Mailers must certify that the shipment does not contain any restricted or dangerous goods prohibited by the destination country or postal regulations and does not require the filing of Electronic Export Information (EEI), formerly known as the Shipper's Export Declaration (SED). The maximum value of a Global Express Guaranteed document or non-document shipment is \$2,499 or a lesser amount as limited by country, content, or value. ### 212.2 Customs Forms Required

PS Form 6182, *Commercial Invoice*, is required for certain commodities and destinations. To determine if PS Form 6182 is required for a specific mailing, refer to the "Documentation Requirement" section of the specific destination country in Publication 141.

### 212.3 Mail Sealed Against Inspection

## 240 First-Class Mail International

---

### 241 **Description and Physical Characteristics**

#### 241.1 **General**

The First-Class Mail International classification encompasses the categories of international mail that before May 14, 2007, were categorized as airmail letter-post and economy letter-post, postcards, and printed matter.

#### 241.2 **Physical Characteristics**

##### 241.21 **Physical Standards – Letters**

###### 241.211 **Weight Limit**

The weight limit for a letter-size First-Class Mail International mailpiece is 3.5 ounces. Letter-size items exceeding 3.5 ounces are charged the First-Class Mail International flat-size price.

###### 241.212 **Dimensions**

Letter-size mail must be rectangular and must meet the following dimensions:

- a. Not less than 5-1/2 inches long or 3-1/2 inches high or 0.007-inch thick.
- b. Not more than 11-1/2 inches long or 6-1/8 inches high or 1/4-inch thick.

**Note:** For the purpose of determining mailability or machinability of a letter-sized piece, the length is the dimension parallel to the delivery address as read, and the height is the dimension perpendicular to the length.

###### 241.213 **Color**

Light-colored envelopes that do not interfere with the reading of the address and postmark must be used. Brilliant colored envelopes are not authorized.

###### 241.214 **Quality**

Envelopes and packaging materials must be constructed to be strong enough to withstand normal handling. Highly glazed paper or paper with a design that affects readability or processing is not acceptable.

###### 241.215 **Bordered Envelopes and Cards**

Envelopes and cards that have green bars or red- and blue-striped borders may be used for the sending of First-Class Mail International items.

###### 241.216 **Window Envelopes**

Address windows for letter-size envelopes must be used under the following conditions:

- a. The address window must be parallel with the length of the envelope and must be in the lower portion of the address side.
- b. Nothing but the name, address, and any key number used by the mailer may appear through the address window.

- c. The return address should appear in the upper-left corner. If there is no return address and the delivery address does not show through the window, the piece is handled as undeliverable mail.
- d. The address disclosed through the window must be on white paper or paper of a very light color.
- e. When used for Registered Mail, window envelopes must conform to the conditions in DMM 503.
- f. All window envelopes for international mail must include a transparent material covering the window opening — i.e., open-panel envelopes are not acceptable.

241.217 **Nonmachinable Surcharge**

Regardless of a letter's weight, a per-piece surcharge (see [Notice 123](#), *Price List*) applies to a First-Class Mail International letter that is nonmachinable for any of the following reasons:

- a. Has an aspect ratio (length divided by height) of less than 1.3 or more than 2.5.
- b. Is polybagged, polywrapped, or enclosed in any plastic material.
- c. Has clasps, strings, buttons, or similar closure devices.
- d. Contains correspondence or nondutiable documents that cause the thickness of the mailpiece to be uneven.
- e. Is too rigid (does not bend easily when subjected to a transport belt tension of 40 pounds around an 11-inch diameter turn).
- f. Is more than 4-1/4 inches high or 6 inches long and less than 0.009 inch thick.
- g. Has a delivery address parallel to the shorter dimension of the mailpiece.

241.22 **Physical Standards — Cards**

241.221 **Postcard Dimensions**

Each postcard claimed at a card price must be rectangular and must meet the following dimensions:

- a. Not less than 3-1/2 inches high or 5-1/2 inches long or 0.007 inch thick.
- b. Not more than 4-1/4 inches high or 6 inches long or 0.016 inch thick.

**Note:** Unenclosed cards exceeding the size limits for postcards are mailable at the First-Class Mail International letter price if they do not exceed 4-3/4 inches high or 9-1/4 inches long.

241.222 **Color**

Light-colored cards that do not interfere with the reading of the address and postmark must be used. Brilliant colored cards are not authorized.

241.223 **Quality**

Cards must be constructed to be strong enough to withstand normal handling. Highly glazed card stock or card stock with a design that affects readability or processing is not acceptable.

**241.224 Additional Standards**

To claim the card price, postcards must meet the following conditions:

- a. Postcards must consist of single cards sent without a wrapper or envelope.
- b. Privately manufactured postcards, except picture postcards, must bear the heading "Postcard."

**241.225 Right Half of Postcard**

The right half of the address side of a card must be reserved for the address of the addressee and postal notations or labels.

**241.226 Left Half and Reverse Side of Postcard**

The left half of the address side of the card and the reverse side can be used for a message or permissible attachments. If a return address is used, it must appear in the upper-left half of the address side.

**241.227 Acceptable Attachments**

The following attachments may be applied to a postcard as noted, provided the attachment is made of paper or other thin material and adheres completely to the card:

- a. To the left half or the back side of the card: clippings of any kind, illustrations or photographs, or labels other than address labels.
- b. Only to the back side of the card: stamps likely to be confused with postage stamps.
- c. Only to the address side of the card for addressing purposes: address labels.

**241.228 Unacceptable Attachments**

The following attachments to a card are not acceptable:

- a. An attachment that is not made of paper.
- b. An attachment that does not totally adhere to the card surface.
- c. An attachment that is an encumbrance to postal processing.

**241.229 Folded (Double) Cards**

Folded (double) cards must be mailed in envelopes at the First-Class Mail International letter price.

**241.23 Physical Standards — Large Envelopes (Flats)****241.231 Weight Limit**

The weight limit for a First-Class Mail International large envelope (flat) is less than 16 ounces (the actual weight limit is 15.994 ounces, to accommodate Postal Service systems that round to three decimal places and thus round items that weigh 15.995–15.999 ounces up to 16 ounces).

**241.232 Dimensions and Characteristics**

Large envelopes (flats) must meet the following dimensions and characteristics:

- a. More than 11-1/2 inches long or 6-1/8 inches high or 1/4-inch thick.
- b. Not more than 15 inches long or 12 inches high or 3/4-inch thick.
- c. Flexible (see [241.236](#)).

- d. Rectangular.
- e. Uniformly thick as stated in [241.235](#).

**Note:** The length of a large envelope (flat) is the longest dimension. The height is the dimension perpendicular to the length. A First-Class Mail International large envelope (flat) that does not meet the standards in [241.23](#) is not eligible for the large envelope (flat) size price and is charged the applicable First-Class Package International Service (small packet) price.

241.233 **Color**

Light-colored envelopes that do not interfere with the reading of the address and postmark must be used. Brilliant colored envelopes are not authorized.

241.234 **Quality**

Flats must be constructed to be strong enough to withstand normal handling. Highly glazed paper or paper with a design that affects readability or processing is not acceptable.

241.235 **Uniform Thickness**

Large envelopes (flats) must be uniformly thick so that any bumps, protrusions, or other irregularities do not cause more than a 1/4-inch variance in thickness. When determining variance in thickness, exclude the outside edges of a mailpiece (1 inch from each edge) when the contents do not extend into those edges. Also, exclude the selvage of any polywrap covering from this determination. Mailers must secure nonpaper contents to prevent shifting of more than 2 inches within the mailpiece if shifting would cause the piece to be nonuniform in thickness or would result in the contents bursting out of the mailpiece.

241.236 **Minimum Flexibility**

Large envelopes (flats) must be flexible. Boxes with or without hinges, gaps, or breaks that allow the piece to bend are not considered large envelopes (flats). Tight envelopes or wrappers that are filled with one or more boxes are not considered large envelopes (flats). Customers have the option to perform the tests described below and illustrated in [Exhibit 241.236a–Exhibit 241.236c](#) on their own mailpieces. When a Postal Service employee observes a customer demonstrating that a flat-size piece is flexible according to these standards, the employee does not need to perform the test. Test flats as follows:

- a. All large envelopes (flats) (see [Exhibit 241.236a](#)):
  - (1) Place the piece with the length parallel to the edge of a flat surface and extend the piece halfway off the surface.
  - (2) Press down on the piece at a point 1 inch from the outer edge, in the center of the piece's length, exerting steady pressure.
  - (3) The piece is not flexible if it cannot bend at least 1 inch vertically without being damaged.
  - (4) The piece is flexible if it can bend at least 1 inch vertically without being damaged and does not contain a rigid insert. No further testing is necessary.

- (5) If the piece can bend at least 1 inch vertically without being damaged but contains a rigid insert, test the piece according to [241.236b](#) or [241.236c](#).

