS at international.fws.gov.

b. Any wildlife or plant (including parts and products) where the species is listed as endangered or threatened under the U.S. Endangered Species Act. Lists of these species can be found at fws.gov/endangered.

c. Migratory birds, parts, feathers, nests, eggs, or items made from them. Permit requirements for export and numerous other protections apply to more than 700 bird species safeguarded under the Migratory Bird Treaty Act. A list can be found on the Internet at fws.gov/birds/policies-and-regulations/laws-legislations/migratory-bird-treaty-act.php.

CITES-listed herbarium specimens; other preserved, dried, or embedded museum specimens; and live plant material may be exported as a noncommercial loan, donation, or exchange between registered scientists or registered scientific institutions using a CITES-authorized label instead of an export permit.

Obtaining and Using Permits for Wildlife and Protected Plant Exports

Export Permits

Shippers who need export permits or other documentation required under CITES or the Endangered Species Act should contact USFWS Office of Management Authority (800-358-2104) for the appropriate application forms and instructions. Some CITES-listed species also require permits from the importing country before they can be legally exported.

CITES Permit

The original CITES permit must accompany the shipment. All wildlife exports requiring a CITES permit that are shipped by mail, including personal items mailed overseas, must be declared to USFWS and made available for inspection and permit validation by USFWS wildlife inspectors. Exports of CITES-protected plants must be declared to the U.S. Department of Agriculture’s Animal and Plant Health Inspection Service; permits for these shipments must be validated by that agency before export.
596.3 **Export of Migratory Birds**
The export of migratory birds, their parts, feathers, eggs, or nests, or products made from them, is prohibited except with a permit from USFWS. Permit applications and information are available from the regional Migratory Bird Permit Offices located in Albuquerque, NM; Anchorage, AK; Atlanta, GA; Denver, CO; Fort Snelling, MN; Hadley, MA; and Portland, OR.

**How to Obtain Additional Information**
Additional information about exporting wildlife products and protected plants can be found in the following sections of the Code of Federal Regulations (CFR):
c. 50 CFR Part 24, Importation and Exportation of Plants.
These and other Federal regulations, including those governing endangered species (50 CFR Part 17) and migratory bird permits (50 CFR Part 21), may be accessed online at [govinfo.gov](http://govinfo.gov).
Shippers may also contact USFWS wildlife inspection offices for assistance with wildlife exports. Questions about the export of protected plants should be addressed to the U.S. Department of Agriculture’s Animal and Plant Health Inspection Service. A list of Agriculture Inspection Stations and Offices appears in 723.

**Wildlife Inspection Offices**
USFWS wildlife inspection offices are located in the cities listed below. Addresses and phone numbers for these offices can be found on the Internet at [fws.gov](http://fws.gov) (click on Contacts).

Any Postal Qualified Wholesaler using a representative or agent must ensure that the representative or agent adheres to the same rules and regulations of the Postal Qualified Wholesaler Program when preparing and tendering qualified international mail to the Postal Service.

612 Pricing

613.2 **Criteria**

The wholesaler:

a. Must have a minimum of one year of experience as an international or domestic mail consolidator, presorter, or letter shop.

b. Must have realized at least $1 million in gross international revenues with the Postal Service in the most recent calendar year for services it provided in connection with mail that originated in the United States.

c. Must use a permit imprint that is allowable under the postage payment systems referenced in DMM 705. The wholesaler may use its own permit or that of its customers. If the wholesaler uses the customer’s permit, then the wholesaler and its agent must specify to the Postal Service the permit numbers used and provide an additional itemized report identifying the volume and revenue for each international mailing.

d. Must have the ability to collect international mail at customers’ facilities on a daily (Monday through Friday) basis. If the wholesaler and its agent provide pickup of mail on Saturdays, Sundays, and/or holidays, it must state those days it provides pickup service.

e. f. Must have experience, capability, and knowledge to presort, pouch, or otherwise containerize the customer’s international mail per the Postal Service requirements for any available service offered by the Postal Service.

g. Must have the ability to transport and tender the international mail to an agreed-upon Postal Service acceptance point.

h. Must give at least the following percentages of its gross revenue from international mailing to the Postal Service:

   (1) First year of qualification: At least 75 percent.
   (2) Second year of qualification: At least 85 percent.
   (3) Third year and subsequent years of qualification: At least 90 percent.

i. Must be familiar with or take steps to comply with the Malcolm Baldrige National Quality Award Program and/or ISO 9000 certification. If a wholesaler has ISO 9000 certification, it must state the date of such certification and provide a copy of its certification award to the manager of Postal Qualified Wholesalers.

**Note:** Any Postal Qualified Wholesaler using a representative or agent must ensure that the representative or agent adheres to the rules and regulations of the Postal Qualified Wholesaler Program when preparing and/or tendering qualified international mails to the Postal Service.
613.3 **Disqualification**

Any wholesaler will be disqualified as a Postal Qualified Wholesaler if it does not meet any of the following conditions:

a. The wholesaler must first recommend Postal Service services to its customers who request international mailing services.

b. The wholesaler must use the level of Postal Service international service that the customer requires and for which the customer has paid.

c. Neither the wholesaler, a subsidiary, an affiliate, an agent, nor a parent company can be:
   

   (2) In arrears for any amount due to the Postal Service.

d. Gross revenue from non-Postal Service mail included in 613.2 does not include revenues which the wholesaler, a subsidiary, an affiliate, or a parent company receives for remail when the wholesaler’s customer selects the remail service and directs the wholesaler to use the remail service.

e. The wholesaler shall describe any value-added services provided in addition to collection, sortation, and tendering of international mail. For any value-added service, the wholesaler must state how it meets the requirements of 613.2 and must specify if the value-added services are completed in-house or are subcontracted.

614 **Benefits**

614.1 **Qualified List**

The Postal Service will maintain a list of Postal Qualified Wholesalers. The list shall be distributed upon request to any person who indicates a need for an international wholesaler. The list shall include all services that the wholesaler provides in addition to collection, sortation, and tendering of international mail.

614.2 **Preapproved Advertising**

A wholesaler may state that it has been qualified as a Postal Qualified Wholesaler of the Postal Service. Any use of the Postal Service logo or any Postal Service trademark or advertising material, including letterhead and stationery, stating that the wholesaler has been qualified by the Postal Service must be approved in advance and in writing by the manager of Postal Qualified Wholesalers.

614.3 **Right of First Refusal**

Postal Qualified Wholesalers must give the Postal Service the first opportunity to handle any international mail originating in the United States that it receives from its customers. This includes giving the Postal Service the first opportunity to quote prices for handling mail that is the subject of a formal or informal request for proposals or quotes from a customer. If the
services of a wholesaler are needed, the Postal Service may request competitive bids from all Postal Qualified Wholesalers when it quotes prices for handling international mail that is the subject of a formal or informal request for proposals or quotes from a customer.

615 Length of Qualification

615.1 Approval Period
Each wholesaler will be qualified for a period of two years. At the end of that two-year period the Postal Service must again qualify the wholesaler.

615.2 Disqualification
If the Postal Service discovers at any time, by whatever means, that the wholesaler has not complied with any of the terms and conditions herein, the manager of Postal Qualified Wholesalers will send the wholesaler written notice via Priority Mail Express service that it has not complied with these terms and conditions and that it will be stricken from the list of Postal Qualified Wholesalers. The wholesaler will have three business days to respond in writing via Priority Mail Express service to the manager of Postal Qualified Wholesalers that it should not be removed from the list and the reasons why it should not be stricken. The Postal Service will render its decision on the objection within five business days after its receipt.

620 Global Direct Entry Wholesaler Program

621 Description
Under the Global Direct Entry (GDE) Wholesaler Program, the Postal Service establishes relationships with certain wholesalers that tender international inbound shipments and parcels to the Postal Service after the U.S. Customs and Border Protection has cleared the items. An approved GDE wholesaler must work closely with the Postal Service and, in exchange, may be able to enter into agreements with the Postal Service to have its name included in the Postal Service Web site and to obtain sales leads from the Postal Service, thereby potentially increasing its business.

An approved GDE wholesaler that uses a representative or agent must ensure that the representative or agent complies with the rules and regulations of the GDE Wholesaler Program.

Prospective GDE wholesalers must meet certain criteria and must receive approval from the Postal Service before participating in the program.

622 Qualifying as a GDE Wholesaler

622.1 Eligibility Criteria
A GDE wholesaler must meet the following eligibility criteria:

a. Pay postage either through a permit imprint using USPS-provided Global Shipping Software (GSS) subject to the conditions stated in

c. Every 6 months, provide the Postal Service with sales projections and plans for the next 36 months related to the GDE Wholesaler Program, separated into 12-month increments.

i. Agree to first recommend Postal Service products and services to its customers who request the services of the wholesaler concerning any type of inbound commercial parcel shipment.

j. Upon the request of a customer, provide to that customer detailed reports concerning the items that the GDE wholesaler has tendered under the GDE Wholesaler Program to the Postal Service on behalf of the customer, with details of volume and revenue information, as well as any applicable tracking information.

k. Provide a return address in the United States for items that it tenders to the Postal Service, and provide a detailed explanation of its return procedures.

l. If it would like to use the Postal Service brand, enter into a trademark license agreement with the Postal Service. Such a trademark license agreement shall be specific to the location(s) where the GDE wholesaler will market USPS-branded products or services, and must comply with the laws and regulatory requirements of such country or countries, which may include but not be limited to registration and recording requirements. Both parties must execute the trademark license agreement before the GDE wholesaler may begin use of the Postal Service brand. Subsequent to execution of the trademark license agreement, the GDE wholesaler must provide the Postal
Service with advance review of all proposed uses of the Postal Service brand.

622.2 Letter of Request
Any company desiring to be a GDE wholesaler must submit a letter of request to the following address:

INTERNATIONAL INTEGRATION PROGRAM MANAGER
US POSTAL SERVICE
2100 N 13TH ST
READING PA 19612-9992

The letter must affirmatively certify the following:

a. The company meets the eligibility criteria listed in 622.1.
b. The company is not disqualified from being a GDE wholesaler for any of the reasons listed in 623.1.

Approval of a GDE wholesaler is subject to the discretion of the Postal Service. If the Postal Service rejects a company’s request to participate in the GDE Wholesaler Program, the Postal Service’s International Integration Program manager will notify that company by e-mail that the request is not approved. A wholesaler who receives such notification may, within 7 days of receiving such notification, submit an appeal by e-mail to the Postal Service’s director of International Sales at globaldirect@usps.com. The decision of the Postal Service’s director of International Sales concerning the appeal is administratively final.

622.3 Length of Qualification — Approval Period
Each GDE wholesaler will be qualified for a period of 2 years. At the end of that 2-year period, the GDE wholesaler must submit another letter of request to the Postal Service’s International Integration Program manager in accordance with 622.2.

623 Disqualification as a GDE Wholesaler
623.1 Determining Factors
The Postal Service will disqualify any wholesaler as a GDE wholesaler for any of the following reasons:

a. On an annualized basis, fails to pay the Postal Service a minimum of $100,000 in postage for any combination of Priority Mail Express, Priority Mail, First-Class Mail, First-Class Package Service, Parcel Select Destination Entry, Parcel Select Ground, or Parcel Select Lightweight items after all discounts have been applied, exclusive of any extra services fees (e.g., insurance), for items imported into the United States and tendered to the Postal Service under the GDE Wholesaler Program.

b. Every 6 months, fails to provide the Postal Service with sales projections and plans related to the GDE Wholesaler Program for the next 36 months, separated into 12-month increments.

c. Fails to comply with any of the eligibility criteria listed in 622.1.
Also, the Postal Service will disqualify a wholesaler, subsidiary, affiliate, agent, or company of the wholesaler as a GDE wholesaler for either of the following reasons:

a. Being an entity that is listed in the System of Award Management (SAM) Exclusions Extract, which is available at https://www.sam.gov/SAM/pages/public/searchRecords/search.jsf.

b. Being in arrears for any amount due to the Postal Service.

