Coins; banknotes; currency notes (paper money); securities payable to bearer; platinum, gold or silver, manufactured or not.

Infectious materials.

Perishable biological substances.

Radioactive materials.

Restrictions

Traveler's checks, precious stones, jewelry, and other valuable articles are admitted only in First-Class Package International Service with Registered Mail service shipments.

Observations

1. First-Class Mail International and First-Class Package International Service shipments may not contain dutiable articles.
2. Afghan Post (the designated postal operator of Afghanistan) requests that the mailer include the new 6-digit postcode on each item addressed to Afghanistan. The 6-digit postcode is an extension to Afghanistan's current postcode, developed to individually identify each delivery zone within Afghanistan as follows: the first two digits of the postcode represent the province, the next two digits represent the city or rural district, and the last two digits represent the postal delivery zone. More information regarding the new postcode, including a search tool feature under Postal Codes, is available at afghanpost.gov.af. (To read the Web site in English, click on "English" in the bar at the top or the bottom of the page.)
3. Afghan Post requests that the mailer include both the addressee's telephone number (preferably mobile) and email address, if available, on the customs declaration form. Providing the addressee's mobile phone number on the customs declaration form will facilitate customs clearance of items containing goods upon arrival, enabling rapid delivery and improving quality of service in Afghanistan.

These invoices must include a declaration signed by the seller or his representative reading: "I declare under oath that all the information given in this invoice is true and the prices indicated are those that actually have been paid (or will have to be paid). Restrictions

Airsoft (BB) guns that do not have the appearance of fully automatic firearms require prior approval granted by relevant police representatives. The addressee must submit an application to import the item via the police certification test.

Drugs, medicines, and therapeutic substances such as antibiotics, growth hormones, kava, psychoactive substances, and steroids require an import permit from the Australian Department of Health, Office of Drug Control.

Fish or parts of fish, including all species of bony fish, sharks, rays, crustaceans, mollusks, and other marine organisms (but not including marine mammals, marine reptiles, or toothfish), whether fresh, frozen, smoked, or preserved in airtight containers, require an import permit from the Australian Fisheries Management Authority (AFMA).

Jewelry is permitted only when sent as an insured parcel using Priority Mail International service. In addition, Australian Customs regulations prohibit importation of jewelry that is made with ivory or from endangered species, such as snake, elephant, or crocodile, that does not have an accompanying

Import/Export Permit in relation to the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES).

Knives (such as daggers and throwing knives), throwing blades, or throwing axes require written Police Certification (B709B form or B709X form) from the Australian Police Firearms Registry.

The Australian customs and border authority requires that the phytosanitary certificate must include the following additional declaration: "Representative samples were inspected and found free from evidence of any species of Trogoderma (whether live, dead, or exuviae) in Australia's list of Trogoderma species of biosecurity concern." This requirement applies to items arriving via all mail classes, including EMS. For additional information, see Australia's Biosecurity Import Conditions system at <https://www.agriculture.gov.au/biosecurity-trade/import/online-services/bicon> and <https://www.agriculture.gov.au/biosecurity-trade/pests-diseases-weeds/plant/khapra-beetle/urgent-actions>.

Restrictions

A filtering facepiece (FFP) mask conforming to the EN 149 standard for class FFP2 is defined as personal protective equipment (PPE) and is subject to import restrictions as outlined in Regulation (EU) 2016/425. This same regulation is applicable to any other filtering FFP mask that conforms to similar standards and is intended for use as PPE (e.g., KN95, N95, GB 2626-2006, KP95, DS2, DL2, BIS P2, etc.). Consequently, a mailing that includes such a mask must meet the following criteria:

1. Each FFP mask must include the CE marking followed by the identification number of the notified body responsible for quality assurance.
2. Each FFP mask must be accompanied by user instructions in German.
3. Each mailpiece must include a copy of the manufacturer's EU declaration of conformity in German affixed to the outside of the item — alternatively, the mailer may affix the Internet address at which the document is accessible. The declaration of conformity must include the information outlined in Regulation (EU) 2016/425, Annex IX.

For additional information, visit the following website (available only in German): <https://www.bmdw.gv.at/Themen/International/covid-19/FAQ-corona-massnahmen/Import-von-PSA-waehrend-Covid.html>. Austrian Customs will consider postal items containing noncompliant masks as wrongly admitted and will return them to the sender.

Articles made of precious metals (gold, silver or platinum) must be of the fineness required by the Austrian regulations.

Austrian coins, gold coins require permission of the Austrian National Bank.

Cigars may be imported only by a business that holds a permit issued by the Austrian government.

Meat and animal products; plants and parts of plants; fruit, onion and flower bulbs; and other root plants must be accompanied by a certificate of origin and plant-health certificate. Shipments containing processed meat products (salami, tinned meats, etc.) up to a weight of 3 kg (6 lbs., 9 oz.) when sent to private persons are exempt from this requirement.

Medicines intended for personal use are permitted only under an import license.