Exhibit 241.236a  
**Flexibility Test — All Large Envelopes (Flats)**

- b. Large envelopes 10 inches or longer that demonstrate the required flexibility in 241.236a but that contain a rigid insert (see [Exhibit 241.236b](#)):
  - (1) Place the piece with the length perpendicular to the edge of a flat surface and extend the piece 5 inches off the surface.
  - (2) Press down on the piece at a point 1 inch from the outer edge, in the center of the piece’s width, exerting steady pressure.
  - (3) Turn the piece around and repeat steps 1 and 2. The piece is flexible if both ends can bend at least 2 inches vertically without being damaged.

## Exhibit 241.236b

**Flexibility Test – Large Envelopes (Flats) 10 Inches or Longer**

- c. Large envelopes less than 10 inches long that demonstrate the required flexibility in 241.236a but that contain a rigid insert (see [Exhibit 241.236c](#)):
- (1) Place the piece with the length perpendicular to the edge of a flat surface and extend the piece halfway off the surface.
  - (2) Press down on the piece at a point 1 inch from the outer edge, in the center of the piece's width, exerting steady pressure.
  - (3) Turn the piece around and repeat steps 1 and 2. The piece is flexible if both ends can bend at least 1 inch vertically without being damaged.

**Flexibility Test – Large Envelopes (Flats) Less Than 10 Inches Long**

Unregistered First-Class Mail International items may be sealed at the sender's option. Mailpieces not sealed by conventional means, such as moistening the gummed flaps on envelopes, must be closed in such a manner as to prevent the contents from falling out or being damaged during postal handling and transport. First-Class Mail International items that use Registered Mail service must be sealed. (See [334.4](#) for sealing requirements for Registered Mail service.)

---

### 261 Description

#### 261.1 General

M-bags are defined as direct sacks of printed matter (see [261.22](#)) sent to a single foreign addressee at a single address. There are three types of M-bags: Airmail M-bags, International Priority Airmail (IPA) M-bags, and International Surface Air Lift (ISAL) M-bags. All M-bags are subject to the following conditions of mailing:

- a. Maximum weight of a sack: 66 pounds (including the tare weight of the sack). Lower maximum weights apply to certain countries. See the Individual Country Listings.
- b. Availability: All destinations that are referenced in the Individual Country Listings for Airmail M-bags, in [Exhibit 292.45](#) for IPA M-bags, and in [Exhibit 293.45](#) for ISAL M-bags.
- c. Identification: PS Tag 158, *M-bag Addressee Tag*, must be completed and attached to the neck of the sack.
- d. Postage: The applicable postage for Airmail M-bags, International Priority Airmail (IPA), and International Surface Air Lift (ISAL) must be affixed to PS Tag 158.
- e. Extra services: Certificate of mailing is available. Registry and insurance are not available.

#### 261.2 Eligibility

##### 261.21 Printed Matter

Printed matter is admissible in M-bags. Articles that meet the definition of “printed matter” include newspapers, magazines, journals, books, sheet music, catalogs, directories, commercial advertising, and promotional matter. “Printed matter” is defined as follows:

- b. Papers that do not have the character of a bill or statement of account.
- c. Papers that do not have the character of current and personal correspondence.

##### 261.22 Other Articles

Certain other articles may be enclosed in M-bags, provided that all of the following conditions of mailing are met:

- a. The articles being sent are limited to discs, tapes, and cassettes; commercial samples shipped by manufacturers and distributors; or other non-dutiable commercial articles or informational materials that are not subject to resale.
- b. The articles are related to the printed matter (see [261.21](#)) with which they are being mailed.
- c. The articles are affixed to or are otherwise combined with the accompanying printed matter.

- d. For Airmail M-bags, the combined weight of each printed matter mailpiece and the related articles may not exceed 4 pounds. For IPA and ISAL M-bags, the combined weight of each printed matter mailpiece and the related articles may not exceed 4.4 pounds.
- e. The M-bag must be accompanied by a fully completed electronically generated PS Form 2976, which is to be affixed to PS Tag 158.

#### 261.23 **Mail Not Sealed Against Inspection**

M-bags are not sealed against inspection. Regardless of physical closure, the mailing of an M-bag, including an airmail, IPA, or ISAL M-bag, constitutes consent by the mailer to inspection of the contents.

### 262 **Postage Prices and Fees**

#### 262.1 **Airmail M-bags**

Airmail M-bags may contain any type of allowable printed matter and certain other articles (see [261.22](#)). See the Individual Country Listings for the Price Group and maximum weight limit for each country. Each Airmail M-bag that weighs 11 pounds or less is charged the applicable 11-pound price; a bag that exceeds 11 pounds is charged the applicable 11-pound price and the applicable per-pound price for each additional pound or fraction of a pound over 11 pounds.

#### 262.2 **International Priority Airmail (IPA) M-bags**

IPA M-bags that are entered in conjunction with an IPA mailing (see [292](#)) may contain all types of allowable printed matter and certain other items (see [261.22](#)). See [Notice 123](#), *Price List*, for the postage price that applies to M-bags mailed to each IPA destination country. Each full-service IPA M-bag that weighs 11 pounds or less is charged the applicable 11-pound price; a bag that exceeds 11 pounds is charged the applicable 11-pound price and the applicable per-pound price for each additional pound or fraction of a pound over 11 pounds. Each international service center (ISC) drop shipment IPA M-bag that weighs 5 pounds or less is charged the applicable 5-pound price; a bag that exceeds 5 pounds is charged the applicable 5-pound price and the applicable per-pound price for each additional pound or fraction of a pound over 5 pounds.

#### 262.3 **International Surface Air Lift (ISAL) M-bags**

ISAL M-bags that are entered in conjunction with an ISAL mailing (see [293](#)) may contain all types of allowable printed matter and certain other articles (see [261.22](#)). See [Notice 123](#), *Price List*, for the postage price that applies to M-bags mailed to each ISAL destination country. Each full-service ISAL M-bag that weighs 11 pounds or less is charged the applicable 11-pound price; a bag that exceeds 11 pounds is charged the applicable 11-pound price and the applicable per-pound price for each additional pound or fraction of a pound over 11 pounds. Each international service center (ISC) drop shipment ISAL M-bag that weighs 5 pounds or less is charged the applicable 5-pound price; a bag that exceeds 5 pounds is charged the applicable 5-pound price and the applicable per-pound price for each additional pound or fraction of a pound over 5 pounds.

**262.4 Postage Calculation**

The amount of postage paid by the mailer is determined by the weight of the sack's contents, rounded to the next whole pound. For example, if the total weight of the printed matter in an M-bag is 23.2 pounds, exclusive of the tare weight of the sack, the postage computation is based on a total content weight of 24 pounds.

**262.5 Stamps, Postage Evidencing Systems, PVI Labels, or Permit Imprint**

M-bag postage can be paid by the following means:

- a. By affixing postage stamps, meter stamps, PC Postage, or a postage validation imprinter (PVI) label to PS Tag 158, *M-bag Addressee Tag*.
- b. By placing a permit imprint on PS Tag 158, *M-bag Addressee Tag*, and making payment through an advance deposit account. Only the applicable permit imprint formats shown in Exhibit 152.44 are acceptable. When this method of payment is used, the minimum quantity requirement (i.e., 200 pieces or 50 pounds) that is normally a prerequisite for permit imprint usage (see [152.63](#)) does *not* apply. The postage amount must be accounted for on PS Form 3700, *Postage Statement — International Mail*.

**263 Weight and Size Limits****263.1 Weight Limits**

There is no minimum weight requirement for the entry of Airmail M-bags, IPA M-bags, or ISAL M-bags. The maximum weight limit for M-bags is 66 pounds, which includes the tare weight of the sack. Lower maximum weights apply to certain countries. See the Individual Country Listings.

**263.2 Size Limits**

There are no defined size limits so long as articles being sent can be enclosed in the mailbag.

**264 Mail Preparation****264.1 Marking**

Printed matter, or printed matter in combination with merchandise items, must be placed into one or more individual packages bearing the name and address of the sender and addressee. Each package must be marked "POSTAGE PAID — M-BAG."

**264.2 Sacking and Labeling****264.21 Equipment**

The sacks and mailing tags (i.e., PS Tag 158) needed for M-bag entry can be obtained from local Post Office facilities. Airmail pouches, if available, will be furnished to customers who intend to utilize that type of M-bag service.

**264.22 Tagging**

PS Tag 158, *M-bag Addressee Tag*, must be completed for all types of M-bags and attached to the neck of the sack. It must bear the requisite amount of stamped or meter postage or the sender's authorized permit imprint or indicia (see [262.4](#)). For IPA M-bags, mailers must also attach PS Tag 115, *International Priority Airmail*. For ISAL M-bags, mailers must also attach PS Tag 155, *Surface Airlift Mail*.

**264.23 Multiple Sacks to One Addressee**

If multiple sacks are sent to the same foreign addressee, PS Tag 158 must be marked with an identifiable fraction such as 1/5, 2/5, 3/5, etc.