623.2 Notification of Disqualification and Appeal

If the Postal Service discovers at any time, by whatever means, that a company that has qualified as a GDE wholesaler has not complied with any of the terms and conditions in IMM 620, the Postal Service’s International Integration Program manager will notify that company by e-mail that the company has not complied with the terms and conditions of the GDE Wholesaler Program and that the company will be stricken from the list of approved GDE wholesalers within 30 calendar days. A wholesaler who receives such notification may, within 7 days of receiving such notification, submit an appeal by e-mail to the Postal Service’s director of International Sales at globaldirect@usps.com. The appeal must list the reasons why the company should not be stricken from the list of approved GDE wholesalers. The decision of the Postal Service’s director of International Sales concerning the appeal is administratively final.

624 List of Qualified GDE Wholesalers

The Postal Service maintains a list of GDE wholesalers and makes the list available on usps.com, updates it periodically, and distributes it upon request to any person who indicates a need for an international consolidator for inbound international shipments.

625 Preapproved Advertising

A GDE wholesaler may state on advertising material that it has been qualified as a GDE wholesaler of the Postal Service, but the Postal Service’s International Integration Program manager must approve, in advance and in writing, the statement as it will appear on the advertising material.
7 Treatment of Inbound Mail

710 U.S. Customs Information

711 Customs Examination of Mail Believed to Contain Dutiable or Prohibited Articles

711.1 What Is Subject to Examination
All mail originating outside the customs territory of the United States (i.e., outside the 50 states, the District of Columbia, and Puerto Rico) is subject to customs examination, except the following:

a. Mail addressed to ambassadors and ministers (chiefs of diplomatic missions) of foreign countries.

b. Letter mail known to contain or believed to contain only correspondence or documents addressed to diplomatic missions or to the officers of diplomatic missions; to international organizations designated by the president as public international organizations pursuant to the International Organizations Immunities Act; and other mail addressed to such international organizations pursuant to instructions issued by the U.S. Department of the Treasury.

c. Mail known to contain or believed to contain only official documents addressed to officials of the U.S. government.

d. Refer to ASM 274.94 for examination procedures to be followed for mail addressed for delivery in the Virgin Islands, American Samoa, the Northern Mariana Islands, Guam, and Puerto Rico.

711.2 Treatment of Mail Believed to Contain Dutiable or Prohibited Articles

711.21 Treatment at Exchange Offices

711.211 Submission to Customs Officers
Mail believed to contain articles liable to customs duty or prohibited articles is submitted immediately to a customs location as identified in 711.62, except when exchange offices are authorized to redispach such mail to designated distribution offices for customs treatment.

711.212 Tag 10
Exchange offices that redispach mail for submission to customs offices will attach Tag 10, Supposed Liable to Customs Duty (previously Label 81), to the label holders or hasps of sacks or pouches. Tag 10 is a reusable pink slotted tag, bearing the words This sack contains mail supposed liable to customs duty.
711.22 Treatment at Distribution Offices

711.221 Submission to Customs Officers
Distribution offices will submit mail believed to contain articles liable to customs duty or prohibited articles to customs officers as soon as possible after receipt.

711.222 Return of Tag 10
Quantities of reusable Tags 10 that have been removed from sacks containing such mail should be returned periodically. These tags should be sent to the postmaster at either New York, New Orleans, San Francisco, Seattle, or Miami, as appropriate from a geographic standpoint.

711.23 Priority Treatment of Airmail
Airmail items receive preferential customs treatment and are submitted to customs separately from surface mail. Upon return from customs, airmail items will be dispatched by air, if that can expedite delivery.

711.3 Examination of Registered Mail and Sealed Letters
The postmaster or other designated employee must be present when Registered Mail and sealed letters (except unregistered sealed letter mail bearing a green customs label) are opened by customs officers for examination. After customs treatment, the customs officer will repack and reseal the mail.

711.4 Extraction of Samples for Advisory Information
Should a customs officer wish to obtain advisory information from a local trade expert or from the Customs Information Exchange, permit him or her to extract a sample of the contents. The customs officer will furnish the Postal Service official with two copies of Customs Form 6423, Notice of Damage, Shortage, or Samples Retained and Notice to Call for Samples — one for enclosure in the package and the other for the Post Office files. If the sample is to be forwarded to New York, dispatch it under official registration to the following address:

POSTMASTER
JAMES A FARLEY BLDG
US POSTAL SERVICE
421 8TH AVE
NEW YORK NY 10199-0998

for delivery to the following address:

US CUSTOMS AND BORDER PROTECTION
ONE PENN PLZ 11TH FL
NEW YORK NY 10119-0002
Treatment of Mail Following Customs Examination

Repacking After Customs Examination

Responsibility of Customs and Postal Service Employees

Customs employees are responsible for repacking and resealing mail of foreign origin after customs examination. Postal Service employees accepting mail that has been in customs custody for examination must determine from external inspection whether the mail can safely bear further handling and transportation. Customs employees are responsible for restoring mail that is not in satisfactory condition.

Customs Shipments in Bad Order

Shipments found to be in bad order in transit or at the delivery office must be reconditioned by Postal Service employees. After reconditioning such mail, the employee should note, over his or her signature on the address side of the wrapper, the bad order and any evidence of damage or missing contents.

Identification of Dutiable/Nondutiable Articles

When U.S. Customs and Border Protection (CBP) determines that an inbound shipment is subject to duty payment by the addressee, the mailpiece is returned to the Postal Service bearing an orange adhesive-backed Treasury Department envelope, which contains CBP Form 3419ALT, Mail Entry. When U.S. Customs determines that an inbound shipment is not subject to duty payment by the addressee, the mailpiece is returned to the Postal Service with no Customs endorsement.

Handling Subsequent to Customs Inspection

Postal Service Handling Procedures

All foreign originating mailpieces that do not bear CBP Form 3419ALT are presumed to have been “cleared through customs” without duty being assessed. Accordingly, such articles should be processed for onward dispatch, without additional delay.

Note: U.S. Customs officers are no longer placing a diamond-shaped “passed free” stamp on inbound mailpieces that are found to be nondutiable.

U.S. Customs Service Locations

U.S. Customs officers at the locations noted in Exhibit 711.62 are authorized to perform the following tasks:

a. Inspect foreign-originating mailpieces that arrive through each designated port of entry.

b. Evaluate protests by addressees who are dissatisfied with the assessed value, rate, or amount of duty charged (see 713.23):

712 Customs Clearance and Delivery Fee

712.1 Description

712.11 Collecting Postal Service Fees
Post Office facilities must collect a Postal Service fee from the addressee for each item on which customs duty or Internal Revenue tax is collected. The Postal Service fee is authorized by international postal agreements to reimburse the Postal Service for costs it incurs clearing items through customs and collecting customs duties at the time of delivery.

712.12 Collecting Postal Service Fee for Each Package
The Postal Service collects the fee on each package bearing CBP Form 3419ALT. When a single mail entry form covers several packages, the Postal Service collects the fee only on the package bearing CBP Form 3419ALT. The CBP Form 3419ALT is enclosed in an orange adhesive-backed Treasury Department envelope attached to the outside wrapper or envelope. The form indicates the tariff item number, rate of duty, and amount of duty to be collected plus a customs processing fee, which is assessed on all dutiable mail shipments.
Accounting for the Postal Service Fee
The Postal Service fee, which is retained by the U.S. Postal Service, is accounted for by using the procedures in Handbook F-101, Field Accounting Procedures, subchapter 7-2.

Articles Exempted From Postal Service Fee
Post Office facilities will not collect a Postal Service fee for customs clearance and delivery in the following cases:
   a. On dutiable articles from overseas U.S. Post Office facilities (civil or military).
   b. On parcels assessed with duty that are delivered without collection of duty under 713.233e.
   c. On mail items examined and passed free of duty by U.S. Customs.

Amount of Postal Service Fee
See Notice 123, Price List, for the Postal Service fee for customs clearance and delivery for each dutiable item.

Postal Service Fee Not Refundable
The Postal Service fee for customs clearance and delivery is not refundable by the U.S. Postal Service even though the U.S. Customs Service may later refund the duty paid by the addressee.

Customs Duties and Customs Fee Not Exempt
The exemptions provided for in 712.2 apply only to the Postal Service fee for Customs clearance and delivery. Customs duties and customs fees are not exempt from collection.

Treatment of Dutiable Mail at Delivery Office
Detection and Dispatch of Dutiable Mail
Detecting Dutiable Items
Postal Service employees will promptly examine all inbound mail to detect dutiable items. Dutiable mail will bear the “Original” and “Addressee Receipt” copies of CBP Form 3419ALT, which are enclosed in an orange adhesive-backed Customs and Border Protection envelope attached to the wrapper or envelope.

Dispatch to Delivery Units
Dutiable mail will be forwarded promptly to delivery units.

Delivery of Dutiable Mail
Delivery Methods
By Whom Delivered
Dutiable mail will be delivered by city and rural carriers and by window delivery units.
PS Form 3849, Delivery Notice/Reminder/Receipt

PS Form 3849, Delivery Notice/Reminder/Receipt, is used to notify addressees of the arrival of dutiable mail.

Delivery Procedures

Charging Delivery Employee

Charge mail and both copies of CBP Form 3419ALT (see 713.11) to the delivery employee on PS Form 2944, Receipt for Customs Duty Mail, prepared in duplicate. For control and auditing purposes, enter on PS Form 2944 the mail entry numbers as shown on CBP Form 3419ALT. Retain both copies of PS Form 2944 at the Post Office facility as a record of the employee’s accountability.

Addressee’s Examination of Dutiable Mail

Addressees are not permitted to examine the contents of dutiable mail until the duty has been paid.

Signing Customs Entry Forms

When customs charges are collected and delivery is made, the delivery employee will follow this procedure:

a. Obtain the addressee’s signature and date of delivery on the “Original” copy of CBP Form 3419ALT, as well as on PS Form 3849.

b. If appropriate, the delivery employee will scan/enter the mailpiece barcode and enter the corresponding event code in the handheld or POS ONE scanner.

c. Sign and date the “Addressee Receipt” copy of CBP Form 3419ALT and give it to the addressee as a receipt for the duty paid.

d. Turn in the amount collected with the signed “Original” copy of CBP Form 3419ALT and signed PS Form 3849. Turn in any undelivered mail with both copies of CBP Form 3419ALT.

Clearing Delivery Employee

a. Post Office facilities with 950 or more revenue units. The carrier’s accountability will be cleared by a clearing clerk, who will complete both copies of PS Form 2944, prepared pursuant to 713.221, and give them to the carrier. The carrier will deposit the original copy of the form in the slotted and locked receptacle provided for that purpose and file the duplicate copy, which he or she will retain for 3 months after the last day of the month of issue. The original copies of PS Form 2944 can only be removed from the locked receptacle by a supervisor or employee other than the clearing clerk, and must be forwarded daily to the chief accountant or other designated employee. Employees at delivery windows who have been charged with dutiable mail will be similarly cleared but, in addition, will be required to execute a new PS Form 2944 covering all dutiable mail remaining in their custody at the close of business.

b. At other Post Office facilities. The delivery employee’s accountability will be cleared in the same manner as for domestic COD transactions.
c. **PS Forms 3849.** Electronic record management sites will dispatch all signed PS Forms 3849 with mail to be forwarded via pouch to the Computerized Forwarding System (CFS) site serving that office. Manual record management sites will file PS Forms 3849 in the consolidated file by the last two digits of the article number.

### 713.23 Address Protests Duty Charged

#### 713.231 Alternatives Available to Addressee

When an addressee objects to the assessed value, rate, or amount of duty charged, the following alternatives are available:

a. Addressee may take delivery, pay the duty and postal fees, and protest (within 90 days from the date duty is paid) directly to the issuing customs port.

b. Addressee may definitely refuse the mail if he or she does not wish to pay the duty or to protest the duty assessment.

c. Addressee may conditionally refuse the mail pending review of the entry by the U.S. Customs Service.

*Note:* Postal Service procedures for alternatives (b) and (c) are described in 713.232 and 713.233.

