

# USPS Pricing Engine Web Services

---

December 18, 2018

## Summary

This is the Domestic and International Pricing Engine Web Services (version 11.7.0.0) for the January 27, 2019 Release. The following is a list of enhancements included in this release.

## BNS 1188 - Omnibus Price Change - Regulatory Rate Change (Competitive and Market Dominate)

Actual changing of prices other than structural (i.e. a price cell change). In addition to mail/extra service price changes, prices for surcharges, discounts, and mailing fees have been changed as well.

### Changes to the Database Structure

New databases are created to support domestic and international logic and prices. These databases are named USPS\_DOM\_2019\_01 and USPS\_INTL\_2019\_01 respectively.

## BNS 1177 – FCPS Implementation of Zone Based Pricing

Add zone based pricing structure to our existing ounce based pricing structure for all FCPS customers.

This only affects Priority Mail. Operations have found it is more feasible to process the APO/FPO/DPO Priority Mail (only) in Chicago, for all theaters, then transport to the outgoing facilities.

### Customer Maps impacted by this change

CNSB_eVS_009B6	eVS_025P6
CNSB_eVS_009B8	MRS_017B4
CNSB_Meter_009B5	PC_Postage_007B7
EASRv2_015B4	PriceCalc_014X0
eVS_011B6	SBP_022B6
eVS_025B6	WebTools_004B4
eVS_025P6	

### Changes to the Database Structure

A new table, dm\_first\_class\_package\_service, has been created to support zone based pricing.

## BNS 1217 – Elimination of FCMI Flats Weight Steps over 15.994 ounces

Eliminate the FCMI Flats/Large Envelopes weight steps over 15.994 ounces.

**NOTE:** If a customer requests a flat over 15.994 ounces, the FCPIs mail service will be returned (depending on country limits).

## BNS 1169, 1192, 1193 - Dim Weight BNSs - Domestic Business Calculator

Apply dimensional weight pricing calculation to Priority Mail, Priority Mail Express, and Parcel Select.

For Priority Mail, dimensional weight will be applied to all zones. The dimensional weight divisor will vary by zone. Balloon pricing is no longer applicable.

For Priority Mail Express, dimensional weight will be applied to all zones. The dimensional weight divisor will vary by zone.

For Parcel Select Destination Entry Machinable and Non-machinable, dimensional weight will be applied to DNDC Entry Zones 1-5, DSCF Entry 5-Digit and 3-Digit, and DDU. The dimensional weight divisor will vary by zone.

### **Changes to the Database Structure**

A new table, named the DimensionalWeightDivisor, has been added to maintain the divisor assigned to each zone and mail class.

### **BNS 1216 Premium Forwarding Service**

Allow PO Box holders (excluding Group E box customers) to pay an additional fee to have their PO Box mail delivered to their street delivery address in lieu of having to travel to the Post Office to pick up their PO Box mail.

These fees are accessible through the MailingFees API, Key name PremiumForwardingService, sub-keys Local\EnrollmentFee\Online and Local\ReshipmentFee.

### **BNS 1216 Update SKU Definition in Mailing Fees**

Support additional fees for Premium Forwarding Service:

- Commercial - Priority Mail
  - Enrollment Fee - Online 19.35
  - Shipment Charge 21.10
- Residential - Priority Mail
  - Enrollment Fee - Online 19.35
  - Shipment Charge 21.10

### **BNS 1225 Small Parcel Forwarding Fee**

This fee is added so that the customer could designate that they want the piece forwarded at the time of mailing if the address is no longer valid and there is a COA on file. They would be charged a flat fee for that forwarding.

These fees are available through the MailingFees API, Key name AddressCorrection, sub-key PerPieceForwardingFee\USPSMarketingMail\Parcel and PerPieceForwardingFee\ParcelSelectLightweight\Parcel.

### **BNS 1169, 1192, 1193 – PM Balloon Rate is being used for all zones**

The Priority Mail balloon rate is being applied all zones when calculating the price using the 2018 Price Change data. Updated code to correctly apply the balloon rates based on the dim wt. table.

## BNS 1169, 1192, 1193 - Return Dimensional Weight to WebTools

When dimensional weight is used to calculate the postage, return the dimensional weight in the Postage Services - DimensionalWeight attribute for the CalculateServicePrice and GetServicesWithPricing Methods.

Otherwise, do not return the Postage Services- DimensionalWeight attribute.

## BNS 1188 - CR 1188.4 - Country Name Changes - Implementation

There are a number of country name changes.