**264.24 Country Destination Name**

The Post Office facility must label the sack with the name of the country of destination in large letters and the name of the U.S. dispatching exchange office in small letters (for example, United Kingdom via New York), and send it to that exchange office for dispatch to destination.

**264.3 Customs Forms Required**

M-bags must be accompanied by a fully completed electronically generated PS Form 2976, which is to be affixed to PS Tag 158. The maximum allowable value is \$400. When paying with a permit imprint, mailers must electronically transmit customs declaration information as required under [123.32](#) by using USPS-produced Global Shipping Software (GSS) or other USPS-approved software listed at [postalpro.usps.com/node/1850](https://postalpro.usps.com/node/1850). To request information about either of these software solutions, send an e-mail to [globalbusiness-sales@usps.gov](mailto:globalbusiness-sales@usps.gov).

#### 292.1 Description

##### 292.11 General

International Priority Airmail (IPA) service, including IPA M-bags, is a commercial service designed for volume mailings of all First-Class Mail International postcards, letters, and large envelopes (flats), and for volume mailings of First-Class Package International Service packages (small packets). The sender must prepare mailpieces in accordance with the requirements of this subchapter and with the content-based and shape-based requirements of the applicable service — see [240](#) for First-Class Mail International items, and see [250](#) for First-Class Package International Service items. IPA shipments are typically flown to the foreign destinations (exceptions apply to Canada and Mexico) and are then entered into that country's air or surface priority mail system for delivery. Separate prices are provided for international service center (ISC) drop shipments, presorted mail, and nonpresort mail. Volume incentives are available through customized agreements.

##### 292.12 Mail Sealed Against Inspection

With the exception of M-bags (see [261.23](#)), IPA mailpieces are sealed against inspection.

##### 292.13 IPA M-bags

##### 292.131 IPA M-bags — General

IPA M-bags (direct sacks of printed matter to one addressee) may be entered in conjunction with an IPA mailing, are subject to the provisions of [260](#), and may be sent to all destination countries that are referenced in [Exhibit 292.45a](#). When using this method of mail preparation, the sender must complete PS Tag 115, *International Priority Airmail*, and PS Tag 158, *M-bag Addressee Tag*. Tags must be securely attached to the neck of the sack.

**292.132 IPA M-bags – Customs Forms**

IPA M-bags always require a fully completed electronically generated PS Form 2976, which is to be affixed to PS Tag 158. Mailers must electronically transmit customs declaration information as required under [123.32](#) by using USPS-produced Global Shipping Software (GSS) or other USPS-approved software listed at [postalpro.usps.com/node/1850](https://postalpro.usps.com/node/1850). To request information about either of these software solutions, send an e-mail to [globalbusiness-sales@usps.gov](mailto:globalbusiness-sales@usps.gov).

**292.2 Eligibility****292.21 Qualifying Mailpieces**

To qualify for IPA service, a mailpiece must meet the First-Class Mail International characteristics as defined in [141.5](#) (except for weight – see [292.24](#)) or the First-Class Package International Service characteristics as defined in [141.6](#) (except for weight – see [292.24](#)). Mailpieces do not have to be of the same size and weight to qualify. Any item sent with IPA service must conform to the size limits for First-Class Mail International postcards, letters, or large envelopes (flats) as described in [240](#), or for First-Class Package International Service packages (small packets) as described in [250](#).

**292.22 Availability**

IPA service is available only to the foreign countries that are listed in [Exhibit 292.45a](#), which shows the foreign office of exchange code and the price group assigned to each country. For additional information for Canada, see [Exhibit 292.45b](#).

**292.23 Minimum Quantity Requirements****292.231 Minimum Quantity**

All mailings must meet a minimum weight quantity of 50 pounds. To achieve the 50-pound minimum, mailings may include a combination of presort mail, worldwide nonpresort mail, or M-bags.

**292.232 Presort Eligibility – Full Service**

Only a direct country container with a minimum of 2 pounds qualifies for the presort price. All remaining mail must be prepared and paid at the worldwide nonpresort price.

**292.233 Presort Eligibility – ISC Drop Shipment**

Eligibility for the presort price is as follows:

- a. *Direct country price.* For price groups 1–20, a minimum of 2 pounds for each direct country container.
- b. *Mixed country price.* For price groups 7–11, a minimum of 5 pounds for each price group; for price groups 3–6, a minimum of 5 pounds for each price group prepared under [292.482a](#), or a minimum of 5 pounds for each sack prepared under [292.482b](#).

All remaining mail must be prepared and paid at the worldwide nonpresort price.

**292.24 Maximum Weight Limits**

The maximum weight for an IPA container is 66 pounds. The maximum weight for an individual IPA item is as follows:

- a. Letter-size item: 3.5 ounces.
- b. Flat-size item: 17.6 ounces.
- c. Package-size item: 4.4 pounds.

**292.25 Dutiable Items**

Dutiable items may be sent in accordance with the applicable rules in this subchapter for First-Class Package International Service only. Priority Mail International items may not be mailed with IPA service.

**292.26 Customs Forms Requirements**

For items requiring PS Form 2976, mailers must electronically transmit customs declaration information as required under [123.32](#) by using USPS-produced Global Shipping Software (GSS) or other USPS-approved software listed at [postalpro.usps.com/node/1850](https://postalpro.usps.com/node/1850). To request information about either of these software solutions, send an e-mail to [globalbusiness-sales@usps.gov](mailto:globalbusiness-sales@usps.gov).

**292.27 Extra Services**

Extra services are not available for items sent with IPA service.

**292.3 Prices and Postage Payment Methods****292.31 Prices**

IPA service has two price options: a presort price with 20 price groups, and a worldwide nonpresort price. Both options offer full-service prices for mail deposited at offices other than the drop shipment offices listed in [292.532](#), and drop shipment prices for mail deposited at one of the drop shipment offices. The per-piece price and per-pound price are shown in [Notice 123, Price List](#). The per-piece price applies to each piece regardless of its weight. The per-pound price applies to the net weight (gross weight minus tare weight of container) of the mail for the specific price group. Fractions of a pound are rounded to the next whole pound for postage calculation.

**292.32 Computation of Postage**

Postage is computed on PS Form 3700, *Postage Statement — International Mail*.

**292.321 Computing Worldwide Nonpresort Prices**

Compute postage at the worldwide nonpresort price as follows:

1. Multiply the number of pieces in the mailing by the applicable per-piece price.
2. Multiply the net weight (in whole pounds) of the entire mailing by the applicable per-pound price.
3. Add together the two totals in steps 1 and 2.

**292.322 Computing Presort Prices**

Compute postage at the presorted price as follows:

1. Multiply the number of pieces in the mailing destined for countries in a specific price group by the appropriate per-piece price.
2. Multiply the net weight (in whole pounds) of those pieces by the corresponding per-pound price.
3. Add together the two totals in steps 1 and 2.

**292.33 Postage Payment Methods****292.331 General**

Postage must be paid by postage meter, permit imprint, or precanceled stamps (see DMM 604).

**292.332 Postage Meter**

Payments made by postage meter are subject to the following standards:

- a. *Piece Price.* The applicable per-piece postage shown in [Notice 123, Price List](#), must be affixed to each mailpiece when paying with a meter. A mailer who has an ICM agreement must affix the applicable per-piece postage as set forth in the ICM agreement.
- b. *Pound Price.* Postage for the pound price portion must be paid either by meter stamp(s) attached to the postage statement or from the mailer's authorized permit imprint advance deposit account.
- c. *Postage Endorsement.* Each piece must be legibly endorsed with the words "INTERNATIONAL PRIORITY AIRMAIL."
- d. *Specifications for Endorsement.* The endorsement required in [292.332c](#) must appear on the address side of each piece and must be applied by a printing press, hand stamp, or other similar printing device. It must appear either above the name of the addressee and to the left or below the postage, or adjacent to the meter stamp in either the postal inscription slug area or ad plate area. If the postal endorsement appears in the ad plate area, no other information may appear in the ad plate. The endorsement may not be typewritten or hand-drawn. The endorsement is not considered adequate if it is included as part of a decorative design or advertisement.
- e. *Unmarked Pieces.* Unmarked pieces lacking the postage endorsement are subject to the applicable First-Class Mail International or First-Class Package International Service single-piece price.
- f. *Drop Shipment of Meter Mail.* A mailer who wants to enter meter IPA mail at a Post Office facility other than where the meter is licensed must obtain a drop shipment authorization. To obtain an authorization, the mailer must submit a written request to the postmaster at the office where the mail will be entered (see DMM 705).

**292.333 Precanceled Stamps**

Payments made by precanceled stamps are subject to the following standards:

- a. *Piece Price.* The same denomination of stamp must be affixed to every piece in the mailing.