#### 713.232 Definite Refusal of Dutiable Mail

If the addressee elects alternative (b) in 713.231, the delivery employee will make it clear to the addressee that the mail will be disposed of immediately as undeliverable. Then the delivery employee will mark the mail *Refused*, date and initial it. If appropriate, the delivery employee will scan/enter the mailpiece barcode and enter the corresponding event code in the handheld or POS ONE scanner. Then the delivery employee will return the mailpiece with both copies of CBP Form 3419ALT (see 713.11) to the Post Office facility for disposal (see 713.51).

#### 713.233 Conditional Refusal of Dutiable Mail

If the addressee elects alternative (c) in 713.231, the Postal Service procedure is as follows:

a. Delivery employee will advise addressee to submit his or her protest in writing to the postmaster. It should be accompanied by any evidence the addressee may have that will substantiate the claim (i.e., invoice, declaration of value, etc.). The addressee should also provide the CBP Form 3419ALT and any other particulars that will assist in relating the protest to a specific item of mail at the Post Office facility.

b. Delivery employee will mark the mail “ADDRESSEE PROTESTS DUTY,” date and initial the notation, and return the mail with both copies of CBP Form 3419ALT to the Post Office facility to await receipt of the addressee’s written protest.

c. If the addressee’s written protest is not received *within 5 days* after the mail has been returned to the Post Office facility, notify the addressee that the mail is on hand and will be held for only 5 more days. Mark the mail “NOTIFIED” and date it. If the addressee does not furnish the required statement within another week, endorse the mail “UNCLAIMED,” and date and treat it as prescribed in 713.3 or 713.5, as appropriate.
d. On receipt of the addressee’s written protest, the Post Office facility will promptly:

1) Prepare report, in duplicate, on PS Form 2937, *Importer’s Objections*.

2) Forward original of PS Form 2937, with supporting statements and both copies of CBP Form 3419ALT, to the customs mail division where CBP Form 3419ALT was prepared, unless the addressee is located in the vicinity of one of the customs offices listed in 711.62. In the latter case, the original of PS Form 2937, both copies of CBP Form 3419ALT, and the other documents may be sent to the local customs office for consideration of the protest.

3) Retain the mail with the duplicate of PS Form 2937 and await the decision of the customs office. If the customs office requests that the mail be submitted for inspection, it should be forwarded immediately.

e. If an adjustment is made by the customs officer, he or she will endorse the adjustment on both copies of CBP Form 3419ALT and return them with the original of PS Form 2937 to the postmaster. When the package is delivered, the delivery employee will collect and report the corrected amount of duty and handle as prescribed in 713.46. If the adjusting customs officer waives the duty, the mail will be reported as an uncollected item, as prescribed in 713.52.

f. If no decision on a protest is received from the customs office within 30 days, request that the matter be expedited. Continue to hold the mail until a decision is received.

g. Whenever applicable during this process, the mailpiece barcode should be scanned/entered and the corresponding event code entered in the handheld or POS ONE scanner.

### 713.3 Forwarding or Returning Dutiable Mail

#### 713.31 Forwarding Dutiable Mail Within the U.S.

**713.311 Procedures**

Forward dutiable mail as prescribed in 764.1. Allow CBP Form 3419ALT to remain attached to the redirected mail in its original envelope, which is also redirected to the new address.

**713.312 PS Form 3849, Delivery Notice/Reminder/Receipt**

a. *Manual Record Management Sites*: Prepare PS Form 3849 to show the name and address of the addressee, forwarding address, and name of port where the duty was assessed.

b. *Electronic Record Management Sites*: Scan/enter the mailpiece barcode and enter the corresponding event code in the handheld scanner.

**713.313 Disposition of PS Form 3849**

b. *Electronic Record Management Sites*: Send delivery receipts to the appropriate Computerized Forwarding System (CFS) unit.
Forwarding Dutiable Mail to Another Country

CBP Form 3419ALT

When dutiable mail is entitled to be forwarded to another country, detach both copies of CBP Form 3419ALT, endorse them “ADDRESSEE MOVED OUTSIDE JURISDICTION OF THE UNITED STATES,” and report the mail as an uncollected item, as prescribed in 713.52. If applicable, scan/enter the mailpiece barcode and enter the corresponding event code in the handheld scanner.

Procedures

See 764.2 concerning procedures for forwarding mail.

Returning Dutiable Mail to Sender

CBP Form 3419ALT

When dutiable mail is to be returned to the sender, detach both copies of CBP Form 3419ALT; endorse them “REFUSED,” “UNCLAIMED,” etc.; and report the mail as an uncollected item as prescribed in 713.52. If applicable, scan/enter the mailpiece barcode and enter the corresponding event code in the handheld scanner.

Procedures

See 772 for procedures for returning mail.

Forwarding or Returning Dutiable Mail by Stations and Branches

Postmasters may authorize stations and branches to forward or return mail directly from those units, without sending the mail to the main office.

Payment of Duty

Duty Rate Information

Customers desiring information concerning rates of duty or other customs procedures should communicate directly with the nearest customs office (see 711.62) or with:

US CUSTOMS AND BORDER PROTECTION
OFFICE OF THE COMMISSIONER
DEPARTMENT OF HOMELAND SECURITY
1300 PENNSYLVANIA AVE SW
WASHINGTON DC 20229-0001

Prepayment of Customs Duty Abroad

No provision is made for the prepayment abroad of customs duty on mail shipments addressed for delivery in the United States.

Registration of Items to Be Returned to the United States

Customs Form 4455, Certificate of Registration

Before sending an item abroad for alterations, repairs, use, or replacement, the owner should submit it to a customs officer for issuance of a Certificate of Registration (Customs Form 4455). Otherwise, the package may be subject to a customs duty when it is returned to the United States.
Certification by Postal Service Personnel
Due to the lack of customs offices in many parts of the country, customers often are unable to have items registered with the U.S. Customs Service before sending them abroad, or are able to do so only after considerable expense and inconvenience. As a service to Postal Service customers, postmasters — or employees they designate — may certify the exportation of items mailed abroad for alteration, repair, use, or replacement under the following conditions:

a. The customer must live more than 20 miles from a customs office. In addition to those listed in 711.62, there are a number of other customs locations throughout the country. A customer who lives within 20 miles of any customs office must have the item certified by a customs officer.

b. The customer must present the items to be exported in an open state. The package must be accompanied by an original and duplicate copy of Customs Form 4455, which is completed and signed by the sender, and a customs declaration form(s) appropriate to the class of mail. (See 123 for declaration requirements.) Customers may obtain Customs Form 4455 from any customs office.

c. The postmaster or designated Postal Service employee must check to see that the description of the item to be exported is the same on both Customs Form 4455 and the customs declaration form. If the description is the same, he or she certifies to the mailing (lading) by completing the “Signature of Customs Officer” space on both copies of Customs Form 4455. A Certificate of Mailing fee (see Notice 123, Price List) must be charged and accounted for by affixing postage stamps to the original and duplicate copies of Customs Form 4455 and canceling each stamp with the Post Office date stamp.

d. Both copies of Customs Form 4455 must be returned to the customer. The customer must insert the original in the package so that the foreign addressee can return it with the merchandise. The customer should retain the duplicate for possible use in clearing the merchandise upon its return.

e. After the customer has inserted the original Customs Form 4455, he or she must secure and seal the package and return it to the acceptance employee, who will handle it in the usual manner.

Return of Audio-Visual Materials
Customs Form 3311, Declaration for Free Entry of Returned American Products and/or Certificates of Exportation, should accompany outbound shipments of educational films sent to foreign addressees on a loan or rental basis. By enclosing Customs Form 3311, the mailer is indicating that the contents of the shipment are eligible for duty-free handling and classification upon reentry into the United States. This procedure is applicable to shipments of educational films valued at $250 or less, which have been produced in the United States and are returned through the mail by foreign consignees. Customs Form 3311 can be obtained at any Customs Service office.
Assessment of Duty in Foreign Countries
The assessment of customs duty in foreign countries is outside the control of the U.S. Postal Service. Postal Service employees must not attempt to inform customers whether any items — either gifts or commercial shipments — will be subject to customs duty. It may be suggested to customers, however, that they inform the addressee before they mail so that the latter may determine whether those items are dutiable. No provision is made for prepayment of customs duty on mail addressed for delivery in foreign countries.

Recording and Reporting Collections

Treatment of Uncollected Items
Disposal of Uncollected Items
When it is definitely established that a dutiable package is undeliverable, detach both copies of CBP Form 3419ALT (see 713.11) and treat the package as prescribed in 770. Mark the mail entry forms to show the reason for nondelivery, and report as prescribed in 713.52.

Reporting of Uncollected Items
PS Form 2933, Register of Uncollected Customs Charges
Complete PS Form 2933, Register of Uncollected Customs Charges, in duplicate, listing uncollected items in numerical order according to the 7-digit serial number on CBP Form 3419ALT.

Disposition of PS Form 2933
Forward the original PS Form 2933, with both copies of CBP Form 3419ALT, to the following address:

```
US CUSTOMS AND BORDER PROTECTION
MAIL ENTRY
6650 TELECOM DR STE 100
INDIANAPOLIS IN 46278-0001
```

If supporting Customs Form 3342, *Declaration for Free Entry of Gifts and/or Authorization to Postmaster to Deliver Mail Importation Conditional Free of Duty*, or other statements are necessary, they must be forwarded with the original PS Form 2933 and copies of the CBP Form 3419ALT to the Regional Commissioner of Customs.

Filing of PS Form 2933, Register of Uncollected Customs Charges
File duplicate PS Form 2933 for reference purposes.

Reports
Prepare reports as needed, but not less frequently than weekly.
713.53 **Past-Due Entries**

When the U.S. Customs Service fails to receive a remittance of duty or a report of disposition made of a dutiable package, the postmaster will receive a set of reproduced copies of CBP Form 3419ALT. In this circumstance, a search should be made at the Post Office of address and a report of its findings made to the Regional Commissioner of Customs at the address shown in 713.522.

713.54 **Detached Customs Mail Entries**

When a detached CBP Form 3419ALT is found, attempt to locate the related package and attach the form to it. If the package cannot be located, send CBP Form 3419ALT to the following address:

```
US CUSTOMS AND BORDER PROTECTION
MAIL ENTRY
6650 TELECOM DR STE 100
INDIANAPOLIS IN 46278-0001
```

713.6 **Refund of Customs Duty**

713.61 **Action by Postmaster**

713.611 **General**

Amounts collected on CBP Form 3419ALT are *not* refundable by postmasters. An addressee who requests a refund of duty should be advised to make application to the customs office that issued the mail entry forms *within 90 days* from the date the duty is paid. If a refund is claimed for damage, it is suggested that the package be forwarded with the application. Any addressee wishing to abandon the package to the government should so state in the application.

713.612 **Addressee's Request for Refund**

If the addressee wishes to request a refund of duty from the Customs Service and intends to file an indemnity claim with the Postal Service, he or she must present the contents, container, and complete wrapping to the postmaster for the inspection in conjunction with the preparation of PS Form 2855, International Claim for Indemnity. Following this inspection, the postmaster accepting the claim will provide the claimant with a statement to the effect that:

a. The Postal Service has accepted the damage claim and has received the abandoned merchandise;

b. The package and its wrapper and contents with no commercial value have been presented to and retained by the Postal Service; and

c. The documents, including the customer’s yellow receipt copy of CBP Form 3419ALT, indicated that customs duty in the stated amount was paid by the customer.

*Note:* This statement, which is to be provided to the customer by the postmaster, is to accompany the customer’s application to the Customs Service for refund of duty. If this statement accompanies the application, the presentation of the abandoned articles is not required by the Customs Service.
713.62 Refunds by Customs Service

713.621 Refund of Duty on Abandoned Merchandise
A request for refund of duty paid will be considered by the Customs Service when merchandise covered by CBP Form 3419ALT is abandoned, provided:

a. The abandoned merchandise represents five percent or more of the total value of all merchandise of the same class or kind entered in the invoice in which the item appears.
b. The abandoned merchandise is delivered to the customs office where the CBP Form 3419ALT was issued within 90 days of the date of delivery (unless the Secretary of the Treasury authorizes a longer time in writing).

