Germany

Country Conditions for Mailing

All items containing goods must include the corresponding 6-digit harmonized system code for each article listed on the customs declaration form. For more information, see 537 and the Observations section below.

Prohibitions (130)

Absinthe.
 Arms and weapons, including firearms, parts of arms, ammunition, and imitation arms.
 Articles bearing political or religious notations on the address side.
 Human remains.
 Lithium cells and batteries — including items containing lithium cells and batteries under 135.6.
 Live plants and animals.
 Melatonin.
 Perishable infectious biological substances.
 Playing cards, except in complete decks properly wrapped.
 Pulverized coca beans.
 Radioactive materials.

Restrictions

Importation of medicines requires special authorization by German authorities.
 Import licenses or certificates are required for meat and meat products; pasta products; dairy products; egg and egg products; plant and plant products; tobacco products; and cigarette paper. Senders should ascertain before mailing whether the necessary documents are held by the addressee.
 Plants and seeds that originate outside the European Union are prohibited unless accompanied by a phytosanitary certificate issued by the country of origin.

Observations

- Any mail requiring a customs form must be addressed to the recipient's physical residential or business address and may not be addressed directly to a parcel locker (DHL Packstation), a service point (postal outlet or DHL Paketshop), or a post office box (Postfach). Otherwise, the German customs authority may reject the mail for return to the sender. Deutsche Post, the designated operator of Germany, also requests that such mail include a local telephone number for the addressee.
- For Priority Mail International parcels, an invoice, in duplicate, is required for all commercial shipments regardless of value and all personal shipments valued at \$300 or more. The invoices must be affixed to the outside of the parcel or may be enclosed in PS Form 2976-E with the customs declaration.
- Mailpieces delivered through international bulk mail services must be addressed with the correct postcode number or delivery zone number, if one exists. Without this number, the German postal administration will return such pieces to the sender or the country of origin due to insufficient addressing.
- The customs treatment of gift parcels will be facilitated if the customs declaration is marked by the sender "Private Geschenksendung" (personal gift package).
- Germany will not accept any Priority Mail Express International or Priority Mail International insured item valued at more than \$500. Items valued at more than \$500 will be returned to sender.
- As of July 1, 2021, the value-added tax (VAT) exemption is abolished on all imported goods, with the exceptions noted in number 7 below. For more information regarding the European Union's VAT rules, visit https://ec.europa.eu/taxation_customs/business/vat/vat-e-commerce_en.

- As of January 31, 2022, an item containing goods is exempt from import taxes and duties — with the exceptions noted in entry number 8 below — provided that the item meets all of the following conditions:
 - The mailer sends the item occasionally.
 - The item is declared as a "gift."
 - The total value of the item is less than 45 EUR.
 - The item does not involve a commercial transaction.
 - The item does not require payment.
 - The mailer sends the item as a consumer to consumer (C2C) shipment.
 - The item is intended for personal use or consumption by the recipient.
- As of January 31, 2022, import taxes and duties apply to the following:
 - An item associated with a swap deal, such as one conducted online or at a swap meet.
 - An item associated with a transaction between private persons conducted via an online auction platform.
 - An item sent either from or to a business — business to business (B2B), business to consumer (B2C), or consumer to business (C2B) — even when declared as a gift.
- Germany requests that, for all items containing goods, the customs declaration form include the following information, if available:
 - Country of origin for each article in the item.
 - Economic Operator Registration Identification (EORI), if such a number has been assigned).
