USPS Pricing Engine WS

December 2, 2021

Summary

This is the Domestic and International Pricing Engine WS (version 11.10.9.0) for the January 2022 Price Change Release. The following is a list of enhancements included in this release.

WSDL Updates – USPS Connect Local Enumeration

```xml
<s:simpleType name="Type">

  <s:restriction base="s:string">

    <s:enumeration value="Unknown" />

    <s:enumeration value="ExpressMail" />

    <s:enumeration value="PriorityMail" />

    <s:enumeration value="FirstClassMail" />

    <s:enumeration value="StandardMail" />

    <s:enumeration value="Periodicals" />

    <s:enumeration value="PackageServices" />

    <s:enumeration value="USPSConnectLocal" />

    <s:enumeration value="FirstClassMailLetters" />

    <s:enumeration value="FirstClassMailFlats" />

    <s:enumeration value="FirstClassMailCards" />

    <s:enumeration value="FirstClassMailPS" />

  </s:restriction>

</s:simpleType>
```

Impact on Existing Applications

You will **have** to rebuild your applications since the WSDL **has** changed.