713.622 Refund of Duty on Returned Merchandise
The refund of duty paid “less 1 percent” will be considered by the Customs Service when merchandise covered by CBP Form 3419ALT is returned, provided:

a. The returned merchandise does not conform to the sample or specification, or has been shipped without the consent of the consignee.
b. The returned merchandise is delivered to Customs Service custody for exportation within 90 days of the date of delivery (unless the Secretary of the Treasury authorizes a longer time in writing).

Note: The addressee must pay the postal charges incident to returning the merchandise to the sender.

713.623 Refund of Duty on Goods Lost En Route
The Customs Service will not refund the duty paid when goods are lost en route after an addressee has paid the customs duty at the Post Office facility and requested that delivery be made at his or her residence or place of business. In addition, the Postal Service does not make any refunds of customs duty.

713.624 Refund of Duty as Drawback on Exported Merchandise
See 580 for drawback arrangements.

720 Plant and Animal Quarantine Inspection

721 What Is Subject to Inspection
All packages that contain plants, plant products, soil, plant pests, plant material used for packing, animals, and animal products and byproducts, including meats, are subject to agricultural quarantine inspection by the U.S. Department of Agriculture (see DMM 601).
Segregation and Handling

Treatment of Packages Labeled for Inspection

Dispatch of Packages
Dispatch packages bearing green and yellow or red and white address labels to the Agriculture Department inspection points shown on the labels.

Marking
After the packages are inspected and cleared, they will be stamped “RELEASED” or “TREATED AND RELEASED,” redirected to the addressees, and returned to the mail for delivery.

Treatment of Packages Exempt From Inspection
Undamaged packages bearing the Agriculture Department label *Importation Authorized* should be forwarded directly to the Post Office of address. If packages bearing this label are damaged, recondition them if necessary, and forward for agricultural inspection as prescribed in 722.3.

Treatment of Unauthorized Importations
Mark “FOR AGRICULTURAL QUARANTINE INSPECTION” on packages containing the articles listed in 721 but not bearing any Agriculture Department labels or inspection stamps. Forward them under seal to the postmaster at the most accessible location listed in 723.

Packages Containing Prohibited Material
Upon inspection, packages found to contain prohibited agricultural material are either (1) released for delivery after removal of the prohibited contents and insertion of a notice by the inspector, or (2) marked “REFUSED ENTRY” (or a similar notation) and returned to origin.

730 Shortpaid Mail to the United States

Computations of Postage Due

a. The postal service of the country of origin identifies and marks shortpaid mail with a T stamp. Next to the T is a fraction that consists of the amount of postage deficiency (expressed in its own currency) divided by the country’s international surface letter price at the first increment.

b. The receiving exchange office in the United States multiplies the T fraction by the U.S. First-Class Mail International letter price to determine the short paid amount in U.S. currency. This amount, plus a $0.50 handling charge, accounts for the postage-due amount to be collected on delivery. The postage-due formula is as follows:

\[
\text{Postage due amount} = \frac{\text{shortpaid amount}}{\text{International letter price of postage to U.S.}} \times \text{First-Class Mail International price}
\]

\[\text{Postage deficiency in U.S. currency} + \$0.50 \text{ handling charge}\]

= Postage due amount

c. The receiving exchange office in the U.S. will imprint stock rubber stamp R-1300-4, Postage Due…Cents, and enter the amount of postage due.

d. The delivery office will collect postage-due mail in accordance with DMM 604 and Handbook F-1, Post Office Accounting Procedures.

732 Shortpaid Letters and Cards From Canada

Shortpaid mail from Canada is marked with a T in a circle with the actual amount to be collected entered in the circle. No handling charge is assessed or collected on shortpaid mail from Canada.

733 Shortpaid Items Bearing U.S. Postage

If an item bears U.S. postage, the delivery office must allow credit for its value when postage due is collected.

740 Irregular Mail

741 Invalid Foreign Postage

A foreign originating mailpiece, which bears invalid postage and is accompanied by a letter of explanation from the origin postal administration, is to be rated as an unpaid postal item. Under those circumstances, the addressee should be asked to (1) pay the requisite postage due; (2) disclose
the sender’s name and address; and (3) surrender the envelope. After the 
mailpiece has been tendered to the addressee, the delivery Post Office 
facility should send the envelope (or the entire article, if refused by the 
adressee) with the letter of explanation and the sender’s name and address 
(if disclosed by the addressee) to the following address:

MANAGER OF INTERNATIONAL MARKETING
INTERNATIONAL BUSINESS
US POSTAL SERVICE
475 L'ENFANT PLZ SW RM 3216
WASHINGTON DC 20260-3216

742 Stamps Not Affixed

742.1 Marking
Some items of foreign origin do not bear postage stamps, but instead are 
marked “POSTAGE PAID,” “ON POSTAL SERVICE,” “SERVICE DES 
POSTES,” “TAXE PERCUE” or “TP,” or “PORT PAYE” or “PP,” followed by 
postmark. The marking On Her Majesty’s Service or O.H.M.S. is also 
sometimes used. Treat this mail as prepaid.

742.2 Parcels Without Postage Stamps
Some foreign post offices do not put postage stamps on parcels. All such 
parcels received must be regarded as prepaid.

743 Parcels Addressed Through Banks or Other 
Organizations

743.1 Notification of Arrival
If a parcel is addressed to a bank or other organization for delivery to a 
second addressee, the Post Office facility will notify both addressees of the 
arrival of the parcel and will then deliver it to the first addressee, or hold it if 
the first addressee so requests. If the parcel is held, the Post Office facility 
will deliver it to the second address only with written permission from the first 
adressee, unless the sender has arranged for a change of address. If 
delivery to the second addressee involves forwarding the parcel to another 
Post Office facility, the parcel will be subject to forwarding postage as 
provided in 764.13. In all cases, electronic record management sites will 
scan/enter the mailpiece barcode and enter the corresponding event code in 
the handheld scanner.

743.2 Filing Authorization
After delivery to the second addressee, the Post Office facility will keep the 
first addressee’s written authorization for 1 year, in case of inquiry. 
Authorizations will be filed as follows:

a. For insured parcels: with addressees’ receipts.
b. For uninsured parcels: in any appropriate place.
744 Foreign Dispatch Notes

744.1 Delivery Instructions
If parcels are received at delivery offices with dispatch notes (bulletin d’expedition) attached, deliver these notes with the parcels. Although dispatch notes have a space provided for the addressee’s acknowledgment of receipt, they do not require signature. They must not be confused with foreign return receipts (avis de reception), which are completed as prescribed in 753.1.

744.2 Undeliverable Parcels
If a parcel is returned as undeliverable, the Post Office facility will mark the dispatch note as well as the wrapper to show the reason for nondelivery and leave the dispatch note attached to the parcel.

744.3 Dispatch Notes Not Associated With Parcels
Dispatch notes that cannot be associated with accompanying parcels may be disposed of as waste.

Mail Unaccounted for After Assignment for Delivery

General
When a Registered Mail item assigned for delivery is not properly accounted
for, make a record of the available facts concerning the item and file the
report, pending a possible inquiry.

Inquiries
If an inquiry is received from the sender (see 920), ask the addressee whether
the item was received. If the item was not received, make a full report
promptly to the appropriate Postal Service inspector-in-charge.

753 **Return Receipt**

761.3 **Endorsement Not to Forward**
The sender may forbid any forwarding by placing an endorsement to that effect on the wrapper in a language understood in the country of destination.

761.4 **Scanning Procedures**

The request must include the following information:

1) The names and addresses of the sender and the addressee.

If the stamps are foreign, the Post Office facility must use a special Paquebot postmark or apply the word “PAQUEBOT” to the envelope in ink or with a rubber stamp.

763.2 Mail Forwarded by Air
Mail to be forwarded by air must be accompanied by International Form CN 65, Bill. #### 922.1 General Description

A claim is a request by a U.S. Postal Service customer for an indemnity payment that resulted from the loss, damage, or missing contents of a GXG, Priority Mail Express International, or registered item, or an insured or ordinary parcel. See 222.61, 320, 330, and Individual Country Listings for information on indemnity limits. See 930 and 940 for information on indemnity payments and postage refunds.

#### 922.2 Filing a Claim

Claims may be filed for GXG, Priority Mail Express International, registered items, and insured and ordinary parcels as noted in Exhibit 922.2. Claims may not be filed for ordinary letters or M-bags. Claims for registered items and insured and ordinary parcels may not be filed until after an inquiry has been completed in accordance with the procedures in 921. Claims for items that have damaged or missing contents should be filed immediately. Claims for registered items and insured and ordinary parcels that are lost, or that are delivered to the addressee in damaged condition or with missing contents, are payable to the sender, unless the sender waives the right to payment, in writing, in favor of the addressee. All claims for inbound international registered items and insured and ordinary parcels received in damaged condition or with missing contents must be supported by PS Form 2856. If the addressee does not accept delivery and the item is returned to the sender, the sender will be the payee.

#### 922.3 Claims Process

##### 922.31 Determination of Claim

When there is a determination that an item was lost or has damaged or missing contents, the customer will receive PS Form 2855, *International Claim for Indemnity*. 
922.32 Evidence of Indemnity Coverage
Indemnity claims for GXG, Priority Mail Express International, Registered Mail, and insured and ordinary parcels must be supported as follows:

a. If mailed in the United States:
   (1) For Global Express Guaranteed items, the original or a copy of the mailing receipt or a copy of the GXG Air Waybill (shipping label).
   (2) For Priority Mail Express International items, the original or a copy of the mailing receipt or the sender’s copy of the PS Form 2976-B, Priority Mail Express International Shipping Label and Customs Form.
   (3) For ordinary parcels, the original or a copy of the mailing receipt or the sender’s copy of the PS Form 2976-A, Customs Declaration and Dispatch Note — CP 72.
   (4) For registered items and insured parcels, the original or a copy of the mailing receipt or the sender’s copy of PS Form 2976-A, Customs Declaration and Dispatch Note — CP 72, issued at the time of mailing.

Note: The term “copy” denotes a replica of the document, such as a scan, photograph, or photocopy. While a copy is generally acceptable as noted above, in certain circumstances, the original document may be required.

b. If mailed from a foreign country: The mailing receipt or the customs label, the wrapper, and any other markings or endorsements on the mailing container that indicate how it was sent.

Note: Mailing particulars must also be verified with the country of origin before a claim can be settled.

922.33 Evidence of Value
The customer must submit acceptable evidence to establish the cost or value of the article at the time it was mailed. Other evidence may be requested to help determine an accurate value. Examples of acceptable evidence include:

a. Sales receipt, invoice, or statement of value from a reputable dealer.

b. Customer’s own statement describing the lost or damaged article, including the date and place of purchase, the amount paid, and whether new or used (only if a sales receipt, invoice, or statement of value from a reputable dealer is not available). If the article is handmade, the statement must include the price of the materials and labor used. The statement must describe the article in enough detail to determine whether the value claimed is accurate.

c. Picture from a catalog showing the value of a similar article (only if a sales receipt, invoice, or statement of value from a reputable dealer is not available). The date and place of purchase must be included.

d. Paid repair bills, if the claim is for partial damage; estimates of repair costs or appraisals from a reputable dealer. Repair costs may not exceed the original purchase price.
Inquiries, Indemnities, and Refunds

(1) If the claim is for partial damage, return the article to the customer.