- b. *Pound Price.* Additional postage is paid at the time of mailing by advance deposit account or meter stamp affixed to the back of the accompanying postage statement.
- c. *Postage Endorsement.* Each piece must be legibly endorsed with the words “INTERNATIONAL PRIORITY AIRMAIL.”
- d. *Specifications for Endorsement.* The endorsement required in [292.333c](#) must appear on the address side of each piece and must be applied by a printing press, hand stamp, or other similar printing device. It must appear either above the name of the addressee and to the left or below the postage, or adjacent to the precanceled stamp. The endorsement may not be typewritten or hand-drawn. The is not considered adequate if it is included as part of a decorative design or advertisement.
- e. *Unmarked Pieces.* Unmarked pieces lacking the postage endorsement are subject to the applicable First-Class Mail International or First-Class Package International Service single-piece price.

#### 292.334 **Permit Imprint**

Mailers may use a permit imprint for mailings that contain identical-weight pieces. Any of the permit imprint formats shown in [Exhibit 152.64](#) is acceptable but must include the “INTL PRIORITY AIRMAIL” rate marking. Postage is calculated as described in [292.32](#) and is deducted from the mailer’s advance deposit account. Permit imprints must not denote bulk mail, nonprofit, or other domestic or special mail. Mailers may use permit imprint with nonidentical-weight pieces only if authorized to use postage mailing systems under DMM 705.

#### 292.4 **Mail Preparation**

##### 292.41 **Addressing and Return Address**

IPA mailpieces are subject to the addressing requirements contained in [122](#), including the requirement of a U.S.-origin return address as defined in [122.2](#).

- a. *Exception — Canada:* IPA items destined for Canada must have the applicable alphanumeric postcode included in the delivery address. See [122.1j](#) for the address formatting requirements that generally apply to mailpieces sent to Canada.
- b. *Exception — Direct Country Containers:* IPA letter-size and flat-size pieces not requiring a customs form prepared in direct country containers (see [292.46](#) and [292.48](#)) are not subject to the interline addressing requirement that is specified in [122.1d](#). At the sender’s risk, the English translation of the destination post office or city name may be omitted from an address that is printed in Russian, Greek, Arabic, Hebrew, Cyrillic, Japanese, or Chinese characters. An English translation of the country name (for example, Japan) is still required on the individual mailpieces.

292.42 **Marking**292.421 **Letter-Size and Flat-Size Mailpieces**

The sender should mark “PAR AVION” or “AIR MAIL” on the address side of each piece. Alternatively, the user may use a bordered airmail envelope that contains an “AIR MAIL” endorsement.

292.422 **Packages (Small Packets)**

Items that might be mistaken for another class of mail because of their size, weight, or appearance should be marked “LETTER-POST” on the address side.

292.43 **Sealing and Packaging**292.431 **Mixed Country and Worldwide Nonpresort Price**

All IPA mailpieces entered at the mixed country and worldwide nonpresort price must meet the sealing and packaging methods for First-Class Mail International service under IMM [244.3](#) and [244.4](#), and for First-Class Package International Service under IMM [254.3](#) and [254.4](#).

292.432 **Direct Country Price**

Mailers must meet the following sealing and packaging standards for IPA mail entered at the direct country price:

- a. *Letters*. Letter-size mailpieces entered at the direct country price must meet one of the following requirements:
  - (1) The sealing and packaging methods for First-Class Mail International service under IMM [244.3](#) and [244.4](#).
  - (2) The physical standards of a machinable letter under DMM 201.3.
- b. *Flats*. Flat-size mailpieces entered at the direct country price must meet the sealing and packaging methods for First-Class Mail International service under IMM [244.3](#) and [244.4](#).
- c. *Small Packets*. Package-size mailpieces (small packets) entered at the direct country price must meet the sealing and packaging methods for First-Class Package International Service under IMM [254.3](#) and [254.4](#).

292.44 **Physical Characteristics and Requirements for All Bundles**

The following standards apply:

- a. *Thickness*. Bundles of letter-size mail should be no thicker than approximately a handful of mail (4 to 6 inches thick). Bundles of flat-size mail may be thicker than 6 inches but must not weigh more than 11 pounds.
- b. *Securing Bundles*. Each bundle must be securely tied to withstand normal transit. Placing rubber bands around the length and then the girth is the preferred method of securing bundles of letter-size mail. Plastic strapping placed around the length and then the girth is the preferred method of securing bundles of flat-size mail.
- c. *Separation of Bundles*. Letter-size and flat-size mail must be bundled separately.
- d. *Facing of Pieces*. All pieces in bundles must be faced in the same direction.

**Note:** Parcel-size pieces do not require bundling.

292.45 **IPA Foreign Office of Exchange Codes and Price Groups**

See [Exhibit 292.45a](#) for the IPA foreign office of exchange code and price group assigned to each country. For additional information for Canada, see [Exhibit 292.45b](#).

1 At the mailer's option, a finer sortation for IPA items addressed to Australia may be used. If this option is chosen, items addressed with postal codes beginning with 0, 1, 2, 4, and 9 and uncoded mail should be sorted and prepared in direct country containers tagged to Sydney. Both the three-letter exchange office code ("SYD") and the country name ("Australia") should be entered in the "To" block of PS Tag 115, International Priority Airmail. Items addressed with postal codes beginning with 3, 5, 6, 7, and 8 should be sorted and prepared in direct country containers tagged to Melbourne. Both the three-letter exchange office code ("MEL") and the country name ("Australia") should be entered in the "To" block of PS Tag 115.

2 For all destinations to New Zealand other than Cook Islands. For Cook Islands, see the entry for Cook Islands in this exhibit.

292.46 **Presort Mailings: Direct Country – Price Groups 1, 2, and 7–20**

292.461 **General**

Price groups 1, 2, and 7–20 may be prepared in direct country containers (full-service price and ISC drop shipment price). Each direct country container must contain at least 2 pounds of mail. The mailer must separately containerize items bearing customs forms from items not bearing customs forms and must prepare letter-size, flat-size, and package-size items in separate containers as defined in [292.462a](#) and [292.462b](#). Smaller quantities qualify only for a mixed country price (price groups 7–11 only) under [292.47](#), or for the worldwide nonpresort price under [292.49](#). The maximum container weight is 66 pounds.

292.462 **Preparation**

The mailer must prepare direct country containers of presorted IPA mail (full-service price and ISC drop shipment price) as follows:

- a. *Letter-Size and Flat-Size Mail.* For each direct country container of letter-size or flat-size mail, the mailer must do the following:
  - (1) *Mail Preparation.* Prepare letter-size items in letter trays, either 1-foot or 2-foot, depending on volume. Prepare flat-size items in flat-size trays/tubs. Do not prepare the content of trays in bundles. Face all letter-size items and flat-size items in the same direction. Ensure that all trays are full enough to keep the mail from mixing during transportation. Cover (i.e., sleeve or lid) all letter-size and flat-size trays and secure them with strapping.

- (2) *Container Tags*. Complete the front side of PS Tag 115, *International Priority Airmail*, which identifies the mail to ensure it receives priority handling. Check the appropriate box to indicate if the container contains items with or without customs forms, identify the destination country, and enter the date of mailing, the 10-digit permit number, the foreign office of exchange code as listed in [Exhibit 292.45a](#) or [Exhibit 292.45b](#), and the price group as listed in [Exhibit 292.45a](#). To the front side of the tag, apply a barcode that indicates the mailer's permit number, the product code, the service type code, the container type code, the mail contents shape type code, the foreign office of exchange code, and the serial number of the container. (To request technical specifications for the barcode, send an e-mail to [globalbusiness-sales@usps.gov](mailto:globalbusiness-sales@usps.gov).) Finally, tape PS Tag 115 to the tray cover.
- b. *Packages*. For each direct country container of package-size items, the mailer must do the following:
- (1) *Mail Preparation*. Prepare package-size items by placing them loose in sacks.
- (2) *Container Tags*. Complete the front side of PS Tag 115, *International Priority Airmail*, which identifies the mail to ensure it receives priority handling. Check the appropriate box to indicate if the container contains items with or without customs forms, identify the destination country, and enter the date of mailing, the 10-digit permit number, the foreign office of exchange code as listed in [Exhibit 292.45a](#) or [Exhibit 292.45b](#), and the price group as listed in [Exhibit 292.45a](#). To the front side of the tag, apply a barcode that indicates the mailer's permit number, the product code, the service type code, the container type code, the shape type code, the foreign office of exchange code, and the serial number of the container. (To request technical specifications for the barcode, send an e-mail to [globalbusiness-sales@usps.gov](mailto:globalbusiness-sales@usps.gov).) Finally, attach PS Tag 115 to the neck of the sack.
- (3) *Direct Country Container Label*. A mailer who claims the ISC drop shipment price and enters the mail at an authorized drop shipment location under [292.532](#) is not required to prepare container labels. A mailer who claims the full-service price must complete 2-inch container labels (and insert them into the applicable container label holder) as follows (see [Exhibit 292.462](#) for the list of U.S. Exchange Offices):
- Line 1: Appropriate U.S. Exchange Office and Routing Code.  
 Line 2: Contents — DRX COUNTRY.  
 Line 3: Mailer, Mailer Location (City and State).