- Swaziland (Country ID **10410**) will be *updated to Eswatini*
- Country IDs to have the Country Code updated to **UK** and the description *updated with United Kingdom of Great Britain and Northern Ireland*
  - **10140** - Alderney (Channel Islands) (Great Britain and Northern Ireland) *updated to Alderney (Channel Islands) (United Kingdom of Great Britain and Northern Ireland)*
  - **10141** - Channel Islands (Jersey, Guernsey, Alderney and Sark) (Great Britain and Northern Ireland) *updated to Channel Islands (United Kingdom of Great Britain and Northern Ireland)*
  - **10142** - England (Great Britain and Northern Ireland) *updated to England (United Kingdom of Great Britain and Northern Ireland)*
  - **10143** - Great Britain and Northern Ireland *updated to United Kingdom of Great Britain and Northern Ireland*
  - **10144** - Guernsey (Channel Islands) (Great Britain and Northern Ireland) *updated to Guernsey (Channel Islands) (United Kingdom of Great Britain and Northern Ireland)*
  - **10145** - Isle of Man (Great Britain and Northern Ireland) *updated to Isle of Man (United Kingdom of Great Britain and Northern Ireland)*
  - **10146** - Jersey (Channel Islands) (Great Britain and Northern Ireland) *updated to Jersey (Channel Islands) (United Kingdom of Great Britain and Northern Ireland)*
  - **10147** - Northern Ireland (Great Britain and Northern Ireland) *updated to Northern Ireland (United Kingdom of Great Britain and Northern Ireland)*
  - **10148** - Sark (Channel Islands) (Great Britain and Northern Ireland) *updated to Sark (Channel Islands) (United Kingdom of Great Britain and Northern Ireland)*
  - **10149** - Scotland (Great Britain and Northern Ireland) *updated to Scotland (United Kingdom of Great Britain and Northern Ireland)*
  - **10150** - United Kingdom (Great Britain and Northern Ireland) *updated to United Kingdom (United Kingdom of Great Britain and Northern Ireland)*
  - **10151** - Wales (Great Britain and Northern Ireland) *updated to Wales (United Kingdom of Great Britain and Northern Ireland)*

## BNS 1169, 1192, 1193 - Implement Solutions to Accommodate Split Retail - Commercial Price Change

The proposed changes to Jan 2019 Price Change would mean that the Dim Wt changes will only be applied to Retail and not to Commercial. In that case, prices returned from Price Engine would have Dim Wt applied to "R" rates but not to "CB" and "CP" rates on the "B" and "P" maps.

## BNS 1169.5, 1192.5, 1193.5 - Disable Dim Weight

Much of the planned dimensional weighting is being deferred until June 23, 2019. The list below details the plan forward.

- Priority Mail Commercial DIM weight provisions apply to Zones 5 through 9 with a divisor of 194 will remain. Priority Mail Commercial DIM weight provisions apply to Zones 1 through 9 with a divisor of 166 effective June 23, 2019.
- Priority Mail Retail DIM weight provisions apply to Zones 5 through 9 with a divisor of 194 will remain. Priority Mail Retail DIM weight provisions apply to Zones 1 through 9 with a divisor of 166 effective June 23, 2019.
- Priority Mail Retail and Commercial Balloon is eliminated effective Jan, 27, 2019
- Express Mail Commercial DIM weight apply through Zones 1 through 9 with a divisor of 166 effective June 23
- Express Mail Retail DIM weight apply through Zones 1 through 9 with a divisor of 166 effective June 23.
- Parcel Select Ground and Destination Entry DIM weight provisions apply to all zones and all entries with a divisor of 166 effective June 23, 2019
- Parcel Select Ground and Destination Entry Balloon is eliminated effective Jan, 27, 2019
- USPS Retail Ground formerly known as Parcel Post will continue to have Balloon and No Dim provisions.

## BNS 1228 Priority Mail Sunday/ 7 Day Delivery Expansion - Price Engine Analysis & Implementation

Return delivery commitments for Priority Mail Sunday/7 Day Delivery.

## BNS 1217 - Modifications and Promote new price files for the FCMI change

This modification backs out the changes made by the initial release “BNS 1217Eliminate the FCMI Flats/Large Envelopes weight steps over 15.994 ounces”. First-Class Mail International Flats/Large Envelope returns the updated prices for up to 64 ounces (4 lbs) for Jan 2019 Price Change, matching the current 2018 functionality.

## BNS 1188 - Update SDR Value

This update includes a script to update the Special Drawing Rights.

## BNS 1177 - Zone Chart - First-Class Package Services / 2019 Update

Support zone exceptions for First-Class Package Service to some APO/FPO/DPO ZIP Codes.

## Impact on Existing Applications

WSDLs have not been update; you should not have to rebuild your applications.

## Reported Defects and Change Request

BNS 1169, 1192, 1193 - PM Balloon Rate is being used for all zones	Corrected
BNS 1188 - Incorrect Mailing Fee DML/DAL for Targeted Samples	Corrected

BNS 1188 - FCM Letters - Nonmachinable Surcharge Incorrect	<b>Corrected</b>
BNS 1188 - CR 1188.4 - Update ICLs (GetCountryRegulations).	<b>Corrected</b>
BNS 1188 - Update SDR Value with Info from Global group	<b>Corrected</b>
BNS 1217 - Restore change to remove BNS 1217 from January 2019 Price Change and revert back to 64 ounces on FCMI	<b>Corrected</b>

**BNS 1169, 1192, 1193 - PM Balloon Rate is being used for all zones**

Updated code to correctly apply the balloon rates based on the dim wt. table.