(2) If the claim is for total damage and the article has salvage value ($25.00 or more), retain the article and the packaging at the Post Office facility until the claim is settled and disposition instructions are received from Accounting Services. Return the receipt to the customer. Instruct the customer to keep the receipt until the claim is settled. b. Indemnity for the loss of Registered Mail and insured and ordinary parcels is paid by the country of origin to the sender. Payments to U.S. senders will be made by the U.S. Postal Service. 932  General Exceptions to Payment — Registered Mail and Priority Mail International Parcels
Indemnity may not be paid:

a. In excess of the limit prescribed for the insurance or registry fee paid or greater than that corresponding to the actual amount of loss (except Registered Mail service), damage, or the missing contents. Allowance must be made for depreciation or for needed repairs, and in the absence of purchase receipts or invoices, the contents must be described in sufficient detail.

b. When an item cannot be accounted for due to the destruction of service records by force majeure.

c. When the contents are prohibited.

d. For an item seized by customs or any other government agency.

e. When no inquiry or application has been made by the claimant or a representative within 6 months, commencing with the day following the mailing of the item. In the case of insured mail with Canada, however, the time limit may be waived when it is satisfactorily established that the delay was unavoidable and not the fault of the claimant.

f. For damage that results from the characteristics of the contents — that is, its inability, due to its nature, to withstand the ordinary incidents of the contemplated carriage.

g. When full compensation or reimbursement has otherwise been made by the U.S. Postal Service or by any outside firm or corporation whatsoever except on a pro rata basis as coinsurer.

h. For sentimental values arising from association. Also, in the absence of a complete description, the claimant must satisfactorily establish the ordinary market value at the time of mailing, particularly in the case of heirlooms or antiques.

i. For an amount in excess of the maximum prescribed for the insurance or registry fee paid, unless responsibility rests with the United States and it is shown to the satisfaction of the Postmaster General that the sender was charged a fee less than that required to cover the amount.
of indemnity desired, through error on the part of the U.S. Postal Service. On such a showing, the deficiency in fee may be collected from the sender and postal indemnity paid, within the limit fixed for the higher fee.

933 Payments for Priority Mail International Parcels

933.1 General Provisions

933.11 Payment of Indemnity

Priority Mail International shipments are covered by document reconstruction and merchandise insurance in case of loss, damage, or missing contents. Indemnity will be paid by the Postal Service as specified in DMM 503.4 and 609, subject to the exclusions in IMM 933.12. Indemnity may be paid as follows:

a. For loss, damage, or missing contents, based on the actual value of articles at the time and place of mailing.

b. To the sender, or to the addressee if the sender waives the right to payment, in writing, in favor of the addressee.

933.12 Indemnity Will Not Be Paid

In addition to the general exceptions to payment described in 932, indemnity will not be paid in the following instances:

a. When other countries report delivery of parcels without external trace of damage or missing contents and acceptance by the addressee or an agent without reservation concerning the condition of the contents, and when delivery was made under conditions prescribed by the domestic regulations of the country of destination for mail of the same kind or on presentation of a regular postal identity card.

b. When loss, damage, or missing contents has been caused by the fault or negligence of the sender or the addressee or the representative of either, such as failure to endorse the parcel conspicuously to show the nature of the contents or to provide adequate packing for the length of the journey and for the protection of the contents.

c. When the claimant, with intent to defraud, has declared the contents of a parcel to be above their real value.

d. For parcels that:

(1) Contain matter of no intrinsic value.

(2) Contain matter that did not conform to applicable postal conventions.

(3) Were not posted in the manner prescribed. In the event of loss, damage, or missing contents of mail erroneously accepted for insurance to other countries, limited indemnity may be paid as if it had been addressed to a domestic destination — i.e., on the basis of the indemnity limits for domestic insured mail. If postage was erroneously collected at other than a parcel price, but the
Inquiries, Indemnities, and Refunds

parcel was otherwise properly accepted for insurance, indemnity may be paid pursuant to the general provisions of this section and the special provisions of 933.2.

e. For indirect loss or loss of profits.
f. For an amount in excess of the maximum prescribed for the insurance fee paid, unless full or partial responsibility rests with the other country and the sender requested full coverage at the time of mailing, but a deficient and unauthorized insurance fee was collected. In such case, the sender must be paid for full value, less the amount of the deficient fee, but not exceeding the limit fixed for the appropriate insurance fee.

g. When evidence of insurance coverage has not been presented.

933.13 Priority Mail International Parcels — Indemnity Limitations

When additional merchandise insurance has not been purchased, coverage is limited to the actual value of the contents or $200, whichever is less.

Document reconstruction insurance is limited to the actual cost of document reconstruction or $100, whichever is less.

933.14 Priority Mail International Parcels — Exceptions to Indemnity

In addition to the general exceptions to payment described in 932, indemnity may not be paid:

a. For parcels containing prohibited articles.

b. For consequential losses, delay, concealed damage, spoilage of perishable items, articles improperly packaged, and articles too fragile to withstand normal handling in the mail.

c. When other countries report delivery of parcels without external trace of damage or missing contents and acceptance by the addressee or an agent without reservation concerning the condition of the contents, and when delivery was made under conditions prescribed by the domestic regulations of the country of destination for mail of the same kind or on presentation of a regular postal identity card.

d. When loss, damage, or missing contents has been caused by the fault or negligence of the sender or the addressee or the representative of either, such as failure to endorse the parcel conspicuously to show the nature of the contents or to provide adequate packing for the length of the journey and for the protection of the contents.

e. When the claimant, with intent to defraud, has declared the contents of a parcel to be above their real value.

f. For indirect loss or loss of profits.

g. When evidence of the value of the ordinary indemnity coverage on an ordinary parcel has not been presented.

933.2 Special Provisions

The sender may be paid only such indemnity for loss, damage, or missing contents occurring after redispach by the original country of address to a third country, if the country in which the mistreatment occurred is willing or obliged to pay under any agreement between the countries involved.

934.13 Limitations to Indemnity Payment

a. For loss, damage, or missing contents of an outbound or an inbound registered item, indemnity will not be paid to anyone in the United States other than the sender, unless the sender waives payment, in writing, in favor of the addressee. In such a case, the destination administration makes payment to the addressee.

b. For a domestic registered item that bears a foreign return address and that is forwarded under 762.2, indemnity will not be paid in excess of the limits in 934.2.

934.14 Indemnity Paid by Country of Destination

To expedite the examination of such packages, the sender should write in a suitable place on the customs Declaration, the phrase “Peutetre Ouvert D’Office” (May Be Opened Officially), followed by his signature.
2. Each commercial shipment must be accompanied by a consular invoice in duplicate. These invoices must include a declaration signed by the seller or his representative reading: “I declare under oath that all the information given in this invoice is true and the prices indicated are those that actually have been paid (or will have to be paid). I also declare that no arrangements have been made that would make possible any alterations in these prices.” The following articles do not require consular invoices:
a. Books, reviews, newspapers, printed papers and scientific and literary periodicals, on condition that no import duty is payable.
b. New or used effects or articles imported for noncommercial purposes or not of a saleable nature or value, intended for personal use or consumption and which, by reason of their quantity or type, give no grounds for thinking that they are intended for sale, and which do not exceed the value above which import duty would have to be paid.
c. Goods in transit for other countries.
d. Samples without saleable value (unused).
e. Brochures, posters, printed papers, diaries, almanacs, negatives, photographs, films and other miscellaneous publicity articles advertising foreign goods or concerns, which are marked to prohibit their free sale.
f. Spare parts and accessories for supplying or repairing foreign ships or aircraft in Argentina, if these are considered indispensable for continuing the journey.
g. Customs, properties and other belongings of visiting theatrical companies.
h. Goods returned to Argentina after definitive or temporary export unless a return invoice was explicitly requested when authorization for temporary export was granted.

3. Used linen and clothing must be accompanied by a certificate of disinfection issued by a competent authority in the country of origin and countersigned by an Argentine consular service. In areas without an Argentine consular service, a disinfection certificate issued by the competent authorities is sufficient. The wrapper must be marked “Disinfection Certificate Enclosed.”

Fish or parts of fish, including all species of bony fish, sharks, rays, crustaceans, mollusks, and other marine organisms (but not including marine mammals, marine reptiles, or toothfish), whether fresh, frozen, smoked, or preserved in airtight containers, require an import permit from the Australian Fisheries Management Authority (AFMA).

A filtering facepiece (FFP) mask conforming to the EN 149 standard for class FFP2 is defined as personal protective equipment (PPE) and is subject to import restrictions as outlined in Regulation (EU) 2016/425. This same regulation is applicable to any other filtering FFP mask that conforms to similar standards and is intended for use as PPE (e.g., KN95, N95, GB 2626-2006, KP95, DS2, DL2, BIS P2, etc.). Consequently, a mailing that includes such a mask must meet the following criteria:
1. Each FFP mask must include the CE marking followed by the identification number of the notified body responsible for quality assurance.
2. Each FFP mask must be accompanied by user instructions in German.
3. If available:
   a. Country of origin for each article in the item.
   b. Economic Operator Registration Identification (EORI).
For additional information, visit the following website (available only in German): https://www.bmdw.gv.at/Themen/International/covid-19/FAQ-corona-massnahmen/Import-von-PSA-waehrend-Covid.html. Austrian Customs will consider postal items containing noncompliant masks as wrongly admitted and will return them to the sender.
Articles made of precious metals (gold, silver or platinum) must be of the fineness required by the Austrian regulations.
Austrian coins, gold coins require permission of the Austrian National Bank.
Cigars may be imported only by a business that holds a permit issued by the Austrian government.

Medicines intended for personal use are permitted only under an import license.
1. A parcel may be addressed to a street address or to a post office box. A local telephone number for the addressee should be provided when the item is addressed to a street address and must be provided when the item is addressed to a post office box.

The invoices must be affixed to the outside of the parcel or may be enclosed in PS Form 2976-E with the customs declaration.
3. As of July 1, 2021, the value-added tax (VAT) exemption is abolished on all imported goods, with the exception noted in entry 4 below. For more information regarding the European Union’s VAT rules, visit https://ec.europa.eu/taxation_customs/business/vat/vat-e-commerce_en.
4. Gift shipments valued at less than 45 EUR sent from a consumer to a consumer (C2C) and marked “Geschenksendung” or “Gift” are exempt from taxes and duties.

Medicines must be accompanied by a prescription from the attendant Brazilian doctor. This prescription should be on a chemist’s form, bearing the name, private address or office of the doctor, his registration number with the Brazil National Medical Council and a Portuguese translation of the instructions, as necessary. Postal packages containing medicaments and not satisfying the above-mentioned conditions will be returned to the senders or, if abandoned, treated as undeliverable items.
Postage stamps are admitted only in First-Class Package International Service with Registered Mail service shipments.
Saccharine and other artificial sweeteners for artificial beverages require permission from the Brazilian Department of Public Health for importation.
Seeds require prior approval from the Brazilian Agriculture Department — i.e., Ministério da Agricultura, Pecuária e Abastecimento (MAPA). To obtain approval for seeds and other agricultural items, visit the following website (available only in Spanish): www.gov.br/pt-br/categorias/agricultura-e-pecuaria/licenciamento-e-habilitacao/exportacao-e-importacao.

Observations
1. Empresa Brasileira de Correios e Telégrafos (ECT) is introducing a “Fee for Postal Dispatch” with a current value of 15 Brazilian reals (BRL) for items presented to customs. If the addressee has not properly paid this fee, ECT will return the item to the sender.
2. Import licenses are required for many kinds of goods. ECT recommends that the sender ascertain from the addressee before mailing that the addressee holds the necessary documents. A shipment that does not have a required import permit is subject to confiscation as contraband.
3. The mailable must affix all necessary or relevant documents including invoices, export licenses, certificates of origin, health certificates, etc., to the outside of the item.
4. Imports are allowed by mail, including mail order catalog shipments, up to a value of U.S. $500 (U.S. $1,000 for computer software) without the requirement of an import license provided the item is not for resale. Shipments valued at no more than U.S. $50 are duty-free and are delivered to the addressee; shipments above U.S. $50 can be picked up at the post office upon payment of import duties. Imports that are prohibited or subject to special regulations must comply with applicable Brazilian government provisions.
5. Identical shipments from the same source to the same person or address in Brazil within a 90-day period are considered part of the same shipment and may be subject to confiscation. Other merchandise that usually enters duty-free includes items such as newspapers, maps, books, and magazines.
6. The importer tax identification (ID) number is required for all items containing goods. In Brazil, the importer tax ID number is known as “CPF” (format: 000.000.000-00) for natural persons and as “CNPJ” (format: 00.000.000/0000-00) for legal persons. This information must be provided either by the mailer in the importer reference field of the customs declaration form or on the commercial invoice, or by the importer through the Correios website at https://www2.correios.com.br/sistemas/rastreamento.
7. Shipment that do not indicate the applicable postage and fees on PS Form 2976-A will hinder the customs clearance process, causing delays to clear the items.
8. Used consumer goods may only be sent to charitable organizations that are recognized by the Brazilian government as being entities which serve the public interest.