292.47 **Presort Mailings: Mixed Country — Price Groups 7–11**

292.471 **General**

The mailer may prepare price groups 7–11 in mixed country containers (ISC drop shipment price) only after all possible direct country containers have been prepared. Each mixed country price group must contain at least 5 pounds of mail that is destined within the same price group. The mailer must separately containerize items bearing customs forms from items not bearing customs forms and must prepare letter-size, flat-size, and package-size items in separate containers as defined in [292.472a](#) and [292.472b](#). Smaller quantities qualify only for the worldwide nonpresort price under [292.49](#). The maximum container weight is 66 pounds.

292.472 **Preparation**

The mailer must prepare mixed country containers of presorted IPA mail (ISC drop shipment price) as follows:

- a. *Letter-Size and Flat-Size Mail.* For each mixed country container of letter-size or flat-size mail, the mailer must do the following:
  - (1) *Mail Preparation.* Prepare letter-size items in letter trays, either 1-foot or 2-foot, depending on volume. Prepare flat-size items in flat-size trays/tubs. Bundle letter-size and flat-size pieces as defined in [292.44](#), and bundle each country separately. Face all letter-size items and flat-size items in the same direction and apply a label (facing slip) to the top item as defined in [292.473](#). Cover (i.e., sleeve or lid) all letter-size trays and flat-size trays/tubs and secure them with strapping.

- (2) *Container Tags*. Complete the front side of PS Tag 115, *International Priority Airmail*, which identifies the mail to ensure it receives priority handling. Identify the date of mailing, the 10-digit permit number, and the price group as listed in [Exhibit 292.45a](#) followed by the word “Mixed” (e.g., “14–Mixed”). Finally, tape PS Tag 115 to the tray cover.
- b. *Packages*. For each mixed country container of package-size items, the mailer must do the following:
- (1) *Mail Preparation*. Prepare package-size items by placing them loose in sacks.
  - (2) *Container Tags*. Complete the front side of PS Tag 115, *International Priority Airmail*, which identifies the mail to ensure it receives priority handling. Identify the date of mailing, the 10-digit permit number, and the price group as listed in [Exhibit 292.45a](#) followed by the word “Mixed” (e.g., “14–Mixed”). Finally, attach PS Tag 115 to the neck of the sack.

#### 292.473 **Direct Country Bundle Label for Mixed Country Containers**

Only letter-size and flat-size direct country bundles prepared for mixed country containers require a label (facing slip). The mailer must complete the label and place it on the address side of the top item of each bundle in such a manner that it will not become separated from the bundle. The pressure-sensitive labels and optional endorsement lines used domestically for presort mail are prohibited for IPA service. Bundle labels must contain the following information:

Line 1: Foreign Office of Exchange Code. (See [Exhibit 292.45a](#) or [Exhibit 292.45b](#).)

Line 2: Country Labeling Name. (See [Exhibit 292.45a](#).)

Line 3: Mailer, Mailer Location (City and State).

#### 292.48 **Presort Mailings – Price Groups 3–6**

##### 292.481 **General**

Mailers must prepare price groups 3–6 in direct country containers (full-service price and ISC drop shipment price) or mixed country containers (ISC drop shipment price). Each direct country container must contain at least 2 pounds of mail. Each mixed country *price group* must contain a minimum of 5 pounds when prepared under [292.47](#), or a minimum of 5 pounds for each *sack* when sorted under [293.483](#). Smaller quantities qualify only for the worldwide nonpresort price under [292.49](#). The mailer must separately containerize items bearing customs forms from items not bearing customs forms. The maximum container weight is 66 pounds.

**292.482 Preparation**

The mailer has two options to prepare direct country or mixed country containers of presorted IPA mail, as follows:

- a. Prepare mail as described in [292.46](#) and [292.47](#), including using letter-size trays for letter-size items, flat-size trays/tubs for flat-size items, and sacks for package-size items.
- b. Prepare mail in sacks for letter-size and flat-size mail as defined in [292.483](#) and [292.484](#).

**292.483 Direct Country and Mixed Country – Optional Sack Preparation**

The mailer may optionally prepare direct country sacks or mixed country sacks of presorted IPA letter-size and flat-size mail when sacks are used for the following processing categories:

- a. *Full-Service and ISC Drop Shipment – Direct country sacks.*
  - (1) *Preparation.* Mail (letter-size and flat-size) that is addressed to an individual country and that contains 2 pounds or more must be sorted into direct country sacks. Mail that cannot be made up into direct country sacks must be prepared and entered as mixed country sacks or as worldwide nonpresort sacks. The mailer must bundle letter-size and flat-size items as defined in [292.44](#). The mailer must bundle letter-size items and flat-size items separately, although nonidentical items may be commingled within each of these categories. Face all letter-size items and flat-size items in the same direction and apply a label (facing slip) to the top item as defined in [292.484](#). **Note:** Package-size items must not be commingled with letter-size and flat-size items and must be prepared in separate sacks.
  - (2) *Container Tags.* The mailer must complete the front side of PS Tag 115, *International Priority Airmail*, which identifies the mail to ensure it receives priority handling. The mailer must check the appropriate box to indicate if the sack contains items with or without customs forms, identify the destination country, and enter the date of mailing, the 10-digit permit number, the foreign office of exchange code as listed in [Exhibit 292.45a](#) and [Exhibit 292.45b](#), and the price group as listed in [Exhibit 292.45a](#). The mailer must apply a barcode to the front side of the tag that indicates the mailer's permit number, the product code, the service type code, the container type, the shape type, the foreign office of exchange code, and the serial number of the sack. (To request technical specifications for the barcode, send an e-mail to [globalbusiness-sales@usps.gov](mailto:globalbusiness-sales@usps.gov)). Finally, the mailer must attach PS Tag 115 to the neck of the sack.
  - (3) *Direct Country Container Label.* A mailer who claims the ISC drop shipment price and enters the mail at an authorized drop shipment location under [292.532](#) is not required to prepare container labels. A mailer who claims the full-service price must complete 2-inch container labels (and insert them into the

applicable container label holder) as follows (see [Exhibit 292.483](#) for the list of U.S. Exchange Offices):

Line 1: Appropriate U.S. Exchange Office and Routing Code.

*b. ISC Drop Shipment — Mixed country sacks.*

- (1) *Preparation.* Mixed country sacks can be prepared only after all possible direct country sacks have been prepared. The mailer must prepare mixed country sacks for items that contain 5 pounds or more and that are destined within the same price group. Mail that ultimately cannot be made up into direct country sacks or mixed country sacks must be prepared and entered at the worldwide nonpresort price. The mailer must bundle letter-size and flat-size items as defined in [292.44](#). The mailer must bundle letter-size and flat-size items separately, although nonidentical items may be commingled within each of these categories. Face all letter-size items and flat-size items in the same direction and apply a label (facing slip) to the top item as defined in [292.484](#). **Note:** When using this option, the mailer may not place package-size items in the sacks.

- (2) *Container Tags.* The mailer must complete the front side of PS Tag 115, *International Priority Airmail*, which identifies the mail to ensure it receives priority handling. On the front of the tag, the mailer must identify the date of mailing, the 10-digit permit number, and the price group as listed in [Exhibit 292.45a](#) followed by the word “Mixed” (e.g., “15–Mixed”). Finally, the mailer must attach PS Tag 115 to the neck of the sack.

292.484 **Presorted Mail – Direct Country Bundle Label**

Only letter-size and flat-size direct country bundles prepared for mixed country sacks require a label (facing slip). The mailer must complete the label and place it on the address side of the top item of each bundle in such a manner that it will not become separated from the bundle. The pressure-sensitive labels and optional endorsement lines used domestically for presort mail are prohibited for IPA service. Bundle labels must contain the following information:

Line 1: Foreign Office of Exchange Code. (See [Exhibit 292.45a](#) and [Exhibit 292.45b](#).)

Line 2: Country Labeling Name. (See [Exhibit 292.45a](#).)

Line 3: Mailer, Mailer Location (City and State).

**Example:**

292.49 **Worldwide Nonpresort Preparation**

The following standards apply when the mailer prepares worldwide nonpresort IPA mail (full-service price and ISC drop shipment price):

- a. *General.* A mailer claiming any mail at the direct country or mixed country price cannot enclose the mail in worldwide nonpresort sacks. The mailer must bundle letter-size and flat-size mail. Letter-size bundles and flat-size bundles can be commingled in the same sack. Labels (facing slips) are not required on any bundles. Package-size items must not be commingled with letter-size and flat-size items and must be prepared in separate sacks. Containers other than sacks are not authorized unless other equipment is specified by the acceptance office — for example, the mailer may present nonpresorted letter-size mail in trays if authorized by the acceptance office. The maximum weight of any container is 66 pounds.
- b. *Worldwide Nonpresort Container Label.* A mailer who claims the ISC drop shipment price and enters the mail at an authorized drop shipment location under [292.532](#) is not required to prepare container labels. A mailer who claims the full-service price must complete 2-inch container labels (and insert them into the applicable container label holder) as follows (see [Exhibit 292.483](#) for the list of U.S. Exchange Offices):

Line 1: Appropriate U.S. Exchange Office and Routing Code.