The invoices must be affixed to the outside of the parcel or may be enclosed in PS Form 2976-E with the customs declaration.
3. As of July 1, 2021, the value-added tax (VAT) exemption is abolished on all imported goods, with the exception noted in entry 4 below. For more information regarding the European Union's VAT rules, visit https://ec.europa.eu/taxation_customs/business/vat/vat-e-commerce_en.
4. Gift shipments valued at less than 45 EUR sent from a consumer to a consumer (C2C) and marked "Geschenksendung" or "Gift" are exempt from taxes and duties.
5. Austria requests that, for all items containing goods, the customs declaration form include the following information, if available:
 - a. Country of origin for each article in the item.
 - b. Economic Operator Registration Identification (EORI), if such a number has been assigned.

 - The sender's telephone number.
 - Both the addressee's telephone number and email address.
- An item containing goods with missing or inaccurate customs declaration information arriving in Belarus must be manually processed for customs clearance or held until the information is clarified with the addressee. If the addressee cannot be reached or is unable to provide complete and accurate information, the customs authority in Belarus may deem the item inadmissible and return it to the sender.
- The mailer must attach all necessary or relevant documentation, including invoices, export/import licenses, certificates of origin, health certificates, etc., to the inside or outside of the item to expedite customs clearance of goods mailed to Belarus.

Commercial shipments containing any form of tobacco, including electronic or vapor cigarettes that contain nicotine.

Human remains.

Live plants and animals.

Restrictions

Plastic wrap of any kind regardless of its chemical composition, including biodegradable or compostable materials, is not allowed on mailed items containing free press, free magazines, commercial mailings, and catalogues addressed to postcodes in the Walloon Region (postcodes 1300–1499 and 4000–7999). To comply with the new environmental legislation in the Walloon Region, bpost (the designated postal operator of Belgium) recommends that the sender use paper to wrap such items mailed to these areas. Plastic wrap is permitted for merchandise, newspapers, and magazines subject to paid subscriptions to all addresses. Window envelopes are still permitted, provided that plastic is not the main component of the wrapping. Parcels are not affected by this restriction.

Observations

2. For Priority Mail International parcels, an invoice, in duplicate, is required for all commercial shipments regardless of value and all personal shipments valued at \$300 or more. The invoices must be affixed to the outside of the parcel or may be enclosed in PS Form 2976-E with the customs declaration.
3. Import permits or licenses are required for many types of goods; therefore, the sender should ascertain from the addressee before mailing whether the necessary documents are held.
4. Gift shipments for private individuals for their personal use are exempt from the license requirement provided the value of the shipment does not exceed 74 EUR.
5. As of July 1, 2021, the value-added tax (VAT) exemption is abolished on all imported goods. For more information regarding the European Union's VAT rules, visit https://ec.europa.eu/taxation_customs/business/vat/vat-e-commerce_en.

6. Belgium requests that, for all items containing goods, the customs declaration form include the following information, if available:
 - a. Country of origin for each article in the item.
 - b. Economic Operator Registration Identification (EORI), if such a number has been assigned.
 - c. Telephone number (preferably mobile) and email address for the addressee.

Postal packages containing medicaments and not satisfying the above-mentioned conditions will be returned to the senders or, if abandoned, treated as undeliverable items.

Postage stamps are admitted only in First-Class Package International Service with Registered Mail service shipments.

Saccharine and other artificial sweeteners for artificial beverages require permission from the Brazilian Department of Public Health for importation.

Observations

1. Empresa Brasileira de Correios e Telégrafos (ECT) is introducing a "Fee for Postal Dispatch" with a current value of 15 Brazilian reais (BRL) for items presented to customs. If the addressee has not properly paid this fee, ECT will return the item to the sender.
2. Import licenses are required for many kinds of goods. ECT recommends that the sender ascertain from the addressee before mailing that the addressee holds the necessary documents. A shipment that does not have a required import permit is subject to confiscation as contraband.
3. The mailer must affix all necessary or relevant documents including invoices, export/import licenses, certificates of origin, health certificates, etc., to the outside of the item.
4. Imports are allowed by mail, including mail order catalog shipments, up to a value of U.S. \$500 (U.S. \$1,000 for computer software) without the requirement of an import license provided the item is not for resale. Shipments valued

at no more than U.S. \$50 are duty-free and are delivered to the addressee; shipments above U.S. \$50 can be picked up at the post office upon payment of import duties. Imports that are prohibited or subject to special regulations must comply with applicable Brazilian government provisions. Identical shipments from the same source to the same person or address in Brazil within a 90-day period are considered part of the same shipment and may be subject to confiscation. Other merchandise that usually enters duty-free includes items such as newspapers, maps, books, and magazines.

5. The mailer must fully and accurately complete the customs declaration form, including providing the addressee's landline or mobile phone number and email address, if available, and detailed information concerning the contents and value of the item, such as branded product description, model, serial number, and value of each individual article. ECT immediately returns to the sender an item that does not have a properly completed customs declaration.
6. The importer tax identification (ID) number is required for all items containing goods. In Brazil, the importer tax ID number is known as "CPF" (format: 000.000.000-00) for natural persons and as "CNPJ" (format: 00.000.000/0000-00) for legal persons. This information must be provided either by the mailer in the importer reference field of the customs declaration form or on the commercial invoice, or by the importer through the Correios website at <https://www2.correios.com.br/sistemas/rastreamento>.
7. Shipments that do not indicate the applicable postage and fees on PS Form 2976-A will hinder the customs clearance process, causing delays to clear the items.
8. Used consumer goods may only be sent to charitable organizations that are recognized by the Brazilian government as being entities which serve the public interest.