- Specific items or conditions relating to the sale or provision of goods or services in Canada.

All alcoholic beverages including wines, etc.

An issue of a publication that contains an advertisement primarily directed to a Canadian market is a prohibited import if that advertisement does not appear in identical form in all editions of the issue distributed in the country of origin.

Commercial tags of metal.

Firearms.

Gold bullion, gold dust, and nonmanufactured precious metals.

Non-refillable lighters or any other lighter that contains fuel.

New lighters with no fuel may be sent.

Smoke-making devices for motor vehicles and boats.

Used or secondhand hives or bee supplies.

Vaping liquids containing 66 mg/g or more nicotine by weight. **Note:** The U.S. Postal Service measures the concentration of nicotine solutions by volume rather than by weight, so it is possible that a product that does not exceed Canada’s weight restriction would exceed the Postal Service’s volume restriction. Nicotine solutions with a concentration of 16.67 percent (166 mg/ml) or more, when nicotine is the only toxic material in the liquid, are classified as “dangerous goods” (see 136.1) and as such are prohibited in international mail. (See also Observation 1.)

See 135.3 for method of packing.

Meat and meat food products must be accompanied by an export certificate issued by the U.S. Department of Agriculture and labeled in accordance with Canadian regulations. Exception to these requirements are:

1. Bona fide sample shipments weighing less than 10 kg;
2. meat products addressed to a government department or agency;
3. meat products intended for personal consumption when they enter Canada in the possession of the importer.

Pet food that contains biologically appropriate raw food or bones and raw food — such as heat-processed, shelf-stable pet foods, treats, and compound chews — must be accompanied by an import permit from the Canadian Food Inspection Agency and a zoo sanitary certificate from the United States Department of Agriculture (USDA) Animal and Plant Health Inspection Service (APHIS) Veterinarian Services. Attach a copy of both documents to the outside of the mailpiece for review by the Canada Border Service Agency.

Veterinary biological products including serums and vaccines must be accompanied by a permit issued by the Veterinary Director General, Ministry of Agriculture of Canada.

Observations

1. As noted in the Prohibitions section, Canada prohibits certain vaping products. However, vaping products, otherwise known as electronic smoking products (i.e., electronic products for the vaporization and administration of inhaled doses of nicotine including electronic cigarettes, cigars, cigarillos, and pipes, as well as cartridges of nicotine solutions and related products), that make health claims are subject to the Canadian Food and Drugs Act (FDA). “Health claims” refers to any statement that represents the product as a drug or device under section 2 of the FDA — for example, a statement that the product will help someone quit smoking. Vaping products that make health claims require authorization under the FDA before being commercially imported, advertised, or sold in Canada. A vaping product that makes health claims is considered a prescription drug, and before importation to Canada, it requires a Drug Establishment License and an assigned corresponding Drug Identification Number (DIN). For more information, visit canada.ca/en/health-canada/topics/licensing-authorizing-manufacturing-drug-health-products.html. Vaping products with no health claims and no drugs other than nicotine are not subject to the FDA.

2. Banknotes valued at $100 or more must be put up in a compact package and securely tied with strong twine before wrapping. The wrapper must be linen or other strong, woven material, linen lined paper, or two thicknesses of strong kraft paper. After wrapping, the package must be again securely tied or stitched and sealed at the points of closing.

3. The name of the Canadian province in which the office of destination is located must appear as part of the address.

4. The following must not be accepted for insurance:

   - Bees, postage stamps (canceled and uncanceled) and albums in which they are mounted, and parcels addressed to CFPOs.

5. Canadian Forces Mail (CFPO) is processed through Canadian military post offices and must be addressed in the following manner:

   - NUMBER, RANK, NAME UNIT
   - CFPO (NUMBER)
   - BELLEVILLE ON K0K 3R0
   - CANADA
Maximum weight limits for mail addressed to members of the Canadian Forces based outside of Canada (CFPO) is 22 pounds. Parcels for CFPO addresses may not be insured. Direct sacks of printed matter (M-bags) are not permitted for CFPO addresses.

6. A letter fully prepaid and bearing the same address as that of a parcel may be tied or otherwise securely attached to the outside of the parcel. Stamps to cover postage on the parcel must be affixed to the wrapper of the parcel. Stamps to pay postage on the letter must be affixed to the envelope thereof.

7. Certain types of merchandise must be marked to show country of origin in the manner prescribed by the Canadian customs regulations.

8. Goods valued under 20 Canadian dollars are duty and excise tax exempt. Goods over 20 Canadian dollars will be subject to the applicable duties and excise taxes. Gift shipments received by mail that are valued under 60 Canadian dollars are duty and excise tax exempt.

9. For all casual and commercial goods valued at or under 1,600 Canadian dollars, Canada Post will collect assessed duties, excise taxes, and a handling fee from the addressee. This handling fee is set by Canada Post (see canada.post.ca/tools/pg/manual/PGcustoms-e.asp). All commercial mail items over 1,600 Canadian dollars will be held by Canada Customs and Excise until proper invoice and accounting documentation is provided by the addressee.

10. The Canada Customs Invoice can be obtained from stationery, office supply, or printing companies. If mailers are unable to obtain the Canada Customs Invoice locally, they should visit the following Web site: canada.post.ca. In addition, commercial invoices are acceptable provided that each invoice has the required information for customs purposes.

11. Information on Canadian customs regulations may be obtained from the Office of International Marketing/223, Bureau of International Commerce, Department of Commerce, Washington, DC 20230, or any field office of that Department.

12. Obtaining post code information:
   a. Information on Canadian post code directories can be obtained from:
      - NATIONAL PHILATELIC CENTER
      - CANADA POST CORPORATION
      - ANTIGONISH NS B2G 2R8
      - Telephone: 1-800-565-4362

   b. To obtain Canadian post codes for specific addresses, call the General Information line at 1-416-979-8822 or access the Canada Post Corporation Web site on the Internet at canada.post.ca.

13. Pursuant to the Canada Customs Act and a need to heighten border security, Canada will deny entry of all postal items (except postcards) that do not bear complete sender and addressee information in roman letters and arabic numerals.

Any of these items that are approved for international air transport and arrive at the initial gateways in China will be forwarded via ground transportation to their next destination. China Post will accept no liability for the delay in delivering these items.

2. As of November 30, 2018, the General Administration of Customs of the People’s Republic of China (GACC) will dispose of any inbound mail item that lacks proper customs information or that the recipient refuses or does not claim in a timely manner. In addition, GACC will dispose of any item that it cannot deliver or return (including undeliverable liquids that fail aviation security checks).

3. Mailers should be aware of the following customs requirements in China:
   a. Items for personal use mailed to China are subject to duty and tax. However, items imported for personal use are exempt from duty and tax, if such duties and taxes are equal to or less than 50 CNY.
   b. Items for personal use imported into China (not including items imported from Hong Kong, Macau, and Taiwan) may not exceed 1,000 CNY.
   c. When items imported for personal use exceed the allowed value limit, three outcomes are possible:
      (1) The items will be returned.
      (2) If Customs determines that the items are not for personal use but are actually intended for commercial use, the items will be cleared using commercial customs procedures.
      (3) If Customs determines that the items are actually intended for personal use, then supporting documents such as a trade contract, commercial invoice, packing list, waybill, customs declaration brokerage authorization agreement, import and export license, or other similar documentation will need to be provided.
   d. If imported items are intended for commercial use, commercial customs clearance will be applied.
   e. China Customs permits only shippers and consignees that are registered declarants or other registered enterprises to present items that must be accompanied by the documents mentioned in paragraph 3c above. Individuals or companies that are not registered with China Customs to affect clearance are advised to entrust the customs clearance process to enterprises that are specifically registered with China Customs for this purpose.

Restrictions

The value of the items contained in each shipment must not exceed RMB (renminbi) 100 yuan and the total value of the shipment received annually by each family may not exceed RMB (renminbi) 800 yuan. However, the following articles are admitted in the quantities/values indicated, and any articles that do not meet the requirements mentioned below will be returned to origin or confiscated in accordance with China’s internal laws:

Prohibitions (130)
Cash; coins; bank notes; molds for bank notes; pieces of paper representing real bank notes or any other bearer bonds; coinage machines; other articles of value such as platinum, gold, or silver, whether manufactured or not; precious stones; jewelry; other valuable articles; and counterfeit and pirated articles.
Coloring powders and similar.
Documents having the character of current and personal correspondence exchanged between persons other than the sender and the addressee or persons living with them.
Fats.
Live animals, and dead animals not stuffed. Exemptions: Bees, leeches, and silkworms, as well as parasites and destroyers of noxious insects exchanged between officially recognized scientific institutions.
Perishable infectious biological substances.
Perishable noninfectious biological substances.
Radioactive materials.

Note: Colombia prohibits many types of goods, or subjects them to an import license; therefore, the sender should ascertain from the addressee before mailing whether the contents are permitted and whether the addressee holds the necessary documents.

Restrictions
New and used clothing is permitted when mailed as unaccompanied baggage. The words “Equipaje no acompanado” and the owner’s passport number must be shown on the address label and the accompanying documents. Used clothing must have a certificate of disinfection enclosed.

Observations
1. First-Class Mail International and First-Class Package International Service items may not contain dutiable articles.
2. Books and other printed matter, if valued over $20, require consular invoices, and the addressees must obtain import licenses.
3. A commercial invoice, numbered, certified and signed by the sender, must accompany each package containing books and periodicals of a commercial nature. In addition, the value of each item, the number of packages comprising the shipment, and gross weight must be shown on the invoice. One copy of the invoice should be sent to the post office of destination. A note must be made on each package of the number of books contained therein, its weight and the total number of packages comprising the shipment.
4. Packages must be addressed directly to the addressee, as the Colombian regulations do not permit customs entry to be effected by anyone except the addressee or an authorized representative.
5. Each shipment valued at $20 or less requires two copies of the sender’s commercial invoice, one of which must be enclosed in the parcel and the other sent under separate cover to the addressee. Consular legalization is not needed but the invoice must include a declaration of origin of the merchandise, in Spanish, reading as follows:
“Certificamos bajo juramento que los precios de esta factura son los mismos que cargamos al cliente y que la mercancía a que se refiere esta misma factura es originaria de (Country of Origin). En fe de lo expuesto firmamos la presente declaración en (City, State) (Day) de (Month) de (Year) (Signature of shipper).”

6. For shipments valued over $20, the sender must have a copy of his or her commercial invoice legalized by a Colombian Consulate, and must prepare 4 copies of a consular invoice, one of which must be sent direct to the addressee with the legalized commercial invoice.
7. The addressees in Colombia are required in most cases to obtain import licenses in order to secure delivery of shipments. For shipments exceeding $20 in value the addressee is required to send a copy of the import license to the sender, who must submit it to the Colombian Consul when obtaining the consular invoice. If a sender receives a copy of a Colombian import license for a parcel whose value does not exceed $20, he or she must return it to the addressee in Colombia.
8. Consular invoice forms may be obtained and commercial invoices legalized at Colombian Consulates, which are located in principal cities of the United States.

Country Conditions for Mailing

The Office of Foreign Assets Control (OFAC) of the U.S. Department of the Treasury and the Bureau of Industry and Security (BIS) of the U.S. Department of Commerce administer sanctions that restrict the mailing of items to certain destinations and recipients, including a broad embargo on items to and from Cuba. Many shipments to Cuba also require the filing of information with the U.S. Census Bureau. Before mailing any items to Cuba, mailers should refer to IMM 510, 520, and 530, and they should also refer to Publication 699, Special Requirements for Shipping Internationally, which is available at about.usps.com/publications/pub699.pdf.