Line 2: Contents WKG.

292.5 **Mail Entry and Deposit**292.51 **Separation by Price Group**

The mailer must physically separate the containers by price group at the time of mailing as indicated on the container tag.

292.52 **Full Service**

Mailings must be deposited at a Post Office facility where bulk mail is accepted and where the mailer holds an advance deposit account or postage meter license.

292.53 **Drop Shipment**292.531 **General**

To qualify for the drop shipment price, mailers must present the mail to one of the locations in [292.532](#). The mailer must pay postage at the drop shipment location either through an advance deposit account or postage meter license at the serving Post Office facility. As an alternative, mailers who are participating in the plant-verified drop shipment (PVDS) program may have the mail verified, accepted, and paid for at the mailer's plant or at the origin Post Office facility serving the mailer's plant if authorized under DMM 705. PVDS mail must be transported by the mailer to the drop shipment location, and the mail must be accompanied by PS Form 8125, *Plant-Verified Drop Shipment (PVDS) Verification and Clearance*.

292.532 **Drop Shipment Locations**

Drop shipments are available through the offices noted in [Exhibit 292.532](#).

**Note:** California, Illinois, and New York locations accept both "cleared" mail (mail that has been previously presented and paid for at a BMEU) and "uncleared" mail (mail that *has* not been previously presented and paid for at a BMEU). 293 **International Surface Air Lift (ISAL) Service**

293.1 **Description**

293.11 **General**

International Surface Air Lift (ISAL) service, including ISAL M-bags, is a commercial service designed for volume mailings of all First-Class Mail International postcards, letters, and large envelopes (flats), and for volume mailings of First-Class Package International Service packages (small packets). The sender must prepare mailpieces in accordance with the requirements of this subchapter and with the content-based and shape-based requirements of the applicable service — see [240](#) for First-Class Mail International items, and see [250](#) for First-Class Package International Service items. ISAL shipments are typically flown to the foreign destinations (exceptions apply to Canada and Mexico) and are then entered into that country’s surface nonpriority mail system for delivery. Separate prices are provided for international service center (ISC) drop shipments, presorted mail, and nonpresort mail. Volume incentives are available through customized agreements.

**293.12 Mail Sealed Against Inspection**

With the exception of M-bags (see [261.23](#)), ISAL mailpieces are sealed against inspection.

**293.13 ISAL M-bags****293.131 ISAL M-bags – General**

ISAL M-bags (direct sacks of printed matter to one addressee) may be entered in conjunction with an ISAL mailing, are subject to the provisions of [260](#), and may be sent to all destination countries that are referenced in [Exhibit 293.45a](#). When using this method of mail preparation, the sender must complete PS Tag 155, *Surface Airlift Mail*, and PS Tag 158, *M-bag Addressee Tag*. Tags must be securely attached to the neck of the sack.

**293.132 ISAL M-bags – Customs Forms**

ISAL M-bags always require a fully completed electronically generated PS Form 2976, which is to be affixed to PS Tag 158. Mailers must electronically transmit customs declaration information as required under [123.32](#) by using USPS-produced Global Shipping Software (GSS) or other USPS-approved software listed at [postalpro.usps.com/node/1850](https://postalpro.usps.com/node/1850). To request information about either of these software solutions, send an e-mail to [globalbusiness-sales@usps.gov](mailto:globalbusiness-sales@usps.gov).

**293.2 Eligibility****293.21 Qualifying Mailpieces**

To qualify for ISAL service, a mailpiece must meet the First-Class Mail International characteristics as defined in [141.5](#) (except for weight — see [293.24](#)) or the First-Class Package International Service characteristics as defined in [141.6](#) (except for weight — see [293.24](#)). Mailpieces do not have to be of the same size and weight to qualify. Any item sent with ISAL service must conform to the size limits for First-Class Mail International postcards, letters, or large envelopes (flats) as described in [240](#), or for First-Class Package International Service packages (small packets) as described in [250](#).

**293.22 Availability**

ISAL service is available only to the foreign countries that are listed in [Exhibit 293.45a](#), which shows the foreign office of exchange code and the price group assigned to each country. For additional information for Canada, see [Exhibit 293.45b](#).

**293.23 Minimum Quantity Requirements****293.231 Minimum Quantity**

All mailings must meet a minimum weight quantity of 50 pounds. To achieve the 50-pound minimum, mailings may include a combination of presort mail, worldwide nonpresort mail, or M-bags.

**293.232 Presort Eligibility – Full Service**

Only a direct country container with a minimum of 2 pounds qualifies for the presort price. All remaining mail must be prepared and paid at the worldwide nonpresort price.

**293.233 Presort Eligibility – ISC Drop Shipment**

Eligibility for the presort price is as follows:

- a. *Direct country price.* For price groups 1–20, a minimum of 2 pounds for each container.
- b. *Mixed country price.* For price groups 7–11, a minimum of 5 pounds for each price group; for price groups 3–6, a minimum of 5 pounds for each price group prepared under [293.482a](#), or a minimum of 5 pounds for each sack prepared under [293.482b](#).

All remaining mail must be prepared and paid at the worldwide nonpresort price.

**293.24 Maximum Weight Limits**

The maximum weight for an ISAL container is 66 pounds. The maximum weight for an individual ISAL item is as follows:

- a. Letter-size item: 3.5 ounces.
- b. Flat-size item: 17.6 ounces.
- c. Package-size item: 4.4 pounds.

**293.25 Dutiable Items**

Dutiable items may be sent in accordance with the applicable rules in this subchapter for First-Class Package International Service only. Priority Mail International items may not be mailed with ISAL service.

**293.26 Customs Forms Requirements**

For items requiring PS Form 2976, mailers must electronically transmit customs declaration information as required under [123.32](#) by using USPS-produced Global Shipping Software (GSS) or other USPS-approved software listed at [postalpro.usps.com/node/1850](https://postalpro.usps.com/node/1850). To request information about either of these software solutions, send an e-mail to [globalbusiness-sales@usps.gov](mailto:globalbusiness-sales@usps.gov).

**293.27 Extra Services**

Extra services are not available for items sent with ISAL service.

**293.3 Prices and Postage Payment Methods****293.31 Prices**

ISAL service has two price options: a presort price with 20 price groups, and a worldwide nonpresort price. Both options offer full-service prices for mail deposited at offices other than the drop shipment offices listed in [293.532](#), and drop shipment prices for mail deposited at one of the drop shipment offices. The per-piece price and per-pound price are shown in [Notice 123, Price List](#). The per-piece price applies to each piece regardless of its weight. The per-pound price applies to the net weight (gross weight minus tare weight of container) of the mail for the specific price group. Fractions of a pound are rounded to the next whole pound for postage calculation.

293.32 **Computation of Postage**

Postage is computed on PS Form 3700, *Postage Statement — International Mail*.

293.321 **Computing Worldwide Nonpresort Prices**

Compute postage at the worldwide nonpresort price as follows:

1. Multiply the number of pieces in the mailing by the applicable per-piece price.
2. Multiply the net weight (in whole pounds) of the entire mailing by the applicable per-pound price.
3. Add together the two totals in steps 1 and 2.

293.322 **Computing Presort Prices**

Compute postage at the presorted price as follows:

1. Multiply the number of pieces in the mailing destined for countries in a specific price group by the appropriate per-piece price.
2. Multiply the net weight (in whole pounds) of those pieces by the corresponding per-pound price.
3. Add together the two totals in steps 1 and 2.

293.33 **Postage Payment Methods**

293.331 **General**

Postage must be paid by postage meter, permit imprint, or precanceled stamps (see DMM 604).

293.332 **Postage Meter**

Payments made by postage meter are subject to the following standards:

- a. *Piece Price*. The applicable per-piece postage shown in [Notice 123, Price List](#), must be affixed to each mailpiece when paying with a meter. A mailer who has an ICM agreement must affix the applicable per-piece postage as set forth in the ICM agreement.
- b. *Pound Price*. Postage for the pound price portion must be paid either by meter stamp(s) attached to the postage statement or from the mailer's authorized permit imprint advance deposit account.
- c. *Postage Endorsement*. Each piece must be legibly endorsed with the words "INTERNATIONAL SURFACE AIR LIFT" or "ISAL."
- d. *Specifications for Endorsement*. The endorsement required in [292.332c](#) must appear on the address side of each piece and must be applied by a printing press, hand stamp, or other similar printing device. It must appear either above the name of the addressee and to the left or below the postage, or adjacent to the meter stamp in either the postal inscription slug area or ad plate area. If the postal endorsement appears in the ad plate area, no other information may appear in the ad plate. The endorsement may not be typewritten or hand-drawn. The endorsement is not considered adequate if it is included as part of a decorative design or advertisement.
- e. *Unmarked Pieces*. Unmarked pieces lacking the postage endorsement are subject to the applicable First-Class Mail International or First-Class Package International Service single-piece price.