In addition, before mailing gift and humanitarian donations to Cuba, mailers must abide by the rules in 15 CFR § 740.12, or with the rules for consumer communications devices, computers, and software in 15 CFR § 740.19, which can be accessed at ecr.gov. Items containing goods may be confiscated upon entering Cuba or returned to sender.

Prohibitions (130)
Coins, banknotes, currency notes, securities payable to bearer, manufactured and unmanufactured platinum, gold, and silver; precious stones; jewelry; and other valuable articles. Musical letters or cards that play a sound recording when opened. Perishable infectious biological substances. Perishable noninfectious biological substances. Radioactive materials.

Restrictions
The maximum value of any mailed item sent to Cuba must not exceed $200 in value or else it will be subject to confiscation by Cuban General Customs.

Observations
Items not eligible for import into Cuba may be confiscated upon entering Cuba or returned to sender.

Country Conditions for Mailing

All items containing goods must include the corresponding 6-digit harmonized system code for each article listed on the customs declaration form. For more information, see 597 and the Observations section below.

Prohibitions (130)
- Chain letter items.
- Perishable infectious substances.
- Perishable noninfectious substances.
- Playing cards.
- Publications, drawings, photographs, records, sheets of music, etc., contrary to the State public order.
- Radioactive materials.

Restrictions
- Coins; paper money; securities and other paper values of any kind; as well as savings-bank booklets; and unmanufactured gold, silver, and platinum may be imported only by authorization of the State Bank.
- Gift shipments must be sent by private individuals. Those sent by commercial firms are not admitted. Import permits are required for gift shipments exceeding three per year for one addressee, or for any shipment exceeding 3,000 Czech Republic crowns in value. Permits may be issued to addressees or withheld at the discretion of the customs authorities after the shipment arrives. Medicines are admitted provided the addressee is in possession of an import permit granted by the Czech Republic health authorities.
- Philatelic articles and stamps exchanged between member philatelists must not exceed 1,000 Czech Republic crowns in any calendar year. Gift packages containing philatelic articles are restricted to 3 per year and the shipment cannot exceed a total of 100 stamps or philatelic articles and 100 Czech Republic crowns in value.

Observations
1. Import licenses and quantity restrictions are applicable for many articles sent to the Czech Republic. Therefore, senders should ascertain from the addressee before mailing whether the contents are permitted and whether the necessary documents are held.
2. Gift shipments for the personal use of the addressee or the addressee’s family do not require an import permit if the contents do not exceed 5,000 Czech Republic crowns. When the total exceeds 2,000 Czech Republic crowns, the addressee must provide a gift certificate authenticated by an authorized agent in that country. Czech Republic customs decides the value of the contents on the basis of internal prices of identical articles.
3. Articles imported in postal items are exempt from customs duties if their total value does not exceed 300 Czech Republic crowns.
4. As of July 1, 2021, the value-added tax (VAT) exemption is abolished on all imported goods. For more information regarding the European Union’s VAT rules, visit https://ec.europa.eu/taxation_customs/business/vat/vat-commerce_en.
5. The Czech Republic requests that, for all items containing goods, the customs declaration form include the following information, if available:
   a. Country of origin for each article in the item.
   b. Economic Operator Registration Identification (EORI), if such a number has been assigned.
   c. Telephone number and email address for both the sender and the addressee.

Restrictions

Importation of medicines requires special authorization by German authorities.

Import licenses or certificates are required for meat and meat products; pasta products; dairy products; egg and egg products; plant and plant products; tobacco products; and cigarette paper. Senders should ascertain before mailing whether the necessary documents are held by the addressee.

Plants and seeds that originate outside the European Union are prohibited unless accompanied by a phytosanitary certificate issued by the country of origin.

Observations

1. Any mail requiring a customs form must be addressed to the recipient’s physical residential or business address and may not be addressed directly to a parcel locker (DHL Pakstation), a service point (postal outlet or DHL Pakshop), or a post office box (Postfach). Otherwise, the German customs authority may reject the mail for return to the sender. Deutsche Post, the designated operator of Germany, also requests that such mail include a local telephone number for the addressee.

2. For Priority Mail International parcels, an invoice, in duplicate, is required for all commercial shipments regardless of value and all personal shipments valued at $300 or more. The invoices must be affixed to the outside of the parcel or may be enclosed in PS Form 2976E with the customs declaration.

3. Mailpieces delivered through international bulk mail services must be addressed with the correct postcode or delivery zone number, if one exists. Without this number, the German postal administration will return such pieces to the sender or the country of origin due to insufficient addressing.

4. The customs treatment of gift parcels will be facilitated if the customs declaration is marked by the sender “Private Geschenksendung” (personal gift package).

5. Germany will not accept any Priority Mail Express International or Priority Mail International insured item valued at more than $500. Items valued at more than $500 will be returned to sender.

6. As of July 1, 2021, the value-added tax (VAT) exemption is abolished on all imported goods, with the exceptions noted in number 7 below. For more information regarding the European Union’s VAT rules, visit https://ec.europa.eu/taxation_customs/business/vat/vat-e-commerce_en.

7. As of January 31, 2022, an item containing goods is exempt from import taxes and duties — with the exceptions noted in entry number 8 below — provided that the item meets all of the following conditions:
   a. The mailer sends the item occasionally.
   b. The item is declared as a “gift.”
   c. The total value of the item is less than 45 EUR.
   d. The item does not involve a commercial transaction.
   e. The item does not require payment.
   f. The mailer sends the item as a consumer to consumer (C2C) shipment.
   g. The item is intended for personal use or consumption by the recipient.

8. As of January 31, 2022, import taxes and duties apply to the following:
   a. An item associated with a swap deal, such as one conducted online or at a swap meet.
   b. An item associated with a transaction between private persons conducted via an online auction platform.
   c. An item sent either from or to a business — business to business (B2B), business to consumer (B2C), or consumer to business (C2B) — even when declared as a gift.

9. Germany requests that, for all items containing goods, the customs declaration form include the following information, if available:
   a. Country of origin for each article in the item.
   b. Economic Operator Registration Identification (EORI), if such a number has been assigned.

Prohibitions (130)

Coins; banknotes; currency notes (paper money); securities payable to bearer; traveler’s checks; platinum, gold, and silver, manufactured or not; precious stones; jewelry; and other valuable articles, unless sent in insured Priority Mail International parcels. Radioactive materials.

Restrictions

Plants or seeds that originate outside the European Union (EU) must be accompanied by a phytosanitary certificate issued by the country of origin. Hungary will accept a phytosanitary certificate only if it fulfills all of the following requirements: it is issued in at least one of the official languages of the EU; it is addressed to the national plant protection organization of an EU member state; and it has been issued no more than 14 days before the date on which the plants, plant products, or other objects covered by it have left the country in which it was issued. Additional information is available at the following website: https://eur-lex.europa.eu/eli/reg_impl/2019/2072/oj.

Observations

1. Gift shipments may be sent without import licenses provided they are for the personal use of the addressee or members of his or her family; customs duty is exempt on gift shipments not exceeding a total value of Ft 500 Hungarian Forint and on gift shipments addressed to Hungarian Red Cross.

2. Many articles are subject to an import license. Therefore, senders should ascertain from the addressee before mailing whether the necessary documents are held.

3. To expedite customs clearance, a sales invoice should accompany each shipment that is sent to a private individual from a business.

4. As of July 1, 2021, the value-added tax (VAT) exemption is abolished on all imported goods. For more information regarding the European Union’s VAT rules, visit https://ec.europa.eu/taxation_customs/business/vat/vat-e-commerce_en.

5. Hungary requests that, for all items containing goods, the customs declaration form include the following information, if available:
   a. Country of origin for each article in the item.
   b. Economic Operator Registration Identification (EORI), if such a number has been assigned.
   c. Telephone number and email address for both the sender and the addressee.

Country Conditions for Mailing

Prohibitions (130)
Appliances (including pistols, pistol pencils, etc.) for discharging gas, except on behalf of the Government. Arms and military equipment, except for the Indian Government.
Articles of gold or silver.
Coins; banknotes; currency notes; traveler’s checks; securities payable to bearer; precious stones; jewelry; and other valuable articles.
Coins or ingots exceeding 65 rupees in value, except coins obviously intended for ornament.
Consumer electronic items, (except hearing aids and life-saving equipment, apparatus, and appliances and parts thereof).
Shipments containing these goods up to the value of 200 Indian rupees (gift value) are at present released after the words “Released on caution” have been stamped on the item.
Pistol-shaped articles such as toy guns.
Radioactive materials.

Restrictions
Addressees in India are required to obtain import licenses for all goods except those intended for their personal use and not exceeding 100 rupees in value. If the license is not obtained when required, the articles are considered as prohibited.
Commercial shipments of tobacco, manufactured or not may only be sent to licensed importers or wholesalers.
Indian banknotes, require permission of the Reserve Bank of India.
Perishable articles or edible substances are admitted only by air mail.
Piece goods and certain manufactured articles must be marked to show country of origin as prescribed by the Indian trademark regulations.
Works of art (including photographs); forms ruled or printed; account and manuscript books; labels; advertising matter (except trade catalogs and circulars); almanacs in sheets or in cards; and other cards, as well as waste paper and old newspaper for packing, are considered to be merchandise, and may be liable to customs duty.

Observations
1. In India, a very small number of articles is admitted free of customs duty and the tariffs of these duties vary considerably. The general rate of import duty is 30 percent but many articles are liable to a higher rate.
2. Import duty is chargeable even if the articles are received as free gifts. The fact that goods are old or second-hand or gifts or articles intended for personal use does not entitle them per se to exemption from import duty. However, the collection of duty is waived in cases where the total duty on a shipment does not exceed 3 rupees. Books and magazines are generally exempt from import duty.
3. Shipments can be more speedily released if their contents and value are clearly and correctly declared by the sender.
4. Insured Priority Mail International parcels addressed to the post office boxes of Draw, Kargil and Leh in the State of Kashmir are not accepted from November 1 to May 31.

Prohibitions (130)

Arms and weapons.
Articles bearing false trademarks or lacking the indication of origin required by the Irish regulations.
Coins minted in a foreign country, except gold and silver; false or counterfeit coins.
Hay, straw, including articles made of straw.
Human remains.
Live plants and animals.
Peat moss litter except under license.
Prison-made goods.

Tobacco, cigars, or cigarettes packed with other articles; cut and compressed, sweetened, or adulterated tobacco.

Restrictions

Carbon paper, except for typewriter carbon paper that must be described on the customs declaration as follows: “Typewriter carbon paper coated with wax and containing no oxidizable or fatty substances.”
Circulars or advertisements relating to the prevention or treatment of venereal disease must be addressed to physicians or pharmacists.
Import licensing information is contained in the Irish Customs and Excise Tariff, which may be obtained from the Secretary, Revenue Commissioners, Dublin Castle, Dublin 2 and from the Government Publications Sales Office, GPO Arcade, Dublin 1.
Importation of tea is subject to certain customs regulations.
Many other goods, including certain fruit, vegetables and other foodstuffs, plants and seeds, and certain pharmaceutical products are subject to special regulations.
Margarine, skimmed milk, and other diluted or adulterated foodstuffs must be suitably labeled.
Oiled or varnished cloth or similar articles must be accompanied by a certificate as follows: “The olicloth or similar articles in this parcel have been stored at a temperature of 140°F until completely dried, and then cured for at least a month before packing.” Only in Priority Mail International parcels.
The following goods are subject to quota restrictions and require an import license: boots and shoes, brushes, electric lamp bulbs, screws, tapered thread; felt hats and caps for women and girls; brushes and mops; wheaten flour and any commodity or product of wheat; rubber proofed wearing apparel; sparking plugs and component parts; silk and artificial silk hose; and certain woven fabrics.

Observations

1. A parcel may be addressed to a street address or to a post office box. A local telephone number for the addressee should be provided when the item is addressed to a street address and must be provided when the item is addressed to a post office box.
2. For Priority Mail International parcels, an invoice, in duplicate, is required for all commercial shipments regardless of value and all personal shipments valued at $300 or more. The invoices must be affixed to the outside of the parcel or may be enclosed in PS Form 2976-E with the customs declaration.
3. The names of the counties in Ireland are as follows: Carlow, Cavan, Clare, Cork, Donegal, Dublin, Galway, Kerry, Kildare, Kilkenny, Leitrim, Laois, Limerick, Longford, Louth, Mayo, Meath, Monaghan, Offaly, Roscommon, Sligo, Tipperary, Waterford, Westmeath, Wexford, and Wicklow.
4. The names of the county and the delivery office must form a part of the address of all mail articles.
5. In the case of articles liable to customs duty that are eligible for preference, the preferential tariff will not be applied unless the customs declaration is inscribed in bold characters: “Preference claimed — Certificate of origin enclosed.” Otherwise, the full customs duties will be applied to the articles.
6. The same applies to goods imported under permit, unless the declaration is clearly marked “Imported under license,” and unless the relative license is produced at the time of customs examination. In such cases the license should be produced before the goods are imported.
7. As of July 1, 2021, the value-added tax (VAT) exemption is abolished on all imported goods. For more information regarding the European Union’s VAT rules, visit https://ec.europa.eu/taxation_customs/business/vat/e-commerce_en.
8. A harmonized code (i.e., a code for the Integrated Tariff of the European Communities, also known as a “TARIC code”) is required for all goods destined to Ireland. The Irish customs authority has a tiered classification system. Some items require a 10-digit TARIC code while other items may be described using the 8-digit or 6-digit TARIC code. Items that require a 10-digit TARIC code may be returned by Irish customs, at the mailer’s expense, if the mailer provides only the first six or eight digits. Therefore, USPS recommends that mailers provide the 10-digit TARIC code for all goods destined to Ireland. More information can be found at https://www.anpost.com/Commerce/SME/InternationalSending/Find-a-TARIC-Commodity-code.
9. Ireland requests that, for all items containing goods, the customs declaration form include the following information, if available:
a. Country of origin for each article in the item.
b. Economic Operator Registration Identification (EORI), if such a number has been assigned.

Observations
1. As of March 1, 2019, import taxes (determined by the customs authority of Mexico) apply to goods with a declared value exceeding U.S. $50, and Correos de México requests that a commercial invoice accompany such goods.
2. To speed delivery of items subject to customs duty, commercial shipments must contain two copies of the commercial invoice, inserted inside the package.
3. An import permit or license is required for merchandise exceeding U.S. $1,000. Merchandise valued less than U.S. $1,000 does not require an import permit.
4. Importers of food supplements must obtain a license in the form of a health certificate issued by the government of Mexico. Therefore, Correos de México advises that a mailer not dispatch food supplements without assurance that the importer possesses or is able to obtain the necessary license.

Merchandise for the addressee’s personal use, not for his or her business or professional use or for sale or trade, and not exceeding 20 New Zealand dollars in value.
Used clothing and used bedding must be for personal use of persons in New Zealand, or with permission of the New Zealand Minister of Customs. Worn out clothing not for personal use must be clean and disinfected, or it will be done at the addressee’s expense.

Observations
1. Each commercial shipment must be covered by a commercial invoice showing the current domestic price of the goods (that is, what the price would be if sold in the United States) and the selling price to the purchaser in New Zealand. The invoice must include a certificate as to the value of the goods, prepared in prescribed form, and signed by the shipper. Printed blanks for the invoice and certificate can be purchased from printing firms specializing in such supplies.
2. The completed invoice must be sent to the addressee by First-Class Mail International. It is desirable to send one copy by air and another by ordinary means.
3. Goods purchased online from the United States with an individual value not exceeding 1,000 New Zealand Dollars (NZD) may have the Goods and Services Tax (GST) collected by the seller at the point of sale. To avoid double taxation, New Zealand Post recommends that a U.S. mailer include a copy of the receipt or commercial invoice showing the GST number and the amount of GST paid. New Zealand Customs Service (NZCS) will use the documentation to assess tax liability at the border. When no proof of payment of GST is available, NZCS may charge the GST to the addressee before completing importation.

Country Conditions for Mailing

All items containing goods must include the corresponding 6-digit harmonized system code for each article listed on the customs declaration form. For more information, see 537 and the Observations section below.

Prohibitions (130)
Firing caps, loaded metal cartridges for portable firearms, non-explosive elements of artillery fuses and matches.
Pharmaceutical products of any kind, whether of synthetic extraction or classified as naturopathic preparations. Radioactive materials. Substances considered explosive; inflammable or dangerous.

Restrictions
Cosmetics (perfumes, cosmetics, and sanitary products containing alcohol) must be approved by the Technical Alcohol committee.
Importation of radio and telecommunications equipment (equipment like radio remote controls or other wireless systems including walkie-talkies, remote controls, and wireless telephones) is prohibited without the authorization of the Norwegian Telecommunication Regulatory Authority, Oslo. Ordinary TV and radio receivers are exempt from the regulation. Any imported dutiable equipment must be reported to the Norwegian Broadcasting Corporation by the importer.
Medicaments and other products used for medical treatment require authorization by the Ministry of Health. Serum, vaccines, and other bacteriological and serological preparations may be imported by labs and institutes approved by the Norwegian State.

Norwegian bank notes and coins and Norwegian and foreign securities of all kinds require authorization of the national Bank of Norway. Bills for exchange and bank drafts in payment of goods exported from Norway may be imported without prior authorization.

Products of animal origin intended for consumption/use by humans or pet animals are subject to authorization by the Veterinary Department of the Ministry of Agriculture in addition to customs clearance permission. Exception is made for some products. A list can be obtained from the Ministry of Agriculture in Norway.
The importation of firearms, ammunition, and parts of such other military equipment is subject to the authorization of the Norwegian Police.

Observations
1. A commercial invoice in duplicate is required for customs clearance of all commercial items.
2. As of January 1, 2020, Norway applies a value-added tax (VAT) to all goods containing food, goods with import restrictions, and goods that are subject to excise duty, regardless of value. (Previously, Norway exempted these low-value goods from a VAT.) Goods containing food include, but are not limited to, candy, food supplements, health food, protein powders, soft drinks, spices, and teas. For additional information and guidance, see the following two websites: www.skatteaten.no/en/person/duties/purchases-from-abroad, and www.skatteaten.no/en/business-and-organisation/vat-and-duties/vat/foreign/exporting-goods-to-consumers-in-norway--important-changes.
3. As of April 1, 2020, Norway discontinued the 350 Norwegian krone (NOK) exemption from value-added tax (VAT) and excise duties for goods. A supplier offering low-value goods (not exceeding 3,000 NOK) must register for VAT in Norway and collect VAT on the sale of goods to consumers. To facilitate the reporting and payment of VAT, a supplier can use the VAT on e-commerce (VOEC) Web site — to obtain guidelines and register for a VOEC number, visit www.skatteaten.no/voec. Items that do not comply with VOEC requirements are subject to taxation at the border, and the addressee will incur a customs clearance fee, which might delay delivery. To ensure prompt and efficient customs clearance and avoid potential risk of double-taxation, Posten Norge AS (the designated operator of Norway) suggests including the 7-digit VOEC registration number on the customs form proceeded with “sender’s customs reference No.” or “VOEC No.”

4. Norway requests that, for all items containing goods, the customs declaration form include the following information, if available:
   a. Country of origin for each article in the item.
   b. Economic Operator Registration Identification (EORI), if such a number has been assigned.
   c. Telephone number (preferably mobile) and email address for both the sender and the addressee.

- Chain letter items.
- Publications, drawings, photographs, records, sheets of music, etc., contrary to the State public order.
- Perishable infectious substances.
- Perishable noninfectious substances.

**Restrictions**

- Coins; paper money; securities and other paper values of any kind; as well as savings-bank booklets; and unmanufactured gold, silver, and platinum may be imported only by authorization of the State Bank.
- Gift shipments must be sent by private individuals. Those sent by commercial firms are not admitted.
- Import permits are required for gift shipments exceeding three per year for one addressee, or for any parcel exceeding 3,000 Slovak Republic crowns in value. Permits may be issued to addressees or withheld at the discretion of the customs authorities after the shipment arrives.
- Medicines are admitted provided the addressee is in possession of an import permit granted by the Slovak Republic health authorities.
- Philatelic articles and stamps exchanged between member philatelists must not exceed 1,000 Slovak Republic crowns in any calendar year. Gift packages containing philatelic articles are restricted to 3 per year and the shipment cannot exceed a total of 100 stamps or philatelic articles and 100 Slovak Republic crowns in value.

5. As of July 1, 2021, the value-added tax (VAT) exemption is abolished on all imported goods. Country Conditions for Mailing

The Office of Foreign Assets Control (OFAC) of the U.S. Department of the Treasury and the Bureau of Industry and Security (BIS) of the U.S. Department of Commerce administer sanctions that restrict the mailing of items to certain destinations and recipients, including a broad embargo on items to and from the Crimea, Donetsk, and Luhansk regions of Ukraine (and any other regions of Ukraine designated by the Secretary of the Treasury as “covered regions” under Executive Order 14065). Many shipments to embargoed regions of Ukraine also require the filing of information with the U.S. Census Bureau. Before mailing any items to Ukraine, mailers are responsible for consulting OFAC and BIS regulations and websites to determine whether the addressee is in an embargoed region and what restrictions apply. For additional information, see IMM 510 520, and 590 and Publication 699, Special Requirements for Shipping Internationally.

Ukraine

Radios and mobile telephones for personal use may be sent to Ukraine, provided that the addressee has obtained prior authorization from the Ukrainian State Center of Radio Frequencies and Telecommunications Supervision. The Center is responsible for assigning radio frequencies and registering official authorization for the design, manufacture, and use of radio-electronic equipment. Customers who require additional information about the mailing of radio-electronic equipment to Ukraine should send their inquiries directly to the Center’s headquarters in Kyiv. The applicable fax number is 011-38-044-450-2765.

Prescription medicines for personal use may be sent to Ukraine in quantities that are necessary for a complete course of treatment, provided that the addressee has obtained prior authorization from the Ukrainian Ministry of Health.

Funeral urns admitted for import are authorized only upon presentation of the following documentation to Customs authorities: A death certificate or any other document confirming death, issued by a competent body; or a certificate declaring that the urn does not contain other articles that may not be imported into Ukraine.

Used goods (e.g., clothes, footwear) that are unclean or that are not accompanied by supporting documents certifying that they have been fumigated cannot be sent via Priority Mail Express International service.

A shipment that exceeds this limit is subject to customs duty and other taxes according to the customs and tax legislation of Ukraine.

2. On each item with Registered Mail service and on the customs form on each parcel sent to Ukraine, display the addressee’s mobile telephone number. Ukropsha provides an SMS notification regarding the arrival of these items.

3. To ensure prompt processing and timely delivery, address each item to Ukraine with the correct 5-digit postcode, preferably below the locality name or region name of the delivery address. Postcodes are available at http://services.ukropsha.com/postindex_new/upload/houses_en.csv.

5. Firearms that are intended for sporting purposes are admissible to the United Kingdom, provided the prospective addressee has obtained the required import license.

6. The United Kingdom limits the weight of M-bags to 20 kg (44 lbs.).

7. As of November 5, 2018, Parcelforce Worldwide, part of Royal Mail Group Ltd., charges a single-import customs clearance fee of 12 pounds sterling (GBP) for all low-value parcels subject to customs charges that it delivers — 873 GBP. Parcelforce Worldwide charges a flat fee of 25 GBP for high-value goods of more than 873 GBP.
8. Effective January 1, 2021, for all goods sent to the UK not exceeding £135 in value, the UK will not accept for importation an item that has not had the value-added tax (VAT) collected at the time of sale, before importation. For international postal items containing goods exceeding £135 in value, the UK will continue to collect the VAT at the UK border at the time of import. Online marketplaces that facilitate the sale of goods will be responsible for collecting and accounting for the VAT. For goods sent from overseas and sold directly to UK consumers, the overseas seller will be required to register and account for the VAT to HM Revenue and Customs. These changes will not apply to consignments containing excise goods or to noncommercial transactions between private individuals (known as Consumer-to-Consumer or C2C). Further guidance is available at www.gov.uk/eori and at www.gov.uk/vat-registration.