- f. *Drop Shipment of Meter Mail.* A mailer who wants to enter meter ISAL mail at a Post Office facility other than where the meter is licensed must obtain a drop shipment authorization. To obtain an authorization, the mailer must submit a written request to the postmaster at the office where the mail will be entered (see DMM 705).

#### 293.333 **Precanceled Stamps**

Payments made by precanceled stamps are subject to the following standards:

- a. *Piece Price.* The same denomination of stamp must be affixed to every piece in the mailing.
- b. *Pound Price.* Additional postage is paid at the time of mailing by advance deposit account or meter stamp affixed to the back of the accompanying postage statement.
- c. *Postage Endorsement.* Each piece must be legibly endorsed with the words "INTERNATIONAL SURFACE AIR LIFT" or "ISAL."
- d. *Specifications for Endorsement.* The endorsement required in [293.333c](#) must appear on the address side of each piece and must be applied by a printing press, hand stamp, or other similar printing device. It must appear either above the name of the addressee and to the left or below the postage, or adjacent to the precanceled stamp. The endorsement may not be typewritten or hand-drawn. The endorsement is not considered adequate if it is included as part of a decorative design or advertisement.
- e. *Unmarked Pieces.* Unmarked pieces lacking the postage endorsement are subject to the applicable First-Class Mail International or First-Class Package International Service single-piece price.

#### 293.334 **Permit Imprint**

Mailers may use a permit imprint for mailings that contain identical-weight pieces. Any of the permit imprint formats shown in [152.64](#) is acceptable but must include the "INTL SURFACE AIR LIFT" rate marking. Postage is calculated as described in [293.32](#) and is deducted from the mailer's advance deposit account. Permit imprints must not denote bulk mail, nonprofit, or other domestic or special mail. Mailers may use permit imprint with nonidentical-weight pieces only if authorized to use postage mailing systems under DMM 705.

#### 293.4 **Mail Preparation**

##### 293.41 **Addressing and Return Address**

ISAL mailpieces are subject to the addressing requirements contained in [122](#), including the requirement of a U.S.-origin return address as defined in [122.2](#).

- a. *Exception — Canada:* ISAL items destined for Canada must have the applicable alphanumeric postcode included in the delivery address. See [122.1j](#) for the address formatting requirements that generally apply to mailpieces sent to Canada.

- b. *Exception — Direct Country Containers:* ISAL letter-size and flat-size pieces not requiring a customs form prepared in direct country containers (see [293.46](#) and [293.48](#)) are not subject to the interline addressing requirement that is specified in [122.1d](#). At the sender’s risk, the English translation of the destination post office or city name may be omitted from an address that is printed in Russian, Greek, Arabic, Hebrew, Cyrillic, Japanese, or Chinese characters. An English translation of the country name (for example, Japan) is still required on the individual mailpieces.

293.42 **Marking**

293.421 **Letter-Size and Flat-Size Mailpieces**

The sender should mark “INTERNATIONAL SURFACE AIR LIFT” or “ISAL” on the address side of each piece. Use of bordered airmail envelopes is prohibited.

293.422 **Packages (Small Packets)**

Items that might be mistaken for another class of mail because of their size, weight, or appearance should be marked “LETTER-POST” on the address side.

293.43 **Sealing and Packaging**

293.431 **Mixed Country and Worldwide Nonpresort Price**

All ISAL mailpieces entered at the mixed country and worldwide nonpresort price must meet the sealing and packaging methods for First-Class Mail International service under IMM [244.3](#) and [244.4](#), and for First-Class Package International Service under IMM [254.3](#) and [254.4](#).

293.432 **Direct Country Price**

Mailers must meet the following sealing and packaging standards for ISAL mail entered at the direct country price:

- a. *Letters.* Letter-size mailpieces entered at the direct country price must meet one of the following requirements:
- (1) The sealing and packaging methods for First-Class Mail International service under IMM [244.3](#) and [244.4](#).
  - (2) The physical standards of a machinable letter under DMM 201.3.
- b. *Flats.* Flat-size mailpieces entered at the direct country price must meet the sealing and packaging methods for First-Class Mail International service under IMM [244.3](#) and [244.4](#).

Placing rubber bands around the length and then the girth is the preferred method of securing bundles of letter-size mail. Plastic strapping placed around the length and then the girth is the preferred method of securing bundles of flat-size mail.
- c. *Separation of Bundles.* Letter-size and flat-size mail must be bundled separately.
- d. *Facing of Pieces.* All pieces in bundles must be faced in the same direction.

**Note:** Parcel-size pieces do not require bundling.

**293.46 Presort Mailings: Direct Country – Price Groups 1, 2 and 7–20****293.461 General**

Price groups 1, 2 and 7–20 may be prepared in direct country containers (full-service price and ISC drop shipment price). Each direct country container must contain at least 2 pounds of mail. The mailer must separately containerize items bearing customs forms from items not bearing customs forms and must prepare letter-size, flat-size, and package-size items in separate containers as defined in [293.462a](#) through [293.462c](#). Smaller quantities qualify only for a mixed country price (price groups 7–11 only) under [293.47](#), or for the worldwide nonpresort price under [293.49](#). The maximum container weight is 66 pounds.

**293.462 Preparation**

The mailer must prepare direct country containers of presorted ISAL mail (full-service price and ISC drop shipment price) as follows:

- a. *Letter-Size and Flat-Size Mail.* For each direct country container of letter-size or flat-size mail, the mailer must do the following:
  - (1) *Mail Preparation.* Prepare letter-size items in letter trays, either 1-foot or 2-foot, depending on volume. Prepare flat-size items in flat-size trays/tubs. Do not prepare the content of trays in bundles. Face all letter-size items and flat-size items in the same

direction. Ensure that all trays are full enough to keep the mail from mixing during transportation. Cover (i.e., sleeve or lid) all letter-size and flat-size trays and secure them with strapping.

- (2) *Container Tags*. Complete the front side of PS Tag 155, *International Surface Air Lift*, which identifies the mail to ensure it receives priority handling. Check the appropriate box to indicate if the container contains items *with* or *without* customs forms, identify the destination country, and enter the date of mailing, the 10-digit permit number, the foreign office of exchange code as listed in [Exhibit 293.45a](#) or [Exhibit 293.45b](#), and the price group as listed in [Exhibit 293.45a](#). To the front side of the tag, apply a barcode that indicates the mailer's permit number, the product code, the service type code, the container type code, the mail contents shape type code, the foreign office of exchange code, and the serial number of the container. (To request technical specifications for the barcode, send an e-mail to [globalbusiness-sales@usps.gov](mailto:globalbusiness-sales@usps.gov).) Finally, tape the PS Tag 155 to the tray cover.
- b. *Packages*. For each direct country container of package-size items, the mailer must do the following:
- (1) *Mail Preparation*. Prepare package-size items by placing them loose in sacks.
- (2) *Container Tags*. Complete the front side of PS Tag 155, *International Surface Air Lift*, which identifies the mail to ensure it receives priority handling. Check the appropriate box to indicate if the container contains items with or without customs forms, identify the destination country, and enter the date of mailing, the 10-digit permit number, the foreign office of exchange code as listed in [Exhibit 293.45a](#) or [Exhibit 293.45b](#), and the price group as listed in [Exhibit 293.45a](#). To the front side of the tag, apply a barcode that indicates the mailer's permit number, the product code, the service type code, the container type code, the shape type code, the foreign office of exchange code, and the serial number of the container. (To request technical specifications for the barcode, send an e-mail to [globalbusiness-sales@usps.gov](mailto:globalbusiness-sales@usps.gov).) Finally, attach PS Tag 155 to the neck of the sack.
- c. *Direct Country Container Label*. A mailer who claims the ISC drop shipment price and enters the mail at an authorized drop shipment location under [293.532](#) is not required to prepare container labels. A mailer who claims the full-service price must complete 2-inch container labels (and insert them into the applicable container label holder) as follows (see [Exhibit 293.462](#) for the list of U.S. Exchange Offices):
- Line 1: Appropriate U.S. Exchange Office and Routing Code.

293.47 **Presort Mailings: Mixed Country — Price Groups 7–11**

293.471 **General**

The mailer may prepare price groups 7–11 in mixed country containers (ISC drop shipment price) only after all possible direct country containers have been prepared. Each mixed country price group must contain at least 5 pounds of mail that is destined within the same price group. The mailer must separately containerize items bearing customs forms from items not bearing customs forms and must prepare letter-size, flat-size, and package-size items in separate containers as defined in [293.472a](#) and [293.472b](#). Smaller quantities qualify only for the worldwide nonpresort price under [293.49](#). The maximum container weight is 66 pounds.

293.472 **Preparation**

The mailer must prepare mixed country containers of presorted ISAL mail (ISC drop shipment price) as follows:

- a. *Letter-Size and Flat-Size Mail.* For each mixed country container of letter-size or flat-size mail, the mailer must do the following:
  - (1) *Mail Preparation.* Prepare letter-size items in letter trays, either 1-foot or 2-foot, depending on volume. Prepare flat-size items in flat-size trays/tubs. Bundle letter-size and flat-size pieces as defined in [293.44](#), and bundle each country separately. Face all letter-size items and flat-size items in the same direction and apply a label (facing slip) to the top item as defined in [293.473](#). Cover (i.e., sleeve or lid) all letter-size trays and flat-size trays/tubs and secure them with strapping.
  - (2) *Container Tags.* Complete the front side of PS Tag 155, *International Surface Air Lift*, which identifies the mail to ensure it receives priority handling. Identify the date of mailing, the 10-digit permit number, and the price group as listed in [Exhibit 293.45a](#) followed by the word “Mixed” (e.g., “14–Mixed”). Finally, tape PS Tag 155 to the tray cover.

- b. *Packages*. For each mixed country container of package-size items, the mailer must do the following:
- (1) *Mail Preparation*. Prepare package-size items by placing them loose in sacks.
  - (2) *Container Tags*. Complete the front side of PS Tag 155, *International Surface Air Lift*, which identifies the mail to ensure it receives priority handling. Identify the date of mailing, the 10-digit permit number, and the price group as listed in [Exhibit 293.45a](#) followed by the word “Mixed” (e.g., “14–Mixed”). Finally, attach PS Tag 155 to the neck of the sack.

293.473 **Direct Country Bundle Label for Mixed Country Containers**

Only letter-size and flat-size direct country bundles prepared for mixed country containers require a label (facing slip). The mailer must complete the label and place it on the address side of the top item of each bundle in such a manner that it will not become separated from the bundle. The pressure-sensitive labels and optional endorsement lines used domestically for presort mail are prohibited for ISAL service. Bundle labels must contain the following information:

Line 1: Foreign Office of Exchange Code. (See [Exhibit 293.45a](#) or [Exhibit 293.45b](#).)

Line 2: Country Labeling Name. (See [Exhibit 293.45a](#).)

Line 3: Mailer, Mailer Location (City and State).

293.48 **Presort Mailings – Price Groups 3–6**

293.481 **General**

Mailers must prepare price groups 3–6 in direct country containers (full-service price and ISC drop shipment price) or mixed country containers (ISC drop shipment price). Each direct country container must contain at least 2 pounds of mail. Each mixed country price group must contain a minimum of 5 pounds when prepared under [293.47](#), or a minimum of 5 pounds for each sack when sorted under [293.483](#). Smaller quantities qualify only for the worldwide nonpresort price under [293.49](#). The mailer must separately containerize items bearing customs forms from items not bearing customs forms. The maximum container weight is 66 pounds.

293.482 **Preparation**

The mailer has two options to prepare direct country or mixed country containers of presorted ISAL mail, as follows:

- a. Prepare mail as described in [293.46](#) and [293.47](#), including using letter-size trays for letter-size items, flat-size trays/tubs for flat-size items, and sacks for package-size items.
- b. Prepare mail in sacks for letter-size and flat-size mail as defined in [293.483](#) and [293.484](#).

293.483 **Direct Country and Mixed Country – Optional Sack Preparation**

The mailer may optionally prepare direct country sacks or mixed country sacks of presorted ISAL letter-size and flat-size mail when sacks are used for the following processing categories:

a. *Full-Service and ISC Drop Shipment – Direct country sacks.*

- (1) *Preparation.* Mail (letter-size and flat-size) that is addressed to an individual country and that contains 2 pounds or more must be sorted into direct country sacks. Mail that cannot be made up into direct country sacks must be prepared and entered as mixed country sacks or as worldwide nonpresort sacks. The mailer must bundle letter-size and flat-size items as defined in [293.44](#). The mailer must bundle letter-size items and flat-size items separately, although nonidentical items may be commingled within each of these categories. Face all letter-size items and flat-size items in the same direction and apply a label (facing slip) to the top item as defined in [293.484](#). **Note:** Package-size items must not be commingled with letter-size and flat-size items and must be prepared in separate sacks.
- (2) *Container Tags.* The mailer must complete the front side of PS Tag 155, *International Surface Air Lift*, which identifies the mail to ensure it receives priority handling. The mailer must check the appropriate box to indicate if the sack contains items with or without customs forms, identify the destination country, and enter the date of mailing, the 10-digit permit number, the foreign office of exchange code as listed in [Exhibit 293.45a](#) or [Exhibit 293.45b](#), and the price group as listed in [Exhibit 293.45a](#). To the front side of the tag, the mailer must apply a barcode that indicates the mailer's permit number, the product code, the service type code, the container type, the shape type, the foreign office of exchange code, and the serial number of the sack. (To request technical specifications for the barcode, send an e-mail to [globalbusiness-sales@usps.gov](mailto:globalbusiness-sales@usps.gov).) Finally, the mailer must attach PS Tag 155 to the neck of the sack.
- (3) *Direct Country Container Label.* A mailer who claims the ISC drop shipment price and enters the mail at an authorized drop shipment location under [293.532](#) is not required to prepare container labels. A mailer who claims the full-service price must complete 2-inch container labels (and insert them into the applicable container label holder) as follows (see [Exhibit 293.483](#) for the list of U.S. Exchange Offices):

Line 1: Appropriate U.S. Exchange Office and Routing Code.

Line 2: Contents – DRX COUNTRY.

*b. ISC Drop Shipment — Mixed country sacks.*

- (1) *Preparation.* Mixed country sacks can be prepared only after all possible direct country sacks have been prepared. The mailer must prepare mixed country sacks for items that contain 5 pounds or more and that are destined within the same price group. Mail that ultimately cannot be made up into direct country sacks or mixed country sacks must be prepared and entered at the worldwide nonpresort price. The mailer must bundle letter-size and flat-size items as defined in [293.44](#). The mailer must bundle letter-size and flat-size items separately, although nonidentical items may be commingled within each of these categories. Face all letter-size items and flat-size items in the same direction and apply a label (facing slip) to the top item as defined in [293.484](#). **Note:** When using this option, the mailer may not place package-size items in the sacks.
- (2) *Container Tags.* The mailer must complete the front side of PS Tag 155, *International Surface Air Lift*, which identifies the mail to ensure it receives priority handling. On the front of the tag, the mailer must identify the date of mailing, the 10-digit permit number, and the price group as listed in [Exhibit 293.45a](#) followed by the word “Mixed” (e.g., “15–Mixed”). Finally, the mailer must attach PS Tag 155 to the neck of the sack.

**293.484 Direct Country Bundle Label**

Only letter-size and flat-size direct country bundles prepared for mixed country sacks require a label (facing slip). The mailer must complete the label and place it on the address side of the top item of each bundle in such a manner that it will not become separated from the bundle. The pressure-sensitive labels and optional endorsement lines used domestically for presort mail are prohibited for ISAL service. Bundle labels must contain the following information:

Line 1: Foreign Office of Exchange Code. (See [Exhibit 293.45a](#) or [Exhibit 293.45b](#).)

Line 2: Country Labeling Name. (See [Exhibit 293.45a](#).)

Line 3: Mailer, Mailer Location (City and State).

**Example:**

VIE AUSTRIA ABC COMPANY WASHINGTON DC

**293.49 Worldwide Nonpresort Preparation**

The following standards apply when the mailer prepares worldwide nonpresort ISAL mail (full-service price and ISC drop shipment price):

- a. *General.* A mailer claiming any mail at the direct country or mixed country price cannot enclose the mail in worldwide nonpresort sacks. The mailer must bundle letter-size and flat-size mail. Letter-size bundles and flat-size bundles can be commingled in the same sack. Labels (facing slips) are not required on any bundles. Package-size items must not be commingled with letter-size and flat-size items and must be prepared in separate sacks. Containers other than sacks are not authorized unless other equipment is specified by the acceptance office — for example, the mailer may present nonpresorted letter-size mail in trays if authorized by the acceptance office. The maximum weight of any container is 66 pounds.
- b. *Worldwide Nonpresort Container Label.* A mailer who claims the ISC drop shipment price and enters the mail at an authorized drop shipment location under [293.532](#) is not required to prepare container labels. A mailer who claims the full-service price must complete 2-inch container labels (and insert them into the applicable container label holder) as follows (see [Exhibit 293.483](#) for the list of U.S. Exchange Offices):

Line 1: Appropriate U.S. Exchange Office and Routing Code.

Line 2: Contents WKG.

Line 3: Mailer, Mailer Location (City and State).

**Example:**

**293.5 Mail Entry and Deposit****293.51 Separation by Price Group**

The mailer must physically separate the containers by price group at the time of mailing as indicated on the container tag.

**293.52 Full Service**

Mailings must be deposited at a Post Office facility where bulk mail is accepted and where the mailer holds an advance deposit account or postage meter license.

**293.53 Drop Shipment****293.531 General**

To qualify for the drop shipment price, mailers must present the mail to one of the locations in [293.532](#).
